GUEST USE ONLY 11 AUG 05. Hail Jason! A correspondent sent me this Chinese stationery. I use 客用信箋 it, since beggars can't be choosers. I've only been in Hong Kong, not Shanghai. Many thanks for your great letter of 2 AUG 05! I'm glad to know you are receiving lots of postcards without "unknown substances" on them. To my knowledge, your ZOG-gulag is the only one which ever pulled that on me. One in WA rejected a photocopy of a Jew York Times picture as a "photo", which required me to put the inmate's name & # on the back! I told the zoggies that this was not a photo, but a printed reproduction of a photo, which I photocopied from the newspaper. I asked them if a photocopied letter was also a "photo", but I've received no reply on that. I guess the zoggies must find things to do, so as to justify their feeding at the public trough, but I think The Jew York Times would wonder why their newspaper articles also get seized. Does the ZOG believe that its own jewspapers are "subversive"? Stay tuned!

The Brazilian who got shot dead by the London cops was not only dressed like a bomber, but he behaved like one. In such a situation, it's better to shoot first, rather than let him blow up the subway train. It's a judgement call. When I lived in Colombia, South America, my residence & workplace was bombed twice in 6 months. We always took precautions if we saw unattended parcels on the premises. As I recall, we had to evacuate our building 3 times in one year, because of bomb-threats. In Toronto, Canada, my office was bombed 3 times over a 12 year period. The first bomb exploded near the garage in the alley. It put a hole through a neighbor's back fence, shredded our garage door, holed the car radiator & flattened a front tire. The second bomb was incendiary. It set the front of the building on fire & nearly burned the place down. The third bomb was delivered by the Canadian Postal Service, with the complicity of CSIS, the Canadian equivalent of the CIA. THE person who received the box was suspicious, so he delivered it to the nearest police bomb squad, who said it was indeed a deadly device which would have killed anyone opening the package, as well as anyone nearby. This was the work of jews who objected to our legal publications.

I don't know very much about Confucianism, except that it features ancestor-worship, that is, reverence & respect for one's ancestors. Shintoism in Japan includes ancestor worship. The believers are taught that everything they do is witnessed at all times by their ancestors in heaven, who hold them to very high standards of behavior. If a Shintoist fails to repay a debt in time, as agreed upon, his ancestors will be ashamed by the shame he has brought upon himself, so to fulfill his obligation, the debtor must kill himself. In World War II, Japanese soldiers were told: "We know that death is lighter than a feather & duty is heavier than Mount Fuji, but we know each one of you will do his duty." In a naval engagement against the Russian fleet, a Japanese torpedo boat commander requested the honor of making a run to attack the Russian flag ship, which appeared suicidal, for the flagship had lots of big guns. The Japanese torpedo boat commander signalled the Japanese flagship's admiral that he was looking forward to the torpedo run, "for what is life, other than the memory of a summer night?" Oh, the Japanese expected their troops to be brave at all times, so there were no Japanese military awards for bravery, like, say, an Iron Cross or a Congressional Medal of Honor, or the British Victoria Cross, &c. I learned something every day I was in Japan. As one Japanese war veteran explained: "We Japanese are the 'White men' of Asia. The Chinese are the 'jews' of Asia." Later, I learned that there are many Chinese jews!

The bombings in London have caused their ZOG to decree that words are as bad as deeds, so using words the ZOG does not like will be severely punished. Watch for this here!

My religion is simple: I know that everyone & everything is part of The Universe, even gods & goddesses (if they exist). We "find God", as some say, by understanding our place in The Universe, & by doing our duty which has been assigned to us. This duty include improving ourselves on behalf of Our Race, so as to establish our place in The Universe as survivors, rather than dinosaurs. Life is discovery of who we are & where we fit in the great scheme of things, for then we know what we should do.

