

Ulterior Motives

Those all those contributing to the mountain of stuff on Ulster on the net. The nations knickers is really in a twist isn't it? To all the clowns, the fools, the cowards, the sincere. To everyone interested and uninterested. We need White Nationalism to be properly formulated and big tomes written. Its still in its infancy. READ YOCKEY. He probably would have gone on to be the Karl Marx of White Nationalism if he had not died so suspiciously. White Nationalism is the last functioning nationalism.

The media enforces Orwellian Doublethink and the people accept but smell a rat and are demoralised but can't articulate themselves. Those of us who can speak for them are demonised and even attacked by the false flag wavers who serve as the proxies of this Jewish empire here. The media tells us Samantha Mumba is Irish. Could you be Chinese? No. Clearly a double standard. Double standards are not western. We seek rational consistency. Rational inconsistency is insane and Semitic. The Jewish fingerprint in the whole affair. If a Black can be defined as Irish then no one is Irish. The Irish have been exterminated with the stroke of a pen. This is all part of the incrementalist genocide being waged against the Irish. To accept such shifting of terms is to make an act of war against the Irish. It is a million times more serious than any number of Orange men marching through Cork or Dublin. The average Republican is too much of a retard to understand that. Why should he understand it? His own leadership has bought into the idea and wages war against the Irish people. Fake nationalists are one of the most dangerous enemies a nation can have. If the goal were merely to rule Ireland through these fakes then that would not be that strange, but the aim is genocide and the erasure of everything distinctly Irish. The Irish people are well able to fight back against Cromwells and the like but like all whites they are vulnerable to traitors.

Cromwell said "To Hell or to Connaught", today the choice is to Hell or to White Unity. All the White Nations are being driven together by a common political weakness. We must learn to love each other or perish. Ireland is perishing.

What interests me is whether we can get the resources and people together to start a political movement to save Ireland, not whether I can impress, interest or persuade the army of cretins typing garbage about Ireland on the internet. These people will never be of use to us, for the most.

Every white ethnic group should have self-determination. Very few do. Everywhere we see the Jew. In South Africa the rump of the Boers is misled by a Jew called Leon who makes sure that they get to vent harmlessly while they are gradually exterminated. If you treat Jews as Whites you will never need Blacks. Poland is still allowed to be White but they send tribute to the Jews in the form of soldiers to Iraq and other things.

What the Republicans do is conflate ethnic nationalism with territorial nationalism. These are two separate things. They do this with slight of hand. Most people would agree that the northern state is unfair, even Ian Paisley admitted such. But instead of making the most political capital out of that you deliberately shoot yourself in the foot by attaching the territorial nationalism of a 32 county state. This puts the other side in an impossible position. I think this is done on purpose.

Well I sympathise to a certain extent but if everyone in Europe were able to make 300 year territorial revisions there would be chaos. Do you think you're special? Greater peoples than either of you have been wiped off the face of the Earth by our common enemies. Ask for control of your own areas, not powersharing or whatever. Multi-ethnic states don't work. Criticise the Ulster state in those terms and warn the Mickey mouse southern state of the road it is going down. I think if you had asked for just self determination you might have gotten that by now. There are many territorial injustices across Europe. Many far worse than the North.

White Nationalism is the cure for the North and a white nationalist is perforce the enemy of both Republicans and Loyalists. Both these groups co-operate with the enemies of all Whites and are the

