

## Courier du Continent No.493

Oui la vie 2/07 recalls the demographic statistics for Europe: "The rate of fecundity is 1,38 per woman." Instead of 2,1. Abortions reach 1,2 millions per annum. "France is way ahead with 210669 abortions. (...) Abortion is the foremost cause of death in Europe."

POLAND Jaroslaw Kaczynski surprises all by all kinds of strange actions. He blocks by veto negotiations of the EU with Russia for a story of meat export normally settled by arbitration. One has the impression that Kaczynski grabs any thread for his Russophobia. Not only does he not understand that Russia begins to serve as counterweight to American hegemony, but he constantly insult Germany for WW II. - TdG 23.6.07 Kaczynski justifies in the following way his wish to see Poland count as much as Germany (with twice the population): "Everything we want is to recover what was taken from us. If it had not been for WWII, Poland population would today count 66 millions."

NZZ 27.6.07: "The negotiations for the adhesion of Turkey to the EU are faced by new problems. Due to French opposition, the German president of the Council could only present two subjects instead of the three announced. (Until now, Sarkozy stays on the position which brought him the electorate of the National Front.)"

Le Pamphlet No.366. -Under the title "Panic", Claude Paschoud, regarding the demand for revision of the article 261 bis of the Swiss Penal Code: "The only chapter not allowed to be debated, in all the history of humanity, on which all works of research and investigation are strictly forbidden, the only secular dogma of which it is forbidden to doubt its merits, is Shoah and the famous homicidal gas chambers." In this context, the proposition made by Federal Counsellor Calmy Rey to organise a discussion meeting in Geneva "on the different perceptions of the Holocaust" created a scandal. "What horror! What heresy! There cannot be of course different perceptions of the holocaust."

Militant No. 588. Editorial. "The problem of defending the White race in Europe is the priority of all priorities and the Nationalists, whether they are social, identity or populist have the imperative duty to coordinate their efforts for this primordial goal." (Elementary and capital. Everything else can wait. Southern and Western Europe are faced by an alien invasion of millions with the full complicity of governments.)

Le Temps 11.7.07, on the arrival in Israel of Darfur refugees: "Some have really ran away from the killings, but others are simply looking for a better future in a Western country. (...) At the beginning the refugees intercepted when they were crossing the border were sent back to Egypt. As to those intercepted along the roads and in parks in the south of Israel, they were immediately imprisoned. Without trial. " But the flow became bigger. " The internal security minister, Avi Dichter, promised to erect a "welcoming camp" in the middle of the Negev desert. This centre will be next to a prison reserved for Palestinians condemned to heavy sentences. (the Israelis know how to treat their illegal immigrants. If, In Switzerland, we could put them in a disaffected fortress, in the mountains, the humanitarian rabble would be shouting at the top of their head.)

Recht + Freiheit No3+4/07 "We are living in a terrible period, similar to that of the Weimar Republic: Leftists, Reds and Communists dominate the politics. Lying, the constantly preaching to us of tolerance versus the foreigners. Naturalising people coming from the entire world, they want to promote certain majorities to the detriment of the Swiss people so as to grab total power. By creating laws in favours of minorities, they are making of us second rate citizens. Already half a million Muslims live in Switzerland, 80 millions in the countries of the EU, (?)"

L'AGEFI 13.6.07 Philippe Legrain estimates that Europe should consider immigrants as a chance to grasp and he accumulate sophism to support his case. Notably; "In the same way that it is win-win to import computers from China, information services from India and banking services from the US, it is maybe mutually advantageous to imports social workers from the Philippines, sweepers from the Congo, and

waitresses from Brazil.” (a plutocratic and globalist reasoning which does not discuss the necessity of a racial and cultural cohesion.)

SIGNAL D'ALARME NO.7 .Guillaume Faye diagnoses the ill which is gnawing at Europe: “The European peoples live today, as never before in their history in the hand of elites, of ruling classes which are betraying them and which are organising their ethnic destruction.” In his column “International” : “A study published on 12<sup>th</sup> March in the “Archives of International Medicine” (California) show that 25% of US GI's returning from Iraq or Afghanistan are suffering from mental illness. Absolutely enormous numbers which leaves a lot of doubt on the real military capability of the “only world power”. (...) The failure in Iraq is the ultimate proof, more so even than previously in Viet Nam.”

