## **NATIONALISM VERSUS INTERNATIONALISM A STRUGGLE FOR THE SOUL OF THE AMERICAN PEOPLE**

**By Mark Farrell [m.f@zoomtown.com](mailto:m.f@zoomtown.com)**

Within the past few years, there has been a growing struggle within America to return to its nationalistic roots. In more recent times, this struggle has been growing more intense, because people are becoming increasingly upset with the problems that America's neo-internationalism is causing. In opposition to nationalism, a neo-conservative cabal has worked concertedly to destroy America's borders and its sovereignty in both the Republican and Democrat administrations. They have been promoting such ideas as the North American Free Trade Agreement (NAFTA), the Central American Free Trade Agreement (CAFTA), the World Trade Organization (WTO), and the Global Agreement on Tariffs and Trade (GATT), and a host of organizations and groups that have essentially destroyed America's borders and its manufacturing base.

Amid ever-increasing unemployment and under-employment, people have begun to question the policies that have been instituted. Increasingly, more people have discovered that while we may be able to buy computers and electrical gadgets cheaper by having them produced abroad, it also increases our dependence on foreign nations. In order for an American-based company to remain solvent when competing with a foreign-based company whose goods are produced abroad at a cheaper rate, the American-based company must also move its company outside America or it must lower the wages of Americans in response. Failure to do so will cause the company to

collapse, since we cannot expect Americans to pay \$10.00 for something made in America when they could pay \$2.00 for something made elsewhere.

In another response to outsourcing companies, some companies have decided to bring in foreign workers for cheaper wages. Invariably, when this occurs, these companies discriminate against poorer European nations while typically favoring India, China, and Mexico for their (perceived) more subservient and stoic nature. (It should be pointed out that India and China both have populations that exceed 1 billion people--while Mexico has a population of 500 million--all of whom want to move here amid the 300+ million people already here.) Many of these people from China, Mexico, and India are willing to work for wages that wouldn't even repay a college loan for an American. Neither scenario is good for America--whether we outsource our companies, moving them abroad, or our labor, bringing them here. As time passes, we watch our technology-driven society become saturated with inexpensively foreign-made goods while our dependence on such becomes ever greater.

As a consequence to these half-witted economical policies that America has embraced, we as a nation produce little more than housing, fast-food, carpet, and carpet-bombs (and a host of other military goods). A nation that was once at the forefront of technology; that once produced televisions galore; that once had a thriving American-based auto industry; that once had numerous computer-making and software-making companies here; that once produced just about everything, America is now reliant on foreign-nations for nearly all goods. Even farmers are forced to hire foreign laborers to lower their costs, lest they be forced to compete against farmers from foreign lands or farmers here who do hire the foreign labor (with no fear from the government instituting a crack-down on such illegal, immoral, and anti-national affairs).

The neo-conservative cabal, whose investments are tied up in companies whose goals are simply short-term profit at the expense of this nation itself, are quick to offer any who criticize its global agenda with explanations filled with gobbledygook. While the unenlightened may believe these neo-conservatives who perpetuate their imbecilic-like logic that conflicts with reality, any person who faces the difficulty of finding a job quickly discovers that such twisted logic is fraught with big-words hiding sheer idiocy for profits. Some have also argued that foreign workers also suffer from these policies. While we should not be as concerned about a foreign government's policies as our own, it must be also recognized that there may be some merit to such talk from a humanitarian standpoint. However, the main concern is simply that there are enough problems created from these policies here that we should insist that the neo-conservative cabal's policies end.

In the future, when the reign of the aliens who manipulate our government ends, we should insist on tariffs to such an extent that it would be cheaper to make goods here than to buy abroad. We should nationalize any foreign-based companies. We should say to the hell with any foreign-trade agreements. And, we should actively

work to stop the influx of foreign-workers and employ the American people first.

In summation, only by returning to America's nationalistic nature can we hope to survive as a nation. If we choose any other path, including the one on which we currently venture as a nation, it will eventually turn America into an impoverished land, unrecognizable to its former people and filled with problems experienced only in the third-world. There is nothing wrong with being pro-nationalistic. However, there is certainly something wrong with embracing the neo-cons' asinine international policies. And the high-time is coming when those policies will be discarded in the trash-heap of history.

