

22 MAR 05. Hail D.R.! Many, many thanks for your letter of MAR 18<sup>th</sup> & the outstanding enclosures! Yes, I received my March-April 2005 edition of The Backwoodsman, which is much appreciated. The major or salient point which impressed me most, on skimming over the Oral History Interview with Edwin M. Wright was his apparent ignorance of the extent of jew control over the U.S. government. I gather that he somehow thought that there were some pro-U.S. people in the District of Corruption, despite all the evidence he was amassing to the contrary. Or maybe he hoped that SOMEONE WOULD WAKE UP, at last, & turf the rabbinic rascals out. Imagine being in his position of knowing so much, while being able to do so little! That sounds like a bit of hell on earth. I am reminded of a recent airing of an NPR interview with George F. Kennan of the U.S. State Department who coyly said that "the interest group" to which the U.S. government is beholden "does not act in U.S. interests." Golly gee, who could they be? In regard to biology, Places like North America, Italy, Britain, &c. are not racially homogeneous. The question is simple as ABC, except it is DNA.

As you say, the history of so-called mankind is one of migration, including invasions & conquests. Just because a piece of land 'belonged' to one's ancestors does not mean that one need not defend it from all comers. The mere fact that someone occupied a territory 'first' is no argument against those who want it, & who will take it, if the present occupiers don't defend it. White behavior is thus contrary to Nature & oblivious to History. What a way to lose! In the case of China, we give them our industry in exchange for our land. In the case of Mexico, we give them our jobs in exchange for our land. A jew would ask, "What kind of 'good deal' is this?" In effect: Chinese take our industry & our land, while Mexicans take our jobs & our land. The only things exchanged are manufactured goods & labor: our birth right given for a mess of pottage which we could have & should have cooked ourselves! It is a classic example of short-term gains of little value for eventual losses of great value. A fool & his property are soon parted, & Whites seem to be cornering the Market on folly. Yes, as we observe in history, the defeated must leave the fertile lowlands for the hills & less habitable country. These conditions do not allow the defeated people to multiply, so they must concentrate on improving the quality of their population if they are to take back the fertile ground. If not, they just die out, unless their conquerors are foolish, & feed their vanquished foes. Only Whites do that, from what I've seen: another indication of our monopoly of folly.

There must be some revolutionary moles in the U.S. Congress, for I heard that the Senate has <sup>rejected</sup> /curtailment of Government spending, while doubling tax cuts. This is really the ultimate in fiscal folly, or is it intentional sabotage? If I hated the U.S.A. & its denizens, I really could think of nothing worse than the present policies of the so-called U.S. government! The oil prices go up, because the U.S. dollar is going DOWN. We call this "inflation", but Greenspan avoids admitting this fact. According to him, the emperor wears fine clothing, indeed! Why do we have such inflation? Because the U.S.A. is spending trillions of dollars which represent NOTHING of value, & U.S. credit is as bad as our Middle East policy.

Are we fooling anyone, aside from ourselves? I think not.

As you say, Homeland Security, the FBI et al. are unlikely to do much to curtail domestic mestizo bandido activity. After all, their crimes are not "hate crimes" & not "Terrorism". Thanks for recommending Hermann's "Conquest by Man" in regard to the Zimbabwe ruins. I'll be on the lookout for it.

In regard to the jew-screws & scams operating in North America, the jew's control of real wealth is through his control of SYMBOLIC wealth. Real wealth is productive labor, & products which sustain life, along with the land, resources & equipment used by the labor force. Without the might to defend symbolic titles, deeds, &c., the jew is through. The same goes for his courts & legislatures as the ZOG disintegrates, largely BECAUSE of jewish policies. Robert Frens & I used to recall a telling scene in a Clint Eastwood movie, the title of which escapes me, since I never saw it from the beginning. The scene is set somewhere in SW U.S.A. in the 19<sup>th</sup> century. Mexicans are numerous, as compared to the Gringos, who have the laws on their side, especially in terms of land ownership. The Mexicans invade the local courthouse, where they confront a Gringo judge or other official, who explains that they have no title to the land they occupy. The Mexicans demand to see what gives the Gringos the right to kick them off the land, so the official shows them the paper. The Mexican leader says, "So this piece of paper gives you the right to seize our land." With that, he snatches the deed & sets fire to it, tossing it on the floor, where it burns. The Mexican observes: "No paper, now, so you have no title to our land." Que cosa! & Ay, caramba! The triumphant Mexicans ride out of town, leaving some bemused Gringos looking at the ashes on the floor. Mugabe of Zimbabwe was much more efficient: he just crossed out Whites' land ownership with a stroke of his pen. It is intriguing to visualize the ZOG's demise. I can imagine scenes resembling the uncereemonious U.S. departure from Saigon, from the roof of the U.S. Embassy. Perhaps that's the future of the jews in North America. That will be worth watching! No, if I were Chertoff, I would have severe doubts about affirmative action hiring policies for my Homeland Security thugs. Maybe he would staff his Cheka department with Israelis, like the alien soldiers in "They Live". I still believe that movie revealed everything most Goyim should know in regard to the jews & the jewsmedia. Yes, whom will ZOG target for 9-11 #2? All arrows point to a hispano-mestizo target, in my analysis, & that target is most likely L.A., as the ZOG has already advertised as to its lack of defences. Stay tuned! Watch for another Osama appearance on tal-mudvision.

