

9 June 05. Hail Kevin! Many thanks for your letters of May 24th & June 5th + the great downloads! Few sheeple outside of Asia & Eastern Europe know that "jew" is a nationality, not a religion. A jew can be a synagogue-goer or not, but he is a jew, as appeared on Russian & Soviet passports. I knew some real Russians in San Francisco who did not like jews, especially when they spoke Russian. They'd get a razzing about their Yiddish pronunciations. One of the Russian storekeepers asked a jewess to speak Polish & give up trying to speak Russian, when she asked for "pirogi" in what she thought was Russian. Hey, the same goes for jews who think they speak German, but who really speak Yiddish (Yid-Deutsch).

Farrakhan is a good speaker, although he seems to fantasize about the status of women in Black Africa, & in many Islamic countries. I'm glad he gets away with calling "Usrael" "The Jewnighted States". I understand from NPR jewsradio's non-mention of The Black Muslims that Farrakhan is something of a "politically incorrect unperson" in jewspeak (where Orwell got his term Newspeak). Yet, as I recently saw on TV, Farrakhan & his organization have respect & support from Black police groups, & they seem to have a role in Black community affairs which indicates that Black cops are their auxiliaries or vice versa. This appears to be one step closer to a Black separatist state, as described by Tom Chittum in his book, "Civil War Two". Speaking of books, David Duke's books are pretty good, especially his "Jewish Supremacism". As for his "Black ju jitsu" book & others of that nature, I give him credit as a black propagandist, & possibly as a profiteer therefrom. As you know, "Black Propaganda" is not about niggers per se, but its purported source. I enclose a bit of my own, which purports to emanate from "Jews for a Richer Israel". The content is factual. The source is not. You are welcome to copy & pass on. George Lincoln Rockwell wrote a spoof of "Nazi atrocities" under the pen name of "Lew Cor". Not only did a jew men's magazine publish the text, but they also supplied pictures! Rockwell kept the check on display in his office, framed under glass. I'd have framed a photocopy instead & spent the check.

Apparently, the jew racketeer, Soros, has destabilized several former Soviet satellite countries, including Georgia & the Ukraine, whose political bosses are now beholden to him, to one degree or another. Obviously, Soros is not having it easy in Byelorussia or Belarus. As for Putin, I seem to recall that The Canadian Jewish News also wrote up his "jewish background". The fact that you have downloaded articles from that source proves that the Zudniks could also log onto the CJN site to find their Putin article of ten + years ago, so they could confirm my previous warnings against praising Putin because of his 'non-kosher' background, which is mere fantasy on their part, derived from their wishful-thinking. It is embarrassing, at the least, & dangerous, at most, to misjudge a person's background based on ignorance, when a bit of checking could dispel both doubts & dangers.

Keep up the good work. ORION!
