**Society should have culture enough to regulate itself without the individual being prey to the state.**

**Ireland is a sick country. Less sick to be sure than Germany or Norway .**

**Ireland went from being a sick Catholic country to a sick globalist country , or whatever you want to call the prevalent ideology , and lots of people on our side thinks its very "smart" to omit the small detail about the Jewish core element of the modern ideology.Indeed its not modern at all , just the same ancient semitic hatred of us that ruined so many civilisations, in a new guise .The wrapping is paper thin: "Neo-conservatives" .No one is fooled but intimidation is relied on these days .Its more and more NKVD. Down to Marcus Wolfe of the Stasi there in the US dept of homeland security.**

**The CRAPS (Christian right wing American patriots), the American Jesus freaks are to thank for America finally going Soviet. As Trotsky said**

**"**

**Actually American soviets will be as different from the Russian soviets as the United States of President Roosevelt differs from the Russian Empire of Czar Nicholas II."**

**Today Michael Jackson's song "Jew me, screw me , do anything to me "is the American national anthem.**

**I would not want the type of scum you find in Fianna Fail (Ireland's plutocratic party ) on my side. Such sociopathic garbage care about nothing , not even their own childrens future. Lets send them as aid to the third world.**

**We have more real friends in the jungles of Madagascar , where the natives have not yet been taught to hate us by "our" media than in the Irish ruling classes.**

**There are many elements of the irish population we could do without. An honest Polish plumber has far more right to be in the country than some sceming homegrown Fianna Fail dog.**

**There is no reason why well defined nations like Persia and Nepal cannot be long term allies .**

**Are the Chinese being thrown Nepal to tickle their taste buds so that they will co-operate with the Zionist empires line on Iran?**

**The people of the third world are the global slave class. Like the subterranean workers in Fritz Lang's Metropolis they are out of sight . They toil to keep the Western Whites fat and stupid .**

**Indeed we should be working with national liberation movements amongst the Nonwhites where its in our interest.Its stupidity on both sides which hinders such efforts.**

**What do Whites do? Service industries? They create no real wealth. Science? To make weapons and to poison the environment and to give to foreigners to kill us with. Science is progressing at a snails pace because the creative Whites are running off to join the resistance.The system can hardly produce pop music anymore. Subconsciously the Whites are on strike.**

**The Whites also perform two indespensible roles in the global empire. Soldier and Sex worker. Nicole Kidman embodies the West as whore queen of the world . The Babylon of the book of revelations , well that book was a self-fulfilling prophecy .**

**Its judaic memes have played no small part in making the West into that whore of babylon , ruled by the Talmud of Babylon.**

**Soldier, even South African men are reduced to go fight in Iraq for the self same Jews who stole their country .**

The system will probably chug along but less and less new science is coming on stream and we need to persuade the remaining White scientists to go on creativity strike.

My advise is move to Russia or Iran if you want to do science. The stronger Russia is the better it will be able to resist the Soros types.

Putin is a mysterious figure. His actions say part Zog caretaker, part Russian nationalist. He really does seem to be playing a clever game though. He is functionally opposing the Jews and peeling back their choking fingers while talking the talk.

Ireland is so independent that its TV has nothing but Anglo-Zionist propaganda on it. There are more British troops on the island than Irish ones.

Ireland has a lot in common with the third world. It is a neo-colonialist state like Algeria etc etc

Even Devalera, great Irish patriot that the catholic conservatives tell us he was, killed Irish men to appease Churchill.

Catholic Ireland took the oriental ideas in christianity to their extreme in many ways.

The Christain god is well dead. Little boys' assholes, the gods of Sodom are more real to Catholic priests. The Jewish god is more real to the post Vatican-two popes.

Isn't Irish christianity just a form of child abuse anyway?

Whats moral about lying to people about the universe? The priests are mainly devious atheists who believe in the equation :lying about God equals free rashers and eggs for breakfast. There is such a thing as a free lunch and its Jesus's greatest miracle to deliver it to his preachers every day. The pagan gods had honour and can't compete but things have declined to such a degree that honour will be coming back into fashion.

I think we should nationalise the church property in Ireland and house the poor.

We will set up an Irish pagan church along the lines of the Lithuanian Romuva church.

Protestantism is even less desirable than Catholicism.

To Ian Paisley the Catholic churches are Sun temples. Oh if only they were!