2) The "Cold War" began as soon as the "hot War" of World War II officially ended. The "Cold War" was a phoney war in which the two empires, the USA & the USSR pretended to fight, while the USA was feeding & funding the USSR. The shooting conflicts were between proxies of the USA & USSR, as in Korea & Vietnam, in which the U.S. troops were used as cannon-fodder, so the brave U.S. soldiers could be 'culled', that is, killed every generation. This phoney war allowed the USA & USSR to divide the world into their respective "spheres of influence". When Hungary tried to revolt, to free itself from the Soviet tyranny, the USA sabotaged the Hungarians' efforts to gain their freedom from The Soviet Jewnion's kosher commissars. The USSR returned the favor in France (within the US sphere of influence) when the jew Daniel Cohn-Bendit led the student strikes of 1968. The French government was in danger of being overthrown, but not after Moscow ordered the Communist labor unions to stop supporting the students. In 1967, Moscow helped Washington capture & kill the South American revolutionary, Che Guevara. Both USA & USSR supported Israel, which gets its oil from Russia today. Orwell described such an arrangement, under a phoney conflict, in his book, "1984", in which TV cameras & secret police watched everybody, on behalf of "Big Brother", a Stalin-like dictator. People who disagreed with anything deemed 'kosher' by the dictatorship were guilty of "thought crime", for which they would be tortured & "re-educated". In addition, the regime rewrote all history books, to screen out "politically incorrect" content, while using "Newspeak" (jew-speak) to indoctrinate the population with lies. Words were eliminated or their meanings changed, usually so they meant the opposite of their former meanings. In the real world of today, we see ZOG's abuse of words like "gay" & "prejudice", "freedom" & "democracy". It is "bad" to discriminate, but "affirmative action" (discrimination) is "good", under ZOG. Racism is "bad", but not if it is non-White racism. As I recall, Big Brother's government consisted of 3 departments or "ministries": Love, Plenty & Truth. The Ministry of Love was the police. The Ministry of Truth or Mini-Tru was for propaganda & lies. The Ministry of Plenty was the rationing board, which administered scarcity, as Big Brother lowered the people's standard of living, as we see here, today. When "1984" was written, as I understand, in 1948, people thought Orwell was writing fiction. Look around, & you will see it was a prediction of what is now fact!

"The Cold War" ended with the collapse of the Soviet Communist empire, which had finally exhausted its strength in Afghanistan, thanks to our Afghan allies, The Taliban. When the Soviet forces left Afghanistan, the USA betrayed its Moslem allies & switched sides as fast as sides were switched in Orwell's book. Now, the USA is allied with The Northern Alliance, former Soviet allies in Afghanistan. The USA is trying to do what the USSR failed to do in Afghanistan, & we aren't doing much better! The USA had put Saddam Hussein of Iraq in power, but Israel wanted us to kick him out, so we did. Now we wish he would come back, so we could get out of Iraq! Bush doesn't care about US soldiers' lives, as we know, nor does Israel. The jew, Bolton, who now represents the USA in the U.N. will be interesting to watch. Congress objected, but Bush put him in, anyway, as you said. I figured Bolton was a jew because there was a big Menorah (kike candlestick) on his desk when he was being interviewed on TV.

I knew former German prisoners of war, but not the Germans who were civilian detainees. From what I know, German P.O.W.s in America were shipped back to Germany. I don't know what happened to the civilians, many of whom were rounded up in Latin America during the war. In Canada & the USA, Germans who were U.S. citizens or Canadian citizens were detained in civilian concentration camps until the end of the war, & then released. According to the Time/Life series on "The Home Front", Canada had 128 internment (concentration) camps & the USA had 666 such camps! In the USA, they were run by Milton Eisenhower, "Ike's" brother. In the USA & Britain citizens who objected to Zionist policies which put Zionist interests first were put in prisons in terms of emergency laws & The Sedition Act, in other words, for thought crimes. The USA has had 3 sedition trials in its history, none of which were a credit to the USA's pretensions of 'freedom'. The ZOG is tightening its thoughtcrime laws, so as to equate words it does not like with deeds nobody (except Zionists) like. In other words, ZOG will decide which truths & opinions are kosher, & which are not. Mere accusation will suffice to put thought-criminals behind bars & barbed wire, with no guarantee of a trial in which they may defend themselves.

