Finanz und Wirtschaft 1.6.09 Letter from reader Max Matt: "Some years ago, an American historian wrote these words regarding European politics on immigration: "What will happen when a state— little by little or suddenly— will not be able to contain the growing flood of migrants?" This situation has been realised in Switzerland." ( And in other countries on the continent) " On the coast of Africa, more than 2 million men are waiting to penetrate Europe." As far as Western aid to Africa is concerned "we are seeing now the results: dissatisfaction, famines, lack of work, bad quality water, etc. Massive financial aid can also destroy what was formed organically over a long period of time. Money cannot solve big problems." ( Clear sighted comments from that reader. Raspail's prophecy in "The Camp of the Saints" is being realised! Development aid is a waste!)

NZZ 11.6.09 " For three nights in a row, a suburb of the French town of St. Etienne was the scene of great disturbances" . Ten cars, plus seven businesses were put to the torch. This after the death of 21 years old detained immigrant, who apparently committed suicide in his cell. Young protesters accuse the police of being responsible for his death. ( A classic scenario of racial antagonism which we will see more and more)

NZZ 25.6.09 : " An American tribunal withdraws Ed.Fagan's lawyer's Licence. Swindles and debt by the millions." ( At the time of the Jewish funds story, Fagan tried to blackmail Switzerland.)

CHRISTOPHER BLOCHER'S PROJECTS. TAGESANZEIGER CH 20.9.09 Since his ejection from the Federal Council, Blocher founded the firm "Robinvest" whose purpose is to support small businesses in difficulties. He is not optimist as regards the recession: " Swiss industry will really feel the recession this autumn , for at that time all the orders will have been executed and there are no new orders in the pipeline." (Here is a realistic commentary) NZZ 17.7.09 "In a speech in Zurich, ex-Federal Councillor Blocher promised a savage resistance to erroneous measures in family policies (...) The centre left society wants to take the children away from their family". Blocher alludes here to proposed laws which would authorise parents others than mother and father to guard children. ( A reasonable reflection. It is a pity that Blocher did not have the same lucidity in 1994 when he gave the order to accept the anti-racist law. Art, 261 bis CP = Swiss Gayssot law)

IL POPOLO D'ITALIA No 6.09 gives a full two pages (14 columns) to "Hitler's economic miracle". This newspaper goes back to 1930. The availability of cheap capital brought overproduction, unemployment, crisis. (...seven million unemployed when Hitler took over. The Wall Street crisis in 1929 marked the end of the first global financial experiment. Germany has no money, she lost her export market, but her economy will be born again. An international barter economy is being developed. A new and audacious monetary politics will allow her to realise massive public works (Autobahn) . In January 1934, the number of unemployed has fallen to 3,7 millions. In June: 2,5 millions. In 1936; 1,6 millions; in 1938 : 400 000. An important role in this was played by the MEFO effects, a mean to finance public works in a non-inflationary manner. Economists had to face it: That system functioned due to confidence in it. And when Hitler gave Schacht the title of Honorary Aryan, no distinction was more richly deserved. The predicted inflation of liberal economists did not surface. From 1932 to 1937, the cost of living index passed from 120,6 to 125,1, a bit more than four points. "Therefore the theorists (the pluto-liberal economists) could only suggest pseudo scientific explanations: Germanic natural frugality , born discipline . All that to avoid more eloquent

terms: the enthusiasm of a people mobilised for its own rebirth, freed from the profit bankers's yoke , which understood perfectly the goals sets by its leaders and which collaborated with them with energy and creativity." And Hitler put Goering in charge of a grand plan: to replace non available raw material , from which came the manufacture of artificial rubber and synthetic fuel from carbon, "patents which the US, after its victory over the Reich hastened to sequester and destroy." One question can be asked: Is it possible that the destructive wars of the Anglo American powers against Germany , but also their historical demonisation of the Reich, their permanent condemnation of the memory, had for only real and occult motives, Hitler's economic successes against the international financial system? Here is the most censored point of history. The question is taboo. We would not dare ask it here if the question did not come from a military foe of the Third Reich: British General J.F.C Fuller." ( A remarkable text from Popolo d'Italia, which we recommend to all our Italian speaking friends)

NEXUS No 62 : Jay Rockefeller, from the famous US dynasty , estimates that the Internet is a national danger No.1. There should be "an Internet 2" , more controlled in the type of information circulating". ( In other words, non controlled information are countering controlled information of the other medias, necessary to the good comportment of citizens.)

MILITANT No. 609 Editorial concerning the elections to the European Parliament: " The weak participation shows also that people are not so stupid as to think that the sacrosanct democracy give them a voice. The abstention rate, growing over the years, signifies that a growing number of people understand that democracy is just a sham, the outer wrapping of a power which reality escapes them and which is held by people and groups of people on which they have no hold." (Excellent)

MINUTE 3.6.09 – Marine Le Pen, interviewed: " The European Union has been founded on a totally specious basis and it is therefore necessary to work for the implosion of the EU. When this objective will have been reached , we will then be able, on the ruins of this machine which manufactures unemployment and destroys identities , to rebuild a Europe of nations states, independent and sovereign , which will fight together, in a voluntary manner , against the ills which they all have in common. " ( It is clear that the EU is not our Europe. Ours is formed of White people and has as a first condition, the repatriation of the Africans and Asiatics to their countries of origin. The EU is an infamous caricature.)

NZZ 27.9.09 : " Spain limits its universal justice. From now on, only cases which have some rapport with the country will be heard. " Judge Garzon, who asked the extradition of Pinochet, wanted to prosecute all the world's crimes in his role as a good globalist, notably the massacre of the Tibetans. Amnesty International and Human Rights Watch accuse Spain of bowing to the great powers ( US, China) ( In fact it is a symptomatic defeat for the globalist coalition!)

UNITED STATES – American diplomacy is becoming more and more bizarre. In a visit to Moscow on 6.7.09, Obama tried (as foreseen) to oppose Medvedev and Putin. He qualifies Putin as a "cold war man" and Mdevedev as a "profound and progressive" personality " . He also pretended to respect Russia and wanted to build a relation of equality between the two countries." LE NOUVELLISTE 6.7.9.

7.7.9 "Entente at the Summit. An accord is signed between Moscow and Washington for the reduction of nuclear weapons ". – But already there is a false note: The American vice president declares on TV "that Israel as a sovereign state has the right to decide, according to
