

Hail Eric,

Nouveau Document texte (2).txt

I really should be writing all day ; Many novels and so forth to be written . But there needs to be a way to get some come back for this work.

Our duds on the internet still don't form a large enough audience. I never have a spare moment . Either working on languages , driving test or whatever. Putting up stickers or other activity that does more to boost my morale than make a difference.

I did notice death to zog stickers put up in this town. Unlike in Ireland ,where I am more or less unique there is actually a resistance here. In Britain also you find less of a resistance. Here we have quite a few people with Germanic roots.

Tom Nee won't be of any use to me and he and people like him don't understand enough and are not willing to put their personal idiosyncracies aside.

I have gotten far more responses and emails from White foreigners living in Ireland, many there to flee poverty or wogs at home , than from dumbed down native Irish , many still enthralled to their priests. Even Maltese have offered to help.

Organising nationalists is like trying to herd cats and Tom etc won't follow my direction. Andy Byrne got very cranky over my refusal to be "politically practical" and support the BNP anymore.

Tom is a product of the old clerofascist Ireland of Devalera. He used to ring up radio shows complaining about obscenity back in the 80s etc. We will see if he is any use once I go do things on the ground .

I have studied the modern Greeks as much as I could and have been invited there but can't go. There is much original blood left. The Greek girl with whom I talked a few months ago had a brother who looked nordic in his childhood photos .

It would be interesting to examine to Greek population in Syria. The Greeks in Paris looked a mediocre bunch and very pushy and ethnocentric. We do see genetic damage in places like Cyprus . The other half of the eagle , the east of Europe and Greece are more healthy and I would trust a Slav before a western European or American . I made friends with a Russian here in a restaurant and will

**Nouveau Document texte (2).txt**

get to know her better . I have to use this restaurant for my internet as it has Wifi,saving much expense.The French in this town are not chatty and some of the coldness has rubbed of on me . People don't want to talk and the aggressive beggars don't help the general atmosphere.

The thing about Armenian disease is one of the most interesting things I have found in a long time.

Blumenbach? who conflated Aryans with hither Asiatics (only Gunther uses this term as far as I can see) did us a great disservice and created the confusing term of Caucasian.

This single error has been responsible for much race mixing.

In Russia etc Caucasian means nonwhite ,always.

The FN and others when they criticise the Turks for EU membership only mention the Armenian genocide . Even "our " parties are full of PC memes.

Greeks and Bulgarian massacred are not mentioned.

Maybe by American standards someone like the singer Cher is White , but by rigorous standards she is oriental .

France took in a lot of these Armenians and has damned its blood .

A good idea would be to rewrite the commie song "the internationale " for a WN international .

We see just these scattered hobbyist groups.

The NSM recently seems to have had some trouble. I just heard a brief account on the Von Bluvens show. Von Bluvens says he is a Christian and left the NSM because the chairman's wife was a Satanist.

Typical hobbyism. Bill White seems also to have left this group.

One of this group flew over to woe my friend in Luxembourg who is half Greek and half German. her Greek father is normal but her German mother is with a Jew. Luxembourg being full of em and their money.

We see Europeans retreating into shyness with all strangers as a method of defence. So that even a White traveller isn't greeted with the warmness that one would receive in a proper White country such as

**Nouveau Document texte (2).txt**

**Poland or Russia.**

**To succeed White Nationalism needs to surround itself with a new White imperialism. Those nonwhites who defect from their groups interests need to find this strategy encouraged for them. This is how to play the game scientifically.**

**The Jews have their RAND corporation. Von Neumann advocated the bombing of Russia from this organisation.**

**We just have a few minds and insufficient numbers of followers.**

**It was in my final year of study that I started waking up to the number of Jews in science and the dutch in the same office had a big poster of a Jewess on the wall. This Dutch was antisemitic but does not reply to my emails today .**

**Typical hypocrite defensive strategy followed by millions of continentals .**

**Use of nonwhites in a role that mirrors Whites in the Zog is a way to do effective politics without selling out. Indeed the illusion that trimming was something to do with strategy was strictly for the suckers all along and the BNP has dropped the mask and come out with naked Zionism.**