## YOUR NEIGHBOR, THE ANTI-SEMITE

By Yancy Ames

Many people believe that extreme anti-Jewish opinions are the consequences of bad personal experiences. That is, if you were personally screwed over by a Jew sometime in your life, you have jumped to the quite unjustified conclusion that all Jews are, therefore, bad. No doubt that sort of thing does happen, but that really is not the foundation of most anti-Jewish opinions. If one examines the ideological foundations of most anti-semites, one finds that their anti-semitism arises from an informed reading of the Jewish impression upon history. It is not infrequent to find hardened anti-semites who regularly buy from Jewish retailers because they appreciate the quality of the merchandise. Thus, the extrapolation from bad personal experiences simply does not hold up in most cases. Contrary to the stereotype most anti-semites are not ignorant, uneducated types. Far from it. A significant proportion of them have read very widely. Much of their information comes from Jewish reference works or from reputable academic studies. They are not intellectual lightweights, and they are not arguing from ignorance. It is fashionable to dismiss anti-Jewish opinions as prejudice because it avoids the necessity of rationally examining an alternative, but exceedingly well documented, interpretation of history. The anti-semite has great difficulty finding an outlet for his views. This is not surprising. A well-educated anti-semite will quickly destroy the stereotype of psychopathic prejudice if given the opportunity to present his case. That is why he is never given the opportunity. Anti-semitism does not flourish in public where it can lead to instant career destruction and social ostracism. But it flourishes behind the scenes where people can read some shocking, but very well documented facts on their computer screens. The anti-semite is not what he seems. He does not make bombs in his garage or plot to assassinate his Jewish neighbor. But he does earnestly desire to make known information of the kind which might reorient thinking minds to a problem of which most of them are only vaguely aware.

## NEW HOMELAND SECURITY "COMMISSAR" CHERTOFF IS TRUE FRIEND OF ISRAEL

"Michael Chertoff is Bush's Terrorist Task Force boss. Also Chertoff has lots of control within the FBI and pulls many of their strings. He is responsible for rounding up and eliminating all those pesky dissidents that his Jewish tribe hates so much. Chertoff is a member of a hate group. He belongs to the ADL, a Jewish political pressure group linked to organized crime, ...and it's also an unregistered agency of Israel."

## AS THE CHAINS ARE FORGED

Jewish Rep. Tom Lantos eerily hovers over George Bush, while Secretary of State Colin Powell (right) looks on. Lantos sponsored—and Bush just signed—the "Global Anti-Semitism Review Act of 2004" which Powell's State Department must obey, turning America into an enforcer of Jewish power and censorship worldwide. In effect, the United States has now become a de jure Zionist state under the authority of Israel.

## A KOSHER INQUISITION?

By Eric Thomson

[Surely Commissar Chertoff will want to aid and abet this latest atrocity against free expression.] The bandit state of Zionist Occupied Palestine wants to extradite all persons who "deny the holocaust", wherever they may live. This is a one-way program, for Israel does not permit Jews therein to be extradited to other countries. Such a deal! The U.S. State Dept. allegedly agreed to "combat anti-Semitism", as well as el presidente Bush, who denounced "anti-Semitism" in a recent speech. Since Arabs are Semites, does this mean that Bush is pro-Arab?

Orwell said that tyranny begins with the abuse of language. The Jews are the foremost abusers of language, since most of them are non-Semites or non-Arabs. The belief in a Semitic religion like Judaism, Islam or Christianity does not make anyone a Semite. Clearly, the most anti-Semitic act one can do is to kill Arabs, so who are the real "anti-Semites"? Israel and the USA. The Jews are as much "Semites" as "gays" are happy: they are not!

