

## Courier du Continent No.519

NZZ 16.2.10 "Italy also has its explosive suburbs". New brawls in Milano. Violence between groups of foreigners. "During a brawl with a gang of Latino-Americans, a young Egyptian was stabbed." (the beauty of immigration)

24 HEURES 2.2.10 – Berlusconi, in visit to Israel; "I dream that one day Israel will be able to enter the EU." A false note, however: "If Berlusconi love Israel, it did not stop him, in an interview granted to the daily newspaper "Haaretz", Sunday, to call on Israel to give up its colonisation policy: "As a friend, my hand on my heart, I want to say to the people and the government of Israel that persisting in that policy is a mistake, he declared". (Berlusconi giving advice, how the times have changed!)

NZZ 24.2.10 SWITZERLAND : "The Commission against Racism demands that ethnic discrimination be explicitly forbidden even in civil law, for example in employment and location. (The useless are trying to become nuisances)

NZZ 26.2.10: "Yanukovich, elected president of the Ukraine, was sworn in on Thursday before Parliament." 4.3.10 : "Wednesday, the Ukrainian Parliament overthrew the Timoshenko cabinet. (...) The fall of Timoshenko is the last nail in the coffin of the "Orange revolution" of 2004. (it signifies the end of the control of the US on Ukraine, forced from now on to make a deal with Russia. . Georgia, Ukraine, Irak (soon Afghanistan?) , as many defeats for the US, still top superpower but on the decline.)

RIVAROL 12.2.10 –Jerome Bourbon concerning the problem of pension funds: "It is the logic of this mercantile and turbo-capitalist world; when a human being cannot work anymore, he becomes useless and a nuisance. It is therefore necessary to quietly eliminate him." ( previously, the old people had the function of transferring to their grandchildren the heritage of fairy tales. "Progress" put an end to that promptly.) Jean Marie Le Pen outlines the condition for an indispensable revolution: "reconsider massive immigration", re-establish national preference, fight against abortion and euthanasia, make taking roots prevail over nomadism. 26.2.10 : Eric Delcroix compares with reason the actual French situation with that of the "Camp of the Saints" of Jean Raspail. 5.3.10 P.P. Belestia: "Accused of the assassination in Dubai of a member of Hamas, "Israel stays faithful to its tradition of "omerta" : deny everything. Objective: say nothing which might incriminate the Mossad, just reiterate that no irrefutable proof has been presented until now." 12.3.10 : "No revolution was ever made through the ballot box. It is therefore useless to believe that national salvation will come out of popular vote. Great transformations are always the result of foreign invasion, civil war or overthrow of the state. ( capital: an unemployed man has nothing to lose; he can at last say what he thinks!) Jacques Langlois: "Incredible but true (...) The Council of Europe tells the UK to "take measures to remedy the exploitation of racism in politics" and to proceed with the dissolution of the BNP ". Kevin McDonald, professor at California State University, "defines Jews as a "strategic evolutionist group" who have over the centuries developed a verbal intelligence out of the ordinary and an ethnocentrism to which Whites have no access. (...) They have imposed two mechanisms which accelerate the biological disappearance of White majorities in Europe and America: mongrelisation and mass immigration." ( In Europe K. MacDonald would have been condemned to years in prison, one in France, three in Switzerland and 10 in Austria.)

24 HEURES 16.3.10 Denmark is tightening up on immigration", thanks to the PDD, supposedly extreme right and allied to the liberals. ( a judicious measure even if late in the day...)

ANDRE GANDILLON –" Democracy is the prison where the soul of White nations is chained"

24 HEURES 9.3.10 – The Marseille High Court has rejected yesterday a demand from the International league against Racism and anti-Semitism (Licra) which wanted to force the removal of anti-minarets posters by the party of Jean Marie Le Pen, inspired by the Swiss UDC (the wind is turning...)

HISTORISCHE TATSACHEN No 105 to 108 – 108 exercise books of 40 pages... here is a revisionist effort! Book 107 aims principally to the judicial repression of thoughts: "Those who criminalise historians who

are using normal investigation methods, this with laws, judgments or State sanctions, are acting themselves as criminals." – Example of journalistic bad faith: "The mad man of Tehran send a rocket into space." This newspaper is not condemned for "inciting the people" (...) All the other holders of atomic weapons who are sending rockets into space are normal. Why should only one of them be mad? We do not need to say it of course! – A significant declaration of Vladimir Jabotinsky (January 1934) : "But our Jewish interests require a complete destruction of Germany. Collectively and individually, the German people is a danger for us Jews."

pp. 13–14, the unlikely declarations of Elie Wiesel. Astonishing detail, "in the German version of his book, the French word "crematoire" has been translated 13 times by "Gaskammer" (gas chamber) !.– The number of Jews detained in concentration and having survived varies from 100 000 according to Frank Sterne to 600 000 according to Nahum Goldman, president of the World Jewish congress! Most probably, the number of Russian Jews has been underestimated. – Page 26: the French priest Patrick Dubois places the "holocaust" in Ukraine.

As to the victims of the Dresden bombing, the number of victims is controversial: 25 000 to 35 000 according to Gotz Bergander, between 200 and 300 000 according to Svenska Dagbladet. 300 000 to 400 000 according to other sources.

Finally, the ridiculous condemnation of Horst Mahler to 11 years of prison for opinion crime is also mentioned. The defender of Mahler, Ludwig Beck is now being accused of "holocaust" denial.

#### WILL WE BE ABLE TO EAT?

Le Nouvellist 12.3.10 The canton of Valais announces spectacular subsidies on housing for 52 mountain communes threatened by depopulation . (...) The canton pays to re-settle the mountain region. Indeed the lateral valleys with distant villages from regional centres have lost a lot of people in the second half of last century. This is due to diverse factors, the main one being the globalisation of economies which gave a knock to European agriculture, a nearly terminal knock to marginal farming, such as mountain agriculture. Some communes of the Valais are facing a frightening de-population. Others are stagnating or progressing very little.

