

20 QUESTIONS FOR E.T.

- (1) I was born at a very young age, 26 MARCH 1939, at the end of The Spanish Civil War & the beginning of World War II in Europe. Consequently, I was too young for The Korean War & too old for The Vietnam War. That did not prevent me from participating in the eternal civil war in Colombia, South America, nor the last colonial war in Africa, which ended in the handover to Black Marxist Misrule in 1980. That is why I am no longer in Africa. I was born in Bakersfield, CA, to workingclass parents. My father was a mechanic & my mother a proofreader for The Bakersfield Californian, the local jewspaper. In 1944, we moved to San Fernando, CA, where we lived in our first & only brand new house, & where I became a typical 'Valley kid,' with normal interests in exploration & steam railways, which prepared me for my later years. I had been a National Socialist all along, but I spent years before I realized that the label was just what I was. Most of my adult life has been spent outside the USA, to which I returned in 1992. From then on, I worked at minimum wage coolie jobs, which I was lucky to get, since I'm a White man. Now, I'm retired, since my last job left for India. I have been very fortunate in life, mainly because I'm still alive. Others have said the same. For a great fictional biography of me, just check out the Internet. Any relation to me & what is on the Internet is purely accidental!
- (2) NS is indeed more than a political movement: it is a racial religion & way of life. Its tenets are as true in defeat as in victory.
- (3) April 20th & 30th have significance to me only because they mark the birth & alleged death of Adolf Hitler. Stalin claimed that Hitler escaped to Argentina, according to U.S. Ambassador Averill Harriman, & according to Gestapo Chief, Heinrich Müller. Our only source for the statement that "Hitler died," was Dr. Goebbels, who^m the Allies always called "a liar." But, all of a sudden, he told "the truth about Hitler's death." It is indeed frustrating to prove when, where & if Hitler died. By ignorance, I do not wish to claim that Hitler is alive, because I do not know for sure. Lt. Heimlich, the first 'American' in Berlin in 1945 to interview the Soviets in regard to Hitler's death, concluded that, based on the flimsy evidence for Hitler's death, Eva Braun would not get a nickel from a life insurance company.
- (4) Adolf Hitler's dates of birth & 'death' should be celebrated with sober reflection & work on behalf of Aryan race & culture, as I strive to do. The beer bashes I^{have} seen reflect on Ernst Röhm, not Adolf Hitler!
- (5) Eckhardt was a brilliant & wise teacher, who was honored by Adolf Hitler. The Thule Society was, as I understand, secret to a great extent, so all I know is that the brave & loyal Rudolf Hess was a member. Thule is the sacred place of Aryan history, wherever its original location was or now is.
- (6) I believe that Eckhardt & The Thule Society strengthened & confirmed Hitler's beliefs, as did Rudolf Hess, who helped Hitler write "Mein Kampf," during their prison time together.
- (7) Rituals & symbolism are the outward depiction of the inner beliefs, which graphically represent the entire written philosophy of National Socialism, just as rituals & symbols represent the message of a religion.
- (8) The rituals & symbols of National Socialism can have meaning today, only if those who use them are aware of their historical significance. The symbols & rituals of the NSDAP were rooted in the history of The Party's Struggle from 1923 to 1933, hence, we need new rituals & symbols to encompass current history of the White Racial Struggle since 1945.
- (9) I once saw an NSDAP calendar which showed all the important dates & festivals for The Party, but I don't know where I could find such a calendar now. I recall seeing a film on a Harvest Festival in The Third Reich, & "Triumph of the Will" shows the rituals & the holidays of the Reichsparteitag or National Party Day at Nuremberg. Leni Riefenstahl directed that film in 1934. I had the privilege & honor of corresponding with her & with Capt. Hans Baur who flew the trimotor aircraft in the film. That was after the war, as I say to people who raise the question.
- (10) For me, "Mein Kampf" is a textbook of modern necessity & historical value. Hitler explains why the Sturmabteilung or Brownshirts were necessary: to prevent Red thugs from attacking the NSDAP speakers & rallies. It also introduces Hitler to the German people, within the context of the times & events. National Socialism was the healthy reaction of the German immune system to the toxic residue of 1918 & Weimar. This poison had to be purged from the German body politic, if Germans were to survive, even for another generation.
- (11) I recommend Hitler's "Secret Book," which he drafted in 1928, but never published. The Allied victors of World War II published it, with an introduction by Telford Taylor, ring-

