

WOE TO Z.W.O.

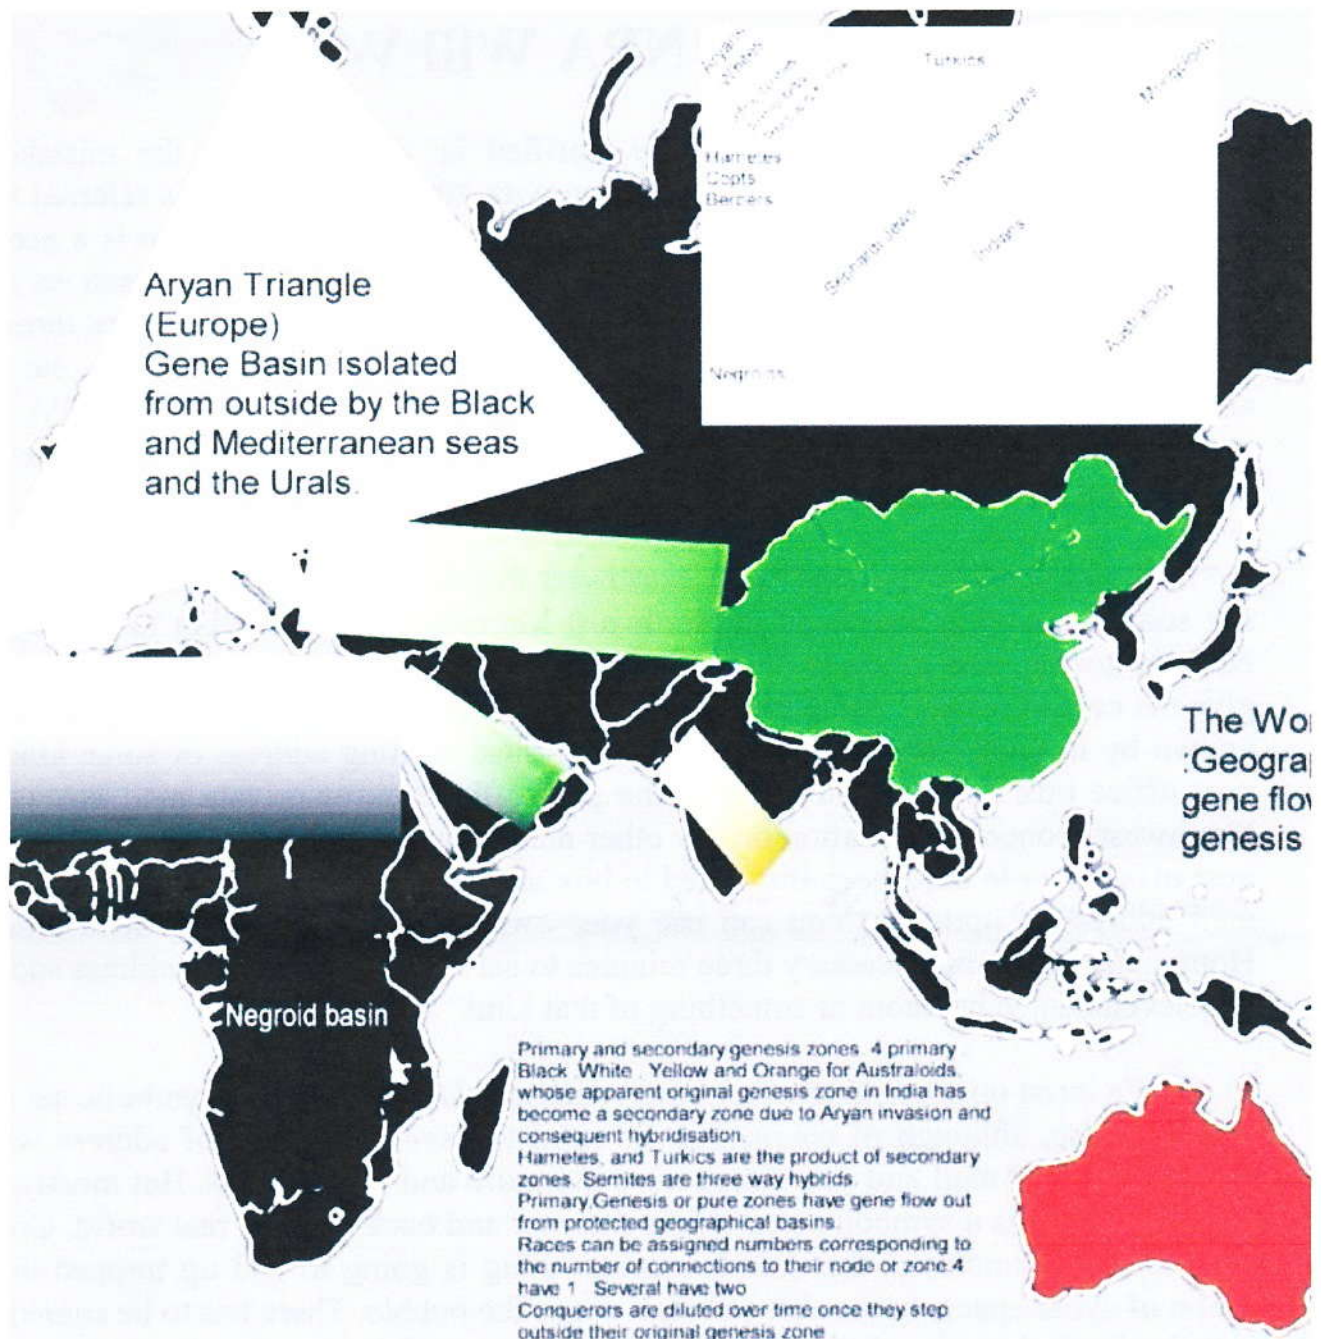

Woe to the Zionist World Order. The real left and the real right need to work together against Zionism. Zionism is a consensus builder and hence clever Jews like Chomsky are there as Gatekeepers. I do like the writings of Israel Shamir however, he is for real.

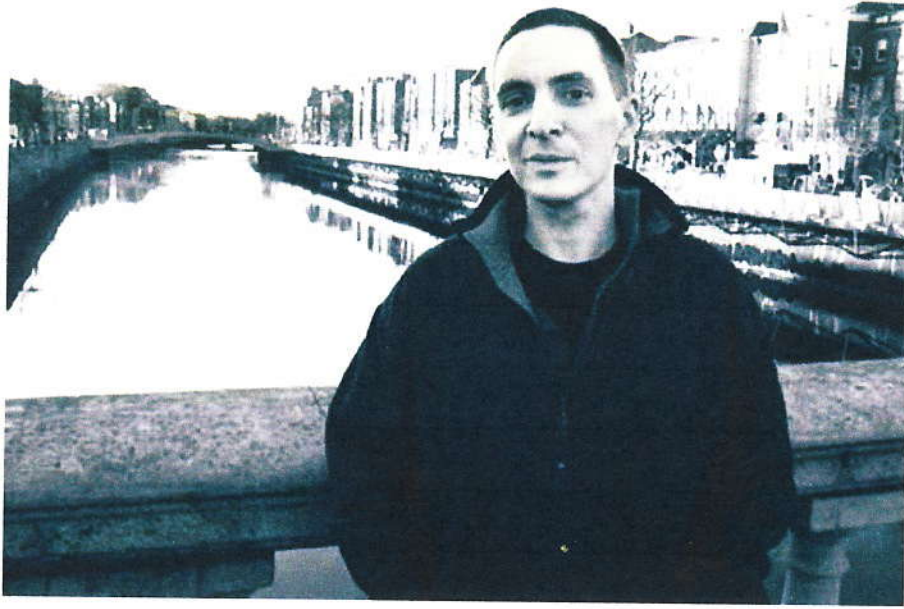

The ramp the Romans built to destroy the Jewish fortress at Massada 2000 years ago. Today we have to work again to destroy the evil of a Jewish state. Israel is only the biggest Zion that needs elimination. The Jewish Zions in London, New York and Hollywood are less obvious perhaps but more dangerous than Zion-alpha in Palestine.

