

25 June 05. Dear Michael: Many thanks for your letter & enclosures of 22 June! I'm glad to learn that you are still in your same location, & that you are not being moved around for the sake of harassment, as I suspected. That's why I held up my mailings to you.

I have had eye procedures of the sort you describe, & I heartily recommend them. I'm surprised that a ZOG-gulag would care if their prisoners were going blind or not. Is ZOG going soft? Stay tuned!

My late friend & comrade, Robert Frens, likened ZOG racial policy to an insane attempt to keep oil mixed with water. As long as ZOG keeps shaking & stirring the mixture, at taxpayers' expense, the violence will continue. "Freedom of Association" must be guaranteed as a basic human right. It was so obvious that our founding felons didn't bother to write it down in The U.S. CON-stitution. The new hispano-mestizo mayor of L.A. is faced with Black vs. mestizo fighting in local schools. I do not capitalize mestizos, for they are not a race, but mongrels, like jews. A mestizo is a Eurasian & a jew is an Afro-Eurasian, if we wish to revert to geographical terms for races, instead of biological ones: Black, White & Yellow. The spic-mayor wondered why "people don't get along, when they want the same things." He was obviously deprived of proper education when he was a member of MEChA in school, although he did learn that U.S. territory is "Aztlán", which the gringos 'stole' from Mexico. Proper education teaches that two bodies cannot occupy the same space at once, nor can a limited supply of space, goods, services & jobs satisfy an infinitely increasing number of people. As a rule, two hungry strangers + one loaf of bread = a fight. But as he said, L.A. is the U.S.A. in microcosm, with its demographic diversity (Asians, Blacks, Moslems, mestizos; forget Whites) & its economic extremes of poverty for the many & wealth for the very, very few. It reminds me of an announcer introducing the opponents in a 'no holds barred' "wrassling" match, in which the 'fighting' occurs mainly out of the ring. As this turf battle heats up, Tom Chittum's conditions for "Civil War Two" will come to pass. Unfortunately, I wrote to his snail-mail address, which appeared in his book, but my letter was returned as "Attempted, not known." Chittum also served as an anti-Communist combatant in Rhodesia, so he knows the meaning of the term, "sellout". In South Africa, however, the Whites sold themselves out. One of the Pretorius brothers is my twin, when I was in my teens, so the old Chinese expression must be true: "All Caucasian look alike!" Ha! Good luck to them, in any case. The Boers schemed to "save the Boer people", but not the White people whom they needed to save themselves. Too bad! The Boers believed that they were the true-jews, as they told me, & that other Whites were 'just' Gentiles. They also claimed they were "not racists", but "anti-Communists". What they were was White supremacists who had a jewish attitude toward honorable work, like the White supremacists of the U.S. South. Both of these groups hated Nazis, because Nazi<sup>s</sup> believed in doing their own "nigger work" & Boers liked a bit of nigger-nooky on the side, as I saw in Africa. White supremacists are addicted to non-Whites, within their own living space. There is no such thing as "cheap labor". My impression of White Africans was that their bible-banging & interracial fornication was as great, percentage-wise, as their penchant for divorce & alcoholism. It was not a healthy society, in other words. African veldt & fauna can obscure social & racial realities to the casual observer, by distracting him from the featherless bipeds. I was able to see what others preferred NOT to see, for truth is my hobby & my chief interest.

I hope the federal court ruling on Religious Land Use, &c. works in your favor. I also heard a radio report that a federal court has ruled that prisoners slated for super-max deserve "fair hearings" in regard to their confinement therein. The mills of ZOG grind selectively & at variable speeds, indeed.

Thanks for informing me that people are getting the message out, by actually co-operating with one another. Why, that's like having two miracles at once! "Double-double good!" as Orwell would say in Newspeak. In our 'politically-correct' world, that is 'jewspeak'. Listening to the jews jabber on NPR jewsradio is like attending 'shul', but that's what the jewsmedia are for: to further spread jewish cultural imperialism. I am rereading "An Empire of Their Own", when I can stand it, which gives details about jew domination of movies, as well as radio, TV & big newspapers. Such a deal! Ugh! Henry Ford opined that most sheeple would be surprised to know the source of most things they take for granted in 'our' media of information, education & entertainment, & that most content is 'kosher', in origin & intent. I further recommend "The Green Felt Jungle", which names so many jew gangsters & politicians, as well as their Goy connections, that I seemed to be reading a synagogue members' list. Never would I wish to visit Las Vegas again, although I knew gambling was a mob-run racket, even when the games are honest. Been there, done that. Please take good care of yourself, ZOG willing. All the best & ORION!
