The White Race...

...down but not out!

And much more!

Alex Linder, Editor & Publisher

Reaction to last issue (#2)

Editor's note: Twenty thousand copies of TAA #2 were printed and distributed nationwide in spring 2005. They garnered media coverage from Iowa to North Carolina to Florida to pretty much everywhere TAAs hit hands and driveways. Our editor and distribution manager conducted a couple dozen interviews between them. As ever, the coverage was widespread but uniform. Those who resist the jew's agenda are always described as haters and anti-Semites -- even if they give their sons for Israel, as did Mrs. Sheehan, right. We did manage to shame a couple reporters into easing up a bit. One even printed one of our

standard comebacks, when asked why we employ the term 'nigger.' But in general -- and that "general" being closer to 100% than 99% -- so cynical and conformist is our "free press" that we were literally never asked once about TAA content. All these horrible, awful atrocities committed against innocent white women and

men by vicious coloreds -- not the slightest bit of interest on the part of the controlled media. All the reporters want to know was who committed the *real* atrocity -- **distributing this paper**. Who did it? How many papers? Are we part of an evil group of terrorists plotting world revolution?

The so-called mainstream media do not care a fig for white lives. The MSM, the controlled media, the Big Jew papers and networks -- however you want to put it -- they don't give a damn. The mess in New Orleans is merely an exaggerated example of what goes on daily in America:

-- niggers go on violent rampages against civilized Whites and the society they built, even though that society affords them access to infrastructure they couldn't come within a mile of creating for themselves in Africa, where blow-darts pass for high tech

-- media controlled by jews cover up that eternal rampage and blame whites for "racism" and their uniquely evil "legacy of oppression" of coloreds

If you're white, you can't win. The media jew you coming and going. No matter what happens, the media will not depart from The Agenda. And that means demonizing us Whites as a group until such time as we lose all ability to recognize that we are a **unique race of people with interests worth defending**. And that is why this editor has decided to refrain from answering any questions about TAA#3 that do not address the **content** of our stories. If you're calling for information about the crimes and other stories reported here, then I'll speak to you till the cows come home. Otherwise, just hit print and run the template. You always do. Hell, if you didn't, TAA wouldn't exist. *We wouldn't need to*. Until then, we'll be here, gentle reader, giving you the highly unpleasant but essential facts about your world -- and how it came to be that way.

This issue we think is chock full of beheady goodness, so to misspeak. In addition to a very small sample from a very large platter of horribly grisly hush crimes -- compiled by our indefatigable reporter Craig Cobb -- we've got stories about, oh, so many things. We've got an interview with Byron Jost, whose first film (reviewed herein), "The Line in the Sand," is out, documenting the Mexican invasion and the Minutemen's brave response, down on our southern border. We have a piece documenting the incredibly high percentage of jews among top-ten law faculty -- slightly over 50%,

as best we can tell. We've got a review of the paranoid Phil Roth novel fantasizing about TAA types taking over America (i.e., keeping America as it used to be - civilized). We have movie reviews of " Fargo " -- two jews' Midwest mincing -- and "Of Unknown Origin," an older flick you may not have heard of, but verminically correct, by TAA's way of thinking. What else? A piece on the NFL, and its discrimination

against Whites at cornerback, tailback, and even quarterback. Stuff you'll never hear the jews and pious namby-pambies at ESPN discuss. "But really, Boomer. Why elabo-

rate to defenses? That nigger QB can't read at all!" There's another long and highly interesting article by John Allington discussing "The Useless White Male" that I think you college students in particular will find highly interesting. Many people will discover only in their thirties the truths about our feminized legal system he describes. So far from oppressing women, the current system elevates them over men in every possible way. That is no exaggeration, and it's not to the ultimate advantage of you white women reading this any more than to the male. What else? Well, in addition to our phat-phun photo essay on Katrina as nigger performance reaction, we've got tidbits for our Christian readers. Does your bought pastor, your purchased priest, tell you God and Right Thinkers side with Israel? You'll think again when you read what we report. Sinner, repent before you too lose your son and your mind whoring after tiny, sick, vicious Israel. Because it's not just Iraq. As our own William Henry shows, 600 million white men owe their **non-existence** to the war-mongering jew. And that, as Mrs. Sheehan above can tell you, is no laughing matter. -- A. Linder

Notes: Shortly before we went to press in October, our old friend Karen Aroesty and the criminal racket called 'ADL' launched a smear campaign against us in Kirksville. It was kicked off by one Julie Lochbaum, *geb.* Magruder, the name of the recently retired TSU president. The ex-prez's daughter circulated an email lying that we have advocated killing Catholics, and pondering the economic horror that lay in store if the 27% of Truman that is Catholic caught wind. We fired off a letter denouncing her libel, and set up special Kirksville subsection on our forum, the main moderator of which happens to be a Catholic traditionalist. Looks like a battle royal in the offing. Suffice it to say, the facts about the mafia-partnering, pedophile-supporting, pornographer-awarding, cop-bribing, spy agency and unregistered foreign lobby misnomered ADL are not widely known in Kirksville. But they will be - as soon as TAA#3 hits the streets. If not you, who, reader? If not now, when? **Join us!**

"[T]he two races, equally free, cannot live in the same government." -- Thomas Jefferson

Hush Crime HORROR

Bound, shot twice in head.

Felt sorry for strangler "Shantez."

Left rotting in ravine by Rodriguez.

IMAGINE, White reader, that you lived in a place in which 65% of the people around you had exquisite possessions, marvelous, mysterious

electronic devices, complex vehicles in which to travel, and IQs ranging from 170 to 270...and that you, by comparison, were a mental Lilliputian in this land of Brobdingnagian genius. This is the colored man's "plight" in White society. Think of it next time you hear someone whine about institutional racism.

It is a priceless advantage to live among civilized Whites, but the black man and the brown man and the jew don't appreciate that. Instead, they repay our generosity with assaults, rapes, murders, and lies -- and endless complaints that we treat them unfairly. Just read the following tales of terror and absorb the lesson: the things the coloreds do to us are hair-raisingly horrible -- and deliberately kept from us by the jews producing the media. And that is why this paper exists.

Yes, every tv show and every newspaper you read, except this one, is produced by a -stein or edited by a -berg. That is why it is highly unlikely you will have heard of any of the following hush crimes -- even if they occurred but a few blocks from where you live.

If the hush crimes coloreds commit were widely reported, White people would revolt. They would demand at a minimum the freedom of association that used to allow them to protect their communities by segregation (think of the giant Wall of Segregation Israel built) -- a Constitutional freedom destroyed by jews in the sixties in the name of "civil rights." Yes, jews are like that: **one standard for jews in Israel, another standard for Whites in America.** They are destroyers who call themselves liberators.

Just imagine how angry and sad and confused you'd be if one of these women were your mother or girlfriend or daughter. Somebody feels that impotent rage every single day of the year, as one of his loved ones meets death or rape at the hands of an African loose in America. This paper's existence is testament to the fact that more and more White men are losing their fear of Semitical

The Ones They Never Tell You About...

by Craig Cobb

Correctness, and joining forces to deal with Big Jew who made these horrible **hush crimes** not merely possible but inevitable. "Inevitable"? What do we mean by that? Simply this: The nature of blacks is known. Jews knew, when they loosed Africans in the name of "civil rights," that crimes like the ones below would be committed. The scary truth is: **they wanted these crimes to be committed. These crimes weaken the White race, and the jew perceives the White race as competition.** That is why jews don't ever mention hush crimes in their papers, they just keep up the long-running charade that "diversity is our greatest strength."

The fact is, the blacks took a very different evolutionary path than Whites. Blacks are more violent than Whites because they have higher levels of testosterone. They are

Civil rights = dead Whites

dumber because they have smaller brains. Their average IQ, in Africa, borders on retarded -- 70 to our 100. That, and no other reason, is why Africa never developed. You can't say it on tv or in papers, of course, but the fact is known among academicians who study the stuff.

What does this mean to you? Simply that blacks will never be able to produce the good things Whites enjoy, and living around us leaves them eternally jealous. Their chemical-driven aggression, combined with their low-IQ-driven impulsiveness, means they will simply take what you have and kill you. Crude, blunt, simple -- that's how nature works. What do they want? They want your gold and your women. Not just want your gold and women... They're here to definitively, **boldly**, and with jewish backing, to tell you that **THEY ARE GOING TO TAKE THEM!** Now for the crimes...

Twenty-one-year-old White beauty and English major **Kayla Hurst** was murdered along with two other Whites when orangutan Vernon Lorenzo

Spence burst into her workplace, tied everyone up with stereo wires, and shot them in the BACKS of their heads. They say, because light is faster than sound, that you SEE the burst of dissolution -- rather like a child's kaleidoscope -- without even hearing or feeling. That's exactly what Whites in America can look forward to, just as their coracialsists have enjoyed lately in South Africa, which boasts world-record rape and murder rates since becoming a black democracy.

Bob Hlass, father of 22-year-old victim **Erik Hlass**, who was annihilated along with Kayla, wrote a letter to jailhouse bootlip Spence that spat a vindictive venom rarely seen in the post-civil rights' era: "How I wish I could get a hold of you and kick your (expletive) to a bloody pulp, before I ram my shotgun down your chicken-

Hurst

(expletive) throat and pull the trigger." Then Bob Hlass told the judge he had no regrets for having written the messages. (*The Aryan Alternative* apologizes for the chicken MSM (mainstream media)-redacted quotations and is tempted to insert "expletives" of our own.)

manimal

Proud nigger murderer of three humans, Vernon Spence (left), gets only a life sentence because Whites are third-class "citizens" in jewed-out AmeriKwa, (whose culture is created with malice aforesaid by our Zionist Occupational Government), their lives expendable and of no consequence when they conflict with jewish social engineering. There are millions more Spences out there, believe us.

The Aryan Alternative asks you, White reader:

Is your daughter next?

The answer is yes, if you're Mr. **Tharp. Marissa Tharp** [last page, top middle] of Davenport, Iowa, was just 20 years old when she was found abused, stiff, and strangled in a trailer. The accused, one Shantez Hairston, 25, was an ex-con who drove around White college campuses in his Caddy. Marissa is said to have been "involved" with him, though her father, after she was killed, denied it. If you read TAA #2, you learned of young Cassandra Arnold, a girl whose natural maternal interests had been twisted via dominant-culture telepromptings. Same thing happened to Marissa. She had wanted to study forensic science. Her friend said she "felt sorry" for Shantez. His name was originally misreported in the press as "Shauntez", which he had supposedly truncated to "Shaun." Why do so many non-Whites employ half a dozen aliases? Makes it easier to elude police!

Marissa Tharp found her mistake and lost her life. So the mantra might be not only, "Once you go black, we DON'T WANT you back, but, "Once you go black, there's a good chance **YOU WON'T EVEN GET BACK!**"

Artistic, happy, blonde **Dru Sjodin** was on her way to her second job when she was kidnapped out of a Grand Forks, N.D., parking lot. An illegal shitskin invader named Rodriguez had been surveilling her where she worked, at Victoria's Secret in the mall.

diversity came for Dru...

Victoria's Secret is an international company owned by jew Les Wexner, one of the world's 200 wealthiest people. Oftentimes, when an employee is murdered in circumstances involving his workplace, corporations issue statements of grief, or even fund a trust in the victim's name. Despite searching exhaustively online, *The Aryan Alternative* has discovered no help or sympathy extended from Les Wexner and his retail chain to the family of White ingenue Dru Sjodin. Just another *shiksa*.

On the other hand, Les Wexner (right) has a profound interest in and financial commitment to EMET ("truth" in Hebrew), a Zionist hate group of which he is a board member. EMET was founded A MONTH BEFORE 9/11, dedicated to countering "the larger geo-strategic threat posed to the United States and the West by Iran and Iraq." Jew Bernie Marcus [right], founder of Home Depot, is another Zionist on EMET's board. Meanwhile, EMET has morphed into "The Foundation for the Defense of Democracies." Home Depot is known for giving money to build shelters for day laborers -- illegal invaders just like Mr. Rodriguez above -- guys who just come here to work...and to rape/torture/murder our women. Thanks, jew Marcus. We owe you one.

Chunt(ar) Alfonso Rodriguez Jr., the killer of Dru Sjodin, had previously spent 23 years in prison term for stabbing and raping one woman and raping a second. The despicable Mexican claimed he'd been watching "Once Upon A Time In Mexico" (cops said it wasn't playing) at a nearby theater when Dru disappeared. Dru's bloody DNA on the mudman's garage floor proved his guilt.

Rodriguez' indictment says Sjodin was killed "in an especially heinous, cruel and depraved manner." Her relatives must live with that horror for the rest of their lives. Because Bush won't control the border, because his Jewish

friends need our troops in Iraq, Dru had to be raped and butchered. She paid the price for our turning over our government to the jews - the ONLY GROUP that pushed for the rewriting of the immigration laws that before 1965 kept our nation clean of Rodriguezes. What gets stronger by adding 35 million Mexicans, as we have since jews overturned our immigration law back in 1965? Certainly not the U.S.: just ask Dru's mangled corpse. Not even Mexico would disagree. Mexico believes it gets stronger by flushing biped refuse like Rodriguez -- and it is right. That is why Vince Fox and his gangbangers yowl so loud whenever one of our gelded pols makes a feint at border enforcement.... Ah well, it was Dru, not you. So why worry? It probably won't be you who gets raped, tortured, and murdered tomorrow. It probably won't be. But the probabilities shade against you daily, because each time the sun sinks another unknown thousand Mexicans slips, slides, stinks, and scurries its way north over the border, soon to begin dirtying a town real near you. As the sun comes up, maybe one of them just like Rodriguez looks in a shop and sees your teenage daughter. Who knows?

