Dear Tom,

You raise a lot of points in your letter and I would have to write a book to answer them properly.

I hope you have a cd player . I enclose a disc of me speaking. This can be widely distributed and regular broadcasts made. An English chap helps me and hosts the site. I don't see any point in doing some silly job when I would be happier living in a cave than paying taxes to go to feed the invaders. There is about 20% unemployment here anyway .

Here the situation is a lot more extreme than in Ireland. I am told from police sources that the muslims are preparing an armed uprising in the next few years.

I am working on novels to be given out for free on the internet and work my usual 14 or 16 ours a day . When not writing I am researching.

The Jews are the key to the whole thing.

We have in all our countries central banking with debt based money.

The banks have the right to print money and the governments borrow this money. We pay interest on our own money to banks .

This got going in Holland and spread to Britain thanks to William the third who was well paid by the bankers.

Jewish bankers in Holland also financed Cromwell.

Ireland was too impoverished indirectly by jewish activities vis a viz the "British empire" to attract large numbers of them.

Our President Mary Macalouse boasts of her friendship with one in Belfast.

I am told some czech is behind the push for abortion. I would not mind looking for semites in her family tree.

Hollywood ? The Federal reserve etc etc its all jewish.

We have an inverted society. The likes of Mcalesse would be selling herself at the docks in a healthy society but ours is turned on its head and the worst of our people work with the outsider to keep it that way.

People like her should be sold by us on third world slave markets. Those blacks will do anything for white flesh .

The Jews rule America and Ireland is full of yankie factories. Ireland is a colony and does not have political independence.

Independence lies in the ability to wage war. Iran wants independence.

Ever hear of Bernard Baruch ? This atomic energy agency was his idea . He wanted world government after WW2.

You need the internet . We have loads of books available for nothing online.

I just downloaded a massive amount of material this evening.

I can make radio broadcasts which will be heard all over the world .

Already hundreds have listened to my broadcasts but we can't afford to publicise them too much as that costs the english guy who helps me. I can't find any Irish who will!The American Hal Turner will help me.

He is always looking for money too.If you have a cd player I can send you a disk with his show or Mark can give you some.

I spent the week figuring out how to make radio shows with just my computer and buying software etc.

He is constantly under attack from Israel . They attack his computers with their own.

Mark Kelly could probably figure a way to get you on his show.

Basically Ireland was leaned on to start taking blacks etc. The rulers of the world could not allow any country to be out of line.

I went and questioned Mccreevy at a fianna fail meeting on this and I saw the fear in his eyes. I know Jews and how they work. Give out my revisionist leaflets and you will meet them , even in Ireland.

You have New Labour in Britain . Blairs bum boys. Queers , Jews and Queer Jews. Its a rumour in journalistic circles that Blair and Jew Peter Mandelson were lovers.  
New Labour is funded by Lord Levy who has a nice house in Israel.

In France you can only talk about whites and nonwhites . The French whites are from all over with many of Polish, portugeuse or sicilian origin.

Actually the poles will probably end up defending Ireland once they assimilate a bit. Our own are spoilt cretins who deserve a close shave with extinction.

The poles carried out shocking massacres of german women and children after the war . I noticed they now have a website in Cork called "our cork" . I thought that a bit arrogant of them. I got some emails from a pole and we disgussed Father Fahey's books on the Jews and Communism which are widely read in Poland.

I have no help from or connection with the FN. They do not even have an office in this town. I do however go to eat with them and help out if asked.

There will be a big parade on the first of may in Paris and nationalists from all over Europe will be there. The BNP will be there but I will be the only Irish . Maybe I should carry the flag all by myself this year?

The french have the resources to help and they do help the other countries and paid for the other people to travel to France for a meeting last october. They won't help me by myself as they get peeved when people have nothing to show them. Not many of them speak english either .

I passed on your address to Nick Griffin .

To speak seriously with the leaders of these parties you do need to have a lot of education like me. I meet with a greek and I know more about her country than she does.

Those Greeks are the best nation I've met so far and will be around long after the Irish I think.

The British empire was totally jewed . Disraeli did all kinds of things not in their national interest . An English called Leese wrote well on that subject.