**THE FALLEN LION AND THE DOWNED EAGLE**  
By Yancy Ames

The English once had a "mandate" over Palestine; the United States are now being a "mandate" over the entire Middle East. Of course, the problem is not quite that simple. The English also had considerable influence in Iraq, Iran, Egypt and the Gulf states as well. They gained that position as a consequence of their victory over the Ottoman Turks in the First World War (ably assisted by their Arab ally who they sold out at war's conclusion). The U.S. are now are not gaining their position as a victor in a real world war; they are usurping it through an unprovoked attack based on the most nonsensical of excuses. Zionist influence at the time of the First World War was hidden behind the scenes. Balfour met with Weizmann in private. Today, Wolfowitz holds an official position in the Dept. of Defense. No shady deals to create a Jewish "national homeland" are any longer made; today it is simply taken for granted that America should fight Israel's wars. America's budding empire in Mesopotamia shall not last. It probably will collapse even more ignominiously than Britain's position. The fallen lion shall be followed by the fallen eagle.

**ANTI-SEMITIC BACKLASH BEGINS TO FORM IN RUSSIA: RUSSIAN PEOPLE BEGIN TO RETALIATE FOR YEARS OF OPPRESSION**

By Mark Farrell [m.f@zoomtown.com](mailto:m.f@zoomtown.com)

After decades of being under Jewish oppression, causing the deaths of 40 million innocent non-Jewish Russians during peacetime, many non-Jewish people in Russia are becoming increasingly discontented with Jewish influence. A long-held anger, which was simmering under the surface and held in check only by the former Soviet Union murdering a large portion of the Russian population, is beginning to express itself. Recently, a rally was held in Moscow, where several hundred people joined together to protest Jewish influence in Russian affairs. People openly held up signs telling Jews to leave. Shortly thereafter, some Russian teenagers expressed their discontent with Russian Jews by vandalizing a cemetery, spray-painting swastikas and the number "88" on Jewish tombstones.

Among the mainstream, while President Putin has assumed a more moderate position, he nevertheless seems to be targeting the Jewish oligarchs, such as Mr. Berezovsky and Mr. Gusinsky, to name a couple, who have been working in a concerted effort to gain control of Russia's media, just as their counterparts have done in other countries across the globe. The struggle for the soul of the Russia people is at hand, with its enemies such as Mr. Satanovsky, head of the Russian Jewish Congress, working hard to once again take Russia by the hand on the dark road to Hades. Whether it will survive Mr. Satanovsky's dark attempt to take Russia by the hand or to rise above the decadence with which it is facing is something waiting to be seen, and will forever be recorded in the Book of Fate.

## THE GREAT EARTHQUAKE AND TSUNAMI OF 2004 CATAclySMIC CHANGES ON A COSMIC SCALE By Harrell Rhome, Ed./Pub.

*"You never know when your time is coming. Like birds suddenly caught in a trap, like fish caught up in a net, we are trapped at some evil moment when we least expect it." Ecclesiastes 9:12*

### CHANGES ON ALL LEVELS

This dynamic, truly cataclysmic and epic event will be remembered as long as human history is kept and retold for a number of reasons. Many subtle changes have occurred in addition to the more apparent ones. The evidence and the results of these more delicate, yet long-lasting changes, will unfold as time (also altered!) marches on.

### CHANGES IN EARTH POSITION

Some like to call God the Prime Mover, a most appropriate name for this cosmic event. The movement of the tectonic plates was truly earth shattering. The plates were permanently moved. This tremendously powerful shift not only caused the tsunami, but also led to several other important physical changes. The axis of the earth was moved, however slightly, as the tectonic plates shifted into a new position. The last great event of this magnitude was the ultra violent Krakatoa volcanic eruption and subsequent tsunami in an area not far from the current disaster. Judging by the force of that 1883 tsunami, with its reported walls of 120+ feet of water (the 2004 tsunami was 60+ feet), we can assume that the some of the same things, or even more extreme, occurred back then. The impacted population was incredibly smaller when compared with today. Islands disappeared. Who knew? There were no seismographs, no atomic clocks, only minimal electronic communications; it took the press weeks to reach the area and weeks after that before stories really hit the papers. Other than that parts of the world sky was darkened for weeks and weeks in some instances, few people noticed any difference. Not so today.