REFLECHIR & AGIR No.26 This revue calls for regrouping around a six points minimum program: “1) a stiff defence of our ethnic identity against legal immigration and also against race mixing. 2) promotion and actualisation of European culture in all domains (music, literature, paintings , sculpture, cinema..). 3) Social justice as factor in the development of our communities of peoples against the injustices of capitalism, liberalism, those motors of the most abject globalism . 4) Economic regression and systematic promotion of ecological and agricultural preoccupations 5) total freedom of expression in all domains and straightening of dissolving ideologies ( human rights, egalitarianism, and anti-racism) by the re-introduction of identity values rooted in the soil and the sacred. 6) Building of a great ethnic Europe from Dublin to Vladivostok, from Malaga to Reykjavik to oppose the Zionist American Empire and China. “ (These are six excellent points that all White people could adopt)

LE TEMPS 23.7.07 “ The association of combat of activist nationalist women”, an organisation attached to the extreme right PSN ( Swiss Nationalist Party) commemorated its formation Saturday afternoon in the canton of Solothurn.” Denise Friedrich (22 years old) , co-founder of the movement, declared on the Internet “ It is a movement essentially anti-feminist. Feminism, associated to capitalism, tells women that they can only fulfil themselves by working. Materialism has been raised to the ultimate level. We on the other hand say that we must return to true values which are family, education and solidarity” .( Upsetting words for the proponents of feminism who are promoting the extinction of nations).

NZZ 17.8.07 . Little ex-Soviet Republic of Central Asia, Kirgistan has spared no effort to receive with dignity the reunion of the Shang-hai Organisation for Co-operation in its capital of Bichkek. Documents were signed, of which The Declaration of Bichkek. “ A world order, multi-polar, democratic and equitable, which President Putin presents as a renouncement of unilateral actions – the US are aimed at- is less a project for equality of decisions than a counter-project to the Euro-Atlantic partnership.” (which seems to make journalists unhappy) .”Among other things, both Russia and China have insisted that the host nation shut down the American base at the Manas airport near Bichkek.” ( a return to the pre-war multi-polar world took shape, from the moment the US let their world hegemony escape.)

IL POPOLO D'ITALIA No7/07 publishes on 14 columns the program of the “Partito Fascista Repubblicano” of 8.09.06. An important point: “ Immigration, today is a vast phenomenon which touches numerous European states, particularly those which represent the first call for those who come from Eastern Europe previously under the USSR, the Far or Middle East, North Africa or even Black Africa. Italy is the most exposed, being surrounded from three sides by the sea, which makes patrolling more difficult and easier to get in. (...) It would be also important to tell immigrants that Italy does not have the duty, but only the ability to shelter them. ( a pleasing piece of good sense).

TERRE & PEUPLE No.32 – GUILLAUME FAYE: “ That's it! Putin is now definitively demonised in all the medias and Russia with him. Of course, he is a Neo Fascist. Everything adds up for the last two years. The Ukrainian affair, the gas blackmail, the opposition to American missile in Poland and the Czech Republic, the difficulties with the Baltic states, Chechnia. Without mentioning the interdiction of the gay-pride parade in Moscow, the incarceration of felons in Siberia and the suspicion of assassination of an opponent with a radio-active cocktail in London. “Le Monde” and “Le Figaro” are on first line to denounce the Putin dictatorship. Isn't that after all the proof that Putin is a very nice guy?

## Courier du Continent 494

ORF -Online 23.8.07 : " The Neo Nazi Gerd Honsik, condemned in Austria under the law of interdiction (Verbotsgesetz) , was arrested in Spain. This is a declaration from the Minister of Justice referring to the Interior Ministry in Vienna and to Spanish authorities. Honsik, who took refuge in Spain, has been sought after for many years for "renewing of activities" (to be understood National Socialist, according to the Austria judicial way of speaking) . Today, early in the morning, he was arrested on the basis of a European warrant of arrest, issued by the Vienna Court , by the "Policia National" in Malaga. On 5.5.92, Honsik was condemned to a prison sentence due to the publication of his book "Freispruch for Hitler" (Hitler acquitted), by the jury of the Vienna Penal tribunal ( The condemnation dates 15 years) . The case would have been proscribed in all civilised countries- except in Austria where the law advocates up to 10 years for renewing of activities! Thus David Irving was condemned to three years for opinion- but was released before the time due to pressures from Britain.

RECHT + FREIHEIT AUGUST 2007 (Postfach 105, CH-4008 , Basel) Ernst Indlekofer, concerning the discussions on the "holocaust" and notably on the proposition of the Swiss Foreign affairs Minister to organise a seminar on the perceptions of the holocaust:" He (Fritjof Meyer, redactor of Der Spiegel) declared that the number of 4 million for Auschwitz-Birkenau was " a product of the Soviet war propaganda". He estimates now that in two farms far from the bunkers, about 360 000 men were gassed". (...) The debate on the jewish genocide has received a new impetus from Fritjof Meyer. In this way the debate on this "most delicate question" has taken a massive amplification and cannot be stopped anymore (...) to stop debate on the jewish genocide is comparable to the Inquisition in the Middle Ages.(...) The Frankfurter Allgemeine Zeitung states also:" Talks concerning political events have nothing to do with penal justice unless one wants to impose a taboo on certain theses or prescribe certain ways of thinking ".