The Nazis avoided religion, tried to, but we can't. There are thousands of mosques mushrooming across Europe and the Christian churches have declared war against their own civilisation. The church of England is so Bolshevik that the Africans are resisting the faggot tide in it. How low the Whites have sunk.

Karl Marx and Trotsky are more real to them priests, Zionism is. Judaic mass media superstitions are more real to today's priests.

But our agenda does dovetail with the Orthodox church more or less, so maybe we should help our Russian immigrants to Ireland replace the Catholic anti-Roman church?

Is the current former Hitler youth Pope playing some clever game with the Jews? Feigned hypocritical submission? No more than Bush is. He seems to have given himself heart and soul to evil.

He tells us it isn't Christian for Corsican patriots to attack mosques there.

No doubt the Renaissance Popes and the Popes who declared crusades were not then christian.

By Trotskyite modern christianity's standards they weren't.

Is christianity reformable?

Possibly but not with the present new testament. I am sure people could dig through the

**I prefer the Russian and Greek christians, but then christianity always sounds better in a foreign language, especially a foreign language you don't understand as it amplifies the stolen pagan elements.**

**Ireland with its faggot paedophile priests and homophobic politicians attacks heterosexuality.**

**The Irish examiner tells us that someone who has heterosexual sex with a 15 year old willing girl is a "child rapist" but that bugging a 17 lad is ok and even normal and indeed to oppose it is a terrible sin called homophobia.**

**Ireland has equal ages of consent 17 for straight and homo sex. This is an attack on hetero sex.**

**Teenagers all over the country have their sex lives criminalised. God knows if it weren't for the teenagers the British isles would be almost childless.**

**Get real . Ireland has gone from a country where you could not even get condoms outside of a pharmacy to this in a blink of an eye.**

**David Lane says the healthy male instinct should not be interfered with and advocates polygamy.**

**We lock these teenagers in single sex schools and force them to learn a dead language . Irish . Lets admit it is only a system gimmick to dumb down the Irish.**

**The only use made of Gaelic is by fake nationalists wanting to sound irishy irish while they are stabbing the Irish in the back with their actions. Its camouflage for treason. That and useless louses of civil servants who would otherwise be unemployed.**

**The cultural nationalism that Gaelic once incited in half British people like Padraig Pearse has been well killed off by the failed 26 county neocolonialist statelet.**

**Bertie gives loads of our money to Africa so that they can live a bit longer to spread more Aids , then come over to Ireland and get treated for free while your granny can croak on the waiting list. An if she does get treated it will be by some Indian doctor who knows slightly less about medicine than her , as in India its regular practice to buy ones qualifications. Meanwhile Irish teenagers have to get crazily high scores on the leaving cert to study medicine in Ireland.**

**Ireland is only a small insignificant country as long as its people resign themselves to slavery. There are tens of millions of Irish around the world. Many with London and Boston accents to be sure. The priests are no small part of the reason that Ireland is backwards and submitting to the globalists but the Catholic conservatives tell us to hide behind Catholicism and be "respectable" like Justin Barrett.**

**Ireland could be a cultural superpower given the extent of its diaspora if a few people would open their mouths and speak .**

**Christianity, in the post Darwin world ,in which all causality has been taken from the Christain god, and his deorientalisation nearly complete , his immortal life ended, his omnipotent powers taken back by nature , is an immoral doctrine preached by**

**The priest defending his undeserved free breakfast joins with the horde of other parasites feeding on the producers of wealth, the workers, the creative intellectuals .**

**We are seeing a White civil war. The Jews are a focus for the culturally inverted Whites who polarise towards the orient and who consume the fantasies manufactured for them by the Jews to justify their parasitehood.**

**The parasite Whites cannot win because the ideology that unites them is that of the snake eating its tail. The harder they bite the weaker they become . They are the snakes insanity . Can the West choke itself? Its oriental hand fights with its sane hand. As it does so it loses the respect of the audience .**

**We offer in replacement for the soul concept of Christianity the concept of immortal honour and disgrace. A healthy pagan idea.**

**The pagan gods are as alive or dead as they ever were . They are completely compatible with science , indeed men like Jung have strengthened them with science.**

**The era of the supernatural is over, the era of rationalism is over. Procrustian rationalist glib arguments are even more dangerous as superstitions than religious superstitions themselves , as the ideology called liberalism has shown.**

**The individual white nations have no political life left in them. The natural leaders of all these nations are coming together to work as an international.**