**The Pavlovian conditioning of Whites is something that can't be overcome easily but they are quick enough to hate nonwhites when the system gives them some other label to disguise whats up. They are quick to hate Ahmadinejad on que etc.**

**I was reading an interesting attack on Christianity by an American D . Murdock who calls herself Acharya.**

**The word soot could be derived from Set the egyptian god and god of Hyskos.**

**Also Iao the Egyptian god could be the proto Yahweh. Although others say he is of Syrian Ugaritic origin.**

**"Ashkenazi Jewish people (descended from Eastern European Jewish people and also including most European and American Jewish**

**Nouveau Document texte (2).txt**

**people) have a prevalence of 1 case per 73,000 population, with a gene frequency of 1:135.**

**Sephardic Jewish people (descended from Jewish people who were expelled from Spain, largely to North Africa, and also including other Middle Eastern Jewish populations) have a prevalence of 1 case per 250-1000 population, with a gene frequency of 1:8-16.**

**Armenian persons (based on epidemiology among Armenian populations in Lebanon and Southern California) have an estimated prevalence of 1 case per 500 population and a gene frequency of 1:7.**

**Turkish people (from one study) may have a prevalence of approximately 1 case per 1000 population.**

**Arabic people (from one study) may have a prevalence of 1 case per 2600 population in children and a gene frequency of 1:50. "**

**"These genes cause familial Mediterranean fever, a recessive trait which is easily treated once correctly diagnosed. Interestingly enough, both varieties are found in Jewish populations, although in different groups. Also, it's probably important to note that the Turks in question are the citizens of the Republic of Turkey, and not the Turks of Central Asia.)**

**"**

**Some reports say the Hittites had yellow mongoloid members . Were mongoloids able to penetrate this far thousands of years ago ?Central asia was Aryan then .**

**Gunther points out the relation of the Hither Asiatic to the Dinaric so perhaps originally the Caucasus region was White and somehow went sour .**

**Only detailed skeletal and dna statistics from all over can explain the genesis of the various racial groups properly . Otherwise we remain in speculation.**

## **Nouveau Document texte (2).txt**

**Kemp thinks Sumer etc were White and we overwhelmed by Semites from the south . But if people like the Armenians and Assyrians were much then as today, as suggested by the genetic etc evidence ,then one wonders if this is true.**

**The Turks are always hunting for White DNA . They killed off the mixed race offspring with Black slaves.**

**They bring Circassians and Albanians by the million to their country.Are the Circassians White ?They seem so but I have not studied them in detail . They aren't very Western anyway.**

**Studying the literature , like the epic of Gilgamesh shows that the middle east was perhaps much whiter in the past . The religions seem whiter also. A lot of Yahweh came from Sumerian Enki but transformed by a different racial mentality. Even today we see the Arabs in parts of Syria much whiter than the Arabs in Maghreb, the excrement France is full of.**

**It would be interesting to see a time lapse computer animation of history with the rise of civilisations and their collapse due to race mixing laid out . Kemp's book is ambitious and someone else will build on the idea and give a racial explanation of history in detail, but more genetic archeology is needed.**

**The nonwhites suffer from the wages of evil . Unable to cooperate as the Whites do they cannot build or invent as fast . But let loose in a White society, these oriental genes run riot if they can disguise themselves.**

**The Jew is the result of the game theory of the situation. The only solution to which for us is to wipe them out or separate by a long distance.The Vikings and the Romans knew how to kill , modern Whites after two thousand years of Jesus only know cowardly bigoted killing and the one way to get them to kill a nonwhite is to get the nonwhite to say something nice about them (Iran).**

**White dna and practices will burn up unless isolated.**

**We see this in the oriental behaviour of "Western" Whites. The women act like Jewish whores. The contrast with Eastern European**