LECTURES FRANCAISES No. 601-602 - Pierre Romain: " But it would be a gross error to see in Mr. Sarkozy as a pillar of the true right. His adversaries in the medias have pretended to defend him, reminding that he has passed or proposed some "interesting" progressive "advances" such as place of Islam in the nation, positive discrimination, homosexual marriages, vote for immigrants.." (we also think that our French friends have most to fear from their new president.)

L.F : " With the return of the European Constitution, the WTO negotiations, the selective immigration policy (which will not stop the clandestine immigration) , the National Front still has some beautiful day before him providing it quickly regain its national discourse, popular and social, away from the old Marxist nonsense or the integrationist utopias toward immigrants." (We are joining our wishes to those of "Lectures Francaises" , as the fight against the invasion - which first condition is the return to the freedom of speech- is becoming a question of life and death.)

LE NOUVELLISTE 18.6.07 " The press relates the turmoil engendered by the repartition of the 1,25 billion dollars extorted in 1998 from the big Swiss banks as reparation for the blocked funds of the years 1930-40. Nearly 10 years later, the payment have still not been completed. On the other hand, many millions were squandered in a never ending fund management. In this way, the lawyers enriched themselves on the back of poor families who receive a few thousand of dollars only, the bulk going to rich families (It is good to remember that without Art. 261bis of the Penal Code (the Swiss Gayssot law) , the Swiss banks could have saved these 1,25 billion dollars.)

DEUTSCHE BURGERINITIATIVE No 8/07 , Manfred Roeder on his participation to a conference in Moscow: " The conference lasted two days. Representatives of twelve nation took the stage. Always in the sense of an alliance with Russia, independently from the the US and UN (...) We will again return this year to Russia, because it is there that there are possibilities of action - which do not exist anymore in the West).

MILITANT No 589 - The editorial, denouncing the shortage of birth and alien immigration;" In this emergency situation concerning our survival, nothing necessary is undertaken, notably a policy to increase births, but also putting into place a safety organisation, founded on a guided economy where human factors, in limited quantity , are developed and aimed toward essential activities, especially wealth producing activities toward a power politics (...) France and the European continent will only have a

future if they know, like Japan, how to stand on their own, counting only on themselves in faithfulness to their civilisation." (Congratulations to Militant for those good resolutions!)

SANS CONCESSIONS No. 33 : Herbert Verbeke exposes a clear diagnosis: " Today, there is no society, but a multitude of individuals living one next to the other, without any other goal but to satisfy their little selfish interests: career, car, portable computer, holidays...". And he concludes; "If we hope that one day Providence decides to save us, one must begin by having the courage to show the example by talking the truth, the whole truth and nothing but the truth" ( He rejoins Moliere : " I would like all to be sincere and men of honour , no words should be spoken which did not come from the heart"

UNABHANGIGE NACHRICHTEN No 8/07 ; " In 2006, 155 000 German experienced artisans, highly qualified doctors, engineers and scientists have emigrated – 7% more than the preceding year(...) At the same time, like an irresistible force, the German people is replaced by aliens of all ethnic background. " (This phenomenon is happening to all Western European countries; the medias are silent on this loss of indigenous qualified people)

RIVAROL 14.0.07 Pierre Vial, interviewed:" Only Le Pen dared say loud what all the others were thinking softly and that gave him the merited gratitude of a large number of brave people. (...) If the FN would come back to a policy clearly anti-immigration ( I know that a lot are wishing for this inside the movement), everything would again become possible. For the question of immigration will only get worse. (...) The future is EUROSIBERIA , with a spinal column which is the axis PARIS, BERLIN, MOSCOW ( These words make a lot of sense) On 21.09.07 , J.B. : " Jean Marie Le Pen gave a very severe balance sheet of the first months of the Sarkozy presidency of which he denounced the false promises , notably in matter of schooling, repression of crime and immigration. On this last subject, the "Menhir" was particularly firm, denouncing the back sliding before the squatters of Aubervilliers and the imposture of the pretended reform on family regrouping." (Good news)

A menhir is a carved column of stone which were used in Gaul for funeral purpose. The term was made popular in the French comic book of Asterix and Obelix, where Obelix was the carrier of menhirs which he use to throw at the Romans. The Menhir is a nickname for Le Pen. Translator.

LE CHOC DU MOIS No. 15, Jean Claude Martinez, National Front member to the European Parliament , interviewed : " Today, human society is on automatic pilot, which means that politics has abdicated its means of action. Societies are governed according to the tenets of the economy. We know them: they are called PRICES, COMPETITIVENESS , COMPETITION, AND GOD THE FATHER HIMSELF : THE MARKET." . – According to Bruno Larebiere, capitalism has become totalitarian . "Faced by such a system, it is no use looking for adjustments. But to find again the strength to knock it down by means which cannot only be political , but also cultural and spiritual."

