

16 MAY 05. Hail Chad! I just returned to Brownest Yakima from my required trip out of town, so it was good to find your letter of April 16th in my pile of correspondence. Being busy, as you are, is a whole lot better than having nothing to do, I think you'd agree. It's even better if you have lots of things you want to do than it is to have lots of things you must do, just to earn a bare existence, like most so-called working stiff. Been there. Done that. I hope you & Karstadt can collaborate on a productive basis. Give him my best regards.

As you say, prisons are biowarfare test beds, & if you make it out in reasonably good health, you are lucky. My colleague, Bill Armontrout, was warden of Missouri State Pen & I interviewed him for his testimony on a Holohoax trial in Toronto, Canada. We needed his expertise on gas chambers for human executions, since his prison had one working. Bill said, when I asked him what problems he saw in the U.S. prison system, & he said: "Race & AIDS, & AIDS is catching up fast." Of course, AIDS is often not the immediate killer. Because it hits the immune system, other diseases like TB run rampant & usually kill first. Of the 3 U.S. doctors who claim that AIDS is man-made, likely at Fort Detrick, MD, Strecker, Douglass & Cantwell, Strecker was murdered. I corresponded with Dr. Cantwell who supports the man-made theory with several books of research. When I was in Africa in the 1970's, AIDS was unknown, so it appears to be a phenomenon of the 1980's. As you know, many diseases have been around for thousands of years, like syphilis, TB & smallpox, so it's remarkable that a 'new' disease like AIDS would 'suddenly' appear, or was suddenly discovered. Well, it's here, so we might as well enjoy it. Ha! For some reason, AIDS is particularly infectious with Black males & females, especially in Africa & North America. According to Dr. Laudau, a Jew in The Centers for Disease Control, one out of 100 Whites is immune to the AIDS virus. Despite the pretensions of FEDZOGUSA, mestizos (Eurasians) are NOT White, so they are not immune. Maybe Nature really is Nazi. Ha! In the book, "Deadly Allies", we read that the U.S. & Britain were attempting to make deadly animal viruses jump the species barrier, so as to become deadly to humans. That was in World War II. Dr. Douglass wrote that the HIV or Human Immune Virus (AIDS) looks just like the ovine visna virus under a microscope, so AIDS is likely a man-caused mutation of the deadly retro-virus which kills sheep & cows.

Sorry to read that the food quality is so bad. That's about par for the course, as I understand, not to mention the violence. On the outside, as you indicate, there is likely to be great changes which will occur fast, & which might even wake up snoozing Whitey, but after seeing his reaction in handing over Rhodesia & South Africa to the non-Whites, I wonder if he will behave differently in North America. I see no signs that he will. As you say, The Minute Men demonstrated that not all Whites are ZOG's little zombies, so there is hope.

As I wrote to another comrade, we presently have 'leaders' who are motivated by ego & greed, while we have followers who are motivated by inertia & apathy. Before we can achieve anything, we must shake out the White trash & mestizo masqueraders who clutter our ranks & who deter activists from uniting & acting toward their own survival. Politics is a serious business & playtime is over, as it should have been 400 years ago, here in North America. What we are experiencing now is merely the result of our forebears' sloth & folly. For those who wish to live in the past, I say that if the past had been so good, it would not have led to the present evils we now experience. This is why I advocate biopolitics, rather than the old, dead geopolitics. Race is people, not place, & we must create a White Nation which has never existed as a political entity. No one can be a White Nationalist unless he thinks in terms of ORION! (OUR RACE IS OUR NATION!) White supremacists of the KKK variety are not White Nationalists, nor are separatists nationalists, however White they may be. In unity there is strength, but we cannot have such unity if we cannot unify our thinking to achieve the same set of goals. Therefore, we must think as racial-nationalists, just as our non-White invaders do, who come for their piece of the Judeo-American Empire, under ZOG. We therefore have lots of work & struggle ahead of us, but victory lies within the struggle, itself, as our White ancestors knew, before Judeo-Christianity was imposed on them by force & fraud. Racial memory is a great antidote to tyranny: As the ancient Aryans of India wrote: "From the corruption of women proceeds the confusion of races; from the confusion of races, the loss of memory; from the loss of memory, the loss of understanding, & from this, all evil." The biological disaster of contemporary India proves this statement, as it does of all mongrel societies.

You are welcome to use all my writings which appear on various websites. No need to ask permission to do so. All the best & ORION!