Brittany Binger was attacked from behind. Choked and raped. The coat (mestizo genetic messes coat on cologne instead of showering) who sodomized this child and smothered her to death later fled to a bar. A bloodhound named Patton took his handler straight to the place, and stopped at the spot where the thing had sat. The thing turned out to be a Salvadoran named Martinez, who used to proposition girls in the bar by waving at them, pursing his lips, and motioning them to sit right by him. Yeah, they're "just like us."

Brittany was a kid high-school dropout, daughter of a cat driver and a mini-mart clerk. A lot like the kids fighting for Eretz Israel in Iraq. Just the type of white El Presidente Boosh uses and secretly holds in contempt...else why doesn't he sign up his own two carousing party whores to defend that all-important democracy in Iraq?

Brittany was found on her back, her t-shirt hiked up, her jeans yanked down, arms out posed in a crucifix position. She got the thing's DNA under her nails. Thanks, Jooz! For precious field rat Martinez, and all the rest of the scum you have wheedled and bitched... and nasally moaned for, and CONNIVED in here based on your Big Lie that America is a nation of seamy grunts. America was founded by Whites, for Whites. Blacks were slaves and Mexicans were shot on sight. Jews changed immigration law to murder America, just the way Brittany Binger was murdered. Jews have always harbored a passionate hatred

for Normal White Americans and they enjoy seeing them murdered by the invading Mexicans they prevent our border patrol from stopping. As we say, kikes like grubby Bernie [left] even pay money to set up shelters for invading murderers and rapists like Martinez and Rodriguez. You'll notice it's never Jewish girls who pay the price. It's girls just like your daughter, White reader. And when the inevitable and the intended finally occur, your local newspaper will barely cover it, and the AP will see that no one outside a twelve-foot radius ever hears about it. **WHAT IF AMERICA WERE CONTROLLED BY AMERICANS?** Time after time polls have shown we don't want rapist Rodriguez and murderer Martinez in this country. Just as many times the jews, through their papers and their courts and their bought politicians, have prevented the popular will from carrying. The day is coming when jews will hang from lampposts. They murdered our country; they deserve the punishment merited traditionally bring.

Christian co-conspirator ENABLERS of the jews murdering our nation have some nerve to bray down TAA as "hate" because it brings the honest white man the news he needs to protect his family. Whereas their homosexual or leftist preachers brainwash them that all we need to cure

our race problem is another chorus of "Jesus loves the little children of the world." TAA asks: When did Christianity become a white-racial suicide pact? It is downright childish perversity to suppose that factually substantiated claims can be addressed by smearing the messen-

jews helped it prey on Higgins...

gers as morally evil or medically sick.

Too many Christians have lost the will to defend themselves, and the invaders know it. They know at worst, after one of their successful hunts, some fag priest will lead a candlelight vigil, and prate about the tragedy of it all. What the priest or preacher won't do is what we've done here: explain in specific terms why these animals roam free, and why they behave the way they do, and why the papers won't mention it, and why the laws are jew-rigged against your protecting your family. As we always say at TAA, **NO WAY OUT BUT THROUGH THE JEWS.**

Laura Higgins, 28, was shot in the back at the warehouse where she worked by shitskin Lamar Baskins Jr. Laura's niece said of the black demon: "It's sickening, it really is, because he was in jail before and he should have stayed there." Where have we heard that before? *With every other mud-flood criminal on the page...* If the government cared about white lives, it wouldn't uncage niggers and admit Mexicans who have proved time after time that crime is what they do, what they are -- their life. Whether genocidal self-interest or delusional utopianism, the government's attempt to coerce integration is literally killing us as individuals and as a race. Diversity is just a code word for "let's get rid of white people and force them to celebrate their own genocide."

Authorities say j-bunny Baskins is responsible for murdering, robbing and raping at least eight other people. But he has not been charged with those crimes. Some "authorities" we have lorded over us! China saves expenses and exacts order from criminal defectives with single .45-caliber bullets to the head. That is just what this ape deserves.

Finally, this issue, (much more in #4), we have **Tonia Vandervliet**, who got 'sexed,' as the coons say, by an HIV+ boogaboo. "Sometimes this medicine is used for other things I've heard. [S]o at first I wasn't too scared." Yeah, that's right Tonia -- maybe it's yohimbe bark that he uses, the better to cut a rug to Piddly/Diddly/Doodly, whatever it 'represents' by these days. Vandervliet continues: "I was just concerned because he told me he was from Huron, and I asked him if he'd been with anybody in Huron and he said he hasn't (sic) and he did a bunch of tests in the prison, and they all came up negative."

Niggers like to go to places like S.D., Iowa, Minnesota, and Wisconsin to feast on naive Nordics. The jews who produce the MTV young white girls watch most teach them these 'groids are the coolest. They never mention the AIDS they carry. If you want to label people haters, the jews who produce MTV, who expose white girls to AIDS, sure seem deserving. Not us for telling you what they're up to. Choose White, girls -- it could save your life.

FACT: "AIDS affects nearly seven times more African Americans and three times more Hispanics than whites." (Centers for Disease Control) As though an evil racist disease deliberately targets innocent darkies... Correctly put: An African population notorious for its, by white standards, complete lack of self-control spreads AIDS like never before! **Have sex with a black man? You're taking your life into your hands, because more than one in fifty niggers has AIDS.** The jews at MTV who encourage white girls to play the darky death lottery deserve execution.

Disasters Natural and Man Made

White man takes advantage of chaos to steal valuable bird. White people are like that. We must abolish them.

Not all New Orleans cops deserted. This brother be gettin' his "Scarface" on. Jigaboo-yah!

Cases of beer make their way north to freedom, collecting a hood(-rat) ornament in the process!

Cops said the only unmolested store on Canal Street was a Barnes & Noble.

Only now recede the floodwaters, and the NYC jewmedia with them. In their wake lie septic scenes of Africans in America that the most melodious whines of Sharpton, girlish meltdowns of Geraldo, and pseudo-scientific sophistries of Semitic sociologists cannot erase: Africans looting. Africans shooting. Africans whining. Africans blaming. Africans raping. Africans killing. Africans stealing, cussing, crying, jeering, shrieking, squirting, stinking, laziness, lying, excreting. Everything foul, fetid and feral was compact in the Velcro dome those stinking, inky nights. A moaning, groaning, sweating mob of subhumanity writhed before the camera, hammering into the world's ear-bones the eternal truth that it is **race, not place**, that matters. For these, and no mistake, were Congoids in America, the heart of darkness ticking away in the heartland. Even the liberals shuddered, barely stuttering out their "p-p-poverty" explain-all, and well you can believe more than a few swore off their leftist lunacy and jumped back on the sanity wagon.

Katrina flashed whites an eternal truth: 'African-American' is pretty for 'jungle savage.' The question is: *why do we pretend it is otherwise?* The answer is: *we don't. We normal whites move away from these jungle creatures whenever we can. But the murderous hands of government, guided by Big Jew, again and again push us back in with the savages. And that, my friend, is genocide by integration - a man-made disaster far worse than any natural.* For as Thomas Jefferson knew, and the hurricane bore out for the thousandth time, "the two races, equally free, cannot live in the same government." That this thought is at once obvious and unspeakable, outside The Aryan Alternative, bespeaks our true condition, white reader: we are the slaves of lying tyrants who mean to mix us with New Orleans niggers until we are erased from the face of the earth.

Katrina and her reporting reveal a country divided into three groups: savages, Americans, and the class that controls our media-government and cranks its fog machine until we can't see one from the other. Diversity? Katrina showed it's our undoing. The minute the grid goes down, the 'groid pops up, and the souls of the races are revealed: whites whip up home-made order as easily as grandma makes cookies; blacks leap into murderous disorder as readily as hip-hoppers grab krotches.

Anyone with the slightest knowledge of demographics could only watch the playing field after this giant storm and shudder for the future of the white race, knowing that negroes like those depicted here make up a larger portion of our population each year. Not to mention the daily Katrina of Mexicans and other Third-Worlders flooding over our borders like Lake Ponchartrain over government-spec levees.

What a sorry figure New Orleans negroes cut, making Big Jew's voiceovers as ineffective as a bald man's comb-over. Some stranded themselves on roofs, looking like nothing so much as obese jet sea lions in San Francisco harbor, barking nearly as intelligently. Others, displaying a celerity more appropriate to evading the storm -- and an initiative that only seems to come over them when the power is out -- took advantage of their 'liberation' to wade-invaide white retail stores and seize Nikes and plasma TVs and drugs and grape soda and cartons of Kools and other nog-essentials. All Katrina did -- in New Orleans; her destruction of civilized white areas having gone 99% jew-media-unreported, as there was nothing political to gain by it -- was flood and batter a city nasty niggers long ago made unlivable. Katrina merely threw a quick and over-comeable natural disaster atop a jew-made, decades-long unnatural disaster. America, meaning the posterity Jefferson and the Founders formed our Constitution to protect, could survive infinite natural disasters on the scale of Katrina. It cannot survive racial integration, a man-made unnatural disaster far worse than anything wind and water can wreak.

-- Alex Linder

Niggers caught trying to snort/rape white lines... Don't mess with Texas -- not even in Louisiana, "dogs"!

Two kinds of natural disaster. Which is worse? Yep. We think so, too.

We joke, but in the end it's on us. Because the foolish salvage operation above only paves the way for...

...this: the neverending horror of life in an Afro-contaminated society.

Experts speak on Katrina

TAA sought out several prominent primatologists to comment on the post-Katrina spectacle.

Irwin McCutcheon, San Diego Zoo's resident bonobo expert, asked: *Do you remember Brian Nichols? Who killed the whites in the Atlanta courthouse? He said, "My people have been through a lot." [snorts] What the "%&%\$ have niggers had to go through? They are the laziest, stupidest people on the planet. They get free rent, free food, free medical care, they stuff as much food into their bloated bodies as they can, and all they do is fornicate and pump out hordes of illegitimate children who will live the rest of their lives on the white man's tax money. They are like a biblical plague. We were a tad taken back by his ferocious racism, and just plain surprised at his reckless (this is America, remember) outspokenness. Next we turned to **Brian Stockton**, an eminent howlerologist with the Save the Simians! campaign in Cleveland: *Let me guess, an obese nigger woman will eat some week-old meat with E-coli that she looted from a grocery store. She will get sick and then find a Jew attorney to sue the store.* This was gross anti-semitism at its cynicalest. After shaking our head, and dabbing our eyes at all the hate still -- still! -- out there in 2005, we dialed up **Burt Burton**, house gibbonographer with the Smokeytown Great Apes Preserve located somewhere in Houston, who read from his Katrina journal: *A "pall of smoke" rises from fires all over New Orleans as the pillaging of the destroyed metropolis commences in earnest ... throngs of opportunistic hominidus lootens begin the mass rape and looting of the hapless flooded city and its trapped citizenry as the Federal and Louisiana state governments are unable to do anything to stop it... We all truly are just one day from living in the stone age in Jewish-led 2005 America, may our racial gods protect those of us whites in harm's way. Oy weh, say we.**

Goyfire Big Hit on Podcast Circuit

Podcasting offers access to original and interesting radio. You can sign up for automatic feeds from independent producers operating outside the controlled judeo-corporate format, whether it's alternative music or politics you seek.

One guy who saw the possibilities early was Adam Curry, former VJ with MTV in the eighties. Curry runs a popular podcasting directory that recently received \$9 million in venture-capitalist backing. Before he gave in to Jewish pressure, his directory listed VNN's own show, *Goyfire*. This made the usual hebraic free-speech haters apoplectic, and after a couple weeks of their traditional Jewish smears-and-whispers campaign, Curry gave in. Although not sympathetic to white politics, Curry's first instinct, like many Aryans and unlike most Jews, was not to censor, but to allow users of his directory to make their own decisions about what shows they wanted to listen to. Fifty-nine of the 60 emails he received on the subject agreed with that position, he said. It is only Jewish control of our mindset that makes free speech seem an "extremist" proposition these days. Curry mentions *Goyfire* and the brouhaha it stirred on his daily podcast: <http://mp3.dailysourcecode.podcast.com/DSC-244-2005-09-22.mp3>.

On his web forum, Curry said: "I've been following this thread [debating *Goyfire*] with great interest, it does not at all track with the emails I've been receiving about the topic, which is notable." His caving means that yet again a tiny, hate-filled Jewish minority is allowed to prevail over the wishes of the vast majority of Aryans. But there are other podcast directories out there, and one day VNN will have its own. Mexican = Infectsican

When the Third World Becomes Your World

Illegal Aliens Carry Dread Diseases Long Dead in White West

In much of the Third World -- Mexico, for example -- toilet paper can't be flushed because the sewage system can't handle it. Instead, it is thrown in an open box, attracting flies and roaches. In addition, few Third Worlders wash their hands after using the lavatory. Crossing the Rio Grande does not magically change invaders' hygiene, no matter what 'diversity' liars pretend.