Of course, those measures, as judicious as they may be, will not be enough. Let us first repatriate the aliens which we allowed to come in following globalist political pressures ( mainly from the US)

TOLERANCE – An unknown correspondent sent us an excellent text, where we can read: "In these times of massive immigration coming from all parts of the globe and therefore the arrival in our country of alien population, (...) our university intelligentsia and politicians only have one word in their mouth "tolerance" ! But then , for example, the good people of this country voted against the construction of minarets on its territory! The reason for this vote, in fact, had little to do with the minarets per se, but rather with a population fed-up with their submersion by new people with different customs and religions who do not worry about the sensibility of the local people to their clothing or their comportment! Immediately after the results of this vote from a people which is said to be "sovereign", was known, intellectuals and jurists of this country climbed to the ramparts to try to declare it unconstitutional, not conforming to international treaties, therefore to be annulled urgently." And to remind us: "It is a total aberration to stimulate, favouring immigration without borders"

#### TO UNDERSTAND 1945 AND THE PRESENT INTERNATIONAL CHAOS by N.C. Doyto Soas , 30 pages

"For the last 20 years or so, the democratic states have been taken over by those leftist trozkists of 1968, with the help of their banking friends, with whom they often have family ties. (...) To accelerate the degradation of the person and bring forth bestial primitivism, the actual leaders of the democratic states impose the disappearance of borders, as well as the forced mixing of populations, of people and races, which was taunted by Edmund of Rothschild in 1970 (others preceded him on this point) , in France. Then the repeal of the laws of life: "Even though we see the morphological differences between races and individuals, there exist racial differences between brains, as well on the individual plane . Many anatomists have demonstrated these as well as ethological studies."

Going to WW II , Doyto underlines the little known fact of the collaboration between Hitler and diverse Jewish organisations. He reminds us as well that a lot of Jews fought in Hitler's Wehrmacht (more than 100 000: 160 000 according to some eminently credible sources and some even in the Waffen SS (...))

Hitler detested only Jews which were worshippers of the Golden Calf, the Talmudic fanatics and financial crooks who , from August 1933, had declared war on him and his country, economic at first, but military if necessary."

#### MAGISTRATURA CRIMINALE

E. Longo denounces " the totalitarian drift of Italian justice which transformed the penal process into an instrument, not for sanctioning real crimes, but as a social control of political opposition, accusing unruly elements of macroscopically inexistent crimes (...) Which results in a sort of penal code hiding judicial illegality used by judges for repression and social control."

#### PLANETARY UPHEAVALS

The greatest irony is the self-satisfaction of our elected leaders who congratulate themselves for the increase in the Swiss population going merrily toward the 10 millions. Will it be to the detriment of future climatic refugees who see with horror the ground disappear under their too numerous feet? But since nobody seem to take the trouble of forecasting the programmed results, the planet still has some nice days before it shakes itself, breaking up and spitting its lava all around without worrying about living creatures, polluted waters or genetically modified plants following mongrelised human beings. We are the witnesses to incredible changes which will determine the fate of Gea, our Earth."

RUSSIA - 24 HEURES 15.2.10 : " Russia has no reason for not honouring the contract for the delivery to Iran of a missile system S-300, declared the adjunct secretary of the Russian security council, Vladimir Nazarov." LE NOUVELLISTE 2.3.10; " Georgia and Russia have yesterday re-opened their land borders more than three years after their closure." (Sign of détente? The Georgian state cannot count any more on American help...)

#### MUZZLE LAWS AND DEMOCRATIC TYRANNY

TORONTO STAR 27.1.209 Robert Jan Van Pelt ( expert on Auschwitz and anti-revisionist) interviewed. Question: "By leaving nature invade the site , aren't we taking the risk of forgetting what happened there and to be exposed to questions later , on the holocaust? Reply: " For 99% of what we know we do not have really any physical proofs. It is part of the knowledge which we have inherited . I do not believe that the holocaust was an exceptional event in that sense. When we, in the future, will remember the holocaust, we will do as we do with all things of the past. We will know it thanks to literature and ocular witnessing ...We will succeed very well in remembering the past in this way. It is in this way that we remember that Cesar was killed on the Ides of Mars. To classify the holocaust as a separate event and expect that it is so, would oblige us to supply further material proofs- it would be in fact as we were giving in to the revisionists, looking for some kind of proof." ( a remarkable admission. No" physical proof" , avoid giving any type of proof." On the other hand, renouncing the obligatory dogma under threat of prison signifies simply that the "holocaust" has rendered all the services possibly expected of it and that one can stop the expenses of its maintenance; which is logical in the pretext of the present US-Israel weakening."

CARLO MATTOGNO in a communicate of 3.2.10 asks the question: " Is Elie Wiesel an impostor? " That in view of the declaration of a certain Miklos Gruner , who , in Buchenwald, was a friend of Lazar and Abraham Wiesel. Elie Wiesel apparently appropriated himself the identity of Lazar Wiesel." Affair to follow.

NZZ 12.3.10 - " In Hungary, a new law was instituted with the signature of president Laszlo Solym, suppressing the negation of the holocaust. Contravention is punishable by up to 3 years prison term. (as in Switzerland) .

#### WILL THE WHITE WORLD SURVIVE?

Importance decisive of the racial factor. One admits that there are races among cats and dogs; one denies, ignores or pretends to ignore that the White race is in danger of death in the West, on parole in the US and maybe as a last reserve in Russia.