enemies of both the Gaelic and Anglo peoples. The Loyalists should think of themselves and forget Britain . Its valid in terms of Irish national interest to object to a Loyalist state but far less so to object to an ethnic mini-state that has cut its ties to Britain and which doesn't have thousands of British soldiers in it. Also that Anti-Irish Orangism and so forth will have to go. Its difficult for a white nationalist to celebrate William of Orange, he was a disaster for Britain also. Define yourselves in terms of ethnicity and we can deal with you. The Unionist identity is too negatively defined , no wonder the Irish protest when your marches celebrate their humiliation. A cultural revolution on both sides is needed. The Irish Republic is a joke . A militarily impotent 51st state. An American industrial estate, just as Britain today is the pathetic Airstrip one written about by George Orwell. The Irish nation is being targeted by the ZOG with immigration . The Irish Republic is the enemy of the Irish nation. The Unionists don't want to be part of that Mickey mouse state and who can blame them? What you can blame them is for wanting to be part of Britain but you must also blame Republicanism for that because it drives them into Britain's arms. Similarly the Unionists have to blame themselves for the IRA because they , by refusing self-determination and its trapping to the Irish up there drove them in that direction. Break the vicious circle .

Justin Barrett and his holy joes aren't going to solve the problem although he might be able to make a living off them unlike me. Of course he will distance himself from real opposition .Conservatism has failed again and again. We're playing for keeps . While Justin and Aine are repeating the mistakes made a thousand times elsewhere the country is going down the tubes. Better to go to jail than to be a fat ineffective conservative. Hats off to the Republicans . Their people will die for them. People need to feel social approval . The Media is part of the system and demonises people like myself but gradually its losing peoples respect and the more we push it the sooner the people will break free of it. We need to form a consensus in the community before significant numbers will fight the power. The British, poor imperialists in many ways, formed that for the Irish again and again. In 1916 and again shooting people in the North during the curfews. They pushed people into defending themselves. When the danger is clear and people are being shot in the street the Irish can react with enormous physical courage, as can all whites , but the Jews are clever and are committing an incrementalist genocide against us. Even in South Africa that's still working despite all the murders. They are still being led up the garden path. We still have not figured out how to beat this most dangerous of attacks.

If there were murders, rapes and car burnings like in France the Irish would rise up but the darkies wait 'til the society is so rotten and the Whites so cowardly that they won't fight back. Meanwhile the darkies provide and excuse to build up the police state which is only used to attack dissident Whites. The thing is a vicious circle that will only end in collapse ,revolution and bloodshed , and the final collapse will either start in one of the healthier White nations like Greece or else in one of the sicker ones like Holland and started by the dark ones themselves. The Jews are the heirs to the British Empire and indeed took it off them by infiltration from the inside. They are far smarter as imperialists than the British but they have their own set of vulnerabilities. Take them on and find out. Republicans are cowards . They kick the corpse of the dead giant Britain while feeding their own countrymen to the monster that erupted out of its stomach.

I have met and talked to some Republicans and argued with them. Many of them are ok guys who have been misled and with some hard talking to most of them can be turned into real nationalists. This is what their red Mafiosi leadership fears and why they try to squash anti- immigrant groups in the south. The British groups who confuse White Nationalism with Loyalism do enormous harm and make our job more difficult. The Irish language is never going to come back under this system, whining about it is a favourite Republican hobby horse. It was used as a gimmick to sabotage peoples education and the only way it could come back would be under a different system where people got a decent education for freedom and not for slavery.

Because of the media power of the ZOG everything about the old Ireland has been hijacked to attack real Irishness. Look at TnaG . Its full of propaganda and they even have a black speaking Irish. Only white nationalism can't be subverted. The West is in the hands of the Jew and that needs to be said. The

entire western world and especially the English speaking countries are in their grip. Putin and some of those countries have managed to get some real independence there. Putin is fighting some Jewish individuals but not the Jews as a group. The BritZOG supports the Chechens.

The Irish are giving away their country . The BBC says that there are already 50,000 Latvians in Ireland . Latvia has never recovered from the USSR and still has one third of the population composed of Russians. Ireland is over . Never mind the North the South is finished . The Irish don't even have one county never mind 32. They will be lucky if they ever even have one again. Am I the only person who will speak bluntly about this in public?

