Have you ever read the decline and fall of the Roman empire by Edward Gibbon? One day we will write the decline and fall of the Jewish empire. In the emperor Justinian's time he closed the platonic school. That was a terrible blow to western civilisation . The persians sheltered our philosophers and gave them refuge.

Today again semitic values are in the ascendent in the west and free speech is suppressed to the degree that most citizens of the world that George bush claims is the free world have never even heard of us who who been persecuted in it.

This holocaust conference is a great help.

The Perisans were a people the Romans could not conquer and by failing perhaps the Romans succeeded because they left this jewel of a land there to come and help save us today.

Hitler in losing the war has let the jews free to turn the world into a big weimar germany and to create a world hitler . Ahmadinijad is a brown hitler, a colored freedom fighter against jewish world domination. The media calls the Persians "islamofascists" . The idea is to incite hate against them and to say kill them like you killed the germans. The systems definition of fascist now is not someone with any ideological doctrine but someone who lacks the ideology they push. That makes us all fascists and everyone who has even lived before this date into one.

Bush does not represent the free world ~~not~~ Ahmadinijad does.

If they do start this war with Iran as they do seem bent on doing, the Iranians are not wusses but indo europeans and will strike back giving the commie jews in USA an excuse to create a soviet america . Americans are dumbed down enough for it .In the war against Iraq which Saddam fought for the Jews in the 80s the Iranians came on in human waves , even young kids. They are not afraid of death whereas the young europeans are afraid of life and won't open their mouth for fear if unsettling some colonist savage even when there is not threat to their freedom or lives often.

If I was you I'd start selling my stocks in judaism now and start buying some in western civilisation again.

The stripes on the Israeli flag represent the Nile and the Euphrates but they may as well represent the Atlantic and the Pacific because America

is as occupied as palestine. Palestine shows what we all have to look forward to if we don't stop them now.

Our enemies know who they are and have had their ideology worked out for over two thousand years and it has served them well. They expect a Messiah to arrive who will kill us and enslave those who remain. They have hundreds of Jews every year who claim to be this very messiah. We are individualistic and difficult to unite. The west is a wide envelope of ideas and past and present nations. I count all white countries like Russia as part of the west. Whitedom if you like. You can't really call it christendom anymore. Wagner called it herodism and that's nice but whitedom is catchy I think.

They've made it a crime to be openly culturally european. You will be arrested if you wear a swastika tattoo in Europe. You can't be yourself. Soon it will be a crime to have a white face if we don't fight back now. People who wear dreadlocks are submissive authoritarian types.

We are living in a new heroic age and we, this tiny group of freedom fighters, critics, sceptics can take on an empire the like of which the world has never seen. The Jews have the army of the USA and Britain as well as the Mossad the world's most powerful intelligence agency as well as many traitors and idiots from our own people. Our people will continue to suffer until they take Socrates' advice and know themselves. Listen to Cato. Carthage must be destroyed. If our civilisation survives then the names of men like Faurisson will go down in history along with the names of men like Hercules.

Western civilisation is ours and we will throw the pirates who have seized the ship overboard before the ship founders on the rocks, where we can all see the boat is headed.

This whole racial equality propaganda is used to further social inequality.

We have a middle class, membership of which is based on ideological obedience, more a middle cadre in the communistic sense.

Some people have the right to print money and steal from actual wealth creators. This economic system needs to be changed.

One Archimedes achieves more in one life than a billion Africans. Af-reek-a, where no one has ever said eureka. The necklace killing is the only African invention. Aids was more a discovery of theirs.

Israel is more than a country ,superstition is a weapon , a force multiplier.

Do Europeans understand the power of ideas like the Messiah idea to dark gullible minds?

Indeed the priestcraft of the jews seemed so advanced compared to Europe that roman priests envied their power and took it for themselves .Its was adapted by men like St. Jerome ,who considered the jews filthy animals, and whose translation of the bible is a little pagan with satyrs etc included.

The only good invader is a dead one ,thats the law of nations. The Chinese have a one child policy whereas the Germans today have literally a one child policy. The one child is called Otto and he lives in Mainz. The Germans have given up having children thanks to Jewish hate propaganda .

Our civilisation has a parasite infestation ,it has got mites, semites, that suck its blood like little vampires.Am i anti c-mites? I am certainly anti a mites and b mites .

Mite is right and a c-mite is always right even when he's wrong.

Bush does'nt say he will attack Iran ,he says he wants the people there to be free .

I want the jews to be freed from their opressive culture and the psychopaths who lead them ,that pc isn't it? What do I mean by freedom though ?

Lets liberate the jews from Judaism!

Oh we really love those jews ,they just need to be freed from those nasty leaders of theirs and learn to accept democracy and hellenism in palestine which means an end to jewish state and judaism. Oh the ancient Greeks tried that already and it led to centuries of war and it made Judaism even more malignant .

Bush means spreading jewish imperialism when he says democracy. It isn't racist to kill 18 pakistanis by missile in Pakistan but it is to tell one to go home when they are here , so the media tells us . So we can't tell them to go home but we can launch missles at them. We can't help them and criticise them but we can free them and kill them

Construtive criticism of nonwhites isnt allowed thats racism ,destructive help even to the point of killing is .

