

18 JUNE 05. Dear Brian: Many thanks, indeed, for your letter of June 13<sup>th</sup> & the great enclosures! Congratulations on your program for Ireland. As I type this letter, I hear a report on the annual riots between Catholics & Protestants in Belfast, occasioned by the annual "victory marches" conducted by the Protestants. As we know, such doctrinal divisions play into enemy schemes for genocide against Whites. The two White factions are too busy fighting each other to notice the invasion of non-Whites into Ireland. It looks as if we will see turf battles amongst the various racial & religious groups throughout formerly White living space on this planet. Apparently, this is exactly what our Zionist masters want. Tom Chittum describes such a likelihood for North America, & he points out the irony that ZOG's imperial policies of destroying nationstates, in favor of multi-national territories, are sure to bring such violent divisions about. See if you can read his book, "Civil War Two." Of course, statistics are on the side of the Chinese who have established enclaves all over the planet, particularly in North America, where they are strategically located to take advantage of the ZOG's demise &/or hasten it. Numbers are sure to count for much in any turf battle, & hence, for the biology of the future. Since our territory is already occupied, & alien occupation is rapidly increasing, it will not be a matter of defending land, but of recapturing it & then defending it: a double job, thanks be to ZOG. What is freely given is unlikely to be retaken with ease, especially when the aliens have their interests in mind & we do not.

White Nationalism must first take the form of White co-operation, much as the jews have done, regardless of place. A White government must be set up, similar to the Communist International, with persons in authority who can give orders & co-ordinate activities. What has worked for the jews can be made to work for Whites, when they finally recognize their subjection to the ZOG. Yes, the Waffen SS was the first White Nationalist entity in history. Thanks for the great pencil sketch of what appears to be a panzer offensive on The Eastern Front. Few words need be wasted on the subject of race, which is useless without eugenics. From what you describe, there is all sorts of adulteration of "race" with non-biological matters such as place, history, language & politics. Race exists without such things, for at any given time & place, a person's race can be revealed with a DNA test. Police use such data to identify suspects' genetic makeup for the purposes of capture & conviction. Racial differences are becoming more important in regard to diseases & medications. Once again, there are 3 primary races, based on their most immediately visible characteristics: Black, White & Yellow. Their subraces comprise nations, which are comprised of tribes, clans, families & individuals. There is no "Irish", "French", "German" nor "Scottish" race, since these are divisions of the White race. Whites of any ethnic origin can mate & their children will be Whites, not mongrels. Mongrels are not a race, since offspring tend to resemble their parent stocks from generation to generation. In some mongrel societies, there is a general desire to marry "White", so over time, the application of such a breeding policy would favor the proliferation of the light-skinned population. This policy is irrelevant, however, as long as the more numerous dark-skinned population continues to multiply to a greater degree.

Mongrel societies lack identity, cohesion & continuity, just as the Bhagavad Gita warned. Race is biology & culture is derived from race. Mongrel & racially-diverse societies produce the kind of 'culture' we see<sup>in</sup> so-called Western countries: a bastard-babel mish-mash purveyed by the largely jewish media. The fact that ostensible Whites fall such easy victims to anti-White tactics & strategies merely proves that it is easier to sink, than to struggle up, out of the mud. Those who will not struggle do not deserve to live, just as Nature decrees, & Nature rewards those who struggle wisely.

In regard to racial allies, we must know if they are pro-White, or if they merely wish to take advantage of Whites by saying so. That's why I recommend the existence of The Anti-Zionist Alliance, since Zionism is the foremost enemy of all races. AZA, like White Nationalism, is a duty, rather than a privilege. In this Land of ZOG, I have noted numerous non-Whites who want to join White groups, so as to gain status, rather than duties. That's why there are so many mestizos, as I have noted, in KKK groups. Once again, we must properly define our terms: White = Aryan = Caucasian. If we allow these terms to be inclusive of non-Whites, then we talk nonsense. In Brazil, a person with one thirty-second degree of White blood is deemed "White", whereas a person with any degree of non-White blood is not White, in biological terms. We must distinguish between race as biology & "race" as social conventions of any given moment. During the so-called French Revolution, "aristocrats" who were subject to the chop tended to be blond & of light complexions. In the so-called Russian Revolution, Goyim with smooth hands were shot immediately, on jew-bolshevik orders.