I disapprove of this use of the Latvians . People are more important than economic doctrines and gimmicks. Ireland is being fattened up for the slaughter. This is not real economic growth. Irelands economy has been artificially boosted by political decisions for political reasons. I have very little time online and don't write that much on economics. I can't do everything although I could do more if I had more helpers and resources.

We hear talk of the Celtic Tiger , its more like the Celtic Pussy and the country is being screwed. Even the term was coined for the American client states in East Asia and Ireland has finally arrived as the 51 state . The whole economic system needs radical reformation. We have spoilt people in Ireland with their German Aupairs. One German girl heroically died to save a child being killed by a truck in Carrigaline a while back. The Irish didn't work any less hard in the 1980s , but nobody stops to ask what is the economic difference between then and now.

The economy exists for the people not the people for the economy.

The old fashioned nationalists are all too often of use to the ZOG.

READ YOCKEY.

Look at the mobs in the Ukraine following freedom and handing their country over to a puppet of ZION. Something right out of the protocols of Zion. Read that . Everyone needs to read that to understand politics in our day and age. He we go again , the myth of the dictator. Byelorussia is under attack . Rent-a-mob . Here we go again.

I utterly despise the Sinn Feiners . They are a Mafia and will say whatever and keep on the good side of whoever to continue in business. I also despise the Fianna Failures who only represent their corporate donors. I went to one of their meetings to confront the finance minister . What a shower of almost down syndrome grinning psychos atavists. They didn't like it up them, no they didn't , didn't like seeing their precious minister asked why he was letting all those Chinese into the country. He answered me with words about Enoch Powell. Well you treacherous dog and all your party , your going to get washed away in those rivers of blood. Your own actions make that inevitable.

The dam of history is creaking and starting to leak. A tsunami of blood is going to sweep over the world in this century washing away the old order. Nature can't be imposed on with impunity.

We know that British intelligence fund the Islamic extremists, the Muslim brotherhood etc., when it suits them. The moderate Arab regimes are the enemy of the ZOG. Well done David Shaylor for speaking out. I can imagine that both sides in the North are on the payroll. Only the ZOG and the British establishment have benefited by the way the struggle has been carried on.

Think about it Mr Keyboard commando , going on about a United Ireland. The Shinnners are a false flag. Yes the grassroots are often lovely people who love their country. Why demand more than self determination? Demanding a United Ireland drives the unionists into the arms of the British state. Ask for repartition, autonomous areas , your own goddam cantons or something and then you would be negotiating. Ask for your own self determination. If you ask for all the 6 counties your asking to end the

self determination of the other side and driving them into the arms of ZOG .

Yes the 6 county state is an abomination , yes its in the national interest to end the whole thing. The only way you will get anything like a United Ireland is with White Nationalism. A cultural revolution in both sides and new vistas will come into view.

People who have no sense of what the west is are of not a whole lot of use to us. Today our Nation is Whitedom, that is the political unit to which our survival depends and to which we are attached whether we like it or not.

Once Munster was an independent kingdom , but now those days are gone. Similarly if you only think of your own country you will lose it . Its just a region .History has passed it by and that's all. Those who cling to the past are assets to our enemies . Similarly cosmopolitan internationalists are ,at the other extreme, assets of the enemy.

Our enemies are a multinational empire. Jews in every country work with Jews and their minions in every other one and they think in terms of millennia.

You have to be a white nationalist and work with whites from every nation. That doesn't mean accepting British domination in the North for White Nationalism is opposed to the domination of one white group by another white group.

I don't think political parties should serve up tripe to the footsoldiers. When they don't then we will be seeing the beginning of a serious pan-European movement.

All the Shinnners and their rotting hobbyhorses . That old 1916 nationalism is mainly defunct , not that ye are even that , with your commie friends. It didn't save Ireland . None of the Irish language fanatics helped me fight immigration . They stay at home with their tail between their legs.