### CHANGES IN TIME

This most unusual event also created a change, however slight, in the fabric of time. As a result, the atomic clocks, kept at key points around the globe, must be reset. Had you thought of the movement of time as irrevocable or uninterrupted? Think again. Do you think that God -- or the Prime Cause or the First Principle, or however you choose to address the matter -- do you think that God cannot directly act in history, that is, in time? If so, then perhaps you might want to re-think your hypothesis!

GOD IS EXTRAORDINARILY AND POWERFULLY MANIFESTED IN THE CYCLES OF TIME.

While not everyone will agree, this truly cataclysmic event, at least to this old scribbler, seems to prove this axiom. Think about it.

### CHANGES IN THE MAP

All geography books, maps, atlases, and globes are now forever inaccurate. The tsunami had more than the force of an atomic bomb at several locations. The earth was moved only slightly on its axis, but much more dramatically on the surface. Numerous small islands in the Bay of Bengal no longer exist. Certain towns and small cities on existing islands and coastal areas have been completely erased from the surface. Other islands, not to mention large swaths of coastal areas, have been, in many cases, drastically reshaped. As an example of the power and severity of this series of events, the entire island of Sumatra, sitting on the Burma Plate, was moved several feet. Do you feel safe and secure because you don't live near the water? Equally calamitous events can happen anywhere, anytime. Think about it.

### CHANGES IN ANIMALS AND HUMANS

While human bodies were everywhere, only a few dead animals were found, and most of these were household pets. Wild animals and other animals that spend most of their time out of doors apparently have an innate sense of warning. Domesticated animals that live closely with humans have largely lost this sense as have most humans themselves. Of course, there are exceptions, and soon we will hear reports of premonitions. And, the intuitional hunches and other forewarnings may be quite subtle. Over the past several weeks, somewhat

curiously and somewhat spontaneously, I began three different articles with severe apocalyptic, end-times themes. (See current *Revisionist Observer*, #19 for one of them.) Was this a portent? Who can really say? All I know is that I felt more than a little bit "eerie" when I began to realize what had happened. Here we enter into the realm of metaphysics and the paranormal. Humans, at least certain ones, seem to sense things. It seems thoroughly established that animals sense certain things ever more sensitively than do humans. Albert Pike, a nineteenth century mystic, hypothesized that the higher animals and humans were more alike than not, saying "In the *real* meaning of the single thought of dog, all metaphysics will be condensed." I think he was right.

*"Nation will rise against nation... and there will be great earthquakes, and in various places famines and pestilences; and there will be terrors and great signs from heaven." St. Luke 21:10-11.*

## CHANGES IN CULTURE, SOCIETY AND POLITICS

Even where human settlement was not entirely eradicated, the infrastructure is seriously and acutely damaged. As so many of the victims were children, an entire generation has been decimated. As government resources are strained to the maximum by the disaster, political opposition groups (e.g., separatists such as in Sri Lanka with the Tamil Tigers, Islamists all over the area, including those who want to create a pan-Islamic Pacific Republic from the Philippines to Southeast Asia, "rightists", "leftists", "Marxists", *et al, ad infinitum*) and other, as yet unseen, movements will manifest themselves, for better or for worse. But one thing is certain. Significant geopolitical change is on the agenda. This effect includes institutions of all types. They will be challenged more than ever before, and some, maybe more than a few, will fail. Without a doubt, all systems will change, one way or another. Full economic recovery will not come for decades. Most of the cultural and societal changes, like the irrevocable shift of the tectonic plates, are permanent, and their full impact, for better or worse, will not be known for decades.