leader of the Allies' Kangaroo Court circus at Nuremberg. Taylor claimed that this book "proved" that Hitler intended to "conquer the world," but what it really proves is that Hitler intended to wage war against the Soviet Union to obtain farmland, & to avoid another trade war with Britain, as was the major cause of World War I. I also recommend Dr. Goebbels' booklet on "The Nazi-Sozi," & "The Testament of Adolf Hitler," which I have a copy of. In his "Secret Book," Hitler warns against the transfer of Aryan technology to China, because such transfer would cost Aryans their jobs, only for the benefit of parasitic shareholders, just as we see in the USA today. If I can think of more, I shall get back to you!

(12) Hitler was definitely a personality to be admired, as did his contemporaries, including Churchill! His personal traits were also admirable, as described by his sister, Paula Hitler. There is no higher value than virtue which Hitler possessed in great degree. I see Adolf Hitler as a standard to achieve, in terms of leadership, but I, myself, do not wish to be a Hitler-clone. I am a student of Hitler, not a wannabe Hitler, who played his role, on behalf of Our Race, in his time & place. I am in another time & place, so my role must take reality into consideration, as did Hitler, in his time & place, with the means at his disposal. Politics is the art of the possible. Savitri Devi mentions that Hitler said he was "not the one," but that he would have to lead until one who was better than he came along. I do what I can, with the means at my disposal. That is all I can do.

(13) Rudolf Hess flew to Britain in 1941 to announce that Germany had no intention of invading Britain, for as he spoke, Germany was attacking the Soviet Union. Operation Sealion was a hoax designed to fool Stalin, which it did! But Churchill's jew-bankster masters insisted that he carry on with war against Germany. David Irving, whom I know personally, said it best: World War II was justified to the British people as the defence of Polish independence. After Poland was conquered, the war was touted in defence of Britain. When Britain was not invaded, the war was 'justified' to get rid of Hitler. The alleged reasons changed, but the war remained. According to my sources in German high-altitude aerial reconnaissance, the USSR was preparing to invade all of Europe in 1941. This build up was confirmed by former Soviet military intelligence officer "Suvorov" in his book, "The Icebreaker." Hitler got the jump on Stalin within a crucial two-week period, just before Stalin launched or would have launched his invasion of Europe, in the belief that the German forces were invading Britain. Churchill & his kosher cronies rejected Hess' peace offer, imprisoned Hess, & carried on with their genocidal war against Whites. According to Rudolf Hess' son, Wolf Rudigger Hess, the British murdered his father when they learned from Zionist Occupied Germany that the Soviets intended releasing Rudolf Hess from Spandau Prison during their watch. Hess was murdered for what he knew, not for what he did. Rudolf Hess is truly a hero of the White Race, as well as a martyr. As I said, "Hitler saved Europe from Stalin, but he could not save Europe from herself!"

(14) I agree with Carl Jung that National Socialism was the 20th century equivalent or manifestation of Wotanism. Jung wrote that "Wotan's spirit is alive in the German people, as never before." Jung believed in racial memory, so Hitler revived that potent memory in the German Folk, who have told me that "Hitler was able to say in words what was already in our minds." Hitler had nothing good to say about German Wotanists in "Mein Kampf." As I recall, he said that they would run when a Red cocked a fist at them, let alone a sword! The self-styled Wotanists were the 'regalia-freaks' of Hitler's era, while we have other regalia-freaks in our era, whose behavior is an embarrassment to the cause their costumes purport to represent.