**women on their home turf is marked.**

**I wonder were the Sumerians Med type Whites caught in a genetic pincer movement of semites from the south and hither asiatics from the north? The Armenian disease show that there is a distinct racial genesis coming from those caucasian mountains and anatolia. The question is whether the Armenoid type is a triracial mixture or a distinct secondary genesis after such a mixture or something specific of itself as a negro or chinese is of itself. Can we talk another primary human species ?I tend more and more to think so although it might have started out as a mixture it soon took off and became distinct .Also how did the mongoloids get there so long ago? The alleged yellowness of the Hittites suggests that indeed they did.**

**"In Phoenician/Canaanite myths preserved at Ugarit (13th century BCE) Baal-Hadad fights his brother Yam/Nahar (Sea/River) for dominion of the earth, and Yam is called dotingly, by his father, Bull-El, my son \_YAW\_ ! For me, from my Secular Humanist viewpoint, Yahweh of the Bible and his struggle against Baal (Baal Hadad) is nothing more than the continuation of Late Bronze Age (ca. 1560-1200 BCE) myths of Yaw (Yahweh ?) vs. Baal for supremacy of the earth in Iron Age times (ca. 1200-587 BCE)."**

**Others say Egyptian IAO but I have not looked properly into this . Best thing for research is if all the books were scanned and put online . There should be people working full time doing this and robot scanning machines invented to speed it up but academics are too interested in seeming busy than being so.**

**I noticed that the Yiddish version of the song from fiddler on a roof says "When I will be a Rothschild" not "When I will be a rich man". Certainly changes the sense.**

**The Rothschilds own some of the best wine land here.**

**The BNP are simply being used by the ZOG like the South American fascists were and the South Africans were.**

**Nouveau Document texte (2).txt**

**Every article on their website carries them further from us ideologically.**

**There are only a handful of serious minds about . Alex Linder has a good brain as has Carlos Porter.**

**I think women look bad in the pants and should go back to the chitons .In a hot country like here it makes sense.**

**jesus freaks might not like it and the last vestiges of christianity need to be swept away; The oriental prudery of Christianity drives people to the oriental excesses in the opposite direction.**

**A CI chap objected to my image "White Nationalists kick Yahweh in the nuts".This image something that we can possibly use in our totalitarian countries as it does not directly mention race .I am not interested in orientophile hobbyists who have no real faith in their god anyway and would not walk over minefields for him.**

**Yes Eric Rudolf was CI .CI is one of these "only in America" phenemenon.**

**Christianity was sold to the ancients as being platonism for the masses; What is has in comon with platonism are only the worst aspects , the most oriental aspects, the life after death stuff .**

**The new paganism which nobody has managed to bring into being yet as it is beset with fornicators and hobbyists, will stress honour and the immortality of the reputation not the soul.**

**My morale is very much higher since my eastern trip . Its clear that there is hope . Indeed I could lead a normal life with nothing but Whites about if I could move there.**

**Covington can't get his recruits. He should try Russia .The only way he will get his numbers is by recruiting desperate Whites who want to move to America!**

**I did not know that Duke had been deported from Ukraine. The roads in Russia and Belorussia were very good considering . The**

## **Nouveau Document texte (2).txt**

**public toilets filthy .The factories in need of modernisation and polluting . But the cultural level is the most significant thing. Women can hitchhike there in safety.**

**One thing I noticed was the casinos everywhere. The poor engage in crazy gambling and drinking. When I rose at 7 in the morning I looked out the window and the group of old men from the apartment block next door were already out drinking vodka.**

**Food in Russia was similar to the rest of the continent and much better than Britain. I was amazed to find such things as frozen berries for sale in the local supermarket ; but then they have thousands of acres of forests .**

**I found the women affectionate and trustworthy and this can no longer generally be said for the women here . The Russian women are actually feminin. France is more like a big communal marriage than a country.**

**Yes the SU was exagerrated as a military threat.I guess they pay more attention to the missiles . The Russian tanks are 20 tons lighter than the Nato ones and almost as good if the lack of night vision defect ,that was seen with the Iraqi ones ,is fixed.One of my brightest friends from college went to work in silicon valley and its people like him who keep America powerful . This imperial brain drain effect is something that needs turning off.**