Whether they work at the counter or in back chopping tomatoes, these illegals may well be infecting your food and/or airwaves -- potentially killing you. Literally millions of the 40 million invaders who have made it to our shores in the post-1965 era carry one or multiple of the following: head lice, leprosy, tuberculosis, hepatitis A, B, or C. Pay attention to the news, read between the lines, and you'll begin to see that our elite's deliberate mixing of U.S. and Third World exacts a huge cost in natives' health. "Our" government infects its own to create a New World Order that nobody ever voted for! How delightfully "democratic"!

An estimated 1-2 million illegal aliens cross America's southern borders each year. Not one of these invaders is screened for health. Not one is vaccinated upon entrance.

Who is at risk? You, your family, and your community. **Let's face it: in 2005, these illegal invaders are everywhere. So are the germs they carry with them.**

School children in particular bear the brunt of our border takedown. Daily contact with an estimated three million illegal alien school children is many white kids' lot. While your white family is taxed to provide court translators for these invaders, and ESL tutors for their children, who is checking to make sure these criminals aren't infecting your child? -- and with some disease so obscure your American pediatrician has never come across it before? (No joke - this actually happens.)

"I bus plates"

What kind of diseases are invader nits and their parents spreading?

Tuberculosis -- All but eradicated in the U.S. ten years ago, TB popped up in 2004 in a school in Sebawaing, Michigan. A reported 30 children and four teachers tested positive. Michigan supports a large Latin illegal-alien population that migrated from Mexico in recent years. Over the past five years, roughly 20,000 cases of multi-drug-resistant (MDR) TB have been recorded in the U.S.. MDR TB, formerly endemic ONLY to Mexico, crossed the border inside the bodies of illegal aliens. It is a safe bet that carriers and their children exist in every state in the continental U.S. Remember too that TB is spread through the air. You don't have to have sex with a carrier to contract it, you merely have to breathe around one. "Our" government says, "diversity is our greatest strength." TAA says, "Hold your nose!"

Another TB outbreak infected eight police officers in Austin, Minnesota. A third occurred in Portland, Maine, with 28 positives. Not California, Texas, or Florida, but *Minnesota and Maine* -- as far north as you can get. Invaders and their frightening diseases are *everywhere*.

On November 6, 2003, at a Chi-Chi's in Beaver Valley, Pennsylvania, unscreened employees 'served' up plates of infectious **hepatitis A** to their patrons. **Over 3,000 had to receive the painful gammaglobulin shots, while two Americans died.** Health officials reported: "Workers may have contaminated food by failure to follow basic hygiene in cleaning hands after using the bathroom." They may be in America, but they aren't Americans, no matter what our Zionist Occupational Government (ZOG) says.

Another distressing disease, **leprosy**, feared since Biblical times, produced under a thousand U.S. cases over the second half of the 20th century. Already in the 21st, reports the *New York Times*, leprosy has **infected nearly 10,000 people in the United States**. It is brought in by

illegals from India, Brazil, Mexico and the Caribbean, who spread it via their jobs in hotels and restaurants. *Quite a price to pay for low-wage labor!*

If you think it doesn't get worse than leprosy, try **Chagas**

Disease, which comes from Mexico and Latin America where it infects over 18,000,000 people. Chagas is horror-film nasty. Its T-Cruzi protozoan destroys heart tissue and other organs, to put it blandly. Think "Alien" the movie, and check out the picture to the right. "One can contract it by eating uncooked food contaminated with infective feces of the Vinchuca Bug. It crosses over the border in the bodies of an average of 2,200 illegal aliens daily. Pleasant dreams! Don't let the Vinch bug shite!

Whether it's **Dengue Fever**, now in Florida, **Hemorrhagic Fever** coming up from Texas border towns or **E-coli** intestinal parasites arriving with illegal aliens from Mexico last night, **every American citizen is threatened by a very real biological terrorism, courtesy of a government that deliberately took down the border.**

Homeland Security presents Americans with childish, color-coded alerts, whipping up fear of a imaginary foe in Southwestern Asia to keep the fodder frenzied, but so far from protecting the people from real invaders bearing real diseases that infect and kill real Americans, the government -- we repeat again, because it cannot be repeated too often -- *encourages* the infectious invasion! **The government is at war with the people.** The government is not overlooking anything. It is not incompetent to close the borders. It is *deliberately leaving the border open to invasion* -- and the above health costs are but one of a thousand miserable burdens American whites must bear as a result. Is "our" government illegitimate? The question answers itself. **YES. Any government that encourages, helps, and aids criminal invaders carrying Chagas and leprosy and drug-resistant TB to mix among its people has forfeited its right to exist.**

Mexcrement happens

Make-sick-o

"Say, TAA: Why are all these Mexicans here in the first place?" We're glad you asked. The answer is simple. Jews think it in their interest. They hate and fear Normal White America, and seek to 'elect a new people' by open immigration. This 'wonderful diversity' infects and endangers you? They don't care. "Good for Jews," itz. All that matters. See also: Iraq war.

First feature-length documentary about our Southern border

The Line in the Sand

Review: 'The Line in the Sand,' from October Sun Films

by Mark Farrell

This movie is undoubtedly the most controversial ever made about America's open borders, and deserves to be watched by anyone even remotely concerned about how America's policies are leading to the complete decline of Western civilization. "The Line in the Sand" tells the story of the destruction of our borders, and how it occurred.

Many people are interviewed, including a Congressman, a professor, and a pro-American activist, along with everyday citizens. You feel like you're sitting there with them, listening to their problems -- our problems -- brought on by decades of alien invasion. It's hard not to feel emotional when watching this -- from angry to sad to disgusted, as the people describe what has become of our border. For any meaningful purpose, it really doesn't exist anymore. And hardly anyone in our American government seems to care.

You're taken out to the desert. A woman points to a tree, and speaks of what used to be: "Once upon a time, you could bring your children out to this tree, which had a swing on it. And your children could enjoy swinging on it. But look at that: it's human shit and toilet paper. Who knows what kind of diseases this could have?" The physical integrity, let alone beauty, of the area has been destroyed by the constant flow of illegals.

People talk about how a Mexican was to come across a dozen times or more before he's even charged with a misdemeanor. One gentleman said it has been estimated that there are about 80,000 illegal aliens who are known criminals who have been deported and returned. Many of these aliens are child molesters from Mexico. The media scarcely bother about them more than the government, and a brief local story is all you get when your son or daughter is ruined by someone who doesn't belong here.

The movie shows people who care -- Minutemen; ordinary citizens -- taking a walk along the border. They point out the garbage: pornographic cartoons of Mexican men having sex with white women; jeans; bras; food containers; diapers; tampons. Anything you could imagine is there, strewn across the land, polluting the desert.

One man talks about a Mexican drug-runner buying a home along the border to ease shipments of contraband. Another man talks of someone informing the Border Patrol about an alien drug-running cartel. In return, drug lords machine-gunned his home. In response, the American government did...nothing. We begin to read in the mainstream press reports of gun battles in Mexican border towns spilling over into the U.S.; more than one border agent has been killed by foreign bullet.

There are economic effects too. A construction contractor speaks of paying Americans \$22 an hour before being undercut by a competitor paying aliens \$12. The price of his loyalty to our rapidly unraveling nation was the loss of his business -- and his house.

A woman whispers to the camera: "Well, El Presidente Bush, it appears that just a few years after 9-11, we're still being invaded." You wonder how he could allow not only NAFTA to continue but also promote CAFTA, which

works to destroy America's borders, all for a few political bribes from companies that

hire illegal aliens. How could he? How could nearly all in Congress do this to America? You feel puzzled.

A man who monitors illegals describes the INS threatening him with charges for disturbing alien-trash "evidence" when he tries to report invaders. Yes, the situation is that ludicrous. The viewer's deepest fear is true.

"Our" government is on the side of the invaders. But you could have told that by President Bush's description of the

Minutemen as "vigilantes."

And this is where the brilliant Prof. Kevin MacDonald comes in - to give us the 'why.' MacDonald calmly relates the tragic history of Jews working in concert to change immigration law to favor non-whites, in order to make white men a minority in the land their ancestors founded. The Jews believe this wonderful "diversity" is to their advantage. You can take a look at what the Mexicans have done to the desert -- and to towns near you -- and judge for yourself whether non-white immigration is the good thing we are continually lectured by the media it is.

On the border, every day is 9-11...

MacDonald explains that the day illegal aliens get here, they are legally privileged over whites, with powerful advocacy groups working to strengthen that preference. Whites? Their advocates are denounced as members of "hate" groups by the same Jews who let the Mexicans invade in the first place!... The viewer is struck by the irony of it all, and wonders how long a nation-that-increasingly-isn't can hold together.

Chinese, Colombians, Brazilians, Kazakhistanis, Haitians, Arabs, Koreans, Pakistanis -- all these have been caught in roundups -- and all these and the denizens of dozens of other nations have successfully invaded our country, and today collect our welfare money and are referred to by the media that count as "Americans." The short of it is, **our government is illegitimate in the most basic sense: it fails to represent the will of the people, who want the border sealed.** Our government is spitting in our face and telling us it's raining. And smirking at our displeasure. It doesn't fear us -- we fear it. That situation is known as tyranny. Pro-American activist Alex Linder, the editor of this paper, speaks directly to this point: The problems the Jews who opened our borders have brought on are deep-rooted. It is very possibly not going too far to say that many of these problems are so severe that only the surgery of revolution can cure them.

Interview with "The Line in the Sand's" Byron Jost

by TAA Staff

Byron Jost is an independent filmmaker out of Torrey, Utah. "The Line in the Sand," which documents the Mexican invasion and the Minutemen resisting it, is his first film.

TAA: What's your personal and professional background?

BJ: I'm 30. I live in Utah now - I'm an L.A. refugee. In L.A., I did professional cable video production. I started October Sun Films because there are perspectives that need to be heard that aren't.

TAA: When did you realize that making a movie would be an effective way of standing up against illegal immigration?

BJ: I realized there's a lack of professional-quality media sympathetic to white interests, and since video's my background it was natural I make a film.

TAA: How long did it take to make "The Line in the Sand"?

BJ: I began filming in March 2004 and finished the movie Memorial Day weekend 2005.

TAA: Can you tell us a little about "The Line in the Sand"?

BJ: It starts out with pre-Minuteman activity, when it was just a handful of people down in Cochise County, Arizona, who took it upon themselves to go out and do the job that the government wouldn't. And then I learned about all the government interference and I couldn't believe that this stuff wasn't being reported. It was just amazing - I mean if you go down there and you see how porous that border is! And there is so much violent crime taking place down there. The fact that the government actually discourages border patrol agents from doing their job - that is the crux of the matter. So I wanted to go down there and report it. This is still going on! In spite of the success of the Minuteman Project -- I am friends with a number of people in the film -- they are now telling me things have actually gotten worse! The part with Tom Tancredo is one of my favorite sequences in the movie because it takes place at a press conference. It's actually Tom Tancredo and Chris Simcox and you can really sense the tension between them and the press - they're kind of battling it out with the press.

TAA: Do you have any footage of the border crossers themselves and the persons monitoring them?

BJ: Yes. Much of the film takes place in the field. We're out there in the wilderness along the border - there is a lot of that.

TAA: Do you think that white nationalists and nonracial anti-immigration groups will be able to change government border policy?

BJ: Any number of scenarios could play out. I can't say.

Jim Gilchrist [right], founder of the Minuteman Project, is shown speaking to a crowd. He objects to the media portraying his Minutemen as "vigilantes" when their "weapons" are cell phones and binoculars. Another Minuteman explains that the Mexican government overtly encourages Mexicans to come here, both to send back currency and to latch on to our many social benefits programs. The Mexican government lets them keep their Mexican citizenship when they emigrate.

Congressman Tom Tancredo [below] describes people from the Middle East paying "coyotes" (alien smugglers) as much as \$50,000 a head. He points out that no ordinary person would pay that much for the chance to work at a convenience store, and that our government's refusal to

deal seriously with invaders makes "homeland security" a sick joke. Both the Democrats and Republicans have sold out the national interest for "minority" votes, in the case of the Democrats, and cheap labor, in the case of the Republicans.

Glenn Spencer [below] expounds at length on the attitudes of the leaders of the Mexican community and what they plan for our

future. "They're taking over, and you're called a 'racist pig' if you resist this," he says. We listen as he plays clips from Mexican and Mexican-American academics and politicians, and they're quite direct in their hostile intentions. One says bluntly: "We have got to kill the Gringos [Whites]." Of course, our so-called mainstream media don't report these statements, rather they stick to denouncing whites who fight back as racists. **The media, like the government, are on the side of the invaders.** It is the only logical conclusion that can be drawn.

About a dozen Mexicans or so are shown holding up a huge sign that says, "Remember the Alamo." Where we remember the bravery of the American defenders, Mexicans celebrate the slaughter of the whites. "Go back to Europe," they scream. "We're going to send you back to Europe." "This is our land." "Racists, go home." And many illegal aliens shout, "Victory - La Raza!" ("Victory for the [Mexican] Race!") You may recall that George W. Bush's brown relative, nephew George P. Bush, has made positive reference to *la raza* in campaign speeches. Perhaps one day the Republicans will run him as their candidate in the first post-white-majority American

election. Yes, President Bush is on the side of the invaders who want to kill off and drive out white people! If that doesn't scare you, you're not getting this film's message. And it's not just President Bush -- pretty much the entire political class running this country has sold out to the racketeers of the New World Order.