3) "War crimes" are mainly those 'unlawful' acts of war which the World War II Allies listed as such in their postwar Nuremberg kangaroo courts. The funny thing was that the Allies themselves were guilty of all the 'crimes' they accused the Germans of committing, just as they are now. The previous Hague Convention prohibited the bombardment of civilians from the air, as opposed to military targets like weapons factories, storage depots & transport. The Allies also tried to restrict submarine warfare, but they wound up doing what the Germans had been accused of doing in World War I. In World War II, Churchill started bombing German civilian targets, otherwise known as terror-bombing. Then, the Germans retaliated so killing civilians from the air became a generally accepted mode of warfare. The Allies' logic extended military targets to civilians. For example, a power plant was 'military', since it supplied a country's war machine with energy, as did oil refineries, pipelines, railroads & ships. Thus, the civilians who worked in these facilities were also military targets. So were the cities which housed workers. Added to this inclusive formula for waging war on civilians was the morale factor. The enemy's morale was also a military target, for morale affected performance of troops & war workers, as well as the entire population of the target country. Thus, propaganda became a weapon of war, today known as "psy-ops", that is, psychological warfare, which seeks to influence the minds of the enemy by means of printed & electronic media, in addition to bombs. I use the term, 'enemy', as we used it in World War II. Nowadays, governments refer to people as "targets", which includes friends & foe alike. In other words, the psy-op weapon is used AGAINST the friendly homeland population as well as AGAINST a regime's perceived enemies of the moment. This means that our ZOG is not on our side, but is only on its own side, to the disadvantage of us & the ZOG's perceived foreign enemies. The Genocide Convention has been signed by lots of ZOGs, including the USA. The wording of this treaty, which bears the power of the US CONstitution in terms of the CONstitution would include acts of genocide against Whites, such as group defamation, deportation & extermination. The Genocide Convention equates defamation with extermination, so ZOG-instigated statements about "how bad" Whites are would be deemed just as serious as killing Whites. Of course, ZOG does not enforce this treaty on behalf of Whites! This was what Orwell's 'fictional' dictatorship was doing in "1984", as each regime pretended to fight the others. In fact, as now, each regime was waging war upon its own subject population.

Real Black Nationalists, as opposed to Black Zionists or jew-stooges, have legitimate claims to territory, as do the hispano-mestizos. A legitimate claim to territory is that of occupation of the land. This occupation has no basis in past occupations. In other words, the argument that "we were here first!" whoever those people may be, is irrelevant. If you do not occupy, it is not yours! Yes, the jews were the main slave-traders, & the Yankees, who were wannabe jews, collaborated for profit in the slave trade. The first slaves in North America were White, "indentured servants", who were treated worse than Black slaves, for Black slaves were sold for large amounts as 'property'. If one buys a horse, one does not want to harm it, for the buyer is out his purchase price. That's why people usually treat their property better than they do borrowed or rented property which does not belong to them. In general, Black slaves were treated better than Irish immigrant laborers, because Blacks were property & White laborers were not. The U.S. Civil War was not necessary for slavery to be abolished, for slavery was more expensive than paying day-laborers. Brazil is much older than the USA, & it abolished slavery in 1888, peacefully. The slavery issue was just one factor in the southern states' desire to separate from northern states & their policies which favored the north, rather than the south, & which penalized southern trade with other countries. The so-called American Revolution was based on economics, as was the southern states' desire for separation. That included the property loss which slave-owners could suffer if the south's slave-based economy were destroyed. Slave-owners were not only Whites, but there were wealthy Black & Indian slave-owners who supported the Confederacy, along with slaveless poor Whites, who did not want to be ruled by Yankees. The history books of the time reveal more of the real issues of The Civil War, than do the Orwellian rewrites of today, which are deemed by ZOG to be "politically correct". According to Yankee newspapers of The Civil War, the first Black soldiers wore Confederate uniforms! The only slaves 'freed' by Lincoln's Emancipation Proclamation were slaves living in "rebel states". Kentucky slaves were not freed, because

