

www.exterminahonist.com

Dear Iranians,

We want a reborn west , we need that and so do you. We are suffering greatly for having being captured by the Zionists and the other Jewish supremacists. Its valid to criticise the hypocrisy of the pseudowestern media. The Jewish empire must end . Not just Israel but the so called "diaspora" , the colonies of jews around the world must end. The Jews must be disarmed and given a constructive role to play in the world . They must cease to play a part in the west. We must ensure that they can never harm us again. They advocate that the only living relatives of Adolf Hitler have no children so that his blood line die out. Let this people be judged by their own law : "Auge um Auge , Zahn um Zahn". The very magnitude of their crimes against us increases their solidarity .

In the past we fought easterners and we always won . We beat Attila the Hun and later the mongols. They were great warriors but in the end we were better. Nature's laws or God's laws ,as you like ,are always at work and the orient brought forth a new type of enemy , an infiltrator , an easterner B ,called the Jew. The outside of the west had adapted to our defences and attacked us in the only way possible , through infiltration. Now we are totally conquered. Help liberate us. Get the colonists in our countries to help destroy the Holocaust myth and then get them to leave . We can deal with easterner A but not with easterner B . Easterner B has created a degenerate westerner B who prefers this inverted west. You can't stand westerner B and we don't like them either. For peace on earth there must be only westerners and easterners of type A.

Islam reminds me very much of protestantism and the iconoclasm of the Calvins etc of the Reformation remind me of Mahomet. Did anyone ever thing of using this parallel against the protestants during the bloody wars of religion which swept Europe to the amusement and profit of only the jews? The Puritans who arrived in America were ruled by a code of laws very close to your sharia. I imagine how you feel when what you believe strongly in is desecrated. Every time I walk in the street and see my Europe being colonised by millions of third world people I feel that something sacred to me has been desecrated. The thousands of mosques etc popping up across Europe are a desecration of my space, synagogues are even worse. The presence of a synagogue is a blatant insult to the millions of europeans murdered by Jews and their proxies.

To co-operate with us you should also condemn this process of colonisation which only benefits the zionists and their pawns. If Muslims colonise Europe then you can only expect that some people will insult your religion especially when the Jews have made it such a taboo to criticise the colonists for their racial incompatibility. Some anti-immigration groups such as the Danish right wing party are anti-muslim and are unable to adopt a correct factual position that the colonists are the symptom and the Jews the disease. The Jews are so powerful that many feel they can only talk about the symptoms.

It seems that the jewish press elements have taken this cartoon issue and are running with it to help dehumanise muslims and justify the war being waged against the few remaining independent states. Independence from Zionism is called evil by the Americans and the press.

Persia , then called Parthia resisted the Romans and we today resist third world colonisation .Although not enough of us are resisting actively thanks to the fear of the media etc. We remember how the Parthians filled the head of the materialist Crassus with molten gold and we have no hard feelings about it. We hope you will understand how we feel about mass immigration and we ask your help to stop it because it helps bring on the "clash of civilisations " that the Jews want.

It is very important to us that Iran remains independent of the New world order. The Islamic revolution in Iran is something we should celebrate also. Many of those on our side fail to understand the geopolitics and and still thinking in old-fashioned ways. The Holocaust has been destroyed by the efforts of a small number of committed people against great odds. We greatly appreciate the efforts of Iran and we will not forget your help.

I suggest you invite the white nationalists across the world to set up a small community in Iran . The very existence of such a statelet would do enormous damage to the Jews. It would also do wonders to create some

kind of homogenous white nationalism which at the moment is lacking. Iran is big . We have a long history together . Our civilisation comes mainly from the ancient greeks and we want to catch up to where we should be now if they had not failed .We are also "Dual-passport holders" like the "neoconservatives". Every culturally aware westerner is a citizen of ancient Athens as well as his own country of today. Indeed everyone of us has to think of more than his own country if his country is to survive. Both of us need a renaissance in the west for our survival.

To express the hatred of the Jews and their collaborators feel for us into one world is difficult . I chose antihellenism. We fight the antihellenists. This term harkens back to the origins of messianic Judaism . Recently Alex Linder called for such a term.

If white nationalism was more powerful in Russia for example , a Putin or whoever, would not just be helping you a little but he would give you all the nuclear missiles you could use. If the holocaust were destroyed in Germany then billions of euros flowing to Israel would be cut off for starters.

Today no white country is strong enough by itself to free itself and the only nationalism left to us is white nationalism. If we talk of Irish nationalism it is in that context. People who only talk of their small nation and not their civilisation will often be of more use to the enemy. The Jews have down the centuries played off one of our nations after another against the other. This must end and a new consciousness arise in all our nations. Anyone like the modern polish government who thinks their national interest lies in dealing with the enemies of their civilisation betrays both their country and their civilisation. The Jews think in terms of millennia . They

talk about rebuilding their temple on the temple mount , in the process destroying one of the holiest sites of Islam . We have a common interest in preventing this from happening . I am from Ireland and Irish nationalists who only think in Irish terms are of minimal use to me and to their country. We need westerners . A hundred years ago our schools produced such men to some extent when Greek and Latin were taught in them. Today our schools produce submissive morons. Suffering is the people's teacher. To beat the Jews we need to enlighten millions of whites and create an elite , an elite who also think in terms of millennia. White nationalism is in its infancy .

The Jews are not white . Jews claim to be white one minute and semites the next . They are an enemy tribe and a cultural and genetic antithesis to western man.

The presence of millions of immigrants in our countries demoralises and debases our people and helps dumb them down. The average american has been so dumbed down that if you asked them they would think that the khmer rouge was a type of lip stick. Immigration eats away at our traditions and has played a major role in the massive cultural degradation ,without which the wars of aggression to complete jewish world control ,that we now see, would not be possible.