How will it end? Who knows? Spencer, for one, predicts civil war. I can only say that after watching this documentary, you'll be left with a sense of utter disbelief -- wondering how in the world our government could allow this affront to our liberties, this invasion-tsunami, to occur. And a gut-wrenching sense of urgency that **we need to do something about this today**, before it is simply too demographically late. If you're an American who cares about where this country is headed, you really need to see this movie. Jews Murdered 600,000,000 White Men in the Twentieth Century

by William Henry

In 1800 there were 220 million White Men. In 1900 there were 480 million White Men. In 2000 there should have been 1,200 million White Men. But in fact there are only 600. Where are the missing 600,000,000 White Men? Who drained half the Great White Gene Pool? What happened to these people? How could so many have been "disappeared" without notice? THE ANSWER: **The jews murdered them.**

See here actual world population figures sorted by gene pool by the UN (and interpolated by this writer) for the years 1800, 1900, 2000 and as projected for the year 2050:

TOTAL POPULATION OF THE WORLD (Year, Total Biped Population of the Planet):
 1800, 1,000 million
 1900, 1,600 million
 2000, 6,100 million
 2050, 9,000 million projected

WHITE GENE POOL (Year, % of World Population, Total White Population):
 1800, 22% of world population, 220 million (Europe, 21%; North America, 1%)
 1900, 30% of world population, 480 million (Europe, 25%; North America, 5%)
 2000, 10% of world population, 610 million (Europe, 7%; North America, 3% [less alien invaders])
 2050 projected, 6% of world population, 540 million (Europe, 4%; North America, 2% [less alien invaders])

ASIAN GENE POOL (Year, % of World Population, Total Asian Population):
 1800, 65% of world population, 650 million
 1900, 57% of world population, 920 million
 2000, 61% of world population, 3,700 million
 2050 projected, 60% of world population, 5,300 million

MUD GENE POOL (Year, % of World Population, Total N i g g e r / M u d Population):
 1800, 13% of world population, 130 million
 1900, 13% of world population, 210 million
 2000, 29% of world population, 1,800 million
 2050, 34% of world population, 3,100 million

LESSON FROM THE ABOVE DEMOGRAPHICS

With jews removed and Nature as the only controlling factor on White breeding, Whites breed prodigiously. To repeat, by 1900 the White population had more than doubled during the previous 100 years and Whites had increased from 22% to 30% of the world's total population. Lesson: Remove jews and the normal high White population growth rate will return.

A BROAD BRUSH OF THE 600,000,000 WHITE MEN MURDERED BY JEWS IN THE 20TH CENTURY

- A) Bolshevik jews ruling Russia after 1917 killed 250,000,000 living and unborn Russians (Ukrainians and other Eastern Europeans) [see above].
- B) jews murdered 250,000,000 living and unborn Western Europeans.
- C) jews murdered 100,000,000 living and unborn Americans.

JEWS' METHODS OF EXTERMINATING WHITE MEN

- A) Wars: jews engineered World War 1 and World War 2 to murder "the cream of the crop" of White MALES. (Jews take credit: "**We managed to bring the United States into the First World War and if you tow our line over Palestine and the JEWISH fighting force, then we can persuade the JEWS of the United States to drag the United States into it again this time (Second World War).**" -- jew CHAIM WEIZMANN letter to Winston Churchill, Weizmann Archives, Tel Aviv.)
- B) Political and Social Policy: jews murdered most of the last three generations of White babies. Jews removed the White FEMALE responsible for bearing the next generation of White babies from her protected home environment and placed her in the wage-slavery workplace. Jews murdered the White family. Jews started feminism, female careerism, "family planning," promoted birth control and abortion and easy divorce. Jews fabricated holocaust "guilt" to cover their murders of White babies. Jews enacted open borders and pro-miscegenation laws to miscegenate White females. (Read between the lines of this jwespak: "The Census Bureau has just reported that about half of the American population will soon be non-white or non-European. And they will all be American citizens. We have tipped beyond the point where a Nazi-Aryan party will be able to prevail in this country. We have

been nourishing the American climate of opposition to bigotry for about half a century. That climate has not yet been perfected, but the heterogeneous nature of our population tends to make it irreversible -- and makes our constitutional constraints against bigotry more practical than ever." -- jew Earl Raab, 1993)

WAGE SLAVERY AND THE JEW EXTERMINATION PROGRAM FOR THE RUMP 600 MILLION WHITE MEN

What about the status of the rump 600 million White Men remaining in Europe and America in year 2000?

While in the process of murdering half of the White Gene Pool during the 20th Century, jews deceptively reduced the rump remaining half of White Men in Europe and America from free men, 100% owners of most of the Northern Hemisphere in 1900, to jew-owned wage slaves owning nothing in 2000.

This rump 600 million White Men are 2 to 4 IQ points below their 600 million liquidated White brothers -- the "best goyim." They are not quite as tall, strong, healthy, spirited, and -- most important to jews -- not quite as threatening to their jew masters. The jews murdered the best and the brightest; removed their superior genes from the Great White Gene Pool, thereby assuring that the rump 600 million Whites were more compliant.

Events in America illustrate the jew M.O. of enslaving Goyim wherever, throughout the ages. In 1890 the "Frontier" of White America was officially closed by the U.S. Census. At incalculable effort, risk and sacrifice of blood, White Man had secured another White Homeland outside of Europe. In 1890, White Americans owned a pristine White nation, from shore to shore, 100% free and clear of debt, the title solely and securely in White Man's name.

Recently arrived into America, desperate and broke, criminal jews from the "Pale" in Russia utilized the Federal Reserve Bank at the beginning of the 20th Century to steal American business and land and enslave the former White owners in their

murdered by jews (Ukraine, 1941)

Raab

Weizmann

Ignatiev

own land. "Out of thin air," the jew-controlled Federal Reserve floated the fraudulent "paper" jew leveraged-buy-out-expropriation-theft of America. Criminal jews who made nothing handed Americans worthless paper and stole the Title to America -- a paper expropriation-theft of White hard-earned, blood-earned assets and property. Typical jew: "Now you see it, now you don't."

As a result, today, every single man, woman and child born in America inherits \$476,000 in national debt rolled up by jews in White Man's name. Jews now hold the Deed to America -- the America that White Man conquered and built and earned with his effort and blood owned by criminal paper-pusher jews. White Man rents, pays on a mortgage never meant to be paid off, a mortgage designed to grow larger, not smaller, every year. White Man continues to enrich the criminal jew who stole his title. Whites nowadays just work-slave in America, sometimes even as jew cannon-fodder grunts making Southwestern Asia safe for Israel.

Every American today owes \$476,000 to work off during his lifetime -- his portion of \$51 TRILLION of debt against what had been HIS free and clear WHITE (now browned) nation. White Man today owns nothing in jew terms. In fact, his jew fake-dollar net worth is *negative*.

But of ultimate importance, White Man's real net worth, as computed in terms of genes, the only lasting real wealth, is in what appears terminal decline -- facing total bankruptcy. The jew owners of slave-plantation America have scheduled nigger and mud slaves to overwhelm and replace the "overpaid" ungrateful White Man slave in America biologically by 2050.

The jweframework behind American White Man's wage slavery and genetic dwindling toward final racial extermination are mirrored throughout Europe. Rumblings in Russia are the only signs of resistance to jewish power.

JEWS EXECUTED THEIR TALMUDIC MISSION MOST EFFICIENTLY DURING THE TWENTIETH CENTURY

- 1) "Kill the best (White Men) goyim." Jews murdered 600 million White Men -- the most difficult jew mission is already accomplished.
- 2) "Enslave the rump 600 million White sheep while preparing their extermination." Jews have already relegated the rump 600 million to lifelong wage slavery -- the secondary jew mission is also accomplished.
- 3) Breed 1,800 million niggers and muds by year 2000, and 3,100 million by 2050. Flood these muds into Europe and America to expedite the final solution -- the extermination of the remaining, already gene-dumbed, compliant rump White Gene Pool by year 2100 -- check -- the jews' overall final objective is now within easy reach.

In a rare and bold admission confirming the fact that jews believe their war of extermination against White Man is already won, and that they have nothing to fear at this point in time by announcing their victory, jew Professor Joel Ignatiev recently demanded that the White Race be "ABOLISHED."

'Anti'-Defamation League (ADL): The First Amendment's Worst Enemy

by TAA Staff

...You reading this are probably unaware that it is against the law in most European countries, Canada and Australia too, to criticize entire groups of people. Men wake up in jail today in Germany and France and England for factual statements they've made, for opinions they hold. Not very American, eh? Certainly couldn't happen here, right?

Wrong. The ADL, America's original and most successful hate group, is bent on passing the same group-libel laws in America already on the books in Europe and the former British Empire. The practical meaning? The canceling of the First Amendment. Right to free speech -- gone. In its place, government bureaucrats already compiling "hate crime" statistics will add "speech crimes" to their prosecutorial agenda. When you can't say what you think because it will land you in jail...I don't know about you, average white reader, but to us here at TAA, that's tyranny.

Under the speech codes Big Jew envisions, it would be illegal, for example, for a Christian preacher to quote Bible verses condemning homosexuality. The first (U.S.) kernel popped last last year in Pennsylvania. ADL's national executive board member, Lynne Abraham, D.A. of Philadelphia, arrested 11 Christians as hate criminals. Her charge: Their preaching was "biased" against homosexuals. They were "hate criminals" because they used an "instrument of crime" (a megaphone) to express "hate speech," (Bible verses) against homosexuals. How did we reach a position in which a lofty 2% dictates to a lowly 98%? Perhaps it has it something to do with jews' complete domination of not only media but law (see next page). It would seem so.

shredding White lives

It's not just Christian preachers who need worry, although the history of the ADL-equivalent's takeover of Russia, and subsequent murder of tens of thousands of priests -- and tens of millions of White men -- shows unmistakably the ADL's murderous antipathy toward our race. Let's say you wanted to discuss crime. In an argument, or article, you added some of Jared Taylor's newly updated "The Color of Crime" statistics at amren.com. This, too, would be illegal. For you to quote, "The single best indica-

tor of violent crime levels in an area is the percentage of the population that is black and Hispanic," could land you in jail. But it's true! Yes -- but "truth is no defense," as a jew said up in Canada when a White man was tried under the laws the ADL proposes for America. As we went to press, at least 30 House Republicans signed off the jews' latest "hate crime" bill, extending special privileges to homos. Fight now, White man, or die later, when they make criticism of jews a capital crime, as in their USSR.

The Liberal Guilt Complex

White Racists are evil. We hate White people. We hate our ancestors and our heritage. White Christians have enslaved and oppressed the great Black Race. They made Blacks live in Slums and designed IQ tests to make this dynamic Race of inventors, explorers, and builders of civilization seem stupid. We love the Blacks and their high culture!

My wife and I had a doctor sterilize us so we couldn't have any white-devil children. Now we are adopting Black kids to correct society's injustices.

Someday all people in the world will be one mixed race and love each other - like we do. Of course, we'll have to eliminate those Rotten Whites...Rotten Whites...Rotten Whites...Rotten Whites... Rotten Whites... Rotten Whites... Rotten Whites... Rotten Whites... Rotten Whites...

Oy, These are good Goyim! They parrot what we teach them on TV and in our movies

News for Christians

by Jacob Hall

Have you ever noticed that jews preach separation of church and state for Christians while practicing union of synagogue and state for themselves? Observe one Christian writer: "...Catholic schools are denied government money for the purchase of maps in the classroom, but the federal government can spend nearly 2 million dollars to build a Jewish chapel at the Naval Academy without a word of protest from [ADL or ACLU]. Catholic kids in New York City public schools cannot have a crèche in their classroom but Jewish kids can have a menorah (all to the approval of the ADL)..." Yet the media present the ADL as a neutral rights group, rather than a jew-supremacist lobby, pursuing always and only what is "good for jews," public interest be damned.

no separation here

Pornography is a multibillion-dollar business that destroys morals while reaping obscene profits for jews. But there's a deeper reason the "chosen" take it so (a huge percentage of porn actors, not just producers and distributors, are jews). Let Al Goldstein, the publisher of *Screw* magazine, explain: "**The only reason that jews are in pornography is that we think that Christ sucks. Catholicism sucks.**" Says one analyst, "Pornography thus becomes a way of defiling Christian culture and, as it penetrates to the very heart of the American mainstream, its subversive character becomes more charged..." Al Goldstein, folks -- a jew. Not a Muslim, not a nazi, a jew. There are no nazis or Muslims involved in pornography -- they're against it. **Jews? Big Porn wouldn't exist without them.** And they like porn not just for the profits, but because it's a way to s--t in the Christian's face and get paid for it. If you read the syndicated conservative columnists, though you'll see many lamentations about our degraded culture, and many fist-shakings at secular humanists and atheists, you'll never see porn tied to its obvious source: **malicious, nation-wrecking jews** just like Uncle Al above. That fact indicates to the sophisticated Christian that there's a deeper problem that isn't being addressed. What is that problem? Let's take it up in the form of **Michael Newdow**. He's that atheist, right? The one who wants to do away with God in the Pledge? Yes, like ninety percent of the USSR Bolsheviks of old, Newdow's an atheist-who-just-happens-to-be-a-jew. Didn't know that, did you? I wonder why neither the liberal media nor the conservative columnists mention that fact? Is somebody afraid to tie jews to the culture-wrecking they're obviously responsible for and -- like Goldstein -- openly brag about?! Why are so many Christians blind to jewish behavior, and so many Christian leaders, who know better -- silent? Ignorant, weak or corrupt, they've been **jewed**: *semitized for jews' protection*...

