

10 June 05. Hail D.R.! I just received yours of 6-6-05, so I'll see if I can mail this reply this week end. Now that I'm caught up on my correspondence, I can sometimes reply the same day I receive a letter. So who says 'snail-mail' is slow? It's really a matter of having the time to compose a reply, which was not the case when I was working at my coolie jobs. As I attempted to explain to Wayne: with my work schedule, I was unable to reply to a letter for days. In other words, it ^{took} longer for me to type my reply than it took to deliver, so it was not my technology that was lacking, but my TIME. Now, I have sufficient time, so I live in "the best of all possible worlds."

I understand your misgivings in regard to the sporadic Doles correspondence, but it may be only a ZOG-gulag problem, since other inmates' correspondence is mishandled in similar fashion. No, I would not advise you to join the NA at this time. As for Johnathan Monaco, who told me not to write to his former (?) prison address, I await receipt of a letter from him, for I don't know what sort of place his new address is, possibly a 1/2-way house or his parents' place. I'll mention you when I do hear from him, for he wanted to receive intelligent correspondence from anyone capable of such. I am sure that he will appreciate your letters, as I do. Often, I note prisoners run out of time & possibly interest for correspondence when they do get out. That is understandable, since they must do all sorts of things on the outside which we working stiffs do. I'll let you know as soon as I receive word from him. Stay tuned!

In regard to our increasing socio-economic decline & disintegration, upon which we are in agreement, I have found Tom Chittum's book, "Civil War Two" to be entirely relevant, for he describes the symptoms which indicate the oncoming chaos & collapse. As you say, these outcomes are largely the results of our own persistent folly. I recall your observation that many Whites want to be niggers, & the remainder want to be jews. I agree that we cannot blame all our misfortunes on jews, any more than a motorist can blame the car manufacturer for his bad driving. However, jews do play a role in our decline, just as poorly-manufactured vehicles do contribute to accidents. I mention jews' roles only to educate those who cannot 'see', as in "They Live." The Rockefellers are jews, by the way, from Spain via Holland, just like the Roosevelts. In other words, the jew-banksters & their Goy stooges funded all sides to a political issue, to be sure that they would be on the winning side, no matter who won. But the real reason for their funding of antagonists was to foment wars, which are indeed the jews' harvests. The cartoonist, R. Crumb, described most sheeple as "meat", whereas some are "butchers" who use the "meat" for profit. Crumb classifies himself as "meat", for his own work rewards his "butchers" more than it does him. After writing his tirade against jews, he reveals that his wife is jewish & therefore, his daughter! Some people have noted that artists are not only creative, but they are sensitive to stimuli within their Physical & Mental Environment. Well, Crumb personifies chaos, artistically & behaviorally, so that's what we can look forward to, for it is also said of artists that they perceive the future more than do the incurious & insensitive sheeple. Hitler described the political genius as a "musical man", for those with "tin ears" rarely had political talent, if ever. Hitler's sensitivity to his audience was a great advantage in his effectiveness as a communicator, for many of his listeners reported that he said what was on their minds better than they could have said it themselves. Hitler & Dr. Goebbels were a great communications team, as we can appreciate.

As an aside, Tom Chittum makes favorable reference to "The Resister" in terms of a "White military underground", although I think it might have been a ZOG-op. One professor of mine chuckled at the self-styled "underground press" which was publicly displayed on newsstands. "Underground" indeed!

Yes, there are the "fuzzy bunnies" who prefer not to see what is coming, according to all indicators, including the jewsmedia, in which crucial matters are no secret: inflation, trade deficits, government deficits, pension deficits, security deficits; peaceful invasion by the Asians & hispano-mestizos. Today's jewspaper announced that 1 out of 7 featherless bipeds in U.S. territory is "hispanic", with more to come. According to Chittum, this mestizo invasion is a major ingredient of "Civil War Two", combined with the ZOG's imperial policies on behalf of global capitalism & The Jew World Ordure, which serve to destroy the last of "national" cohesion within the U.S.A. In other words, the maintenance of the status quo means the end of our present standard of living, as well as the fictitious "U.S.A." Those bipeds who can see the oncoming crises largely prefer to 'live for today' & let their children look out for themselves. With such constituents as these, we can understand why we are a couple of voices 'crying in the wilderness,' albeit an urban one. As you say, no one stands on the side of The Life Force. It is a cannibal feast, combined with a degenerate Roman orgy, a high-tech version of Babel & Carthage.