I know skinheads and they like violence, but all the ones I have met here are well read and clever enough. I already spilled my blood and found just leafleting dangerous enough without resorting to the Kalishnikovs as you suggest. Guns are dear also. I don't even have a car so my one man revolution would not get far. I think a typewriter is a more powerful weapon and our enemies want the excuse to use violence against us. Of course it will end in war at some stage but we don't have many soldiers just now.

William Pierce wrote excellent books along these lines. In "Hunter" the hero goes around killing interracial couples etc.

My friend here will take me to practice my shooting if I can fork out 200 for a black powder pistol. After 6 months I will then have the right to buy things myself.

The arabs all carry knives and I nearly got in a fight with provocative turks the other night .

I was surrounded by a mob at UCD and again in Cork. These reds came ready for violence and have threatened to kill me on their website "Wallace for the abattoir" one says on indymedia.ie

Most of the reds in Ireland are homosexuals, that I have seen, and many of them english drug addicts, jews or queers.

I thought it was funny , when a security guard came to protect me from them at UCD they whined to him that I was there to deny the holocaust . He smiled a big smile. He was a German , in Ireland to escape high unemployment at home.

I mainly did revisionism in Ireland as that seemed do able with the limited resources at hand . I wasn't thinking in terms of a party at that stage.

Bookshops are no enterprise for cowards either and do have a good effect. A friend in Paris has one and he has a buzzer entry to try to protect himself. This system will collapse by itself and I find it hard just to get people to give out leaflets.

I sold and gave away revisionist books and found people so dumbed down that their effect was very limited.

I have DVDS and CDs and they will be a lot more effective but I lack the resources to give away thousands to UCC students.

Mark came to UCD with me leafleting . The revisionist stuff wakes up those students who are real students , those there out of love of knowledge .

I am only active today thanks to David Irving.

He came to UCC and braved the crowd of hundreds of reds and sinn feiners. His activism started to give me hope again. I had always tough our society sick and revolting but thought the sickness came from our own and was not curable. No its curable.

No one in Ireland will even speak for their country yet alone die for it now apart from us and a few others.

Mark in Dublin helped out but is not used to physical violence yet and will not leaflet alone. Lets try getting them to speak and hold public meetings and openly defy the political correctness ideology. You call for a manhood that no longer exists. The younger generation are doped out most of the time.

Generally violence like the Oklahoma city bombing turn out to have been government organised false flags , used to justify harsh measures.

I am trying to do what is practical and build media . Most people have never heard another side besides the media. Including yourself. I have taken years to deprogram myself and I learn new things every day still.

Le Pen got started after he was left a big donation in a will.  
He used to sell nazi music before that apparently.  
I met his daughter and plenty of the bigwigs.

They stand a good chance of getting elected . The schools here are run by communists and the children brainwashed.  
Ireland is healthier in many ways.

There are lots of Irish bars in Paris but I have no luck. A girl from Belfast I met here brought me to meet a few Sinn Feiners though. She does not ring anymore.  
I have more luck with the Greeks and Russians .

The french are very polite but freeze out the foreigners . They hate the brits and say so .

Iran is against the occupied west . Many Islamists however are creatures of the system. We know that British intelligence sponsors many of them in London.  
The nonislamic government of Syria is also friendly although Ahmadinejad is a star and we must be thankful to him for helping to destroy the holocaust myth and expose the jewish media power over us.

I have a small printer and the ink costs an arm and a leg every few weeks .  
Its worth the expense .

I tried leafleting in the street here but its a big risk . The savages are very agressive.  
The are loads of Jews here. They take a lot of the medical jobs for themselves.

I suggest you write to Eric . He is one of the better white nationalist writers. He came up with the slogan ORION . Our race is our nation.

I liked the FAEM website he used to write on because of the no nonsense scientific approach.

I did science for many years and would be doing it still but for the need for me to serve my civilisation in a different way. There is no point in doing maths only for some chinese to read it in a hundred years. I need good morale to create and being exterminated dosen't help the morale. Clean the kitchen and then start cooking.

There are rumours that the Russians are helping David Duke. I have been invited to Russia myself and would like to go there and sell my writings where they could be sold freely.