Jesus is #2, says Al

Meanwhile, remember the **metzizah b'peh** we reported on last issue? The practice of slicing living skin off the baby penis and sucking away the blood? Remember the **herpes-ridden rabbis** that infected multiple children, causing at least one death? Well, jews are thick. The NYC rabbi stand as one before their jewish mayor in demanding that their infected brothers be given carte blanche to carry on their disgusting blood ritual.... Just imagine if Christians were to practice rituals 1/100th as disgusting and disease-spreading as **metzizah b'peh**. Can you imagine what the jewish papers would say? They'd clamor for the priests or pastors to be defrocked, and mock the churches without respite as houses of child abuse, and the members as dangerous extremists. But when it comes to freakish jewish practices, these same papers inform us they're "ancient traditions" that we must take great care not to interfere with. Try not to laugh, eh?... Until next time, this is Jacob Hall signing off, and asking you to remember that hairy, horny, hateful, hypocritical, herpes-infected hebrews aren't our friends, they're Christ- and Christian-hating loxists who intend the ruination of our culture and the genocide of our race.

Campus Outrage:

Jews Occupy Over 50% of Top-Ten Law School Teaching Slots

They're barely two percent of the population, but research indicates that **jews occupy slightly more than half of the teaching slots at America's top ten law schools.** (By ranking of *U.S. News & World Report*, these are: 1. Yale; 2. Stanford; 3. Harvard; 4. Columbia; 5. NYU; 6. Chicago; 7. Berkeley; 7. Michigan; 7. Pennsylvania; 7. Virginia.) The same people who give you the endless song and dance about overrepresentation of white males in every sector they haven't yet commended for themselves have nepotistically positioned their racial crime syndicate to decide who becomes a power player in 21st-century AmeriKwa -- and they breathe not a word of this prodigious legal enormity to the mass public. **The simple fact is, jews and people trained to think like them exercise an effective monopoly over the legal profession.** In a country in which you can hardly pick your nose without counsel, that fact is grounds for some very serious thought about where we're headed, and what's going to be left of normal whites like you and me when we get there.

VNN researched the matter online (you can verify all the findings, the names and pictures, online at vnnforum.com). This was easy to do, since all these schools list their professors by name. It is clear from the very look and feel of these sites that the attitude of the folks training our top lawyers is the same as the jewish business owner who said, "I only hire jews, women, and gays." Normal white males need not apply, and the ones who do attend these schools, are either self-hating liberals to start with, or bent that way after Prof. Selznik's "words mean what they have to" course. Simply look at the graphics used by these top ten schools to see the future this type envisions: women and coloreds and jews, with nary a white male to be found. This is the utopia the jew prepares for our race. When they say "abolish," they mean it. **White genocide is very plainly the agenda of the jews who control our law schools.**

Funny thing about jews. When they're what they call underrepresented (the term they use when they're not overrepresented to the degree of their liking), it's because evil white males discriminate against them. But when they're overrepresented, it's because they value education, and work harder than anyone else! You can't win with these jews! If you describe their games, you're an anti-semitic. You begin to see how it was that Matt Hale was denied his earned law degree solely because of his politics. If we don't live in under a Jewish Tyranny, then what would you call it? Says one analyst, who you can bet you'll not be seeing on CourtTV anytime soon: *What has happened is Weimar all over again. The jews flocked to America, and whined, worked and wheedled until they took over all positions of power. Now they discriminate against others, and nobody talks or writes about it. But we all pay the price, and the price, in time, is our genocide. Everything in society pushes the same way. We face a coordinated but concealed oppression. It is the purpose of this newspaper to remove the cover from AmeriKwan society, and reveal to you the shrieking stringpullers and their shenanigans. Have no doubt: the complete jewish takeover of law schools is one of the major unreported stories of the 21st century.*

How does the process work? We asked one anonymous expert: *Jews are uniquely favored in the admissions process for a number of reasons. Firstly they are obsessive - they will study for ten hours for an exam which may require only a single hour of work. They are also scheming and sly - they will identify classes where the professor gives out high grades and avoid hard sciences where the class average is a B, or even a C. They will go out of their way to pad their resumes, get recommendations from powerful friends and family and defer their (limited) social lives to ensure that they ace the entrance exams. It's not so simple as the Dean saying Feinberg in, Flynn out. Jews are socialized from a young age to focus on fields where they can keep their fingernails clean, earn a lot of money, impress the relatives and use the argumentative skills. Many Whites who could intellectually wipe the floor with these jews have decided that the Talmudic world of legal "scholarship" is a waste of life - these Whites are scientists, engineers, builders, inventors, designers and business owners.*

Why do the "top ten" matter? They don't, necessarily. If you want to hang your shingle in Tucson, a U. of Arizona degree will serve. But if you want a federal clerkship, a job at a major corporate law firm, a chance to practice appellate law, the opportunity to be published in a major law journal or a shot at a job teaching at a law school, you better be in the top 10 or 20. And if you want to sit on the Federal bench or even the Supreme Court, you better be from Harvard, Yale or Stanford.

The nazis in Germany, as "haters" in America today, were inspired by just the sort of jewish takeover of institutions described above. They didn't like the jewing of their native culture, and they reacted to vomit the jews. A similar reaction builds today in America. (Again, for background on all this see vnnforum.com.)

The subject of extreme, almost unbelievable, jewish overrepresentation in law schools is a subject that jews are extremely touchy about. We first got into it with a jew Volokh at UCLA. After receiving some snotty comments, we decided to take a look at just how many hooknosed profs there were at this public institution. Turns out that over fifty percent of this PUBLIC SCHOOL's law slots are held by jews. An newspaper called *Inside Higher Education* wrote an article about our posting the photos and names of a few of the dozens of jews polluting UCLA's law school. Said Volokh, with his race's characteristic brazenness: "So, yeah, we're Jews. Yeah, we're overrepresented on university faculties, in law and medicine, in the Senate, on the Supreme Court." But only because they're so smart, you see. Certainly not because they're ethnic nepotists who discriminate against others. It's only the whites who built this country and its institutions without any jewish help guilty of that. We encourage you, the college student receiving this paper, to test what we say. Check out your own school's jew level, whether undergrad, graduate, or law. Your real education has just begun.

HOW COME 2% OF THE POPULATION IS 60% OF THE FACULTY AT UCLA LAW SCHOOL?

Say hello to the hook-nosed face of "American" law

Living White

Home-Schooling

by Jill Clark

ly forbidden to segregate their communities, you can legally and completely withdraw and disassociate from the ritual child abuse and state-sanctioned mendicite that is "public education."

Why home-school (HS)? It makes bright kids brighter, where PS dims them. "A 1960 study for the Smithsonian Institution by Harold McCurdy concluded that **genius is more likely to develop among children who spend more time with their parents and other adults, spend less time with their peers, and have freedom to work out their fantasies.**" If there's one thing no education-major called "teacher" has any sympathy for, it's genius. *Public schools make bright kids dumber. Don't let PS nip your buds.*

Kurt Vonnegut once said, in a more tolerant time, that smoking is a socially acceptable form of suicide. We might turn that to say that public schooling is a socially acceptable form of mendicite.

What exactly is a public school? It's a place where youngsters are ripped from the home, jailed for 12 years, and hectorated in the dogmas of the state. Public school doesn't teach kids, it jails, punishes, and warps them. What else would you call being forced to rise at dawn to go spend your time in an ugly building mixed with imbecile niggers, yelled at by uninterested, education-major wardens?

The facts are these: HS spend \$500 to \$800 a year per pupil, whereas PS spend \$5k-\$11k. At a fraction of the cost, HS produce a multiple of the result, measured any way you want to. At home, you teach whichever subjects you like, and use any textbooks or other materials you think appropriate. God, it's like running your own life! Unheard of in AmeriKwa.

In PS, 90% of the books used come from one of four giant suppliers, whose books are written to fifty-page Semantically-Correct guidelines to ensure they stick to the political agenda set by jews, feminists, homosexuals, NEA bureaucrats, and other leftist lobbies. All you get in jew-produced PS is **attitude adjustment**, which for white kids means being taught to hate themselves and revile their heritage. Boredom and groupthink with the odd spot of terror, they get. Kind of like being at war. By contrast, at home your child's comfortable and calm. No bells; no whistles. If he wants to get pouch-happy and study the biology of the marsupial for two hours and twenty-two minutes, he can, and no bell or dolt principal will stop him.

Context: HS used to be illegal in the U.S. In Germany, and other states ahead of us on The Jewish Agenda curve, it still is. But a combination of hippies and Christian conservatives resuscitated HS in the early '80s, and now it is legal in every state, with different levels of reporting required. The HS market approaches \$1 billion in size - the curricula are out there, particularly for Christians. Depending whether you ask NEA liars or HS advocates, there are 1 or 2 million HS out of a pool of about 48 million. HS represents a revolutionary challenge to the System because, although the Christians who've til now been the bulk of the HSers take pains to emphasize the unique requirements of their family's situation, rather than the general horror driving them, in fact their HSing represents a **radical rejection of the government.** If home-schooling today, perhaps home government tomorrow? The thought is logical, it fits our history -- and it chills the D.C.-NEA-Big-Jew complex to the bone. Their power is tied up in collectivization, top-down bossing, "Washington knows best" on everything you care to name. The NEA, of course, has immense power. It works to repeal state legislation securing parents' right to conduct their children's mental and character development. ZOG hates this, for it is jealous of contending authorities. To take one of a million examples, occurring just before we went to press, the ACLU came out against abstinence education. This is exactly what drives people to HS, which is really FREE SCHOOLING as opposed to SLAVE INDOCTRINATION. It is easy to predict that in coming years jewish consultants will be paid big taxpayer bucks to excrete studies proving that "home schooling is hate schooling." Like the god of the Bible Christians revere, ZOG will tolerate no other gods before ZOG. Either you tow its line, or it torpedoes you. TAA says: use the freedom you have -- AND DEMAND MORE! ***REJECT THE SYSTEM THAT REJECTS YOU, WHITE MAN!** HS is the way to do that. There is not a more loving thing you can do for your children than teaching them at home. You can do it, it costs little money, it takes less time than PS. It leaves both parent and child calmer and happier than public schooling. HS forces you out of the consumerist rut. Shouldn't you *take responsibility* for your child's mental diet, as his physical? Yet most parents don't give it a first thought. They don't know what their child is reading; or who's sitting next to him. Be different. Live right, **LIVE WHITE.** HS works! Baltimore Sun columnist Susan Reimer has some things to say about young men in the following editorial:

The Useless Young Male

by John Allington

YOUNG MEN ARE RUNNING FROM MARRIAGE

She can write these things in our effete Jewish press with no risk to her career. Few will call her names for what she wrote.

Ms. Reimer begins: *Other than a 29-inch waist and a full head of hair, there isn't much to recommend the twentysomething male. He is footloose and fancy-free -- except for the fact that he is likely to be living with his parents. It takes him longer to leave home than his women friends, and he is more likely to return. He is, of course, sexually active and therefore at increased risk of unmarried fatherhood, but he doesn't especially like kids. He considers them a financial burden and an irritant in any relationship with the mother.*

Substitute a few words -- say replace male with female -- and replace 29-inch waist with 34B breasts and some of the other details and you would be woman-bashing. You would not be carried in a major publication of our Jewish media and even certain White Nationalists would gnash their teeth.

Ms. Reimer continues: *He is openly suspicious that a woman would try to trap him with a pregnancy or that a one-night stand would result in a pregnancy and a long-term parenting relationship with a woman he doesn't care about and doesn't want to marry. This fear, however, doesn't keep him from regularly waking up with a stranger.*

Do young males have cause for suspicion? Let's sort this out. Judeo-feminism hit the scene forty years ago and no-fault divorce came about 10 years later. Virtually every young male out there has heard horror stories of older brothers, cousins, uncles and even their fathers being nearly ruined by divorce. Is it possible that our useless young male has been paying attention? His jobs have been exported to other countries at the direction of our greedy corporate bosses and his women have been turned against him by Judeo-feminism. So why shouldn't he hang out at one of his parents' houses and sportfuck the local hotties in his spare time? Maybe we don't give this guy enough credit!

Humans respond to rewards and punishment and I would expect young males to be no different. Judeo-feminism attacked the institution of marriage and undermined the status of married men who felt duty-bound to support it. Women expect more from men than ever before with the underlying threat that if they don't get it, it's divorce court time. They are willing to do less than ever before with the exception of a career, the money from which is usually spent on themselves or on unnecessary luxuries they, rather than their husbands, desire. These women tend to spend their twenties in self-absorbed pursuits and then, after their prime and after having put a few extra pounds on their rears, can't figure out why the guys aren't flocking to them - if in fact this is actually the case.