(15) I've met &/or worked with General Remer, Hajo Hermann, Thies Christophersen, but some I've met I did not work with & some I've worked with, I've never met. I met Kerensky who ruled Russia as head of the provisional government, when he lectured at the college I attended. I've met David Duke & Don Black. I've met & worked with David Irving, Fred Leuchter & Ernst Zündel. I've worked with Savitri Devi, to arrange republication of her books, the most notable being "The Lightning & the Sun." She died before she could come to North America. I've worked with so many World War II vets on various sides, that I am sometime^s asked in which theater of the war I served (& on which side!). I knew & worked with Col. Curtis B. Dall, FDR's son in law, who told me most informative things about his father in law, as did my long-time friend, Dr. Revilo P. Oliver, with whom I corresponded & visited. I know I've omitted a few notables, but that's all I can recall for now.

(16) When I worked at Samisdat Publishers, headed by Ernst Zündel in Toronto, Canada, I corresponded with Savitri Devi. A Samisdat supporter visited her in India, where she was inter-

viewed

by him on audiotapes. Her written English was much easier to understand than her spoken English, which was 'curried,' to say the least. We learned that many of her manuscripts & books were destroyed by the commie children of friends in France, with whom she had stored her things. She went to her beloved Germany to have her eyes treated for cataracts, but Germany's ZOG discovered who she was & ordered her deportation. For some mysterious reason, she went to Britain, where she died. At least, I was able to help arrange for the republication of "The Lightning & the Sun," so she could receive her royalties, such as they were, for lack of advertising.

(17) NS is a valid program in terms of politics, economics & demographics, just as it was in Germany, but demographics make it unsuitable in countries with racial mixtures, for NS can work only with one people who agree with its tenets. NS can work with all peoples separately, but with no peoples together, for there must be consensus on social values & behavior, which is impossible with 'diversity.' NS governs in accordance with Nature, so it is essential for our survival, not optional!

(18) I agree with Hitler in regard to Alfred Rosenberg, who he described as erudite & esoteric; not for the masses to appreciate. I put him in the same category as Spengler: Good brain exercise.

(19) NS is the scientific, moral & cultural application of Nature & our knowledge thereof on behalf of our racial survival & improvement. Nothing less will do, if we are ever to realize our full potentials as humans.

(20) One question must be ever-present in our minds: Is it good for Whites? Before we do anything as individuals or as a group, we must ask ourselves this question. If the answer is "No!" then we must stop & think again. CRION! (Our Race Is Our Nation!)

Eric Thomson

PAULA HITLER

As sister of the man who sacrificed himself for Germany, this I wrote in the beginning of the postwar period:

You gentlemen, do not forget one thing! Your names will eventually join your remains, forgotten and decayed, while the name of Adolf Hitler will always shine and glow! You can not destroy him with your manure buckets, nor can you strangle him with your filthy, ink-spattered fingers. His name shall not be extinguished in one hundred thousand souls. Of that, you yourselves know much, but still too little!

His love was for Germany. His struggle was for Germany. His concern was for Germany. What he enjoyed was also for Germany. And if he fought for honor and respect, it was German honor and German respect, and since he is no longer alive on earth, he gave his life for Germany. What have you given? Who amongst you would give his life for Germany? Always, you have only had power, wealth, pleasure, gluttony and over-indulgence, a luxurious life without responsibility, with no thought for Germany!

Resign yourselves to it, gentlemen: The Leader's pure selflessness in thought and deed suffice to make him immortal! Although Adolf Hitler's determined struggle on behalf of German greatness did not succeed, as did that of Cromwell in Britain, this may have to do with mentality, since the British tend toward conceit, envy, jealousy and ruthlessness, but they never forget they are British, and their loyalty to their Crown runs in their blood. The Germans, however, immerse themselves in their desire for self-importance, but not as Germans.

You tiny souls, together, have achieved nothing, except for the ruin of this entire nation. Your principle will never be: public welfare before personal welfare, but always the reverse. With your principles, would you even wish to hinder a great man's immortality?

What I wrote in the early postwar period is still true in 1957, and it confirms the rightness of my convictions.

Berchtesgaden, May 1, 1957. (Translation by E. Thomson)