We need more race science done . Anyone out there to even scan books like Carlton Coon's for the internet?

The far-left antiwar types in Ireland are also opposed to Revisionism which makes them pro-zionist in effect despite the protests they put on against the Israeli massacres which change nothing. Revisionism can destroy Zionism but also subhumanism which is allied to Zionism. To them the Arabs share in their subhumanism by being brown. They are not interested in really helping the Arabs. It seems to be just a way for faggots to meet other faggots rather than serious opposition to anything. That's the farleft today. Hobbyists like most of the right. Stalin would have sent them all to the Gulag and even their beloved Trotsky would have shot them. Cuba would inter them as they're mainly HIV chasers if not already positive. Chavez would not like them bugging his healthy indians.

This English queer doesn't like free speech and inhabits Cork. Non-Jewish Anti-hellenists (Loxists) are of use to the Zionists even if too stupid to get why .

This pseudohistorian didn't like it when I accidentally called to his house when distributing Revisionist literature to the entire city .Ireland is a small country. I also caught him tearing down my posters outside UCC. He seems to be an Irish language speaker also . The Republic of Ireland teaches children Irish against their will for twelve years and at the end most of them can't speak it . Something is wrong with this state.

18 The effect of a firestorm in Hamburg, August 1941

A real Holocaust for you. One burnt German from Hamburg is worth more than all the Nonwhites and subhumans, faggots, university whores ,dopefiends,freemasons etc. in the world not to forget Jews. Don't forget it.

I thought this was a very interesting German invention. A wheel that is its own suspension . Where would we be today if the good guys had won? Drinking cocktails on Mars.

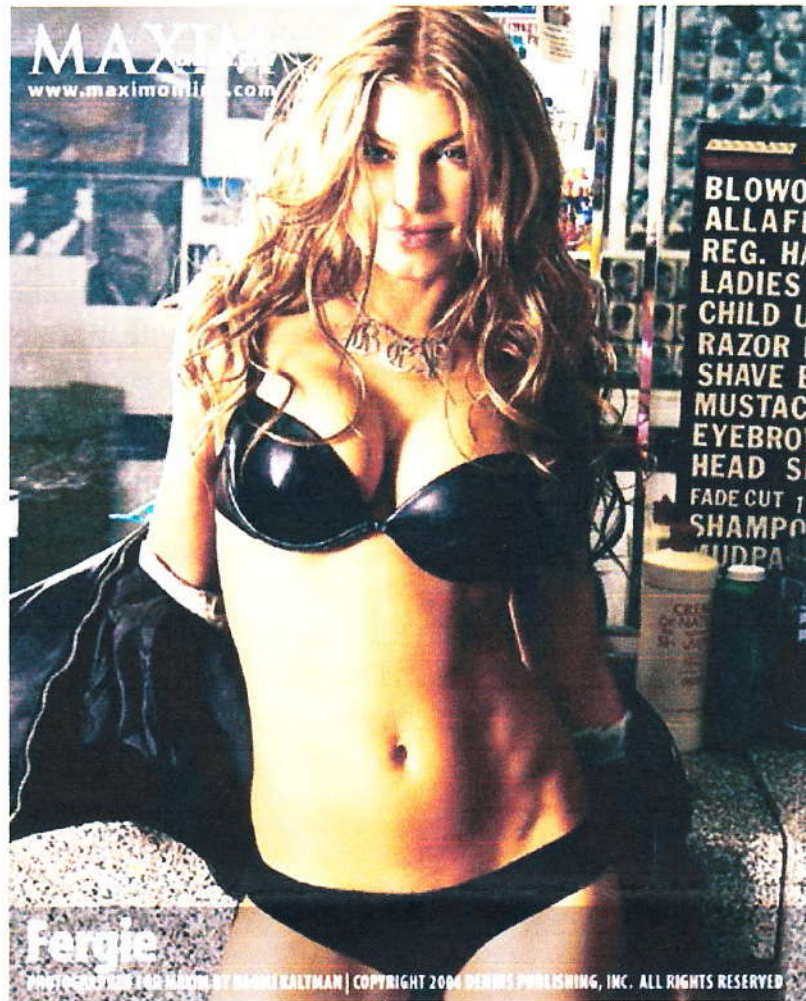

An Israeli warship gets hit by Hezbollah. Well done. Yahweh needs killing and maybe Allah can help Odin do it.