Ms. Reimer continues: *He has no biological clock because he can father children well past middle age, so he is in no hurry to marry. He is looking for a "soul mate," and he believes there is someone out there whom he is destined to love. If he finds her, he is also likely to find that the relationship does not live up to this romantic ideal, but it will be easy enough to divorce these days.*

I have talked to a lot of men and I've never heard one tell me he was looking for a soul mate. Men want an attractive woman who likes sex, is willing to cook and clean, and won't nag him to death. He has no romantic ideals, unless you include in that sexual fantasies. But I don't think that is what Ms. Reimer had in mind. Now this guy isn't putting off marriage because he hasn't found a soul mate -- that's the reason women cite. This guy's putting off marriage because 1) he can still get sex and 2) he knows marriage is risky for men.

Indeed, it is easy enough to divorce these days. Each state has a Health Department that tracks divorce statistics, including who initiates the petition for the dissolution of marriage. Those statistics reveal that it is women who initiate divorce 65 to 70 percent of the time. I suspect that our useless young male may be aware of this. That Ms. Reimer links divorce initiation to men reveals her to be a disingenuous bitch.

Ms Reimer continues: *He is living an extended adolescence -- an adult-olescence -- and every immature, irresponsible, self-absorbed thing he does is reinforced by the latest issue of his favorite men's magazine.*

As I outlined in Part 3B of my essay [see vnnforum.com], women in their late twenties and early thirties have a few of their own bad characteristics. They whine that there are no good men left even as their e-mail inboxes overflow with messages from guys trying to get their attention in the online dating scene. Moreover, for every men's magazine (FHM, Maxim, Playboy) catering to the cad, there are at least three catering to the self-absorbed urban slut (Self, Elle, Vogue, Allure, Cosmopolitan, Marie Claire, Mademoiselle, Glamour, etc.)

Ms. Reimer continues: *"It's kind of an apocalyptic view," says Rutgers sociologist David Popenoe, but one sketched for us by the research from the National Marriage Project, a nonprofit, pro-marriage research organization. In taking stock of the state of matrimony, Popenoe and partner Barbara Dafoe Whitehead found a "good dad-bad dad" dichotomy in the profile of fathers. For every father who takes the 2 a.m. feeding, packs lunches or helps with homework, there are biological fathers running in the other direction.*

It turns out our useless young male is not alone. Apparently, half of the fathers out there are "bad dads" too! I would like to know: where are the studies documenting all of the

women who fail to change their car's oil, clean gutters, mow lawns and kill assorted household pests? It's as if when men are home all they do is recline on their couches, drink beer and watch ball games -- just like their false portrayal in our Jewish media. They never do yard work, repair cars, fix plumbing, build decks, or coach their child's soccer team.

Ms. Reimer continues: *"If you look at fathers in intact marriages, they are certainly doing much more than their own fathers did, in terms of child care and helping around the house and in establishing egalitarian relationships with their wives. But if you look in the aggregate, men are withdrawing from family life in various ways," says Popenoe. "Men are delaying marriage longer. Relationships where there are out-of-wedlock births or cohabitation with children tend to break up. Then there is the high divorce rate. Add that up, and you get a very different picture."*

Let's face it guys, in aggregate, American men are a worthless bunch of oxygen-wasting hominids.

Ms. Reimer continues: *What is the answer, especially if the 20- and 30-year-old male is such poor marriage material? Popenoe is cautiously hopeful. "We are beginning in this nation to talk about marriage more. . . . And there is agreement that living with two biological married parents is the gold standard for the well-being of children."*

David Popenoe has figured out that two married biological parents is the way to go. How many PhDs did this take? How many multi-hundred-thousand-dollar research grants funded this vexing quest? **The fact is that for a couple of hundred years, Americans didn't talk about marriage, we did it. It wasn't perfect, but it was the norm. Enter Betty Friedan and a collection of malevolent Jewish culture wreckers who told women to put off marriage for a career; marriages equals oppression; all men are potential rapists; etc. Many gullible women bought this line of thinking.**

Now women want it all. They want a career, self-actualization, man-as-sperm-donor-and-diaper-changer and they expect to get all of this with no price. What more do they offer in return for all the additional expectations they have imposed upon men? Other than careers, many offer less than before: less attention, less gratitude, less sex and less respect.

Ms Reimer continues: *Women, for their part, are losing patience with this guy. According to a Gallup poll, 40 percent of women in their 20s would consider having a child on their own if, by their mid-30s, they had not found a good man to marry.*

Women are losing patience with this guy! What can we expect next, a temper tantrum? A proliferation of sperm-donor clinics? Go for it gals! Television characters land assorted lesbians pull it off. Men, you have failed your women. Shame on you! You treated them better than any other women on the planet. You gave them the right to vote, minivans with 14 cup holders, central air-conditioning, and the best maxi pads money can buy. You've acquiesced to surrounding them in a legal cocoon of rights and entitlements that end up being used against you. And now they are losing patience with you!

Let me make something absolutely clear. American women, in aggregate, are the most ungrateful bitches on the planet. This isn't an exaggeration. I've traveled and I know this to be true. It isn't because there is anything unique about American women. To the contrary, women are fundamentally the same throughout the civilized world. But take the traits I described in part one of my essay and combine those traits with Judeo-American law and you get a high frequency of *Americanus Horribilis*. *Americanus Horribilis* is a woman who sleeps around in her twenties, settles for marriage to an inadequate guy in her thirties for the purposes of sperm procurement and diaper-changing services, and divorces the inadequate guy in her late thirties or early forties. Did I mention she got the house?

Welcome to AmeriKwa.

Now, I want my readers to do a couple things.

First, I want you to imagine a comparable editorial being written about women in the same tone in the mainstream media.

Can you imagine it? Mustering all of my objectivity, I honestly cannot. I have never seen anything like it about women in a mainstream media source and I doubt I could even find something like it on some "men's rights" Internet site.

You all have to understand something. We live in an all-encompassing matrix. A matrix? Yes, I know. The word has been worn a little recently. But it's still an appropriate metaphor. Stay with me on this one.

Our matrix consists of a physical and sociological system which is governed by laws and cultural expectations which evolved over decades, and in some cases, centuries. On top of the European tradition of assigning women relatively high status, we find an omnipresent Judeo-feminist ethos and an interlinked repressive legal regime. **This matrix, by both default and design, intimidates men and extracts their resources. This has gone on for so long that people now think that it is normal.** It is, people think it is normal to read editorials dismissing an entire generation of men as useless without [CONT'D p.12]

Movie Review: 'Fargo'

by N.B. Forrest

in Minnesota, not of it

Directed by jew Joel Coen

Written by jews Joel Coen & Ethan Coen

I watched this again last night, and what a hebist experience it is, too. These two Coen kikes grew up in St. Louis Park, Minnesota, the insulation-gnawing spawn of a brace of perferer ratz. I read that **this**

jewish agitprop goes global

movie is their revenge for being forced to grow to breeding age in such a "white-bread" atmosphere, and I don't doubt it for a second because this is one of the most venomously goy-hating flicks I can think of.

The story is about Jerry Lundegaard, an oily, book-cookin' car salesman (William H. Macy). Jerry is all "You're darn tootin'!" Midwest cheerfulness 'n' shit-eating grins on the outside - but of course the REAL Lundegaard is a bitter, frustrated little coward, wound up tighter than Barney Fife on crank. Hard up for cash, he hatches a desperate scheme to get it from his secretly loathed father-in-law/boss: Have his wife kidnapped. He has an Injun mechanic get him in contact with a couple of moronic thugs: Carl Showalter, an ugly, jabbering dirtbag with weasel teeth (Steve Buscemi), and the conspicuously Aryan-monikered killer Gaear Grimsrud (Peter Stormare).

It seems clear that the jewboys gave special attention to the creation of this character: The blond Grimsrud [below] is as eerily cold and silent as the whited-out Dakota landscape; impassive and dead-eyed as he chain-smokes Marlboros. I think **Grimsrud represents the atavistic jewterror of White hyper-violence unleashed by the sudden shattering of the carefully forged chains of jew false morality.** He's the grinning Slavic peasant with the crimson sickle; the SS

Nordic nebbish

waste-disposal specialist dumping the gobbage at the Babi Yar Landfill; Edgar Ray Killen: the physical embodiment of all their darkest hates and fears.

Naturally the kidnapping plot goes comically pear-shaped in short order: When a state trooper pulls Carl & Gaear over as they've got Jerry's wife covered up in the back seat, Gaear brutally snuffs him and a couple of passer-by witnesses (including a young boy - da lousy Nordic shmuck!); Jerry's gruff old father-in-law further messing things up by insisting on delivering the money, getting killed in the process; Gaear smashing Jerry's wife to death with a chair when she won't shut up, etc.

The White characters are portrayed as the dullest of dullards: Bovine buffoons in fur ear-flap hats; sporting just enough wattage to nose-out "Ja" to any simple question put to them. The

blond beast

handful of characters who aren't schneered at as hydrocephalics are depicted as greedy goy shysters.

About the only White depicted as both decent and semi-intelligent is Marge Gunderson, the hugely pregnant sheriff (Joel Coen's shiksa wife Frances McDormand). Marge pursues the clues in that stereotypically slow-but-steady White manner as she weebles her way through the snow.

Summation: This frozen jewturd of a movie is skillfully made and very well acted, with a heady mixture of violence & humor; highly effective Hate Whitey jewpaganda pinched off by two cleverly vicious tapirs.

Should all such be wood-chipped by Grimsruds from Fargo to Vladivostok? You betcha!

["Useless" -- CONT'D from p. 11] providing any comparable critique of young women and their behavior. We can blame the Jews for getting radical feminism rolling, but they are only a few percent of the population. Fifty percent of the population is female and they vote. They, just as much as the Jews, are responsible for the present legal regime and for promoting and supporting the Judeo-feminist ethos. They have lobbied for this regime and its spoils and exploit its rules at every opportunity. Even among our own, this feminist ethos has been embraced and normalized. [When I write that "most women -- not the elite, but the majority -- will disappoint you," I'm not joking. I mean it. This is simply the unvarnished truth. Their permissiveness and short-sightedness are toxic to sustainable civilization. They promote decadence and thrive in its froth. More to the point: decadence is both symptom and cause of decay in one thousand subtle ways.]

Now, I have a second request of you. Some day in the near future I want you take the afternoon off work if you can. I don't want you to take off a Friday or right before a holiday or some other exceptional day. I want this day to be a standard work day.

Next, I want you to drive around your community with a clear and open mind. I want you to stop and go into businesses and look around. Or you can take a stroll in the local shopping mall or down a street in a business district. What will you see? Open your eyes. What you will see is an extraordinary number of people not working in the middle of a work day when you are normally at work. You will see old people driving slowly on the roads, getting in your way. You will see sullen teenagers smoking cigarettes, outside the main entrance to the local shopping mall. Why aren't they in school? You'll see literally thousands of females, mulling about in the shopping malls, drug stores and Wal-Marts, each likely spending some man's money on non-essentials. You'll see minorities glowering at you from their street corners and from their poorly maintained automobiles.

If you live in a major city or a large suburb, everywhere you look you will see crowds of people. Most of these people are not taking late lunches. They are not on coffee breaks, ill or graveyard-shift workers. They are the consumers. And you, white man, are the producer. You work at least 40 hours per week. You pay for the geriatrics, whose AARP lobbies for increasing the size of their Social Security checks. You pay for the sullen teenagers and the glowering hostile minorities. And you pay for the women mulling about in the shopping malls who claim you are failing them.

The old people think you drive too fast and can't understand why you are always in a hurry, the teenagers think you don't let them have enough fun, and some of the white women are thinking about a Caribbean trip, where they can anonymously screw dreadlocked Rastafarians. Every one of them is on the take one way or another -- and they want you to give a bit more. You, white man, are terribly disappointing them -- all of them. You're a racist, probably an anti-Semite, a sexist, a homophobe, and being straight, you're probably wearing unfashionable clothing as you read this. Now, your younger members are even balking at the notion of marrying our country's spoiled young females. What is your problem, white man? You need to work harder!

White man, our problems are large. We don't just need an expulsion of 3 percent of our population. We don't just need to change one or two laws and call it good. We need to wipe the slate clean and start over. Do you understand me? It's that bad. We're going to need a whole new set of rules to govern our future society. Those rules will have to conform to the principle that those who produce dictate the allocation of their resources, and those who consume are grateful for what they've been given and demand no more. That this is a radical concept for most Americans shows just how screwed up our thinking has become. Until that time, screw the current regime and its parasites!

Women and children consume resources. For all of recorded history, this was pretty much understood. Various societies awarded men who supported women and children (i.e., shared resources) higher status. Those societies recognized the burden assumed by men for undertaking this endeavor. As part of the arrangement, their women were expected to remain faithful (so that their resources would not be used to support another man's child) and their children were expected to obey them. The women would never have been allowed to mate with a man, bear children, leave and take possession of his resources. For thousands of years, this made sense. This system coincided -- not coincidentally -- with human progress in all arenas. But, starting in the second half of the 20th century, that system changed for reasons discussed above.