In a Hotmail on 21.9.07, Reinhard Wegelin, redactor of Schweizerzeit writes: " In order to remain competitive, the EU is planning a gigantic project. . It wants in the course of the next 20 years to import 20 millions men from Asia and Africa with a permanent residence permit. ( A suicidal project for Europe) Franco Frattini, commissar for Justice for the EU, wants that the EU in its entirety , modifies its close strategy and allows millions of workers to come into Europe. (...) Frattini underlines that in reason of the aging of the population and its diminution during the coming decades, the EU has an urgent need for immigration." (the Frattini type globalists obviously will not propose any measure to stimulate the White birth rate in Europe! Such an idea seems to horrify them: it could offset the scheduled racial chaos organised by today's world masters).

#### ROBERT FAURISSON AT THE TEHERAN CONFERENCE

In January 1995, the French historian Eric Conan, co-author wit Henry Rousso of "Vichy, un passé qui ne passe pas", wrote that I finally was right to certify at the end of the seventieth , that the gas chamber visited in Auschwitz by millions of tourists was entirely false. According to Conan, expressing himself in a prestigious French magazine : " Tout y est faux (...) (Everything is false) . At the end of the seventieth, Robert Faurisson exploited those falsifications due to the fact that those responsible for the museum were not prepared to recognise them." E. Conan carries on; " People, like Theo Klein (would prefer that the

alleged gas chamber is left as is, but with explanations to the public for this travesty;" History is what it is; it just has to be told, even if it is not that simple, rather than to add artifice upon artifice". E. Conan then reports an incredible statement from the vice director of the National Auschwitz Museum, who is not prepared to explain to the public the fraud. He writes: " Krystina Oleksy (...) states:" For the moment, we leave it as is (this room allegedly used as a gas chamber) and we tell nothing to the visitor. It is too complicated. We will see later" (Eric Conan, "Auschwitz: la memoire du mal", "L'Express" 19-25 January 1995 p.68

Remarks: Those words from a Polish official signifies in clear: we have lied, we lie and until further notice, we will continue to lie. In 2005, I asked E. Conan, if the authorities of the National Museum at Auschwitz had published a denial or raised a protest against the words which he had in 1995 attributed to K. Oleksy. His reply was there were no denials and no protests. In 1996, this imposture and others as well were denounced by two Jewish authors, Robert Jan van Pelt and Deborah Dwork, in a book jointly written: "Auschwitz 1270 to the present", Yale University Press, 443p.. Here is a sample of the words which came under their pen; "post-war obfuscation", "additions", "deletions", "suppression", "reconstruction", "largely a post-war reconstruction", p.363, "reconstructed", "usurpation", "recreated", "four hatched opening in the roof, as if for pouring Zyklon B into the gas chamber below, were installed (after the war) p.364, "falsified", "inexact", "misinformation", "inappropriate" p.367, "falsifying" p.369. In 2001, the fictional character of this Potemkine type gas chamber was also recognised in a booklet accompanying two CD-Rom and titled: "Le Negationisme". Written by Jean-Marc Turine and Valerie Igounet, this booklet is prefaced by Simone Veil (Radio France- INA, Vincennes, Fermeaux and Associates).

#### ON REVISIONISM AND THE MODERN WORLD

EXITUS No 10, Nov. 2006

Freedom of expression according to the Human Right declaration, does not exist any more since the introduction of antirevisionist laws in most European countries. Under threat of prison, it is from now on forbidden to question the official history of WW II. The police is protecting the "truth".

#### WITCH HUNTING

LE MATIN BLEU 10.9.07 Germany. A journalist employed by the television chain NDR was sacked yesterday for defending the family policies of the Nazis. Eva Hermann, former presenter of the national televised journal "Tagesschau" (...) saw her contract annulled by the NDR chain. She recently declared to "Bild am Sonntag"; " Values like family, children and the mother's role, which were supported in the III Reich were defeated in 1968. "

(Underlining a positive aspect of national-socialism is not yet falling foul of the law, but justifies an immediate firing)

#### IMPORTED CRIMINALITY

Alarm 20.7.07:" In 2005, 70,5% of all detainees were of foreign origin. (...) As the actual proportion of foreigners is 20.7%, it signifies that foreigners are four times more likely to be prosecuted for crime than Swiss.

#### LES PERSPECTIVES OF CHAOS

Fight against alien invasion, abrogation of laws type Gayssot, these are the conditions for the salvation of Europe. This is the short term. The long time will include all measures for the preservation of the biological substance of the White peoples.