## CHANGES IN THE AIR – EVIL ON THE RISE!

*"A voice was heard in Ramah, wailing and loud lamentation, Rachel weeping for her children; she refused to be consoled, because they were no more." St. Matthew 2:18.*

At least one third of the dead and missing are children. While the actual deaths are sad and unfortunate, what is happening to some of the survivors is even more appalling and devastating. As soon as the tsunami was over, it seems that child kidnappers were like wolves with the smell of lambs in the air. And they did what wolves always do. Curiously, the atrocities began around the same time as the Catholic observance of the Feast of the Holy Innocents, commemorating the slaughter of the young boy children by King Herod, hoping to kill the Christ Child. Evil is persistent. Kidnapped children are usually bound for the sex trade. A large portion of national income is from the tourist trade. While a large part of this is perfectly legitimate, it is no secret that Thailand is a multi-million dollar world center for sex tourism. Hence, the wolves were already on the edge of the pasture. And they did what wolves always do. This should make the world clamor for a quick crackdown with hopes of recovering at least some of the victims, but this doesn't seem to be happening. The Thai authorities surely know who the kingpins are. World intelligence agencies surely know who is behind the trafficking on the international scene. Why is nothing done? Evil is powerful and, let's face it, attractive to more than a few people. Money is power. Evil has money, and this is their time.

*"This is [their] hour and the power of darkness." St. Luke 22:53(b).*

## CHANGES IN FINANCIAL MATTERS

Some of the points under this heading are obvious, so let's focus on something about which nothing at all has been said. Not only will the reconstruction take decades and trillions of dollars, but also tens of billions of dollars will move through the relief efforts, beginning quickly after the disaster itself. In the never-ending process of electronically moving money about the globe, don't you, our dear and well-informed *Eagle Newsletter* readers, see that a window of opportunity has opened for the money-moving and the money-laundering crowd? A window of opportunity has just opened for all kinds of clandestine organizations that will take full and immediate advantage of this traffic jam on the international monetary Internet.

## CHANGE IS THE ONLY CONSTANT

So then, good readers: The only thing that is ever constant is change. Change is part of life. Life is change. Change is creation. We are creatures made in the image of the Creator God. Cosmic Creation-Changes are now in process. In the storms that always lie ahead, help us, Good Father, to find our places to stand and our roles to play. Amen.

**A CALL FOR UNITY**

All the many small groups that make up the "Vast Right Wing" will never agree on everything. Nevertheless, our total numbers could be significant and the two dictatorial parties that control our Nation would be forced to listen if we could all come together and agree to support just three issues:

(1.) End all affirmative action programs. (2.) End all incoming immigration. (3.) End all foreign aid.

These three programs affect all of us, but they especially damage white males. Affirmative Action programs are nothing more than State supported discrimination against Caucasian males. Immigration only lowers wages and makes it more difficult for every citizen to get a good job. Foreign aid costs you as higher taxes and is the root cause of our current troubles with so-called terrorists; the United States Governments support of Israel is mainly in the form of aid. Lets start a movement to support these three issues. Spread the word to everyone you know. We can disagree on all the other issues however if we all come together on these three, our numbers, voices, and votes will be heard. Lets get every group, big and small to support this and we just might get something done.

Thank you. **START THE MOVEMENT!**

I do not see any reason to trust the dollar, or to trust the euro, or the pound, or the yen, or the renminbi. All of them are political promissory notes, issued in unlimited quantities by governments that want to win elections. In the last hundred years, all the European currencies that have joined in the euro have lost between 99% and 100% of their value. The dollar has lost well over 90%, and the pound over 98%. They have not been reliable long-term stores of value, and they are not going to be in the future.

**MOSSAD ROCKED BY INTERNAL CRISIS**

Agence France Presse 12/15/04 JERUSALEM (AFP)

Israel's spy agency Mossad has been rocked to the core by an internal crisis that has seen scores of resignations over the policies of its controversial boss Meir Dagan, according to a television report. Dagan, a close associate of Israeli Prime Minister Ariel Sharon, has come under fire for launching risky operations abroad, a documentary broadcast on the private Channel 2 television said. The documentary, based on interviews with former agency officials, claimed that relations with the US C.I.A. sharply deteriorated under Dagan. More than 200 agents, including seven department heads, resigned in recent months. When Dagan, a reserve general, took over the agency in October 2002, Mossad turned its sights on international terrorism with a renewed focus on overseas commando operations. Israeli press accused him of pushing the fight against "Islamic terrorism" to the top of its priority list at the expense of its information collection and analysis.