Maybe I will have more luck with the Polish and the Latvians . They are tough. The Latvians know about the civilisation enemy , the Jew and that makes them better westerners than the racially spoilt Irish , drowning themselves in Guinness, a Jew run company, piss water beer , full of sugar, while other peoples fought the race wars on their behalf. Well the Irish are growing up fast as they suffer more and more. The Russian fought the Tartar for us. The Spaniard fought the Moor. The Greek fought the Turk.

It was never really the British . The British enemy was rotten with Jews even at its peak . Disraeli , ever hear of him? Hear what he did ? Blowing the legs off some poor dumb British Tommy up north , what did it gain you ? Open your mouth about the banks , about the kikes and then they'll be after you .Then you'll find the real power over there. Blowing up Thatcher , one is tempted to applaud. They don't mind you taking a few pawns out. If you'd blown up the board of Jewish Deputies you'd have been closer to the real power. Criticism is more powerful than bombs , the truth than semtex. They let the IRA out of jail. Its no big deal killing a few of their expendable soldiers but criticise their myths and you will really have made an overt political act. Killing a slave is never a really political act . Slavery exists under a different name. Look at the functions , the game play ,the status, the profits ,not the labels . Cromwellianism needs to be driven out of Britain . The new Jerusalem needs flattening. Speak to people. Set the truth off in London and the real British will love you for it.

While people are playing with their hobby horses the country is being lost. Not everyone can be an Ezra Pound . There are many territorial national problems across the white world and they all provide opportunities for the common enemy.

Its a pity the Republicans didn't win the civil war because it gave them an alibi for the failure of the United Ireland fantasy. Ireland will never be united by proposing a plan that amounts to driving the other half up there into the sea. This is exactly why it is proposed because they don't want to play serious

politics but want to keep Ulster an open sore which they can milk and play their Mafia games. Lets repeat this again and go and read you Machiavelli if you still don't get it. **This is exactly why it is proposed because they don't want to play serious politics but want to keep Ulster an open sore which they can milk and play their Mafia games.** Even if you got to the point of driving the Unionists into the sea , and you won't, Mr hobbyist ,you can't even get enough Irish together to drive a Nigerian out of a bar, the Jews would suddenly start whinging about Human rights and bomb you like they bombed the Serbs . It would provide an excuse.

Sure some of their people I've met and they're sincere patriots , but that isn't enough, intelligence isn't enough either if it falls short. Understanding is required and Nature doesn't take excuses.

Your fate is tied to 500 million other whites. They are your nation. We will be lucky if we can save a fraction of them . I doubt we will be able to save the nation structure and I think that is a pity but your cowardice pushes us closer and closer to the brink.

The old notion of nation is PC and is used by the Zog to split the political nation , the White Race. They target you because you are White not because you are Irish.

Only White Nationalism can save Ireland , only White Nationalism can bring whatever level of unity is possible up north. Talking crap based on what the Brits took three hundred years ago isn't realpolitik . The Germans won't even get back what they lost 60 years ago and yer whinging.

The problem is the Jew. All other problems go back to the fact that we are slaves in a Jew empire. People who try to oppose the symptoms without addressing the cause do more harm than good and the system will often steal their rhetoric if they attempted to criticise it in a way that avoided touching on core ideology. Core ideology is anything touching the Jew. Jean Marie Le Pen can say certain things about Arabs etc. Mr Sarcoma , I mean Mr Sarkozy will be the next president of France because they have found a PC way to say "Lets limit immigration". That of course will not be limited but because Le Pen can't say Jew he's in a fix now. Worse is better. The closer things are to collapse the better for us. We need a revolution not "deportation of illegal immigrants" . We need a new civilisation. You can see how the conservative types have been taken for a ride by the Jews in the USA. They bait them with abortion and other relatively minor points while the one issue , the Jew isn't mentioned. Even so called racists like Jared Taylor avoid this issue.