I agree that the hand of ZOG is apparent in many incidents, along with jewsmedia coverage & 'spin' on the events, although I also believe that the Land of ZOG has a whole lot of dangerous nuts who are ready to explode into violent acts. With that as a 'given' it is often hard to spot a specific ZOG-op. Jews remain jews, of course, regardless of 'conversion' from one religious sect to another, just as Japanese may become Christians or Moslems, but they remain Japanese. Theology is distinct from biology, & most jews are not religious, as we see in Israel. Yes, why did Hunter S. Thompson shoot himself, IF he really did? I have no particular suspicions that he did not. He may have viewed it as one more drug trip. All the best & ORION! E.T.

(re a kosher conservative flier)

This screed came from Rudy Blaum, who is a kosher conservative Idiot Identity"Christian" (sic). He wrote that he has "many jewish friends", lucky fellow! I replied that if he has jewish 'friends', he never needs enemies. Ha! The "ex-U.S. Military Officer" with the incredible name, "Donn de GrandPre", allegedly authors conspiracy tales. He is, apparently, much loved by the kosher conservative blightwingers of the geezer variety. I pointed out to Rudy that it was peculiar how these retired military officers only belatedly discovered their 'patriotism'. I said that I never hung mine in the closet when I put on my U.S. Army uniform, as these belated 'patriots' did when they served the ZOG. Anyway, I thought it might amuse you. As you can guess, the military was not my career! DONZ! E.T.

P.S.: Thanks, also, for the cleverly prepared reusable envelope. I reuse all envelopes, as you may have noticed. Waste not want not, eh?

22 MAR 05. I just finished reading the excellent download from E.M. Wright. My impression is that the perceived interests of the U.S. State Dept. were one thing in his mind; while the interests of the U.S.A. were another & those of jews & Zionists were still another. He uses the Boas definition of "nation" as "place", not people. No wonder we created the mess in the Balkans, Czechoslovakia & The Middle East. Iraq was, for example, a tri-national entity with mutually antagonistic peoples such as Arabs, Shi-ites (non-Arabs) & Kurds. To assign to such people some presumptuous 'mutual interest' because they dwell in close proximity is rank absurdity, just as it is to tout the U.S.A. as a "nation". Wright may not have known that he was representing no nation, but a multi-national, plutocratic empire. Perhaps he suspected what his real role was in international relations, & he kept it locked in the closet so he wouldn't feel too guilty about his livelihood. He obviously had a conscience of some kind when he stated his dislike of "national interest" on behalf of profit for a few, at the expense of the many. These comments reveal him to be a "one-worlder" of sorts, so I wonder how he would see today's One World of Global Capitalism under the Jew World Ordure. It reminds me of Dostoevski's 'brave new world' of pan-Slavic unity, which came about under Khazar rule in the Soviet era. Poor Slavs! The lesson is that "national" policy must be national, & that non-Zionists must look to THEIR interests, or they shall continue to be exploited on behalf of jewish nationalism, inside & outside the U.S.A. As I said to my jew faculty members: "Communism is just a smokescreen for another nationalism's imperialism." Suddenly, you could have heard the proverbial pin drop in the classroom, & I knew I'd put my big Goy foot in it. That's why this Goy 'had to go'. I'm glad I did, for I would not like to be in the position of E.M. Wright. I prefer being in the position of E. Thomson. In Yakima we have in close proximity cops, crooks, Gringos, Hispano-mestizos & Anglo-mestizos, as well as Blacks & Asians. Does this mean that we have the same interests & identity? After all we are a Boasian "nation"! Ha!