Muslims here equals dead muslims in their home countries. The Muslims who come here as colonists are complicit in the murder of muslims in their home countries.

Muslims also are the hostages of the Zionists and when they come to our countries by the million they play right into their hands. All immigration into our countries including mass immigration from other european nations disrupts our nations and make them harder to organise and wake up. Mere anti-immigration activism is pathetic . We need to deal with the fundamental causes and the cause of the world's misfortunes are the Jew.

The west must not wage war on Islam as a proxy for Zionism and we ask that the people from islamic countries not trespass here as colonists ,for the sake of civilisation , both yours and ours. Those of you who are here please do not touch our women and do what you can to destroy the holocaust myth. Then you will be considered as honored guests and not invaders. Frankly the Pakistanis in Britain are considered as hated invaders and they disgrace your religion with their antics. Their presence in Britain very much helps the Zionists and their collaborators ,like Blair, sell the war . The average British soldier dosen't shed many tears for the Iraqis and only wishes he could blow away the pakis back home likewise. We recognise that the ZOG powers uses Islamists in places like Chechenya and Bosnia to further its goals . We are not the only ones to have been made fools of .

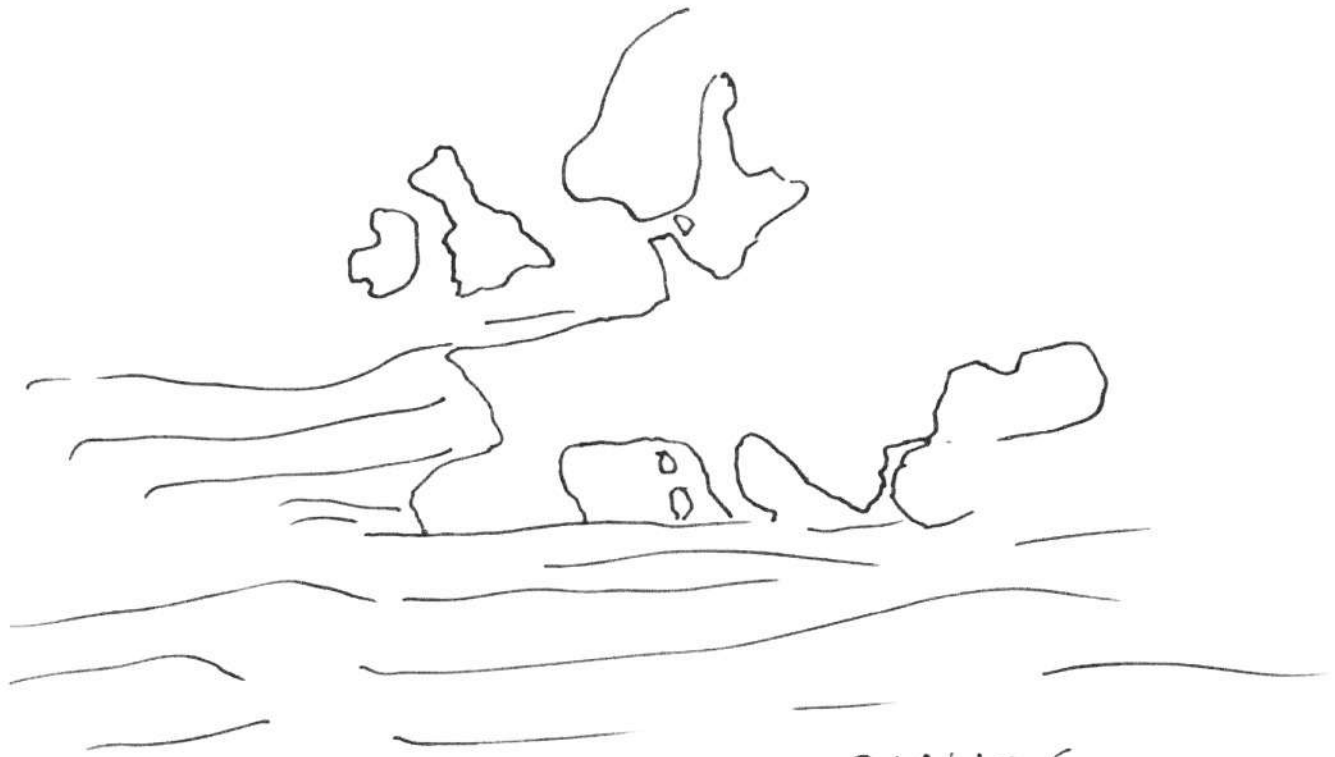

Help us help you . You have a country ,which is more than we have . We just have a few websites and a small number of really serious people. A healthy west would not be blaspheming against your religion because it would not be even thinking about it. I think that if we ever free the west we will be grateful for the positive role your president has played and the Philippe Vals and other hypocritical bigots of the west should be handed over to you to do with what you like with them.

The best kind of defense is attack. Train an army of grassroot revisionist activists and send them teaching around the world . I will happily travel to your country to help you out if you wish to pursue this idea. They will bomb you before you can develop atomic bombs but they can't stop you dropping the poor man's bomb : Holocaust revisionism.

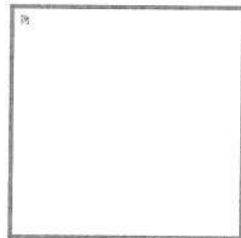

Destroy their myths and their empire will evaporate. The lives of millions depend on us . You are certainly helping by drawing public attention to revisionism. Westerners are in a catatonic state . They need it hammered home before they wake up. Even many "White nationalists" don't get it.