Were in this war with the jews and its lasted over two thousand years so far. They think like that we need to learn to or perish.  
They hate you because you are white not because you are Irish or Polish etc

**Nouveau Document texte (7).txt**

**They are trying to build a third temple in Jerusalem . The Romans destroyed the last one. Jews think in millennia. Our people are not even in the running.**

**Jews are an elite .They have few workers . Like cancer they don't try to act like the cells of the body , they don't have to , they do one thing instead of many. Jews have one job , being jews. They are in every country.**

**In Ireland you have the freemasons the head of which is Jewish . The freemasons aim is to build solomons temple. Across the water is Britain which is one of the countries most firmly under their thumb. Even the retarded loyalists in the north wave Israeli flags.**

**The Irish people are racially innocent but losing that fast. The Greeks aren't . They understand that turkish entry into the E U means massacres of Greeks sooner or later.**

**I'd bet if I were still in Ireland I could easily recruit some of those poles. The Brits probably killed their general Sikorsky in the war before he could start talking to the Germans. The Jew communists killed thousands of their officers at Katyn forest and sent a million poles to the Gulags.**

**I also agree we need a revolution but we don't have revolutionary material yet. The people will have to suffer a lot first .They are getting that here anyway.**

**Have you heard of Robert Mathews or David Lane? They tried armed revolution in the USA . David Lane is still in jail and his articles are excellent.**

**A party in Ireland could actually win .People are not yet as brainwashed as here .I think it could catch on faster than you think if done properly.**

**The french are very decadent. The whole discussion is academic anyway because I don't see where the funds will come from for a party.**

**We should have one just as the brits have the BNP and the french the FN.**

**As the system fails and its failing , people will come to us and a party can be used to educate people .**

**Heros don't die for cowardly peoples. I have two pins in my leg and constant pain to remind me of the sacrifices I made for the bovine Irish, the sacrifice wasn't worth it and I was lucky not to have been more badly injured.I also stood up against a group of bosnians who were robbing some drunk Irish and was very lucky to escape a bad beating. When the fight back starts the people will find themself again. The race war is on its way and its the invaders who will start it. The jews are stirring up the muslims with these cartoons to make them look like savages and dehumanise them to sell the war against Iran.**

**The muslims here are waiting till theyre numbers are bigger and then they will rise up across europe.**

**They are not yet strong enough but they are planning this.**

**People tell me here that they hate the "bougnoles" . Many french are fed up.**

**People know that the jews rule France . The next president will be the jew Sarkozy.**

**I am the only one with the brains and the will to create an effective " government in exile" on the internet for Ireland. The ICP site is a joke with not even a phone number.Justin has no site and is afraid to open his mouth. I am doing that . Its just a simple fact that I don't have the resources to do much .I have met loads of people here who have the means to help but**

**Nouveau Document texte (7).txt**

prefer to live in comfort and go hunting etc.

I would not last 24 hours in any job in this society anyway before I would be sacked. I came to France to work on the phone and had found a job for a year in a computer place. Very mysteriously they canceled the job two days before I left Ireland.

I refuse to shut my mouth and I am hated by all the jews and arabs etc who have crossed my path here.

Giving out stuff in Ireland . I found very enthusiastic people when I gave out blunt stuff like those "say no to a black ireland " stickers. People asked me for phone numbers and I had to tell them nothing was organised. Plenty out there are waiting for a leader to rise up but if on one appears they will grow accustomed to living with these third world excrement people .People here in France can hardly imagine a white country .

Aids is killing those who sleep with blacks and the stupid who have not found that out. Still its a tragedy seeing french girls go off with them knowing the levels of aids amongst the blacks here is very high .

.Perhaps 20% .The government hides the figures.

I was in a woman's bar when one of the girls was crying over her daughter who was in hospital dying of aids. I would guess interracial sex was the reason she caught it.

Yes the BNP will print leaflets for us if we make good ones .

We can only work out a program after public meetings and public feedback. Leaflets have to be simple and strong.

Be willing to go to jail over strong racist leaflets before you reach for the kalishnikov (if you can even find one).

If we get the broadcast thing going I might be able to read statements by yourself over the airwaves.

I spent years training to be a mathematician and had finally gotten the habit and the women are attracted to a problem solver.

I am very angry not to be able to do that or paint etc . We need political soldiers now and we can't afford self indulgence.

