

Padraig Pearse : **« An Ireland not merely free but Gaelic as well »**

There is a need for an opposition political party in Ireland. All the existing parties have conspired together against the nation. Looking at the north we see terrible consequences of mass immigration. Ireland of all countries should be aware of the dangers of plantation and imperialism. We want to bring together all the healthy elements in the population in a national front. Free speech and free association are rights endowed by nature and governments who think they can take them away are on a collision course with the citizens. The right to bear arms is essential to protect free speech.

We oppose mass immigration and the demographic revolution that has been forced on Ireland in the last ten years. We oppose all mass immigration both legal and illegal. Immigration must return to normal inter-European background levels.

We demand that America ,Australia and the former British Empire dominions be wide open for Irish migrants. We think that the Americas should be open to eastern Europeans. That is where they should go ,not Ireland. Ireland is a homeland for millions of people of Irish descent around the world. Nobody has the right to drastically alter its ethnic character.

In every European country targeted for destruction some excuse is used for the immigration . In Ireland we're told it's "good for the economy" in Britain they're told it's because they had an empire . Both excuses are lies . Immigration is no more good for the economy than digging your own grave is good for your arm muscles. The hideous spike in Dublin city centre should be melted down and replaced with healthy art. Modern art is degenerate and part of the cultural war against everything western and good. Whatever you feel about the Irish language everyone can see that mass immigration is an attack on it by Fianna Fail. We want to keep the Irish language requirement for jobs such as the Gardai.

We will re-illegalise homosexuality, which is a mental illness and states that allow pederasts to adopt children are out of control ,mad and dangerous. People with AIDS or HIV should be quarantined and African immigration seems insane considering the levels of Aids and TB there. American troops must leave Europe. There must be a change from debt based money in the west. We agree with the present Pope that Turkey should not be in the EU. We go further and demand the stolen Greek lands back for our Greek brothers. Why does the EU always oppose the Europeans?

No electronic voting -we just can't trust the system. The present political establishment lies about everything and cannot be trusted with electronic voting. The media is the people's enemy not its friend. When all the media speak with the voice of the power and not the people it's frightening and totalitarian. We are opposed to social abortion and the "culture of death" as John Paul the Second called it but not for religious reasons ,for nationalistic ones . The birth-rate across Europe needs to be increased. Europe is dying . The only third world aid should consist of birth control.

Ulster Loyalism in celebrating William of Orange is not just anti-Irish but anti the real Britain. Why should Ireland pay in weakness for the northern mess ,which is not of our creation? The 6 county state has been a failure and similar experiments started at the time which ignored the self determination of the people have not lasted. The British state is a menace to western civilisation and a key part of the New World Order that is enforcing globalisation. British soldiers die for Zionism in Iraq .Irish people should not be forced to live under a British government in Ulster. Ulster shows that multiethnic states don't work. Political correctness and multiculturalism should be driven from the island just as St. Patrick once drove out the snakes.

***None of the existing parties in Ireland
is any good. We need a new party to
fight mass immigration.***

I was born on an Irish street where now bongo drums do beat,
It seems like a strange terror has come o'er us
If our dead ancestors could again have sight
They would rise from the grave and fight
And admonish us to action with this chorus:

Chorus

Oh, get out ye blacks and tans,
You are not wanted in our land
Down with the Jews and the captive media that slanders
Marxist Sinnfein-Ira commit treason under its sway,
And Fianna Fail betray us for backhanders.

Jews let us hear you tell
of your financing of Cromwell,
William of Orange and the Churchills by whom we were persecuted
How many Irish will die of Aids
Brought here by the Spades
For the Jews our gene pool is mortally polluted.

Come tell us of the Heidis you had killed
So that your Talmud could be fulfilled,
And now you have sent Blair the zionhearted on a crusade
British still die for the lies you've spun
Just like in World War two and World War one
We sing this song to make your power fade.