4) Kentucky had remained in the Union! Yes, Lincoln said that he wanted to send the former slaves back to Africa. That's why Liberia was created, as a Black-ruled U.S. colony. Lincoln was America's Saddam Hussein, for just like Lincoln, Saddam killed more Iraqis than anyone else, in order to keep the bastard state of Iraq together. Saddam was or is a Sunni Arab who killed Kurdish & Shia separatists, with U.S. support. Now, it looks like Iraq will split up into its proper national segments, which will not leave the Sunnis with much oil! Lincoln was responsible for the deaths of more Americans than any other enemy, in order to keep the U.S. empire together. So how come one dictator is 'good' & the other 'bad'? ZOG knows! The American sheeple don't. Our ZOG fears that the Shia majority in Iraq may decide to join their fellow nationals in Iran, a Shia nation. This is "terrible", say the zoglings. Well, it reminds me of Gringo Texas joining the USA, by separating from Mexico, in 1848, after the ceasefire of the Treaty of Guadalupe Hidalgo. I call the "end" of the Mexican War a mere ceasefire, since Mexico is taking back all the territory the U.S. "stole", & then some! Thanks be to ZOG. If I were in a peace-making position, I would suggest that the Iranians give up some territory to the Kurds who live within present-day Iran, since the Kurds want their own nationstate. Then the Iraqi Shia majority could join Iran, since they are already Iranians. As for the Sunni Arabs, they could get together with the other rich Arab states, toward the formation of an Arab nationstate, instead of the corrupt, tyrannical Arab mini-states of today. Instead of fighting Kurds & Shias, the Iraqi Arabs could fight with their own kind. This development would probably have a strong laxative effect on our ZOG & Israel! My logic is that if people are willing to die, they may as well die for something worthwhile.

As for North America, if Whites are willing to pay others to invade & occupy their former territories, then our situation is hopeless, but not serious. Ha! Of course, Lincoln offended the banksters, & therefore the jews, so he was murdered by the jew actor, John Wilkes Booth. The jews did not want the Blacks to leave for Africa, because they intended using them in their kosher divide & rule scheme. That's why they persecuted Black Nationalist Marcus Garvey. That's also why they created the NAACP, as a Black battering ram to use against Whites. The NAACP, M.L. King et al also had kosher commie connections, for the Communist Party, USA, was recruiting Black members to supplement their jewish members. That tactic further confused the stupid Whites into thinking that Communism might not be jewish. Well, there were also Black Freemasonic lodges which sought to recruit the smartest Blacks into the Zionist (jew-supremacist) establishment, just as Freemasons do with Whites. The KKK was founded by Freemasons, who were as guilty for The Bloody Civil War as their Yankee lodge brothers. Albert Pike, a high mucky-muck Mason, was an instigator of The Washington Monument, a symbol of Egyptian sex magic. Pike was also a founder of the Ku Klux Klan. He revealed that Lucifer approves their work in the USA, as shown in Latin on The Great Seal of the USA, which appears on the back of the U.S. dollar bill. That explains who "he" is, who supposedly "approves our work." (ANNUIT COEPTIS). Franklin D. Roosevelt, a 33° Freemason, like the British Satanist Crowley, ordered the printing of The (Freemasonic-Satanic) Great Seal of the USA on the back of the \$1 bill in 1934, when the size of U.S. money was reduced to its present dimensions. That was the same year in which U.S. citizens were forbidden to use gold coins as money. All such gold had to be turned in to The Federal Reserve, a privately owned jewish bank, like the Bank of England et al. In 1964, after JFK's assassination, silver dollars & Silver Certificates were also withdrawn, along with United States Notes (interest-free dollars created by the U.S. Treasury), so our only legal currency became Federal Reserve Notes. I did not just read about the 1964 takeover of U.S. currency by the Federal Reserve. I saw it firsthand.

Jews usually try to hide their identity from Gentiles, but if they have certain names & looks, & they behave like jews, I usually credit them with being jews. Jew-spotting would be a valuable course for any survival school to teach. That's why the movie, "They Live", is very educational, for it can teach you to 'see', unlike the dumb Goy (Gentile) sheeple. I can spot likely jewish names in English, German & Spanish, so when I read or hear them, my mental alarm bell sounds. I can also recognize jew-serving words & deeds, regardless of looks. A Polish woman told me that her way of spotting a jew is on the jew's face: for some reason, jews look as if they were smelling rotten cheese, so they walk around with a perpetual sneer of revulsion on their faces. Usually, I can spot a jewish face regardless of its expression. It comes from experience, as well as instruction. I remember the time I infiltrated a synagogue as decoy Goy so my recording team could set up their audio equipment, which they did, successfully, since all the kikes were giving me the snake-eye treatment, although I wore a sheeny-beany & glasses. All I lacked was a Groucho Marx Moustache, but for some reason, the hebes were not fooled. I just brazened out--like a typical jew, & that blunted their initial response of wanting to heave me out, which they could have done. After all, it was their synagogue, not mine! We got out with a real good recording of all the jewish hate which was

