

16 April 05. Hail D.R.! It was great to receive yours of April 7th & 11th with the impressive newspaper photo of the Shiite sentry with his RPG poised as if he knew how to use it. I'm sure he does! The disintegration of the artificial state of Iraq is likely to be a 3-way split into Kurdish, Sunni & Shiite nations, after the dust settles. As you observe, the few objectives have been met by the 'Lebanonization' of Iraq, & it is likely that some of the "terror-bombings" are ZOG's work, including the Mossad's, in whose interest the creation of chaos would certainly be. It is their objective, always, that "Goyim kill Goyim," in the words of Sharon after the Sabra-Shatilla Massacre. Bush behaves in Iraq like a Sharon-clone, so we can expect results similar to those which Sharon created in Lebanon, after the jews' invasion thereof. As usual, few will profit to the cost of many, which is how General Smedley Butler defined "a racket". But this time, our ZOG's imperial adventures are likely to backfire on the criminal cabal in The District of Corruption, as Rome's imperialism undid Rome. In addition, the similarity to today's decadent Christian Rome is exemplified in the Catholic Church, in which one jew-Pope is likely to follow another, or some Turd Worldling. The Great Whore of Rome has always preferred quantity over quality in its believers, so it must pander to its lowest common (colored) denominator. This is one more proof that Christianity was the Trojan Horse of Judaism, & it still is! As you say, the hebes would not like a 'religious' vacuum to occur with the total evaporation of kosher Christian mysticism, for non-kosher religious cults might otherwise erupt. The kosher-Catholic nexus was revealed in the Banco Ambrosiano Scandal, & its connection with the P-2 Freemasonic Lodge. Roberto Calvi, the bank's director, was found hanging under Black Friars' Bridge in London, after he was dead, & the scandal was hushed up in due course, perhaps by soccer news. The Banco Ambrosiano was called "God's banker", since it handled Vatican finances. Oy veh! I refer to "The Brotherhood" by Knight, who died shortly after I began correspondence with him in regard to his testimony at a Zündel thought-crime trial. James Hart offers us a rational, moral religion of life in his book, "Favored Races", which is on line. I recommend it. Semitic superstitions are clearly revealed for the death-cults they are.

Thank you for your vivid description of a workplace befouled & bedeviled with drugs & alcohol. These are certainly the means by which inferior people can become downwardly-mobile, pronto. As you say, it is a shame they must inflict their presence upon us. That is why I recommend that such creatures be segregated into places where they could kill themselves with their chosen 'recreational substances', but giving them the option of dropping out of their suicide program at any time, if they wish. Otherwise, it is futile to pay taxes in a vain attempt to save them from themselves. Here in Yakima, there is a voluntary detox center which is full to bursting, but I don't know its rate of recidivism. As far as I know, the program is not compulsory, which I think is a good feature. Involuntary treatment does not seem like proper motivation for cure of addictions, although the fact of being 'dried out' gives the addict an opportunity to stay sober & drug-free, if he wishes.

As I see it, the difference between 1917 Russia & the U.S.A. of the 21st century is that the criminals of Russia were in prison. The U.S.A. has a huge prison population which would be

like a hostile foreign garrison if released upon the population outside the ZOG-gulags, but our racial situation is already like a hostile foreign garrison in occupation OUTSIDE the gulags, so everything is ready for a race war against Whitey. South Africa & Rhodesia prove that an armed White minority cannot defend itself against a hostile non-White majority which commands the government & the military of the country. The jew, Kerensky, released his fellow Bolshevik tribesmen from prison, only to be overthrown by them in 1917. In gratitude, they allowed him to escape to California, where I met him, when he lectured at my college. All that need happen is for the ZOG to lift its foot, & the non-Whites will boil up, as Teddy Roosevelt said of the Panamanians. They can destroy White Civilization just by doing their own thing, with no need for jewish orders. Most armed civilians whom I know here are mestizos, so they have already told me, "What you mean, 'we', White man?" in case civil unrest breaks out locally. Perhaps I would perish in the way depicted in the movie, "Khartoum", in which Charlton Heston as Gordon comes down the stairs of his H.Q. to confront the muds of The Mahdi with his flywhisk. I still have my khaki uniform from my Rhodesian service, with a pair of officer's dress boots, all of which still fits, but I lack a fez & a flywhisk, so I will confront the marauding muds with a pith helmet & a flyswatter. Be prepared, as they say. Beyond a certain point, our situation may become hopeless, but not serious, so at least we may take our leave with our sense of humor intact. Ha! At the sound of the 'thud', my head will be hitting the desktop beside the telephone, courtesy of Juan Valdez. Tenemos muchos mestizos con muchos machetes, another description of 'cheap labor'.