We have a lot of scum elements among our own people who are running riot now that me like me are shut up. Men like me are Plato's guardians , the natural leaders .

My mother lives in Wales and is married to an English . They refuse to talk to me. She and 95% of medical graduates emmigrated from Ireland because there were no jobs here but suddenly under jew orders Fianna Failure find loads of medical jobs for every filthy crawling wog in the world.In the 80s Ireland still functioned as a womb for the west but today that womb has been turned off. That decision was made high up. Who do you think runs the EU besides our Jews and Freemasons?

Even Le Pen managed to say that Chirac had been choen by the Bnai Brith (jews) to be president.

I suggested that we have an immigration policy but one in our interest. Sending them down coal mines etc using them up in a nineteenth century way and forbidding all genetic contact. We could use the women as surrogate mothers in factories producing thousands of white babies using implanted embryos.

Never mind deporting them , don't let them escape . Use them up in a way thats in our interest. Do I want to gas the jews ? No! Let them finish off Stalins white sea canal for us. Its isn't deep enough you know. As Stalin said "The German people go on forever" while his jews were herding millions of them to Siberia.

Its true its more than the jews that we are up against. Its all those who profit from lies and social sickness. Men like that Queer senator Norris.

I have seen the queers up close and seen how the hard core genetic freaks recruit vulnerable youngsters.

I met a very intelligent half english/swedish chap who reminded me of Dicken's Oliver Twist .He lived in a tent and hung around with scum .

He told me that his was raised in care in Britain and thrown onto the street when he was sixteen and the only job he could find was as a dancer in a queer club. He described how he was raped for hours by the sadistic queers.

He could not even play games with the young american girl and an irish girl I brought to my flat because of the horrors he was haunted by.

Homos are generally not persecuted Oscar Wildes or even excentric Byrons. Byron helped save Greece, who cares if he wanted to sodomise some of them. I'm told they are a much stricter society in that regard than ours by the greeks despite their reputation.

No our modern homos are often sadistic predators who prey on youngsters under the protection of a police state. Senator Norris needs to be hung from a street pole . He got faggotry legalised in Ireland and he is responsible for many of those who have died from the aids the fags spread.

All the sick elements are united under the leadership of the Jew. Ireland has never recovered from the damage done by the centuries of degradation and emmigration . The Jews don't have to do much to keep it under control.

The kinds of immigrants Ireland needs are its own people back . The door should be open to places like sweden and places that could make a healthy contribution. There is a swede who has a nice toy soldier factory in Cork. Maybe he will reply to you. I asked him to make ss soldiers but he did not respond to my emails.

If I ever get a car I will call to see him.I bet I could talk him into helping me.

The jews are all head , they compete with our leadership stratum. They look down on work. They are an enemy tribe and they must be destroyed I'm convinced. They don't give us a choice .

Its whites like me that are targeted not the muscle dumb whites who form the majority of all our nations. Ideally we should separate the ordinary ones from the leaders but that is a fantasy . Their solidarity is amazing.

I learned a lot going door to door about communicating with the simple folk and I could do with improving those skills.

Here people are terrified and its dangerous to do anything in the street. Its generally the wogs who take an interest and evaluate me as a threat when I leaflet.

I put my Greek friend in danger when I told an indian with her that she was not a real french .

I told the greek that no extraeuropeans in future if she wanted to talk with me. Women accomodate themselves to the filth about them.

### Nouveau Document texte (7).txt

I brought her to a right wing bookshop and she was happy enough there. Most of our people are like that .Only a hard core who profit greatly by the inversion and outbreeds and Jews oppose us actively.

I noticed with queers and indians etc that they like the theory that AIDS came from a laboratory made by the whites and their demon science.

My Greek friend gets free college here all paid for by the french. Her class is full of wogs. There are only three french in it. Some of the french here have big Roman heads others look German. There are loads of part Italians and spanish.

These nonwhites have been trained by the jewish media to a whitehot hatred of us and they will kill us at the earliest opportunity.

The insolent Indian claimed that there are only a million real french left.She is counting on us being mixed out.

Well I have been very disappointed by the Irish I have met in France.

They have run away from me and have been no help.