One writer observed that people never avoid catastrophes; they merely survive them. We shall see, not just as spectators, but as participants.

Jew-news flash: The U.S. military has a growing manpower deficit which is not being filled by patriotic propaganda appeals. Do I hear the "D" word? The restoration of the draft may be a political flashpoint or "the moment of truth" for the ZOG, especially since Canada may not welcome U.S. draft-dodgers & deserters, as was the case during the Vietnam War.

As you say, the jew-bankster globalists must resist the advent of tribalism & religious particularism, just as did Christian globalists such as Charlemagne alias Karl the Saxon-Slayer. The crisis of consciousness will occur when sufficient people concur that universalist empire is insufficient for freedom & survival, which were possible under a tribal or national group. One whiff of empire has been more than sufficient for me!

You may wish to visit the Cosmotheism website, which seems to offer a Life Force Religion without reverting to ancient deities & jargon which may interfere with prospective converts' understanding. The Medium may interfere with the Message in regard to uncommitted who thirst for rational religion, as do most Aryans, who appear to insist that ^{the} their religion be "true". For non-Aryans, I note that any religion which makes them 'feel good', regardless of truth, is acceptable. Hitler criticised the "Odinist" traditionalists as being both regalia freaks & physical cowards who would flee when "a Red worker cocked a fist in their direction." I believed that National Socialism was a contemporary form of Odinism, or as Savitri Devi wrote in "The Lightning & the Sun", that NS was a "temporal incarnation of Cosmic Truth." I recommend that we package The Life Force in contemporary garb to make it more relevant to contemporary needs. I even suggested a White Power 'uniform': bluejeans, workboots or cowboy boots, bluejean jackets & white hardhats or cowboy hats, as appropriate. NO ONE in the blightwing has used such uniforms, to my knowledge. They prefer weird Freemasonic get ups, Confederate uniforms & Nazi regalia, instead. One bunch even told me that we "looked too American" & that The Star & Swastikalooked like "a Texaco sign", also, "Too American!" I asked them if they thought Hitler would have succeeded if the SA had used KKK robes in their parades, so they would not have looked "too German!" Most obstacles are indeed of our own creation. A jew writer shuddered in print about "The Star & the Swastika", in an article or book on that theme. I guess the blightwing doesn't read. A decent military commander would very much like to know what the enemy fears, but never the blightwing. It must be comforting to live in one's very own world, similar to Marxists & Christians who so define the universe as to exclude facts they find uncomfortable. So now they don't have to consider such things. Bush may believe his own lies. If that is so, no matter how great our losses he will define as "winning". The losses will continue as long as sheeple believe him or behave as if they do.

The bankster puppets, Bush & Blair, are shedding crocodile tears about those 'poor' Africans & Latin Americans. Now they 'must' have debt-relief as well as the usual aid. So what's the gimmick? As I suspected, those unpaid debts will be passed onto the tax-payers of the 'rich' countries, & we're 'it'. This is part of the reason for the French & Dutch "NO" votes on the EU constitution: their countries are 'rich', but a growing number of people are losing their jobs & their standard of living, just as aliens pour in. As Hitler predicted in his 1928 book, called "Hitler's Secret Book" by the All-Lies who published it after the war, global capitalism will transfer the White man's technology to such places as China, so the Whites will not benefit from their inventions. A small group of "coupon-clippers", i.e. stock speculators & bondholders will take advantage of White inventions & Yellow labor, to the detriment of the Whites. Hitler said that this process could occur within 20 years, if people were not careful. So, if one had read Hitler, he would not be surprised to discover that so-called industrialized countries are deemed "rich" while their populations grow poorer. That reminds me of the writers who described Mexico as "rich" just before their 1910 revolution. Yes, the land was rich, but the people were poor, because of corruption & over-breeding. As we see in the Jew-nighted States, people's use of birth control to improve their standard of living was easily defeated by ZOG's open border policy. This means the demise of labor unions, except in their role as Mafia protection rackets, just as in Mexico. As with our domestic Blacks, the Blacks of Africa & the mestizos of Latin America will be the pretexts for more bankster profits, at tax-payers' expense. Thus do capitalists & Christians profit when the poor multiply, but this process will affect only the suckers who can afford to pay taxes, as they see things. But when the day arrives in which everyone is poor, but the capitalists, will they pay to preserve this system? Obviously, there is an end in sight for bankster charity rackets.