Germany is the heart of Europe . The fate of Ireland depends on Germany. You have so little education . Where do you think that Celtic culture came from in the first place? The heart is beating slowly . The organism is dying . Ireland is dying as a consequence. Your ancestors understood that they had to fight on the continent to free Ireland . The wild geese fought and won battles all over the place. Today the British Empire is gone . We face a Jewish empire and we have people like Gerry and Bertie queuing up to be satraps. Fight the empire, fight the Zog! It isn't British soldiers who brought the Nigerian hordes to Ireland but our own traitors. It isn't the Orangemen who did it either. Plenty of them are concerned.

Conservatives are of very little use. I have gone to their meetings. They will be on the defensive and will lose gradually. If you know nothing of the history of conservatism in the last century you will repeat its failures. The Neo-conservatism is the fruit of all the cowardly hypocrisy of those on our side. Their hypocrisy led them to being taken over.

Crude untutored nationalism will often as not be of use to the enemy. Remember WW1. Yes let whites discuss issues like the North but let it be put aside 'til after the present system is gone. Your living in a fantasy world if you think you can do anything about it under this system anyway. Dinosaurs the comet has struck.

I think all delicate issues like Polish territories and the North can be discussed at a conference of all white ethnic groups after this system collapses. If that sounds like pie in the sky , its more realistic than

thinking you can ever force a United Ireland on the Unionists. They will just start a terrorist war against you the day you switch roles and become the oppressor in your turn.

The southern state is a disgrace . Get yourself a decent southern state if ye can. Fianna Failure can find money for free cars for Nigerians but not for Dublin bus. I remember the nightmare of the number 17 in the morning.

Where are all the Irish language fanatics and what use have they been? What a failure of a state. It pretends still to be concerned about this language while driving more nails into its coffin every day. Since the invaders arrived I've spoken it more . Useful for holding conversations in front of the invader that they cannot understand.

What has Britain done for the fine Ulster soldiers, some of the best fighting men in the world ? Gulf War Syndrome . I dislike how the British national parties confuse White Nationalism with Loyalism. What has it ever gotten them? It has made them look foolish . Be frank and you will get more recruits up there. White nationalism is against the domination of any white group by any other white group. Hence the 6 county state flies in the face of White Nationalism. Even the concept of "British" is problematical in White Nationalist terms.

Heres what the BPP say on their site under "White Nationalism"

11. The guarantee that Ulster shall remain forever a part of Great Britain

12. The outlawing of the IRA and other anti-British terror organisations

It is a sign of the dire state of the movement that people will talk utter garbage to appeal to dabblers. Real political movements with spunk in them make simple sense.

Ian Paisley famously said he would rather be British than fair in response to a catholic who said the northern state was unfair. Fianna Failures would rather be rich than patriotic. The Shinnners would rather be mafiosi than oppose immigration and bring the Jews down on their heads. Some of the stuff on the Republican Sinn Fein site is good. They certainly expose the southern state for the mickey mouse set up it is. Unfortunately they detract from the power of their writings with crackpot leftist notions , such as eugenics being a unionist conspiracy etc.

Everyone needs to read Yockey. Sovereignty rests in the ability to use political power and neither people on these Islands are sovereign by that definition . A just war is a war against a real enemy. We have only one real enemy -the Jew. Everyone else can be negotiated with I believe. The Jew think in millennia and Jews in every country co-operate with Jews in every other country. They don't recognise borders thinking that they own the world and the other peoples being mere herds of their cattle on it. Ireland does not exist as a sovereign nation for the Irish people. It is just a satrapy of the ZOG empire. Get off your hobbyhorse.

There does need to be an Irish party set up but in order to work it must make a clean break from all the confusion over the North etc. It could not work if it merely mirrored the nonsense of the British parties. It could not work with FN type Joan of Arc celebrations. It would have to be more WN in order to put clear blue water between it and all the garbage that has come before and all the agent provocateurs who will be sent out to exploit the mess in the North to sow dissention. We can see such at work on the internet, or are they just cowardly cretins? The internet cannot be the place where this party shall start. We have to go forth and find the footsoldiers. These people are not online. Public meetings must be held. It will be the workers who will join and not the bourgeoisie or college students. Resources are needed first and the most important is a few generals with brains and will power. Everything else will follow then .