Re the Matt Hale Case: The jewspaper reports 'explain' that he is in the ZOG-gulag because of "conspiracy" to kill a judge, but not for the deed itself. This is truly a dangerous precedent, when a person can be condemned for "conspiracy" without explicitly advocating the commission of a crime, & when the crime is committed by a party who is not involved in the alleged conspiracy. Hale would be just as 'guilty' had he said nothing in reply to the ZOG-agent provocateur. Even in reactionary Romania, Codreanu was found innocent of a conspiracy to overthrow his jew-dominated regime because the conspirators had stated no time nor date on which the plot would take place! Thus, a conspiracy sine die lacks an essential requirement of a conspiracy. As we know, Romania never had a "Bill of Rights", either! Obviously, previously legal expressions of opinion are likely to be construed as all sorts of things, thanks be to ZOG, but jews' opinions are equally unlikely to be punished according to the same criteria. As we see in Soviet Canuckistan alias "China-duh", "hate" is anything a jew hates to hear, & does not apply to anything a jew says or writes. The same would apply here. As you say, the Chinese (& Japanese) have long memories, as befits people who worship their ancestors, & who do not race-mix. The joke is that they will take their revenge on denizens of formerly White countries who are now themselves non-Whites, for the most part. Would that be a case of "justice delayed"? By the way, Tom Delay is alleged to have denounced a judge or judges, but he has not been thrown into the gulag in a cell next to Matt Hale. Would that mean that some denizens of "Usreal" are 'more equal than others'? Stay tuned! How harsh must criticism be, before it is construed as 'conspiracy'? ZOG knows!

Thanks for the update on the devious doings of the ZOG in Iraq. There is nothing like shooting one's Italian allies to maintain an intelligence monopoly in turbulent Iraq. It is equally obvious that the Italian government is less 'democratic' than that of Spain! It is therefore difficult to analyze the validity of the insurgents' target-selections in view of the 'diversity' of the insurgent groups, who may be fighting one another, as well as the U.S. occupiers & their Iraqi stooges, with assistance from the Mossad et al. It's like the U.S.A. I described in "The Chosen One". As you say, guerrilla tactics are designed to wear out enemy forces when they cannot be wiped out, so the insurgents are practicing "the art of the possible". In regard to insurgencies, present day France is a good place for the re-enactment of "The Battle of Algiers", but this time in Paris.

I agree that Hillary's campaign announcement is likely to follow Bill's obituary in short order. He is living on borrowed time, it appears. NPR jewsradio first announced this likelihood in their 'comedy' show, "The Capitol Steps", & I was somewhat shocked to hear them say such a thing on the air, just as I was to hear Al Gore blurt: "We must not say, 'it's every man for himself!'"

As you say, the Iraqi insurgents are by no means worn out nor wiped out, so they may launch new spectacles, in addition to their menu of soft targets. As long as the occupiers get no rest, the insurgents are doing their job quite well.

In regard to turf, the Mexican invaders are becoming landowners of farms in the Yakima area. They want to establish a "Ladino Agricultural Co-op", in addition to their 2 (count 'em) hispanic chambers of commerce in Yakima. This is Aztlan, after all. No wonder Yakima reminds me of Tucson or Nogales. As one Messican presidente proclaimed: "To govern is to populate!" & he was not referring to Mexico.

While you notice drug-users in your area, we have lots of drug-producers, specifically methamphetamine-makers. "Methlabs are busting out all over," as one DEA acquaintance sang. There are frequent reports of people injured &/or poisoned by toxic explosions in methlabs. This means that appropriate standards should be enforced! Mindless members of the public complain that drug-dealers & cops are using public parkinglots to do their respective jobs, & that bullets sometimes fly, thus endangering members of the public, so some sheeple have written letters to the local jewspaper editor recommending that if public parking cannot be off limits to both dealers & cops, then one or the other should stay out of them! Of course, not only do cops & dealers trade bullets, but dealers trade gunshots with other dealers, too. Obviously, everyone should take marksmanship courses so stray rounds will not hit the public or everyone should use paintballs instead! Uuh, ya got me! Will this bring 'civilized crime' to Yakima? Stay tuned!

It seems likely that there will be targets galore when the proverbial balloon goes up, & lots of them will be us. Compared to your residential area, mine is quite civilized, as one would expect from an almost ghosttown. When I arrived here, most of the 2nd floor business space was vacant, & now more groundfloor premises are vacant, but the economy is 'strengthening', says Greenspan. All the best. DOWZ! & ORION! E.T.