Referring to operations abroad, the television documentary highlighted a car bomb attack in Damascus in September which killed a leading member of Hamas. Both Hamas and Syria blamed Israel for the bombing.

Dagan was Sharon's political advisor during his election campaign and previously served as an anti-terror advisor to Sharon's main political rival and former Prime Minister Benjamin Netanyahu. In 1970, Dagan ran a secret

commando unit called Rimon, which, according to press reports, summarily executed Palestinians accused of carrying out attacks in the Israeli-occupied Gaza Strip.

### BLACK BOXES FOUND AT WTC ! ?

<http://www.pnionline.com/dnblog/extra/>

WILL BUNCH, PHILA DAILY NEWS CAMPAIGN EXTRA - Two men who worked extensively in the wreckage of the World Trade Center claim they helped federal agents find three of the four "black boxes" from the jetliners that struck the towers on 9/11 - contradicting the official account. Both the independent 9/11 Commission and federal authorities continue to insist that none of the four devices - a cockpit voice recorder and flight data recorder from the two planes - were ever found in the wreckage. But New York City firefighter Nicholas DeMasi has written in a recent book -- self-published by several Ground Zero workers -- that he escorted federal agents on an all-terrain vehicle in October 2001 and helped them locate three of the four. A volunteer, Mike Bellone, whose efforts at Ground Zero have been chronicled in the New York Times and elsewhere, supports his account. Bellone said assisted DeMasi and the agents and that saw a device that resembling a "black box" in the back of the firefighter's ATV. Their story raises the question of whether there was some type of cover-up at Ground Zero. Federal aviation officials - blaming the massive devastation - have said the World Trade Center attacks seem to be the only major jetliner crashes in which the critical devices were never located. A footnote to the 9/11 Commission Report issued this summer flatly states: "The CVRs and FDRs from American 11 and United 175" - the two planes that hit the Trade Center - "were not found."

"WE HATE ISRAEL BECAUSE IT IS A ZIONIST STATE, NOT A JEWISH STATE." By Jacky Hougi 21 Dec. 04

<http://www.maarivintl.com/index.cfm?fuseaction=article&articleID=12070> "We hate Israel because it is a Zionist state, not a Jewish state. We will not go there and neither will we allow our children to go there", Sliman Jaradi, a Jew from Yemen, has said. Jaradi, who spoke to the "Ilaf" web site, said he and several hundred other Jews still living in Yemen, refused to immigrate to Israel because they believed the state had lost its Jewish character. "Israel has no religion, Torah or morals. Your daughter is no longer your daughter, your son is no longer your son, and everyone does as he pleases. This is no way to run a Jewish family", he said. According to Jaradi, the Jews in Yemen have good relations with the Moslems. "We live adjacent to them and there is no problem. God bless the president, Ali Abdullah Saleh", he noted. Jaradi added that the number of delegations who arrived in Yemen in an attempt to persuade them to come to Israel has declined in recent years. "They used to come very often, offering us money, but we refused to leave our homes", he concluded.

### YET ANOTHER REASON HITLER WAS HATED: HE ISSUED DEBT-FREE CURRENCY

By Eric Thomson

Germany's National Socialist government created their money out of nothing and paid it into existence for public works. This ended unemployment and the initial money stimulated all parts of the German economy, since the workers who were now employed, needed food, clothing, shelter and other consumer items. To avoid inflation, the initial sum was gradually withdrawn from circulation by the German's central bank, which was owned and run by the German government. That is why the jews declared war on Germany in 1933, the year Hitler was elected. In the 20<sup>th</sup> century, the only political leaders who issued debt-free money were Czar Nicholas II, Adolf Hitler and John F. Kennedy. Jew money is created out of nothing and BORROWED into existence at interest. Jew money means national debt for all nations, since every dollar is an I.O.U. to the jew-banksters, whose control over our money supply gives them control over our governments. Control by the jew minority is always deadly to the Gentile majority of any nation, as the Old Testament Egyptians learned. The U.S. Federal Reserve, Bank of England, Bank of France, etc. do not belong to the countries whose names they bear. Since 1945, there have been no nationally owned "national" banks. They are all in jew hands. Political independence is only possible with economic independence. For a people to be free, the alien banksters must go.