A woman can now marry a man, bear his children, leave, get a lawyer, and extract resources from the man for the next 22 years (most states will force a divorced man to pay for college expenses). She can kick him out of his house, seize his bank accounts, file restraining orders against him, etc. The married man now clearly enjoys little (if any) "status advantage" over the single man. This is especially so among younger men. In addition, our married man is the butt of jokes on television commercials. His wife makes fun of him in polite company and delights in speaking of him in a mildly contemptuous tone. Think tanks claim that he is a failure as a father. Women's magazines contain instructions on how to manipulate him. He masters the art of self-deprecating humor to try to get a laugh out of his gilded position. He has no legal protection against the capricious woman. He's a slow learner, but now maybe, just maybe he's figuring this all out.

If what Ms. Reimer says is true, then this is a very good development. A good development, you ask? Yes. Political revolutions are not initiated by over-mortgaged, androgynous, minivan-driving maids who spend much of their free time supervising their tots at McDonald's "Playland." They start among young, disgruntled men. Ms. Reimer doesn't begin to understand the implications of the social trends she critiques.

The Plot of the Jewish Mind

by Douglas Wright

A review of *The Plot Against America*, by Philip Roth (Houghton Mifflin Co., 2004)

The human capacity for imagination has a survival advantage. Those who can imagine a good future are better equipped to reach it. Those who can imagine a bad future are better equipped to avoid it.

Philip Roth, America's reigning King of Jewish Letters, imagines the latter. In his 26th novel since he began his scatological serialization of Jews in America (most famously in *Portnoy's Complaint*, in which the title character brags that sticking his dick inside white Protestant women was his way of conquering our society), Roth imagines the historical trajectory if aviator Charles Lindbergh had bested Wendell Wilkie for the 1940 Republican nomination against FDR and then went on to win the presidency.

Do you really have to guess? The victory of a pro-white president who wants to keep America out of Jew-favored wars could only be part of *The Plot Against America*.

Or the plot against Jews, which, as Philip Roth, age nine (Roth uses a fictionalized version of himself as a central character and narrator) explains, *are* America. Jews are happy here, glad to be rid of the European nations that rejected them for so many centuries. With only scant interest in then-emerging Israel and nowhere else to go, the Roth family of Newark, like so many others, claims America for the Jews.

What could blow that sweet deal? Uppity *goyim* with different ideas, of course.

The Plot Against America falls into that cheap genre of fiction sometimes called "alternate history," in which fictional characters operate inside real historical settings or real historical characters take different paths. It's been noted that Roth's delve seems unseemly for an author of such renown. But with his pile of awards and acclaim, he can spare it.

Besides, when Nazis are afoot, Jews drop whatever seamliness they had been faking. It's fine to be clever and subtle when your goal is mocking WASPdom, Christian sexual mores, or white gentile notions of military honor. But when Hitler shows up, calm English slips to frantic Yiddish.

Not only can Roth afford to spend down literary legitimacy to peddle this barer version of his personal Jewish agenda, he got plenty of help from the usual Jewish networks to gloss over whatever trace amounts of skepticism might have surfaced. The *New York Times* had two separate reviews of the novel, and if that weren't enough, in September 2004, the book review section took (to my knowledge) the unprecedented step of allowing Roth to promote his own fucking novel!

From the editor's note: *Philip Roth's new novel, "The Plot Against America," which will be published by Houghton Mifflin next month, imagines an America in which the 1940 presidential election resulted not in a third term for Franklin Delano Roosevelt but in a victory for a Republican ticket headed by Charles A. Lindbergh. The Book Review asked Roth to write an essay about his new book and how he came to write it.*

Now. If you're new to the concept of Jewish media control — and wondering to yourself whether complaints about the "Jew media" are coming from unhinged far-right freaks who don't know what they're talking about, just reflect on this for a second. The whole idea of a book review section is to give readers critical perspectives on current books. "Critical perspectives" aren't had by the authors themselves, who want you to buy the book. If you really want to promote your book in a book review section, you have to pay thousands of dollars to take out an ad. In fact, that's what most people do. But when you combine "famous Jewish author" with "issue of critical importance to Jews," bold rewrites of editorial policy are a foregone conclusion. But keep reflecting. Take a novel from a pro-white per-

spective like Jean Raspail's *Camp of the Saints*. Do you think the *Times* would allow the author to write a lengthy "how I came to write this book" piece? Keep reflecting. Do you think the *Times* would even run an ad for it, even if the publishers offered to pay triple the going rate? Keep reflecting. Do you think the literary skill with which the novel was written weighs heavily on how much play the book gets, compared to the political agendas to be advanced?

This is not to say that Roth is completely unable to string a sentence together. But like countless other Jewish writers, his success is owed to that latticework of Jewish media strength that propels (in the political media realm) a John Podhoretz, Jonah Goldberg or Ben Shapiro or (in the fiction arena) a Jonathan Safran Foer to astounding heights, where an equally skilled white gentile, unconcerned about The Only Issues That Matter, i.e., the Holocaust, Israel and the "War on Terrorism," would languish. Think about how often "the Holocaust" makes the papers, half a century after World War II. Compare that to how often you see coverage of the deaths of millions of white gentiles under the Jewish terror regimes of the Soviet Union.

Trust me, kids. There is absolutely nothing inherently remarkable in the works of any of these Jews. Jews are not literary geniuses in numbers so far outstripping white gentiles as to make this all happen. But backing them are Jew-dominated publishing houses, editors, magazine producers, newspaper reviewers, publicity machines, you name it. It's what moves these Jews personally that moves the manuscript to the top of the pile. Being a Jew: The Buzz comes standard.

But Jewish ethnocentrism is only part of the explanation for the success of Jewish writers like Roth. Jewish writers crank hard because it's part of what they (correctly, and often unconsciously) recognize as a race war of ideas, only a step removed from race war itself. Jews lust to fight this war with every molecule in their Jewish brains. The vast majority of white gentiles barely know it exists. Raise your hand if you think that poses a problem for a promising white future.

The Plot Against America demonstrates how the tiniest of triggers can set the Jewish imagination afire. In his *Times* self-review, Roth writes that he got the idea after reviewing Arthur Schlesinger's autobiography and reading a single sentence in which it's noted that "Republican isolationists" wanted Lindbergh to run. "It made me think, 'what if they had?'," Roth wrote.

And that was all it took. One sentence spawns an entire book. What if white minds were even half as primed to imagine with such richness and detail what their futures would be like with slight tacks of history?

In real life, of course, Wilkie won the Republican nomination and lost to FDR. But Lindbergh is picked as Roth's Nazi threat because, among other transgressions, he (in real life) frequently addressed the America First Committee, founded at Yale Law School in 1940 to oppose FDR's interventionism. Most famously, in a speech to an America First rally in Des Moines in 1941 titled "Who Are The War Agitators?", Lindbergh correctly blamed Jews as among those seeking U.S. entry in World War II.

Never mind that the charge was accurate. Never mind that it was diplomatically framed as possible. Never mind that the British were implicated, too. And most of all, never mind that most Americans were white gentiles whose sons, brothers, husbands and fathers were being called upon to die not for any advancement or protection of their own kind, but the advancement and protection of Jews in Europe.

Merely hint at that, dear reader, and Jews howl. Here's the deal Jews propose for white Christian America, from World War II to the Gulf Wars of today: Spill your own blood for their sake, or they will spill your blood... for their

sake. Oppose it in public, and you risk destruction of your job, your reputation, your life. You will be smeared as a "hater" and an "anti-Semite." Sound like a good deal?

One scene in particular demonstrates the great specificity with which Roth can imagine the tense-for-Jews atmosphere to be crushed at all costs. The Roth family is on vacation in D.C. At the base of the Lincoln Memorial, Roth's father overhears a woman remark "Thank goodness we have President Lindbergh." Mr. Roth responds, "Compare Lincoln to Lindbergh? Boy oh boy." A man with the woman than steps over to Mr. Roth and says, "Something bothering you?" "Not me," father says weakly. "No sir, free country." The man turns away. As he departs with the woman, the man remarks, "loudmouth Jew."

This, of course, is the imagined beginning of the end for Jews: an atmosphere in which white gentiles have leaders who watch out for their interests, and in which white gentiles have just enough of an upper hand to get in the face of a loudmouth Jew who disparages a white leader. Not stuff him into an oven or shoot him in the street, mind you: JUST TALK BACK. Because **that's the real Jewish nightmare: a nation in which white people are doing nothing more than recognizing their own interests and**

directing their own destiny and not inclined to have all that insulted and mocked by Jews. Jews want no such mindset. They don't want whites even noticing that they're Jews.

As revealed in Roth's novel, the Jewish imagination sets the stakes impossibly high: Either Jews dominate completely, with strict prohibitions on even the slightest murmur of resistance, or it's all over. So it's not surprising that Jews would go to the lengths they do to sniff out even mild opposition to their agenda.

If you truly insist on reading this novel, if only for the purposes of documenting the paranoid reaches of the Jewish imag-

ination, I won't blow the "surprise," which has been described in other reviews as ridiculous. My prediction turned out to be wrong.

While whites are portrayed as unthinking haters, Roth paints Jews as fully formed and fully human, from the heroic cousin Alvin, who signs up to fight the Germans with Canada, to the traitorous brother Sandy, who signs up with the Jewish assimilation program called the Office of American Absorption and heads off to Kentucky to work on a farm (thereby becoming "Aryanized").

White gentiles are barely portrayed, and if so, as cartoonish, like the Italian neighbor who offers the Roths a gun for protection against raging anti-Semitic mobs, to Lindbergh himself, who is described as a dumb, bland, blond Aryan. (Because as all Jews know, it's not the loudmouth whites who are of greatest concern, it's the quiet, polite ones.)

Most heroic of all is Roth's father, who selflessly abandons his job as an insurance salesman when the company, in conjunction with the U.S. government, proposes by letter to relocate him to Kentucky, as well. He instead takes a job as a truck driver, hauling produce from nether parts of New Jersey. Oh, those agrarian Jews, so pure in spirit, so hard-working, so salt-of-the-earth! Sweating, suffering, oppressed by the evil white gentiles, yet keeping their dignity through it all.

One wonders if Roth has ever contemplated the way in which we whites have had to watch our fathers take second jobs to support relocation from ghetto edges or mothers who take jobs to pay for Catholic school when the public schools are jangleized by "integration" or even whites who don't get jobs at all because of affirmative action.

Of course not. America 2005, if you haven't noticed, is a Jewish novel. As always, it's one in which we whites are either bland, dangerous or both, but never central, and the central characters are the warm and lovely Jews, for whom existence is defined by relentless imagination about what their enemies are up to.

If you're up for a competing storyline, white man, just start imagining.

The NFL - An Entrenched Bastion of Racism

by J.B. Cash

For some reason that is not obvious to the casual observer, the NFL appears to have an unspoken rule about NOT drafting and/or playing fast white quarterbacks.

While speedy black QBs are all the rage in the NFL, white QBs possessing the same skill are ignored and abused. The media are infatuated with mobile black quarterbacks but not with white ones. Players such as the Atlanta Falcons' Michael Vick are superstars based almost solely on their ability to run with the ball. Yet generally, running QBs are not successful in the NFL. Bobby Douglas, a white player who set the NFL's single-season rushing mark for quarterbacks back in 1972 when there were almost no black quarterbacks, had very little success as a player.

Vick himself has not put up especially impressive numbers; he finished 2004 21st in quarterback rating. Despite his allegedly unsurpassed running ability he is sacked as often as any quarterback in the NFL. He also tends to fumble. Turnovers are the ultimate no-no in the possession-conscious NFL yet Vick continues to receive unrestrained acclaim despite his glaring shortcomings as a quarterback.

Vick was a Pro Bowl player this year even though there were many more statistically deserving players. Along with Vick at QB for the NFC in the Pro Bowl were Donovan McNabb and Daunte Culpepper. Both players are running quarterbacks in the manner of Vick, but they have both stopped running as much and have concentrated more on passing, to the betterment of their teams. Still, both players will often tuck and run at the first opportunity.

If the ability to run as well as pass is a highly desirable trait in a QB then why is it ignored when the quarterback in question is white? Several years ago when the running quarterback came into fashion there was a fine running quarterback out of the University of Nebraska, Eric Crouch. Crouch had impeccable qualifications for a place among the "new" running quarterbacks. He was from one of the biggest powerhouses in college football, Nebraska. He won the 2001 Heisman Trophy and played in a national championship game. He put up good passing statistics, and he was a great runner with tremendous elusiveness. He ran the forty-yard dash in 4.4 and had a 35-inch vertical leap at the NFL Combine. If ever there was a player that had the talent to be the next Vick, or Culpepper, or McNabb, it was Crouch.

Yet Crouch was drafted not as a quarterback but as a wide receiver! He fought the idea, wanting to showcase his skills as a quarterback. But the firmly entrenched caste system segregated him to wide receiver. After a short trial at the position with the St. Louis Rams he retired in disgust. The Green Bay Packers lured him back with the enticement of competing for their post-Favre slot. But Green Bay ended up consigning Crouch to returning kicks, never giving him a genuine chance to play QB.