**Russia dosen't have the same access to raw materials that America has with its fleet and the entire world to exploit.**

**Russia is poor and where I was anyway they looked pure.**

**Duke had not residence arranged properly. Perhaps if he had and was in Belorussia not post-orange revolution Ukraine then he would have a had a better chance to stay. Jurgen Graf has a Belorussian wife and is still there .**

**Israel Shamir dosen't believe in the Khazer theory. I don't trust these antizionist jews much either .**

**This theory feeds the CI freaks.**

**When we fully understand Dna and how each gene functions and how**

## **Nouveau Document texte (2).txt**

**every detail of racial behaviour is controlled by genes or sets of genes then we will be on the way to working out these mysteries. Science just can't be done today .**

**Shamir himself looks like something straight from north africa although he comes from Russia and is an expert on eastern Europe . He is a fan of Lenin and Stalin . He dosen't look Khazer so it isn't surprising he dosen't go for it .**

**There are questions about how quickly races can form and differentiate and mutations can spread, grow or be lost. Much research needs doing .**

**There are many things about racial genesis that we may never know, just as the ancient Whites cultures build with timber just vanished without trace .**

**"Familial Mediterranean fever (FMF) is an autosomal recessive disease characterised by recurrent attacks of inflammation of serosal membranes. Amyloidosis leading to renal failure is the most severe complication in untreated patients. In Israel FMF is most frequent among Jews of North African origin. Recently the causative gene (MEFV) has been found and the common mutations characterised. The aim of this study was to investigate the carrier rates of the common MEFV mutations among 400 healthy members of four different ethnic groups (100 in each group) in Israel, and to compare the distribution of the different mutations between FMF carriers and patients. We found a high frequency of carriers among Jews from the various ethnic groups. In North African Jews it was 22%, in Iraqi Jews 39%, in Ashkenazi Jews 21%, and in Iranian Jews 6%. The distribution of the four most common MEFV mutations among healthy individuals (M694V 29%, V726A 16%, M6801 2% and E148Q 53%) was significantly different ( $P < 0.003$ ) from that found in patients (M694V 84.4%, V726A 9.0%, M6801 0% and E148Q 6.6%). Six**

**Nouveau Document texte (2).txt**

**healthy asymptomatic individuals were found to carry mutations in both alleles: two homozygotes for E148Q and four compound heterozygotes E148Q/other. These results demonstrate a very high carrier rate among all Jewish ethnic groups. They confirm that mutation E148Q is associated with a milder phenotype, which explains the lower prevalence of FMF among the Ashkenazi and Iraqi Jews. This study raises the question of the need for molecular screening for M694V homozygotes in the Israeli North African Jewish community."**

**This shows clearly that Armenians are not White even if they pass for White by Americas low standards.**

**Everyone I met in Russia knew that the yids were bad news .  
Actually plenty of people in Ireland who don't have a clue still.**

**An Icelandic woman said I could go stay with her in Berlin .**

**"These results are grossly inconsistent with the notion that the Ashkenazim are descended, to any significant degree, from the Khazars or some Slavic group. Such claims have often rested on the large numbers of Ashkenazim, relative to the small numbers of German Jews a thousand years ago. However, the genetic evidence supports the notion that the Ashkenazim are descended from a small ancestral population. The effective size of this population has been estimated by Risch et al. (1995) to have been as small as several thousand people about 500 years ago (see Drifting Genes Divulge History. There are some claims for some significant German ancestry, but these seem to hinge on adaptive characteristics (blood groups and skin coloring) rather than neutral characteristics. Relying on adaptive characteristics would exaggerate the actual degree of kinship. As a general rule, the more recent papers concentrate on neutral genes. The older ones tend to rely on adaptive characteristics. Finally, it's worth noting that the Y-chromosome work by Ritte et al. (1993) suggests that the Jewish community most closely related to the Ashkenazim are the Jews of Yemen (in terms of patrilineal lineage), which is hard to**