Meanwhile, the jobs pour out & the aliens pour in.

I wonder how 'patriotic' the 25,000 GM employees feel after hearing that they are due for the chop. As you say, we must stop feeding the ZOG, even when we are its slaves. The best way we can do that is to stay out of debt & to deny it our services whenever possible. I agree that you should hang onto your job, as long as possible. As in "Soylent Green", those who cannot make it into work are swiftly replaced by hungry job-seekers. The days of "Route 66" are long gone, since aliens now do most if not all casual labor, as well as more permanent varieties. With increasing globalization, "permanent" jobs are largely fictions. What could be more 'permanent' than AT&T, IBM, GMC, eh? One division of IBM has moved to China, with more to follow. Profits for IBM et al. & poverty for former employees in the USA. Such a deal! Just as Hitler warned.

Obviously, those who live by the ZOG, as we all do, to one extent or another, are enslaved by the ZOG. We are its slaves & our children are its hostages. Some people, like myself, try to get the best part of this bargain by reducing our contributions to the ZOG to a minimum, while striving to maximize our benefits by "leading the life we choose", as the song goes. As you say, identity theft in my case would likely prove amusing, since I have nothing worth stealing, & I am largely out of the cash economy. The only cash I receive are my meager Social Security checks, which amount to half of what I'd receive if I were on S.S.I. The advantage to me is that I receive goods in kind, rather than in cash, such as food, shelter & medical care under Medicaid, which has dropped coverage for medications recently; that is all right, since I take no medications. As I wrote previously, I consider my unplanned retirement to be An American Success Story: Now that I'm old, broke & jobless, I've never had it so good! This is a clear demonstration of The Law of the Contrary, thanks ~~he~~ to ZOG! So, 'I'm all right, Jack', as the old Brit Flick was entitled, but what about others who face a likely unfunded future? I'm like a passenger on The Titanic who has graduated from steerage to 1st Class, although I know how the voyage is likely to end. It's just a matter of time. In the meantime, I diligently tap out SOS CQ, SOS CQ, into the void, as I have done for decades, as I see many ships passing heedlessly.

Every so often, I find a local newspaper with "local color" about this area, which I send you to provide you with a 'virtual' reality visit. There are real advantages to viewing pictures instead of reality: In National Geographic, for instance, one can see The Amazon, minus the mosquitoes & malaria, & by reading The Yakima Herald-'Repulsive', as locals call it, one can learn about the mestizo bandidos' activities without having to experience them, as well as our 'Injun Problem'. Currently, the skraelings demand that their mercury-contaminated salmon be 'saved' by dumping water from the hated dams on Washington rivers. This loss of water will adversely affect electric power production in the summer, when demand for electricity will be high, so power prices will go up, accordingly. My slogan is: Save the dams; dump the Injuns. It will be interesting to see what happens to these privileged welfare bums when demographic & economic pressure on the land erodes their 'treaty rights', as it must. People are described as "rich" in terms of resources they DO NOT have to use, so The Indian Way of Welfare is likely to reflect the ZOG's policy of open borders & globalization, even if they continue to receive White Man's tribute from the tax-payers.

As Chittum wrote in "Civil War Two", 'Injuns' are jumping out all over in their casino garb. The existence of such old & new "sovereign" nations, under treaty rights, exemplifies the ZOG's policy of inflicting the U.S.A. with imperialism, in which some citizens are 'more equal' than others, & non-citizens are most privileged of all. Aliens have rights & citizens have duties, under ZOG. No, we are not "one nation" & never were. Honest Injun!

For people, rather than sheeple, the best way to cope with reality is to define it correctly, so that our actions become relevant & thus, effective. Once we realize that most ZOG statements & official declarations, like The Pledge of Allegiance, are false &/or irrelevant, we can begin to address reality instead of fiction.

I am basically a populist, for I would not go out of my way to deter the masses from their chosen follies. Experience is the best teacher, but her lessons can be terminal & hazardous to one's health. In my experience, the majority are usually wrong & lemmings do not find safety in numbers, so, in the words of R. Crumb, "Keep on truckin'". DOWZ! & ORION! E.T.

P.S.: More to follow, under separate cover.