More and more the only jobs available to Whites are soldier and sexworker. This are our niches in the NWO or ZWO (Zionist World Order) as I prefer to call it .

I don't think that healthy children should be aborted but neither should Down Syndromes be raised. The thing with such eugenic abortions is that a woman's fertility can be damaged and she might miscarry a healthy baby after aborting the retard. The Christian antiabortion people are difficult to use. They're more interested in Ireland about fantasising about re-establishing their backwards theocracy and have not been sufficiently humbled yet by modernism to wake up to common sense. These are the same type of people that Bush fools into voting for him as he seems the lesser of two evils for them. The best thing would be controls on contraception and abortion but some system of euthanasia available. The Japanese forbid the pill. Down's syndromes could be euthanised after birth, thus preventing damage to a woman's cervix and future fertility. Doctors should be kept to the Hypocratic oath and keep away from both euthanasia and abortion. If they don't they ain't doctors and they should start putting up statues of Aesclepius while they are at it. Only those of a new cadre of cultural guardians should be able to make decisions about whether a child should be raised etc and

such people will have to be very carefully chosen. Our population is degenerate. We're harming ourselves with too much medicine. What helps sickly individuals to survive harms to health of the tribe and eventually the individuals when the effects kick in. We are seeing this big time. These ethical issues will need detailed explanation and I will do that in future.

One of my friends had an abortion, got depressed. The "Doctors" gave her shock therapy which fried her brain and she still has big memory loss problems today. One of the things I liked in Rousseau's writing is his criticism of Doctors. People become doctors as it's seen as a gravy train. In Ireland the middle class youngsters sweat to get the points to study medicine, for all the wrong reasons, while the jobs go to Pakis anyway who bribed their way into medicine. A good doctor was the writer Celine.

Staying Slim As a Pole

Dorota Bawolek explains why Polish women don't get fat

One of the first things that strikes people who come to the UK from Poland is how chubby everyone is. On the contrary, what is often noticed about the Polish influx — and there are a lot of us now, 350,000 registered workers since May 2004 — is how fit and healthy we are. My English friends at university in Birmingham often ask me how I stay so slim, but I'm not obsessed with dieting and have never considered myself fit. I am a typical 24-year-old Polish girl, back in Poland almost every girl looks like me, and I eat like a typical Pole.

The daily diet of an average Polish person contains four or five small meals. The food is simple, always freshly made, with lots of vegetables. Snacking or eating ready-made meals is not common. The mornings start in a similar way to the ones in Britain. We like to have a cup of coffee and some people eat hot porridge or cornflakes, but more commonly sandwiches are eaten. Yes, we eat sandwiches for breakfast! However, they look nothing like the baguettes stuffed with mayo or bacon that you get in England. On the contrary, our open sandwiches are usually made with a couple of slices of wholegrain bread, with butter (not margarine), ham and some tomato or cucumber.

In other words the Poles eat reasonably well like continentals while the Brits eat badly like the rest of the English speaking world.

Our culture is rotten and getting worse.

The exploitation capitalist culture of selling crap food and then exploiting the neurosis produced is centered in the English speaking countries as they are at the epicentre of the Zionist empire . Food Bolshevism voila!

Its no secret that food in northern Europe has problems

Irish Examiner Thursday, January 27, 2005 "The website is run by an organisation called Revisionist Education Organization. The group, believed to have only a small number of members, is based in Cork, and has distributed leaflets and conducted recruitment campaigns in Dublin.

"The website is an insult to Jewish people and other people. It is a permanent form of incitement to hatred," said Philip Watt of the National Consultative Committee on Racism and Interculturalism (NCCRI).

He said legislation should be brought in to outlaw such websites. Mr Watt was concerned Holocaust denial wasn't a crime in Ireland and said it should be. "