The Irish produce monsters like Bono because the other Europeans have fought the race wars for us.

Its incredible the power of the media .

There is more freedom in Ukraine and Russia now.

There are still a million Jews in Russia but there are at least that many in France. Paris is full of them.

One french slut who married a Dr Cohen glowers at me with hatred everytime I pass a restaurant where she drinks champagne.

Many of my french skin head friends would look down on the greeks but they are the most promising group in many ways .

The dutch will suffer and perhaps the invaders will force a race war on them but its in the mediterranean states like Greece where the people will start fighting back by themselves. I was delighted by the australians .I think the irish are still capable of reacting to such attacks also .

I met plenty of tough working class people but when I did activism I made the mistake of focusing on the middle class and UCC. That had a certain effect but I think anti immigration activism in the rougher areas would do better. I tried that a bit .

Door to door in Limerick or Knocknaheeny would produce results .

Have you ever tried talking to Des Machale at UCC? He is one of those catholic conservatives. His daughter used to give out anti abortion stuff.

I am getting email from a guy who won't reveal his name but claims to be a journalist. He isn't anti-immigration but is anti holocaust.

Different things wake up different people. The Irish like dumb sheep let all those jewish films like "war and remembrance" etc on their TV without questioning all those years. The British had niggers and pakis on their TV , we laughed at them.

Now we are paying the price of not being patriotic to our race and civilisation. Just as it seems bizarre and foolish reading our history books and seeing the ancient greeks fight amongst themselves and ending up losing their country to Alexander so we too are foolish to squabble. You hear the french with foolish anti german notions, usually as an excuse for their own cowardice while these same french look and act like germans.

The Church is a curse of coarse and most of our priests traitors like the academics.

We need a new civilisation as Erza Pound said. We need to end the era when stuffed shirts have leadership positions like that.

Still when one talks to Poles , Greeks and Russians christianity still has its uses.

**Nouveau Document texte (7).txt**

I got some of Joyce's Ulysses on tape. Its clear that in the poor Ireland of his day some people at least got education unlike today.

The purpose of all the torture video revelations and Iraqi prison stories is to whip up a bit of war enthusiasm among the muslims.

The Muslims are walking into this clash of civilisations , this world war three the jews need to complete their global control.

Its hard to keep up with the news . I don't have internet but use it from friends houses etc when possible.

I am supposed to be teaching english to a Russian and she will let me use her computer.

You have an impossible task trying to understand events without even a computer to read a disk full of documents I could send you.

I assume you can watch dvds somewhere so I enclose one .

Ireland seems to be finished as a country. The Irish not only abandon their country men in the north to foreign occupation and fail to organise their massive diaspora but they have done nothing to help people like me when we have stuck up for them. I went door to door in douglas and the impression I got was that these peoples country was their own stupidity and cowardice .

Its generally innocent whites that suffer from the invasion while the jew lovers have nice houses in safe areas often behind security fences.

I much prefer the knackers and I suggest visiting their halting sites and recruiting some of them for protection against the reds.

Will I even get one Irish person to come over and march with me for the first of may?

At least the poles and latvians take up space that otherwise Fianna failure would fill with niggers etc.

I have not leafleted since the great polish wave arrived . The biggest group of hostiles I met when leafleting were english degenerates.

Britain gets three million Irish and we get their heroin addicts and new age travellers, such a bargain these open borders.

The Republican Sinn feiners make good points about Ireland being a neocolonial state. Still there will take thirty years to wake up.

Boetian evil : the lack of virtue . Our people show that.

Manichean evil : Polar hatred. The Jews show that towards us.

In the absence of evil number two evil number one is held in check by virtues , but it has always and will always be a battle.

For example I was giving out leaflets and I was attacked by a half moroccan creature. I managed to talk her down and proceeded to talk to a group of useless youngsters in a coffee shop.

One Irish took her side. I saw him later with her and they have a kid together. Now when I see them in the street he hates me more than she does . In future I will never try to reason with the savages and I shudder to think that I helped bring those two together in their evil union when trying to educate the bovine public.

He was only capable of thinking about his sexual frustration and had no culture . He is what the nazis called the subhuman. These are the druggie urban trash our cities are full of . The toxic waste of a dying civilisation.