**Nouveau Document texte (2).txt**

**reconcile with a significant European or Central Asian contribution to the Ashkenazic gene pool. A similar analysis of mitochondrial DNA by Ritte et al. places the Moroccan and Ashkenazic communities together, reflecting a slight difference in matrilineal and patrilineal kinship in the sample groups, but leading to the same conclusion. "**

**"We have examined data on six closely linked microsatellite loci on chromosome 9q34 from 59 Ashkenazi Jewish families with idiopathic torsion dystonia (ITD). Our data show that the vast majority (> 90%) of early-onset ITD cases in the Ashkenazi population are due to a single founder mutation, which we estimate first appeared approximately 350 years ago. We also show that carriers preferentially originate from the northern part of the historic Jewish Pale of settlement (Lithuania and Byelorussia). The recent origin of this dominant mutation and its current high frequency (between 1/6,000 and 1/2,000) suggest that the Ashkenazi population descends from a limited group of founders, and emphasize the importance of genetic drift in determining disease allele frequencies in this population."**  
**(Taken from the abstract by I. Vaisman.)**

**""In comparison with data available from other relevant populations in the region, Jews were found to be more closely related to groups in the north of the Fertile Crescent (Kurds, Turks, and Armenians) than to their Arab neighbors." - from the abstract to Nebel et al., "The Y Chromosome Pool of Jews as Part of the Genetic Landscape of the Middle East" in Am J Hum Gen.**

**"Surprisingly, the study shows a closer genetic affinity by Jews to the non-Jewish, non-Arab populations in the northern part of the Middle East than to Arabs." - from the article "Genetic evidence links Jews to their ancient tribe" by Siegel in the Jerusalem Post.**

## **Nouveau Document texte (2).txt**

**I would like to add to my remarks concerning the latest Jewish DNA study ["The Y Chromosome Pool of Jews as Part of the Genetic Landscape of the Middle East" by Almut Nebel, Ariella Oppenheim, et al., The American Journal of Human Genetics 69:5 (November 2001): 1095-1112].**

**First, it says that Jews are most related to Kurds and secondarily to other northern Mediterranean groups, then to Arabs and Europeans.**

**Second, this study correlates nicely with the finding that the Cohen Modal Haplotype (CMH) is found not only among Sephardic Jews and Ashkenazic Jews but also among Iraqi Kurds\*1 and Armenians\*2. Plus, Familial Mediterranean Fever is found among Ashkenazic Jews, Iraqi Jews, North African Jews, Armenians, Druze, Anatolian Turks, and Arabs\*3.**

**Third, one point not fully clarified by Ha'aretz\*4 and the Jerusalem Post\*5 is the following quote directly from the Nebel, Oppenheim, et al. study, which shows that Ashkenazic Jews do have some non-Israelite elements (perhaps Khazarian and Slavic) in paternal lineages. The researchers wrote:**

**"Previous studies of Y chromosome polymorphisms reported a small European contribution to the Ashkenazi paternal gene pool (Santachiara-Benerecetti et al. 1993). In our sample, this low-level gene flow may be reflected in the Eu 19 chromosomes, which are found at elevated frequency (12.7%) in Ashkenazi Jews and which are very frequent in Eastern Europeans (54%-60%) (Semino et al. 2000). Alternatively, it is attractive to hypothesize that Ashkenazim with Eu 19 chromosomes represent descendants of the Khazars, originally a Turkic tribe from Central Asia, who settled in southern Russia and eastern Ukraine and converted en masse to Judaism in the ninth century of the present era, as described by Yehuda Ha Levi in 1140 AD (Dunlop 1954)."**

**This finding, along with Nathaniel Pearson's research (whose**

**Nouveau Document texte (2).txt**

**Ukrainian Jewish Y-chromosomal haplotype matched with an Uzbekistani Uzbek, an Uzbekistani Tajik, and two men from New Delhi in northern India), contradicts the assertion of other geneticists that Ashkenazim are not at all descended from Khazars and other European converts.**

