

15 MAY 05. Dear Wayne: Many thanks for your letter of 21 April & the great enclosures! I appreciated in particular your letter to Claude, with whom I have also had differences of opinion. I thought he was impudent in his positive evaluation of The Zud, whom I believe he never met & his dismissal of my statements which are based on my collaboration with him which began in 1976 & ended in 1992. Claude seems not to distinguish Eurasians (mestizos) from Whites in his "national" politics. Nevertheless he uses my slogan, ORION!, regardless of his dubious views on race.

I agree that we must begin somewhere, although I continue to favor an ideological meeting of minds, rather than a geographical one. As far as I am concerned, White South Africans are write-offs, as will be demonstrated in due course. We must become biopoliticians, first & foremost. Proximity does not mean community, as Harold should know. It can mean animosity.

Thanks for the Toben publications. Toben may be correct in his statement that the ZOG has restricted his legal rights under a gag order. In my experience in Soviet Canuckistan, the ZOG uses a criminal charge as a pretext for prohibiting normally legal activities on the part of the accused. One fellow is forbidden from using the Internet, regardless of subject matter, for example. Obviously, Germans should sue holocaust-liars for defamation, although ZOGs have passed laws criminalizing "holocaust-denial", & judges refuse to hear evidence to the contrary. One report from Germany stated that the judges covered their ears to avoid hearing a witness testify against the Holohoax. They must have resembled the monkey who "heard no evil".

Thanks for David Mock's prison address. I correspond with Douglas Chism who may be in contact with Mock, & who is in contact with a group called Frontline. I enclose both addresses. Frontline has solicited my membership including dues & personal information, none of which I will provide unknown persons whom I have not met. I have told Chism that they are welcome to use my Internet writings as they see fit, & that I am in no financial position to travel over the countryside in order to meet people whose activities can be co-ordinated by mail. I can't provide money, but I can provide information & analyses for them. That's all for now.

You have discovered the arbitrary nature of prison censorship, as I have via my prisoner correspondence. I recently received a photocopy of a letter written from prison by The Zud. He is obviously the most self-centered prisoner I have seen. The other prisoners have outside interests, racial ones, & they think a lot about the welfare of others, not merely of themselves. Michael Nelson is waging a battle within his ZOG-gulag on behalf of the White Race, by reporting on their federally-financed anti-White propaganda programs which agitate the non-White prisoners in violation of The Genocide Convention. These younger prisoners show far more concern for Our Race than The Zud ever did, & their message is "we" rather than "me". The Zudniks' wishful-thinking led them to petition Putin, who The Canadian Jewish News describes as a Jew, on behalf of The Zud. Putin responded by endorsing the Holohoax when he recently visited Israel, so he would be most unlikely to go to bat for The Zud.

Your letter to Claude reminds me of my racial strategy for Africa: evacuate all the Whites & leave the Blacks to kill each other off, along with disease & famine; then return in force & finish the job. Naturally, Whites did not agree, so many remained & were killed, as is occurring as I write. As you say, a competent general knows when to disengage the enemy so he can regroup his forces & counterattack, preferably on favorable terrain. Retreat is a useful military tactic, & is not a sign of defeat. Armies can be wiped out without retreating, for example, when they would have survived had they retreated, & lived to fight another day. Guerrilla fighters win only by surprise attacks & swift retreats, for they lack the numbers & logistics required to fight a larger, better equipped enemy. In the battle of Kiev, Mannstein was ordered to hold the city at all costs. Mannstein did by evacuating the city & then by encircling the Red Army. Not only did he hold Kiev, but he captured many prisoners & also great stores of Soviet materiel, including guns & vehicles. I saw the German film of that battle & the Soviet losses were great, but insufficient to turn the tide of the war in the Germans' favor, for they had lost so much & the Red Army had so much more. Military tactics can also be applied to politics & vice versa, for war is also part of politics.

Many thanks for the excellent Pierce essay. It is gratifying to discover that we are not alone in our viewpoint. As Pierce points out, decadence & extinction begin in the mind. Our ancestors could survive with stone axes, but we cannot survive with high-tech weaponry. As Napoleon observed: The moral is to the material as 3 to 1 (at least). In his essay, "The Revolt", Menachim Begin said that weapons would be obtained, provided the will was present. It is lack of will which contributes to this deadly White inertia. All the best & ORION!