Crouch left Green Bay and is now being asked to learn to play safety if he wants to stay in the NFL. Clearly his athletic talent is acknowledged or he wouldn't be asked to play receiver and safety. Heck, the few white players "allowed" to play safety and wide receiver in college who

no white Vicks allowed

then excel at it usually never get a chance to play in the NFL, let alone a former quarterback. Thus Crouch, whose only deficiency seems to be in the amount of melanin in his skin, will get no chance to cash in on the current fad for fast, athletic, quarterbacks.

One player who did get drafted to play quarterback and is fast and athletic is Mike McMahon of the Detroit Lions. McMahon has blazing speed and a cannon arm. He ran a 4.45 forty at the NFL Combine. But McMahon has been given little chance to play on the hapless Lions. The Lions spent a No. 1 draft pick on Joey Harrington and have been reluctant to change QBs despite several miserable seasons.

In the little playing time McMahon has received he has been exciting, as he is the kind of athlete that can make big plays. This is supposedly a premium quality in a player and the reason a guy like Vick gets an opportunity to play. Not for McMahon however. He has ridden the bench, will not get offered an extension on his contract and will have to go on the market where he can expect to be treated like other athletic white quarterbacks. The calls for him to play at receiver have already started.

The 2005 NFL Combine featured an eye-popping performance by Matt Jones, a white quarterback out of Arkansas. Jones ran sizzling 40-yard dash times of 4.41 and 4.39 - the fastest times ever recorded for a quarterback. Jones also had a tremendous vertical jump of 39.5 inches. That was five inches higher than the second-best QB. He also had the longest broad jump among QBs at 10.9 feet. All this from a player who is 6'6" and weighs 240 lbs.

This tremendous athlete with four years of experience as a quarterback at Arkansas would seem to be an ailing NFL team's answer to Michael Vick. Instead, Jones has already been moved to wide receiver, so, like Eric Crouch, he will not even get a shot to play quarterback. Matt Jones -- who possesses the talent to be the next great running quarterback -- will get a token shot at receiver and have a short time to learn a position he has never played.

In a colorblind world in which racial prejudice against white athletic talent did not exist, Jones, McMahon, and Crouch would be competing for headlines and awards against Vick, McNabb and Culpepper. Unfortunately the existing paradigm insists that white men cannot run or jump. And even when they prove it for four years at a major college, at the NFL's own testing Combine, and in limited play on the field, it still is not enough. There is no amount of evidence that can be presented to coaches, media and fans that will convince them that there are white athletes who can compete with and even surpass black athletes when it comes to the speed and agility at the heart of the game of football.

No one seems to find it the least bit odd when entire decades go by without a single white tailback getting a chance to play as often as the most mediocre black running back; or when there is not even a single white cornerback out of 160 at the position in the NFL, not even a single one good enough to be a scrub backup. If there were any position blacks were locked out of, the media and league would set up a roar that could be heard from coast to coast. Who would be blamed? The old (white) boy network.

Good athletes such Matt Jones, Mike McMahon, and Eric Crouch, are the victims of a systematic prejudice. We call it the caste system. It is unfair and wrong and needs to be pointed out, acknowledged, and ended.

It is not just at the quarterback position that the caste system shows prevents whites from rising to the level of their abilities.

The running back and cornerback positions are also intentionally racially segregated despite white players proving they are capable of playing there.

A good example of this bias comes from Don Wassall, an expert on the caste system, commenting on the bias exhibited by Mel Kiper, for years promoted by the media as the country's leading expert on the draftability of college football players: "Kiper has moved RB Ronnie Brown of Auburn to his number-one NFL prospect. Here's what he writes about Brown: 'Had an outstanding workout at the combine, running the 40 in 4.48 while weighing around 230, which only adds to the already impressive profile Brown has. He showed against several opponents in 2004 that he is one of the most complete backs in the nation, running and catching the ball with equal skill. He averaged over six yards per carry this season and had 34 catches. Brown has the size, instincts, power and quickness to put up unbelievable numbers and would have been a Heisman candidate had he been the clear-cut No. 1 on the depth chart. An explosive powerhouse with speed and strength.'

"What struck me right away when reading Kiper's assessment of Brown is that [white running backs] Luke Staley and Travis Jervey both weighed close to 230 pounds and both ran even faster than 4.48 coming out of college, and Staley was coming off one of the very best years a college running back ever had. Staley was drafted in the final round and never given a chance, and Jervey was always treated like a joke. They weren't deserving of a chance, yet a black with similar physical attributes 'has the size, instincts, power and quickness to put up unbelievable numbers. . .' and may be the first pick in the draft. If you want to see the essence of the caste system in black and white (pun intended), there it is."

It is not only at quarterback and running back that white players are discriminated against but also at the cornerback position. Here's a description of Dustin Fox, a stellar cornerback for the Ohio State Buckeyes, who is eligible for this year's draft (provided by a contributor to Caste Football):

Fox has a 40-inch vertical and can run with the best of them. Dustin was a track star in high school. He also led Ohio State in solo tackles two years ago and was second in solo tackles last season. The big question is, will any team in the NFL allow him to play cornerback at the next level? Unfortunately, the answer to that question was already being answered some seven months before the 2005 NFL Draft.

A service called "Scouts, Inc." rates college players for ESPN. In the intro to this year's senior class of prospects at the various offensive and defensive positions, cornerback Dustin Fox is included not as a cornerback but as a safety: "This year's safety class doesn't have a Sean Taylor (#5 overall pick by the Redskins in 2004), but Oklahoma's Donté Nicholson, UNLV's Jamaal Brimmer, Georgia Tech's James Butler and Ohio State's Dustin Fox (plays cornerback for the Buckeyes but should move to safety in the NFL) are all potential NFL starters that warrant consideration between the late first and second rounds."

And here is Scouts, Inc.'s capsule description of Fox: "Grade 77 [out of 100]. Bottom line: Fox started two of the 12 games he played in as a true freshman in 2001 and

Matt Jones

Dustin Fox

saw action both at safety and cornerback. Fox has been a full-time starting cornerback since his sophomore season in '02. He started all 13 games as a junior in '03 and finished with 77 total tackles, three TFL, three INTs and nine PBU. Fox has a chance to make it in the NFL as a cornerback but it likely would have to be in a zone-coverage scheme where he would be protected deep. Fox has great experience at cornerback and less so at safety, but we think his best chance of making an impact in the NFL is at safety, where he will need to add some bulk and adjust a bit to playing in so much space. Regardless of the position move or not, Fox should be a Day 1 draft pick who can contribute immediately on special teams and likely as a sub-package defensive back for the first season or two in the NFL while he is finding his niche."

There you have it: a track star who is a star at cornerback for one of the country's biggest and most successful football programs can't play that same position in the NFL without being "protected deep." Note that Scouts, Inc. doesn't say that Fox doesn't have great speed; he just isn't suited for reasons not given to be a cornerback. Better that he "bulk up" and play safety, similar to the way the few white college tailbacks are told to "bulk up" to play full-back, and white wide receivers to bulk up to try to make it in the NFL as tight ends.

No other standout senior cornerback except for Fox is being pushed by the draft "services" to play in the NFL as a safety. There is one reason and only one reason that Dustin Fox "should move to safety," as Scouts, Inc. puts it: **Dustin Fox is white and whites aren't allowed to play cornerback in the NFL.** The media, the NCAA, and the NFL, all cooperate in this systematic, decades-long racism against deserving white football players.

Another bias against white players is the lack of opportunity for white players that are fast but short. The NFL is full of "smurfs" - short black players that can star at running back, receiver, and defensive back, but there is only one place a short white speedster can very occasionally play: kick returner. This year's example is Dan Sheldon.

Dan Sheldon

Wide receiver Dan Sheldon's second 40-yard run at this year's NFL Combine was at an official 4.37, considerably faster than most of the black wide receiver hopefuls. He has tremendous speed, but at 5'9" and white, the best he can hope for is a kick-returning job, and truth be told, even that is highly unlikely in the rigidly segregated NFL.

We are told constantly that white players are athletically inferior to black players. That white players are too slow or can't jump. Yet when ample evidence suggesting otherwise is

presented, it makes no difference. For reasons never specified whites are told they are not suited to play quarterback, running back, or defensive back.

The reason is obvious: INSTITUTIONAL ANTI-WHITE RACISM. When it is decided by the powers that be that blacks have been under-represented in a certain occupation, the result is a strong governmental, corporate and media campaign to recruit and develop more of them. In sports, not only is there no interest in having whites playing at the highest levels against blacks at most positions in football, the few that break through the institutional barriers and manage to play at a high level in college are rarely given a chance to go on to compete in the NFL.

The power structure that claims white racism alone explains black under-performance in the workplace, flips its position when it comes to whites in sports. There, black superiority is taken for granted. It is our hope that the data in this article have given you good reason to suspect that something is being hidden from you, and that many top white athletes are being denied opportunities - solely because of their race.

Movie Review

'Of Unknown Origin'

by William Anderson

Everywhere, where rats appear, they bring annihilation, destroy man-made things and places as well as food. In this manner they spread diseases like plague, lepra, typhus, cholera, dysentery, etc. They are cunning, cowardly and cruel and act mostly in huge crowds. Just like the jews in mankind. -- Joseph Goebbels

The rat has long been employed as a symbol of the jewish problem, and why not? They both live as parasites among humans, and jews even resemble rats with their beady eyes, long noses and plump, hairy bodies. Jews have moved into our formerly White countries and done their utmost to destroy everything our ancestors devoted their lives to creating. Just like rats. And this brings us to our movie, "Of Unknown Origin."

Bart Hughes (Peter Weller) is a Wall Street WASP on the climb. He's got a loving wife (Shannon Tweed, in her first role) and son and lives in a posh brownstone he's renovated himself. At work he's starting on a big project that could earn him a promotion. He's worked very hard to get his slice of the American Dream. His life is pretty good. But Bart has a rat problem.

A large sewer rat has moved into his home. The trouble starts with a flooded kitchen. Something went wrong with the dishwasher and the super from the next building (Louis Del Grande) thinks it's a rat. Bart doesn't think much of it. It's only a rat, after all, right? He baits some traps, scatters them around the house and goes about his business. But the traps don't work, and the rat continues to destroy the home Bart so lovingly (and expensively) restored. Next he tries poison, but that doesn't work either. Bart starts to lose control, and his work suffers.

Bart's problem is that he doesn't take the rat seriously as a threat and, like upper-class Whites everywhere, wants to be rid of what he considers a nuisance so he can get back to making money. But the rat isn't a nuisance, and it isn't going away. It thinks it's home.

Men like Bart Hughes used to be on top of the world. Life was dinner parties, stock options and two vacations a year for as far as they could see. But some rats moved into the picture and, just like Bart Hughes and his monstrous rodent, the WASPs didn't take them seriously. There were some problems, of course, but they just couldn't believe those funny little people with their skullcaps and ringlets could be up to such mischief. Well, they didn't want to believe, anyway. That would mean the WASP elite would have to do something, and that might get in the way of the next leveraged buyout.

So the rats went about their business. They left their rat droppings on the public school system here, they gnawed holes in the Mexican border there, and they spawned legions of black and brown offspring in the cities. Soon, the Whites couldn't even recognize their own country anymore, and so it is with Bart Hughes in his brownstone.

Lapdog of the Devil

When the rat becomes ever more aggressive and violent, Bart finally recognizes he is in a war, and only one of them is getting out alive. But this is going to be one bitch of a battle because, just like the jews, the rat is almost always a few steps ahead of Bart. As the super puts it, in an aside that serves as a wonderful illumination of the jew-Aryan conflict, "You know what's the matter with you? You don't realize that maybe you're spending 20 percent of your time thinking about him -- but he's spending 100 percent of his time figuring out ways to outsmart you -- 'cause he's a rat. He's got nuthin' better to do."

The jews have us figured out, all right. Understanding human psychology is the jewish specialty. Hell, they invented it. This is how they've duped, swindled and made us chase our own tails for almost all of recorded history. They currently have the White West on a death spiral of guilt and self-destruction that can only lead to our erasure from Earth, all from expertly manipulating us. They understand

Whites because they made it their business to understand us, and the only way to destroy them is to understand them in return.

Bart is a great detail man, and he makes it his business to understand the rat. Through research he becomes a kind of walking encyclopedia of rat lore. In an amazing scene, Bart gives an impromptu lecture on the biology of rats at an upper-class dinner party. He gets so carried away he doesn't stop even when the other guests start becoming disturbed and visibly nauseous. Note to future WN directors: This is the right way to insert expository dialogue. Still, it's too bad he couldn't have slipped something like this into his diatribe, from the Third Reich-era magazine *Unser Wille und Weg* (*Our Wills and Way*):

"Just like rats, the jews 2,000 years ago moved from the Middle East to Egypt, at that time a flourishing land. Even then they had all the criminal traits they display today, even then they were the enemies of hard-working, creative peoples. In large hordes they migrated from there to the "Promised Land," flooded the entire Mediterranean region, broke into Spain, France and southern Germany, then followed the German colonists as they moved into the countries of the East. Along the way they remained eternal parasites, haggling and cheating."

Bart understands he will probably lose his job and destroy the home he worked so hard to renovate during the course of the war, but he knows this vermin has got to be destroyed. When he's convinced of the gravity of the situation he puts everything on the line for victory, eventually strapping on a miner's helmet and protective gear and stalking the rat with a spiked baseball bat. The West has a rat problem, too: twelve million of them that need extermination. All we have to do to win is treat it as the war it is.