**He comes the era of the superrational. This realism will be the guiding philosophy of the next few centuries if civilisation survives the coming total war being stirred by the Jews in an attempt to finish their conquest of humanity.**

**So far the Iranians are fighting back . When will the Whites join them?**

**Those Whites who reject the West must be made to reject it totally or not at all.**

**The Prussian Kant stated his categorical imperative .**

**Traitor Whites like Bertie Aherne who conduct their attacks on our country and civilisation using White tech and drive in cars and use medicines invented by Whites.**

**Strip them of everything western , everything ever invented by a White and see how they cope . Those who reject the West must be made to reject it categorically.**

**You can't say "isn't it great we landed on the moon but those Nazis are terrible" and be logically consistent. If you say that Nazis are terrible be honest and say its terrible we landed on the moon and continue on with that reasoning , step by step, until you find yourself in a cave in Africa with Nelson Mandela and Bono.**

**Go and tell the people in the cancer ward that although those evil Nazis would have cured cancer by now , if they had won the war , that the Jewish supremacists of the world think their sacrifice is worth it.**

**Who knows what crafty deals are hidden behind Bertie's "dogooding" in the name of the Irish people, what deals with pharmaceutical companies with rake offs for his buddies , all at the public expense, while Doctors quietly put your granny to sleep because there ain't enough cash to pay for her care.**

**Fighting Aids in Africa , all very convenient.**

**Small backwards countries can't afford the likes of dirty Bertie holding them back.**

**The arabs wipe their arses with their hands but Bertie wipes his with the Irish peoples faces**

and they put up with it.

Well Prussia was destroyed , wiped off the map. One of the finest states Europe ever produced. If our enemies can wipe out Prussia then they can wipe out a little state like Ireland without blinking. Who would notice its disappearance? A few whiskey drinkers who would quickly get used to Scottish brands.

Is the country going to continue being on the margins of the West? Or is it going to be possible to use its relative isolation to our advantage?

Not many Whites today spare a thought for Prussia , that gave us all so much.

What will America go down in history as? Our biggest failed experiment.

In future we will have to keep a sharp eye on raw colonies when we get around to doing things like that again , like all living civilisations do.

Those people who make compromises with political correctness in the name of hypocritically opposing immigration are our enemies even if they don't intend to be so . The chief evil is not the immigration. That is the chief waking up factor .

The system will use that issue and the morons will fall for it. We even had Normon Tebbit recently saying that Enoch Powell's "Rivers of blood" speech wasn't racist.

The system people will go the whole hog. Today they say they are opposed to immigration but are not racist, tomorrow they will say they are racists and the real dissidents. The third world people here are pawns in the game and the system will think nothing of sacrificing them here just as it sacrifices x amount of them everyday over there. I am sure Sarkozy in France is delighted that the Africans are calling him a racist, that means lots of votes against Le Pen and as soon as he gets elected he will be back to building more mosques. Remember in the Second World War, of the two sides it was the Allies that was the "racist" one. The BBC have people on doing apologetics for the marines who were killing Iraqi civilians, "they just thought it would just be a few less Iraqis trying to kill them". In a blink of an eye this system can flick over to the Churchill line . They have plenty of ideological trenches left to hide in and no shortage of idiots left to make those fallback positions worthwhile.

No we need to produce fully functioning westerners .

But if you support political correctness you have lost before you even started.

Shatter the ideological chains and give people their brains back again.

In a pagan Europe the statues of the virgin Mary might lose their clothes, the black Madonna might go back to being the earth goddess, but at least she would not have to go whoring in the streets for the kikes, like she has had to under the post Vatican 2 Popes. The Poles loved John Paul 2 because they want to play an important role in the West. (Sadly they were made fools out of again as JP2 was only out to end Communism in order to strip Russia of its colonies and reunite the Jews behind Zionism, the Berlin wall fell on us.) . Well step right up. Everyone of you can play an important role in the life of the Western civilisation.

Glory and honour have never being going cheaper.

The Ancient Celts piled over each other to get at the enemy to win honour.

Now the battle is joined but everyone is watching monkey films on their Chinese made DVD players. They might even watch "Braveheart " while they munch on their transfat hydrogenated vegetable oil GM pizza.

Democracy seems to be another name for depleted Uranium as their seems to be a one to one mapping between those countries receiving one and being covered with the other .