The approaches of Justin Barrett and Aine Ni Chonaill won't work and they know it . Justin ,I think, just

wants to make a living off this and won't risk being serious. If you reinforce the systems ideology you merely demoralise the soldiers. Conservatism has been tried and its failed again and again. We need radical surgery. Bandages aren't enough for a gangrenous limb. It has to be sawn off. Worse is better. Lets the people suffer for their folly . Lets not try to help the system repair itself lets replace it . We need a revolution ,a new civilisation. By being desperately PC to oppose some symptom we do more harm than good . Better to be a total dissident like me . Read the history of white resistance and learn from the mistakes made.

Maybe I better go learn Polish and Latvian because the Irish seem finished. The Scots-Irish too. The Poles have a website "Our Cork" ,they are laying claims already.

White Nationalism in summary for the North means.

1. No tribe of Whites should dominate another group of Whites. This means an end to the 6 county state and self determination for both groups, with British troops out permanently. It also means an end to the 26 country neo-colonialist abomination.
2. No whites should support the enemies of all Whites . This means an end to both Republicanism and Loyalism.
3. All territorial disputes between Whites should wait until the present political establishment is overthrown across the world . Then there can be a meeting of the cultural guardians from every ethnic group of whites to redraw lines on maps and arrange for the righting of injustices in a way that is fair to all groups.
4. Irish or British political parties claiming to be white nationalist should not confuse WN ideology with their own side ,when it is neutral and against fools and traitors in both communities.

There should be no large scale immigration of Whites to Ireland just because of some political decision regarding corporate tax. Future generations will look on this kind of thing as we look on the British child chimney sweeps of the 19th century. Its akin to treating people as slaves. Those who profit from parasitism from our own people ally themselves with the race enemy.

Immigration should go generally from west to east in Europe and from north to south . All Whites should have residency rights anywhere on the American continent. Lets keep our nations if we can . We are definitely richer with them. Let the Whites mingle with each other in our colonies which we will take back perhaps if we can save ourselves . We could write an entire book regarding the applications of White nationalist ideas to the Irish problem. The biggest problem is lack of men who will speak out. Conservatism and groups that just hobbyist garbage from the past and who shoot themselves in one foot so that the media won't pour filth on them won't get far. You know its true .

Tell Becket that Godot has arrived. Meaning has returned to life and then some. Modernism is over. Catholicism is over too . What would the previous Popes have thought of this chap who says enough of "racism" while Italy is invaded and mosques mushroom all across Christendom? They would say "Burn the accomplice of the infidel!". Religions are invented by wise men to serve our interests . Numa etc . When they cease to be useful we should discard them. The Pope used to be the leader of the west, the Caesar who sent us on crusades, not a treacherous dog who defends invaders.

Will the Capulets and Montagues reconcile , even after this immigration tragedy?

Long live Ireland , with your help and activism! Down With ZOG!

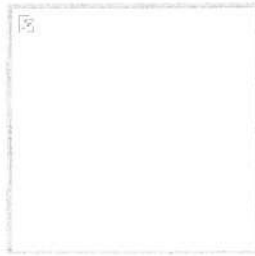

We need your help to defend free speech and to educate the public . We have very limited resources .

Irish Examiner Thursday, January 27, 2005 "The website is run by an organisation called Revisionist

Education Organization. The group, believed to have only a small number of members, is based in Cork, and has distributed leaflets and conducted recruitment campaigns in Dublin.

"The website is an insult to Jewish people and other people. It is a permanent form of incitement to hatred," said Philip Watt of the National Consultative Committee on Racism and Interculturalism (NCCRI).

He said legislation should be brought in to outlaw such websites. Mr Watt was concerned Holocaust denial wasn't a crime in Ireland and said it should be. "