Destructive flattery is pc but not constructive criticism .

We come in peace shoot to kill, shoot to kill, star trekking ,scotty beam me up.

I don't advocate war against the Jews just their liberation as defined by me and not explained .

The jews know that the overuse of the Bush types and the liberation rhetoric is harmful but they feel that only Iran stands between them and final world conquest so now is the time to use up such ammunition . Everything is on this last throw of the dice. They also have the fake left , the chomskys to direct dissidents down false harmless trails.

Odin still has not come down from his tree . The day is growing closer when he will and then the minarets will fall and the synagogues will be turned into museums of jewish crimes and places where our people learn who they are instead of centres of political subversion against them.

The Turks now have coin looks exactly like the 2 euro coin . They also still occupy a large part of historical Greece that will need to be taken from them at some stage.

I have a Greek friend who I am slowly educating. She told me how the Turks used to cut off the breasts of greek women and make necklaces of them amongst other things. Perhaps Turkey could enter the EU just long enough to try out their charming cultural practices on our female president Mary McAleese?

Honey needs bees to have sting ,roses have thorns. Freedom of speech is a western idea only and has only existed among healthy groups of elite whites who defended their space. When I was opposed by a mob of reds one student was shocked and nearly crying by the spectacle but he didn't step forward to help or anything. We need your blood not your tears. Save your tears for yourself , you will need them before this is over. A lot of suffering is coming your direction.

Nothing can exist without the strength to defend itself. The Catholic priests today who preach treason from their pulpits are only there because our ancestors fought and died for their culture.

This Iran conference . The Jews are even throwing the holocaust into the pot . In the chess game for world dominion they sacrificed their two rourkes and are gambling with their queen as they push for checkmate. We offer a brotherhood of soverign peoples versus a smotherhood of dying ones .

Freedom and honor

We offer people a future , optimism and prosperity while our enemies only offer death and degradation.

I wish I had the resources to take a trip to Iran.

Its fairly clear now that 911 was an inside job with Jews like Chertoff inside and Mossad outside.

Certainly the towers do seem to have been detonated. Why else the rush to dispose of the evidence ?

It seems the only reasonable explanation for all the eyewitness accounts ,the clouds of dust and the collapse of tower7.

The fact that system felt the need to make a TV show addressing this issue is a tell .

The Dutch are amongst the most capable of white groups but they also went after national suicide with germanic verticalness.

There is an old Dutch saying " God made the earth but the Dutch made Holland" .Yes they reclaimed the land from the sea .The Dutch take land from the sea and give it to the nonwhites. They took this land from Poseidon and gave it to Allah. Perhaps with global warming Poseidon will take back what is his?

The Jew dictated that Biology was abolished . If the Jew dictated that the law of gravity was abolished tomorrow would we see people flinging themselves off cliffs?An apple fell on newtons head and he discovered gravity well blacks are falling on countless whites and they are all discovering the laws of race.

A man without a cultural identity is just chaff being blown by the winds of history . He will assume a negative identity by default and one define by the enemies of his expected identity. He is not a man .

The jews themselves call israel a mad dog thats too dangerous to bother. Well the thing to do with mad dogs is to put them down.

The Archbishop of Westminster, Cardinal Cormac Murphy-O'Connor has said that Holocaust Denial is tantamount to "sacrilege" . "History's greatest evil remains barely graspable by the human mind....The Catholic people of the world stand with Jews against anti-semitism and holocaust denial, and in defence of the God-given dignity of all human beings."

Cardinal Murphy O'Connor thinks it sacrilege to denounce his precious holocaust and his jewish demon gods. To real christians surely its sacrilege that the city of constantine , the man who made christianity posible and without whom it would never have caught on , is in the hand of the infidel turks?

One of the mysteries of nature that wise men have searched after for centuries is a formula for prime numbers.

Just as in the world of men some numbers are prime or pure and some are composite or mixed.

There are many mysteries of nature waiting to be conquered. This is the next step in our exploration of the universe.

Philosophical steps have to be taken before physical travel is possible. Columbus was held back by superstition not physical boundaries. Fear of sea monsters, fear of falling off a flat earth.

As before today we have to conquer ourselves first and then look to the world.

The youngsters are only offered odysseys of self destruction and drugs and race mongreling.

I have given out a lot of revisionist material. Going without dinner to buy a revisionist book for a friend only to find she is ~~so~~ dumbed down to absorb the message.

Minds closed to us by warrant their smallness damaged by dumbing down.

Saying that homos should have the same rights as heteros in society is like saying that murders should have same rights doctors in hospitals. Homosexuality was recognised universally as a mental illness not too long ago but suddenly it has been promoted to a "sexuality".

If your beautiful and straight you can't walk naked in the street but homos can preach perversion and death on television and thats considered decent. The taboo about walking naked is a semitic meme and there is nothing western about it . Of course you can't do that if you have perverted jews and other outbreeds in your society. Germans are very quick to derobe.