5) spewed out in that session. There were also a couple of official jewspaper reporters at the meeting, most of whom were also jews, so it was quite funny when every jew in the audience would begin his statement with the words, "I'm not jewish, but I can only agree with Rabbi Sheldon, &c." I was reminded of this strange behavior when I chanced to watch an episode of "Seinfeld" on a neighbor's TV. At one point in the drama, all the characters, all of whom are jews, would tell the others that they weren't jewish! I laughed, but my neighbors could not get the joke. They had no clue, whatsoever, that the "Seinfeld" bunch were hebes! Obviously, most dumb American sheeple are blind, for they WILL NOT see. When jews can pass for White, they do so for their own advantage, but when it no longer pays to play "White", the jews will claim to be non-Whites (which they are) & they will call us "you White people." That's what they did when I was in Africa. The note on The Genetics of the Jews refers.

I'm sorry that the ZOG is making life so unpleasant for Whites in your gulag, but that's what they like to do, as you know. Any excuse will do to sock it to the Whites. ZOG knows! It's called collective punishment, based on who you are, not what you did or intend to do. In former times, prisoners would give their word, on their honor, that they would not do something forbidden, & they'd be taken seriously. That might be an experiment worth taking the trouble to do in your gulag, rather than locking down all ostensible Whites. ZOG deems "hispanics" to be "White", so are they locked down, too? If not, why not? Remember: the ZOG is a hypocrisy, not a democracy. Hypocrisy is just a 'clever' way of lying.

I agree that Crazy Bush is likely to expand his Zionist war in The Middle East, even if it destroys the USA, for we grow weak as China grows strong. When a criminal regime gets desperate, it is apt to choose destruction over defeat, by enlarging a war which it is already losing or has lost. Jewradio reports admit that oil prices are climbing, not weekly, but daily, with no relief in sight. Our trade deficit with China is growing about as fast, which means we owe China mucho dinero for the goods we receive. In other words, we do not have as many things which China wants as China has of things we want. That difference must be made up with money, & so far, China has been accepting our worthless zogbucks, which represent a huge bill in China's favor. Will China take payment in U.S. real estate? That's really all we have of value, so stay tuned! I believe that our ZOG has already made a deal with China, for our debts are much too huge to ignore. Maybe Greenspan's retirement will be the signal for a Weimar-style financial bust in the USA. Stay tuned! Most sheeple bleat that they don't like to concern themselves with politics & economics. I agree that politicians & economists like to use lots of bafflegab to gull the Goyim, but when inflation occurs, it means that you must pay more to get the same or less when you make a purchase. In other words, someone has stolen the value of the money you earned, while leaving it in your pocket. Inflation is theft, so workers are being robbed. You work for 8 hours, but only get paid for 4! In other words, your 'real wages' have gone down, even if your numerical wage goes up. Real wages are buying power. This is easily figured when you ask yourself, "how long does it take me to earn enough for a pair of shoes, a loaf of bread, a room to live in, &c.?" Lots of sheeple are borrowing money because their wages are insufficient for them to obtain what they used to buy. When the price of steel goes up, as it did by 30% last year, all products made with steel also rise in price. When the price of oil goes up, everything made of & hauled with oil goes up, too. Food packed in steel cans must go up, because the price of steel has gone up. Paper prices go up, because the price of fuel needed to haul the paper has gone up. Postage will go up, because of the rise in fuel prices, but inflation affects everything & everybody, not just the prices of oil & steel products. Inflation destroys savings & prices such things as food, transportation & housing beyond the reach of those growing numbers of low-wage earners. We can add increased sales taxes on already expensive goods & services, so we are paying much more, for much less. This is a way of lowering our living standard in a much more clever manner than depicted in "1984", in which the chocolate ration was reduced from 30 grams to 20 grams, so The Ministry of Plenty boasted that "the chocolate ration has been RAISED to 20 grams!" Memory is an enemy of tyranny, but few, if any, remembered what the chocolate ration had been a day before! Of course, Big Brother was pleased.