**"**

**It was incorrect for one of these New Right things Voxnr to call the Armenians Indo-European . Genetically they ain't although to speak the language that they do they must have been conquered at some stage by Aryans.**

**"Testing hypotheses of language replacement in the Caucasus: evidence from the Y-chromosome**

**A previous analysis of mtDNA variation in the Caucasus found that Indo-European-speaking Armenians and Turkic-speaking Azerbaijanians were more closely related genetically to other Caucasus populations (who speak Caucasian languages) than to other Indo-European or Turkic groups, respectively. Armenian and Azerbaijanian therefore represent language replacements, possibly via elite dominance involving primarily male migrants, in which case genetic relationships of Armenians and Azerbaijanians based on the Y-chromosome should more closely reflect their linguistic relationships. We therefore analyzed 11 bi-allelic Y-chromosome markers in 389 males from eight populations, representing all major linguistic groups in the Caucasus. As with the mtDNA study, based on the Y-chromosome Armenians and Azerbaijanians are more closely-related genetically to their geographic neighbors in the Caucasus than to their linguistic neighbors elsewhere. However, whereas the mtDNA results show that Caucasian groups are more closely related genetically to European than to Near Eastern groups, by contrast the Y-chromosome shows a closer genetic relationship with the Near East than with Europe."**

**MtDna comes from women . So nonwhite male dna drove out White**

male dna.

It seems possible that the area was once White but the timing of the death of the WR in this area is unclear. Perhaps prehistoric?

"Kurds are the Closest Relatives of Jews

(So much for  
"indo-european"  
Kurds)

In 2001, a team of Israeli, German, and Indian scientists discovered that the majority of Jews around the world are closely related to the Kurdish people -- more closely than they are to the Semitic-speaking Arabs or any other population that was tested. The researchers sampled a total of 526 Y-chromosomes from 6 populations (Kurdish Jews, Kurdish Muslims, Palestinian Arabs, Sephardic Jews, Ashkenazic Jews, and Bedouin from southern Israel) and added extra data on 1321 persons from 12 populations (including Russians, Belarusians, Poles, Berbers, Portuguese, Spaniards, Arabs, Armenians, and Anatolian Turks). Most of the 95 Kurdish Muslim test subjects came from northern Iraq. Ashkenazic Jews have ancestors who lived in central and eastern Europe, while Sephardic Jews have ancestors from southwestern Europe, northern Africa, and the Middle East. The Kurdish Jews and Sephardic Jews were found to be very close to each other. Both of these Jewish populations differed somewhat from Ashkenazic Jews, who mixed with European peoples during their diaspora. The researchers suggested that the approximately 12.7 percent of Ashkenazic Jews who have the Eu 19 chromosomes -- which are found among between 54 and 60 percent of Eastern European Christians -- descend paternally from eastern Europeans (such as Slavs) or Khazars. But the majority of Ashkenazic Jews, who possess Eu 9 and other chromosomes, descend paternally from Judeans who lived in Israel two thousand years ago. In the article in the November 2001 issue of The American Journal of Human Genetics, Ariella Oppenheim of the Hebrew University of Israel wrote that this new study revealed that Jews have a closer genetic relationship to populations in the northern Mediterranean (Kurds, Anatolian Turks, and Armenians) than to populations in the southern Mediterranean (Arabs and Bedouins).

"

**Nouveau Document texte (2).txt**

**"Despite this admixture with other groups, the Jewish Judean people ultimately began their existence in an area within or nearby Kurdistan, prior to migrating southwest to Israel."**

**Kemps idea that the Sumerians were White within historical time seems hard to maintain but is perhaps true.**

**How did civilisation go off in the middle east?**

**Do we see Kurgans or other White stuctures?**

**Has anyone done a dna test on the Sumerians?**

**They did not speak an indo-european or semitic tongue .**

**I am going to look into the ethnic origins of the Assyrians who claim to be more indoeuropean than the rest.**

⊕ non / Binan