Heteros create new life and homos only destroy, sex is about creating life .

Homosexuals are traitors .I think so many of them are usful tools to the zog because of the frequent psychopathic traits one finds with

homosexual tendencies . Psychopaths homos and straights are attracted to the zog.

I saw edgar steele being defensive on the donny deutsch show . Deutsch wants to kill us . Steele said even one jew too much and that just fed the jews arrogance . Defensiveness not needed or desirable with savages.

If Jews come to Europe and trespass on our territory they merit death. Thats the basis of all national life . Invaders are violently expelled. We are locked into a zer sum game with the jews and they choose that . We have to play by those rules or lose.

One Aryan is worth more than all the jews in the world. Damn right. I don't think we should be defensive. A pity I don't live in America .I could be more useful there . I am fed up at the moment and need to find a tolerable role where I my productivity isn't hindered.

" later a large German SP penetrated front armour of my "Colombina" by an armor-piercing round at some 1500 metres. Following recommendations of experienced drivers, I would leave the front gas tank full, and would use the rear gas tank. This is why we did not explode immediately after being hit.

I tore pockets off my jacket earlier in the train. I also had my belt with TT pistol under the jacket - all these things helped to jump out of the vehicle without getting stuck. I sensed the hit right after I saw the shot blast. I flew out of the hatch, which I had open, and ran forwards, trying to get as far from the vehicle as I could. I stumbled and fell into a trench. Lying there, I heard the explosion of gas in the vehicle. After that the ammo started to detonate. When it was all over, I walked back to my "Colombina", which now looked like a witch, not the beauty it used to be. I was scared of taking a look at the fighting compartment. I felt bitter, sad and lonely.

All of a sudden I heard: "Ulanov, run over here!" Three guys were looking from behind a barn. I ran up to them - they were my crew! All alive!

For several days NKVD officer has been scrutinizing us - probably, we burnt the vehicle by ourselves? Later he left us alone, having realised we were innocent. Technical officer of the regiment ordered me to take over a truck from a soldier who got sick. First I was transporting wounded soldiers on hay in the truck, and after that the regiment's liaison officer.

I read that before I knew the NKVD were nearly all Jewish and it stuck in my mind. It shows that the Russians did not care about the war and that Jews regularly shot them even if they survived combat. Aryans find truths and Jews hide them. They are our antithesis. The antispecies to us. With every other race we can negotiate but their existential hatred of us and our cultural life makes them impossible to tolerate .

The the north of Ireland the so called loyalists should start being loyal to Britain by making the mainland British and kicking out the Jews instead waving Israeli flags . They oppose to an Irish government but don't mind being under a Jewish one . They make lots of sense.

Are they loyal to the real Britain or the Bnai Brith-ain?

The gas chambers are a deadly mythological device to exterminate whites with.

The Bnai Brith is a Jewish organisation founded in 1843. It is present in all 5 continents and in 58 countries.

Whites lack any such organisation ,we are not united as a civilisation across national lines ,but we are slowly starting to do that ,those of us who think.

If your not in some active ethnocentric role and are not tribal ,then your just a slave cattle of the Jews and not a functional member any nation or tribe . Jews by deculturing someone kill them politically ,exterminate them in that sense ,while leaving a political zombie alive. I was talking to a Berber who cried when first saw a black showed more shock this African than brainwashed whites raised on Jew TV .

Lets finish the Renaissance. A West fully reborn. All orientalisers antihellenists etc out ,all Jews out, lets destroy our enemies' power.

All around there are countless riches just waiting to be claimed . Science is the key . Before we can claim them we need to turn around

and see who is hanging on to our clothes and pulling us back and we need to give them a good kick in the face until they let go.

The best kind of enemies don't exist anymore because they are dead. Because we killed them .The germans rose up and wiped out the huns after a time of being their slaves and binding the heads of their kids until they grew long and strange, its reminiscent of our dreadlocked freaks today.

The huns don't exist because we killed them and thats good.

The carthagians ,the huns these were great peoples in their own ways and they ain't around because our ancestors killed them when they challenged us .Basic history.Atila's tomb has never ben found ,his sword of god rusts away somewhere for our posterity to find,if we are man enough to have any .

You can say whatever you want about the huns and the carthagians because our ancestors bought that freedom for you with their blood.

I am not one these sexual conservatives . I am all for abortion, homosexuality,drugs etc feminism ,but amongst blacks, jews etc.in those far away countries. I think white nationalists should get active in such groups. Our numbers are still small.

Our people will continue to contract until their sense of peoplehood reignites .Lets make a stellar analogy . The earth is a racial nursery just as in space stars ignite and burn.

Never forget we are part of nature .

I need help to do my work. The countless people on the internet who do nothing but chatter should help fund actual activists like me. I live in a very austere frugality. No luxuries whatever . I even lack a car.Frankly I despise people on sites like irishnationalism.net who chatter and do nothing.I only respect performance. I could certainly start a public group a political party in Ireland and none yet exists to oppose immigration . That will only happen if people support me in concrete ways. I have been invited to Russia and I would like to go and meet people there.