**THE OIL SHORTAGE AND HIGH OIL PRICES ARE TOTALLY UNNECESSARY, ANOTHER "ESTABLISHMENT" DECEPTION**

By Chet Cunningham

Author of *The Secret Empire*,

Leela Publishing. EarlnLeela2@aol.com

Today no one in the press or media, neither the politicians nor bankers, nor industrialists, no one, mentions the solution to the oil shortage, of which they all are well aware. The fact is that every nation in the world (everyone which can swing it financially and technically), except the United States, has now converted over to generating most of their electricity from nuclear power. All the European nations, even Switzerland (which has always been the envy of other European nations for their cheap, abundant hydroelectric power) have now converted over predominantly to nuclear power. But the United States, where the technique of nuclear power generation was invented and developed, is the only major nation that still relies on fossil fuels for generating most of our electricity. Because nuclear-generated electricity is so vastly cheaper, this puts the U.S. economy at a great competitive disadvantage.

The ongoing U.S. attacks against Iran for allegedly trying to build atomic bombs, ignores the fact that Iran and Russia insist that Iran only wants to build atomic power plants. Iran, one of the largest oil producers in the world, is trying to convert over to nuclear generation of electricity, because that is even cheaper than producing its own abundant oil. We were deceived into abandoning our nuclear power program by a phony propaganda campaign that spread a lot of total lies about the dangers of nuclear power generation. The farce at the Three-Mile Island nuclear plant was carefully arranged, staged and ballyhooed by the press and media to convince the American public that nuclear power plants can easily blow up in a mushroom cloud like an atom bomb. The nuclear experts all knew better, but were muzzled. President Jimmy Carter, who had been the captain of a nuclear submarine and also knew better, walked right through the crippled Three-Mile Island plant before they could stop him, demonstrating that he knew that all that mushroom-cloud nonsense was garbage. The Chernobyl explosion in the Ukraine has since been proven sabotage. It was not a nuclear explosion, but a conventional explosion that lofted radioactive material into the air. We should re-activate all those nuclear plants that were shut down many years ago.

Why did we abandon our nuclear power program in the first place? Who was behind that deception of the U.S. public? Domestic U.S. oil companies have benefited from higher oil prices. But it was the giant international oil companies that have benefited most by the seizure of Iraqi oil and designs on Iranian and other Middle Eastern Arab oil. The Israelis also benefited from armed U.S. intervention against Arab nations. It could be that the anti-nuclear-power drive was also part of the ongoing, long-range program to de-industrialize the United States.

We have a lot of material (other writers, not me) that could benefit many - if it were in Microsoft Word form. Your devoted ed/pub is only one guy, and I can't do everything. Volunteers would be edified by the material itself and be an important link in getting it in a publishable format. E-mail EagleNewsTips@aol.com for more details.

**A DEMOCRACY IS ALWAYS TEMPORARY IN NATURE...**

In 1787, Alexander Tyler, a Scottish history professor at the University of Edinburgh, had this to say about "The Fall of The Athenian Republic" some 2,000 years prior.

A democracy is always temporary in nature; it simply cannot exist as a permanent form of government. A democracy will continue to exist up until the time that voters discover that they can vote themselves generous gifts from the public treasury. From that moment on, the majority always votes for the candidates who promise the most benefits from the public treasury, with the result that every democracy will finally collapse due to loose fiscal policy, (which is) always followed by a dictatorship. ... The average age of the world's greatest civilizations from the beginning of history has been about 200 years. During those 200 years, these nations always progressed through the following sequence:

- \* From Bondage to spiritual faith;
- \* From spiritual faith to great courage;
- \* From courage to liberty;
- \* From liberty to abundance;
- \* From abundance to complacency;
- \* From complacency to apathy;
- \* From apathy to dependence;
- \* From dependence back into bondage.