In his essay, "The Negroes' Gift to Portugal", R.I. Peterson wrote that the Blacks brought into Portugal comprised around 10% of the population, & they were all "assimilated", which means that Portuguese are pretty much adulterated with Black genes. Is this why my Portuguese professor wondered why the Portuguese immigrants to the U.S.A. had the lowest I.Q.s of any ostensibly White immigrant groups? Could be! My education at Berkeley was not all a waste of time.

Let us suppose that we would adopt some bastard definition of "White", for political, rather than biological purposes. Some mongrels would be "Whiter" than others. We could do the same with intelligence, so some idiots would be "more moronic" than others. We could use cultural definitions, so that niggers who enjoyed Bach would be "White" & Whites who enjoyed hip-hop would be "Black". As I see our situation, behavior & association will be our major distinctions when race war occurs within our living space. We could use 'relative' terms all over the place, but to what purpose? I knew a self-styled racist who claimed his Mexican wife & ugly brats were "almost White", just as Gollnisch's Jap brats are "almost French", or is he "almost Japanese"? How could one who has betrayed his alleged national identity be trusted to lead a "nationalist" group? This is so stupid, it's comical, as the non-White Moslems pour in. To include jews in any White Nationalist group is to betray it, from the outset.

In regard to jews, my understanding is that Admiral Canaris' real name was Meyerbeer. I can't name the source right now, but it was no big secret. David Irving, whom I know personally, is what we could call a "righteous jew". If a jew serves White interests, we should avail

ourselves of such opportunities, but behavior does not change one's race, nor one's nation. Jews like Irving are AZA activists, whether they know it or not. I cannot understand his motives in taking on the pro-Holohoax jewess in an English, therefore kosher, court. Irving had experienced the 'railroad business' at firsthand in the Canadian court where he testified during one of the 2 Great Holohoax Trials in Toronto. If he could not learn the name of the game then, I guess he would fall for a bout of jewdicial persecution in his own case. Despite his historical research, David Irving appears not to know who really won World War II! Would his own race-mixed nature have something to do with this blunder? Could be. I have worked with several anti-Zionist jews over decades, on behalf of White Nationalism, just as I have worked with other non-Whites. This is not a problem, as long as I know who they are & their loyalties. At this stage of events, one does not know whose side an ostensible White is on, so we must use the same criteria as we do in our collaboration with non-Whites. In the end, one's skin color will be his uniform, as is becoming the case in North America. Culture can be learned, but without a biological basis, it proves fleeting. Culture is therefore no substitute for race. Here in North America, for instance, the Blacks were forcibly indoctrinated with English, monogamy, Christianity & capitalism. The result was not the "anglification" of the Blacks, but the Africanization of the Whites & their jew-founded religion, as per "Santeria" or Voodoo-Christianity.

It is notable that the more ZOG alien-importation policies are pursued, the more resistance is reported, especially in the case of Moslem immigrants who are really invaders & colonists. In "Imperium", published by the British Nationalist Alliance, I read a plaintive ZOG-whine: that White children cannot "rise above (sic) race, color & creed". Well, neither can Moslem non-Whites, who take their god & culture seriously, even if we do not. The Freemasonic idea that all must compromise their religions (except the jews), does not go down so well with Moslems. Then, we must also ask, whose media are purveying "negative" propaganda about Moslems, if not the jews' media? How odd it is NOT to see the obvious! We are indeed living in Orwellian times. Meanwhile Britzogs disarm Whites, but can't seem to prevent Black gangsters from arming themselves. The same is true of Soviet Canuckistan, alias "China-duh" alias Canada, where lawful citizens are deprived of their legal weapons & otherwise restricted, but illegal aliens with illegal weapons terrorize society. In brief, our ZOGs are protecting criminal aliens & not the dumb Goy tax-payers. We should recall that the jew-bolsheviks loosed the criminals on the Russian people, as shock troops are used in battle, so they could perform their predations with impunity, amongst a terrorized Goy population, whose armies were freezing at the front. This is very similar to the U.S. situation, with our armies overseas & our borders open to massive invasion of aliens who have their own interests contrary to those of the legal population. Every day, I marvel that our society still functions to the extent it has, despite ongoing political, economic & demographic changes. This is really the calm before the storm. Again, many thanks for the great information. Keep up the good work! ORION!