As you say, the mind-control drug called "Christianity" should be hated, but not the victims. They should be cured by means of education, so they do not 'righteously' destroy their own people by serving our enemies, as they do now. I don't hate Christians, either. They have LEARNED to be sick, so maybe they can learn to be healthy. I do what I can, but we cannot cure those who refuse to be cured. At least, they can no longer infect us with their disease.

6) The commie-capitalist kike, Armand Hammer, took over Hooker Chemical Company in Niagara Falls, USA, in the 1940s, as I recall. Hooker Chemical was responsible for the toxic waste dump in the Love Canal, which had to be cleaned up after evacuation of human inhabitants of the area. Hammer changed the name to Occidental Chemical Company. Hey, It's cheaper & faster to change a name, instead of cleaning up a hazardous waste dump! Well, Hammer also had radioactive waste dumped in the water wells on his property, & he has a phoney "waste-processing plant" in which truckloads of liquid toxic waste unload, inside a huge shed. The "process", as I was told by a city engineer, is cheap & simple: the trucks dump their poisons into a holding tank, & drive off. At night, the contents of the tank, & more truckloads are just dumped into a straight sewer pipe which flows into the Niagara River, & into Lake Ontario. Whenever I drove to Niagara Falls, NY, along the Moses Parkway, I noticed the weird colored slime seeping out of the high embankment next to Occidental Chemical's plant, as well as mysterious fluids gushing out of a pipe which ran over the roadway, & emptied into the Niagara River, & into Lake Ontario. TIME Magazine did a write up on The Love Canal mess & reported that Hammer had created at least 72 more such messes along railroads, west of NY. Niagara Falls' mist is also toxic, as I understand, so one should not inhale that, either. Now, Hammer was not the only polluter near Lake Ontario. The Canadians did their share of poisoning their water supply, too. Residents of Niagara Falls, Ontario, Canada, have told me that their incidence of cancer in young & old people is much higher than for other Canadians, so water contamination seems likely around the lake, as well as in it. If you want to fish in Lake Ontario, be my guest! Just don't complain if you turn purple & glow in the dark. Ha! Armand Hammer died rich, & was never punished for his crimes. He never seemed to be a happy man, to my knowledge, but it is a shame that one man could be responsible for the suffering of so many.

No, Savitri Devi did not write with an Indian accent. She spoke with one, which would be hard to understand if she read things out loud. It would be entertaining if one could read text silently, with an Indian accent. Now, that sounds like a new form of entertainment! If you saw Peter Sellers as Inspector Clouseau, with his thick French accent in English, it would be funny to hear this text read with such an accent. Ha! No, her books are not hard to read, since they were written in English. The ones she wrote in German, French, Hindi, &c. would be very hard to read, if one spoke none of those languages. I understand she also knew Greek, so one would be justified in saying, "This is all Greek to me!" 'Fraid so.

I never disliked Fierce, whom I never met, although I disagreed with a few of his ideas. Since his death, so many things have changed that my previous disagreements with him are ancient history, & no longer very relevant to the present. In regard to dark mestizos who have their brown bodies decorated with "White Power" slogans & symbols, the coming race wars will teach them Rockwell was right, when he said: "Your skin will be your uniform." I recall the Liberty City riots in Florida, which were sparked by a mestizo cop shooting a Black motorcyclist. During the riot, a mulatto (½ Black, ½ White) drove into the Liberty City ghetto. Blacks stopped his car & pulled him out of the driver's seat, as he protested that he was Black, too. But he wasn't Black enough, so they killed him on the spot, but the jewsmedia claim that "only Whites are racists." Believing ZOG propaganda can be hazardous to your health it appears. I am also reminded of the silly White who drove through a Black district during the Rodney King riots. Blacks pulled him out of his truck & clobbered him with cement blocks. "But I'm not a racist!" he blabbered. No, he wasn't, but he was White, & that's why the Blacks attacked him. When there is war, one cannot take the chance that a fellow in enemy uniform may just be a nice guy!

Right now, everything is changing, so we must be alert & play it by ear.

All the best & ORION!
