

17 OCT 04. Dear Michael: Many thanks for your letter of OCT 12<sup>th</sup> & the excellent update on The War Against Whites, which is really 'genocide by propaganda' under the guise of "Cultural Diversity". We could better describe these compulsory classes as the perverse inculcation of a cult against Whites, on behalf of Zionist (Jew-supremacist interests). As we know, people's perceived interests often turn out to be false and even counter to their real interests. So it is with the Zionists whose blind hatred of Whites is obviously an ideological basis for terrorism. The Mossad/CIA's role in sponsoring Islamic terrorism against the former Soviet Union in Afghanistan is well-known, as well as their recruitment of Osama bin Laden et al. The ostensible purpose of the ZOG's state-sponsored terrorism was the destabilization of the normally unstable Middle East, on behalf of oil & Israel, with perhaps unforeseen results, in the forms of terrorism we see directed at U.S. occupiers in Iraq & Afghanistan. FEDZOGUSA claims that this terrorism is expanding outside The Middle East, and that it visited the USA on 9-11. Such a situation is what the CIA-niks would describe as "blow-back" or what honest people would describe as "a boomerang effect". But what do we think of similar Zionist programs in the U.S.A., such as the anti-White indoctrination of non-Whites? This is nothing less than a tax-payer funded program for domestic terrorism, using anti-White propaganda as its justification. Many thanks for revealing what every person in America needs to know! The ZOG appears to crave more terrorists, Islamic & non-Islamic; foreign & domestic, even if it means the destruction of its faithful 'golem', the Goyim of America.

Now that we have our first mild whiff of mutiny in U.S. forces stationed in Iraq, to wit: the refusal of a platoon to drive their supply column into obvious danger, the spirit of Vietnam may be about to reappear, despite Amerizog's attempts to exercise it. This brings up the duty of a country's soldiers: to defend their country. Invasion, conquest & occupation have previously been deemed acts of war, and soldiers were called upon to fight against these 3 well-known aspects of war, but now, our Zionist Occupation Governments call upon us to wage war upon foreigners, while allowing foreigners to wage war against us. The trick is that their acts of invasion, conquest & occupation are not called 'war', but 'immigration'. The U.S. soldier is, of course, in a bizarre predicament, for he or she never promises to defend the United States of America, but only its CON-stitution. I took such an oath when I became a U.S. ZOG-grunt, & I don't hear that the oath has been changed. Although we swore only to defend a piece of paper or parchment, we understood or misunderstood that we were also supposed to defend the country & its people, as well as its institutions. This is certainly impossible when the Zionist regime in The District of Corruption opens our borders to floods of illegal & legal aliens who come to feed on us like locusts, because their ways have made their own lands uninhabitable for themselves. In effect, then, U.S. troops are not defending the U.S.A. from invasion, conquest & occupation. They only defend the CON-stitution, which means just what our Zionist rulers say that it means, according to their perceived benefits. Soldiers have mutinied for lack of pay, & they would strongly object to being paid in counterfeit money, but U.S. soldiers appear to be willing to abandon their country because of their belief in a CON-stitution. Let's hope their money does not become equally counterfeit! Support our country by bringing our troops home!

A kosher Inquisition? The bandit state of Zionist Occupied Palestine wants to extradite all persons who "deny the 'Holocaust'", wherever they may live. This is a one-way program, for Israel does not permit Jews therein to be extradited to other countries. Such a deal! The U.S. State Department allegedly agreed to "combat 'anti-Semitism'", as well as el presidente Bush, who denounced "anti-Semitism" in a recent speech. Since Arabs are Semites, does this mean that Bush is pro-Arab? Orwell said that tyranny begins with the abuse of language. The Jews are the foremost abusers of language, since most of them are non-Semites or non-Arabs. The belief in a Semitic religion like Judaism, Islam or Christianity does not make anyone a Semite, for only Arabs are Semites. Clearly, the most anti-Semitic act one can do is to kill Arabs, so who are the real anti-Semites? Israel & the U.S.A. The Jews are as much "Semites" as "gays" are happy: They are not!

Some politicians have decried the near-total absence of a public interest amid the plethora of selfish private interests in this country. Overage children demand more for less or for nothing: more public services, gratis, like children who want candy, without a thought of paying for it. Lack of public interest means that our version of democracy (plutocracy) is corrupt. I was discussing resumption of the draft with a mother whose children will be of draftable age. I said that those with no children or whose children are exempt have no problem sending others' children off to war, so that leaves the ones who bear the brunt to revolt in their own defence. After all, revolutions are patriotic. Do you agree, Mr. Jefferson? DOWZ! STAR! & ORION!
