

25 June 05. Hail Chad! Many thanks for your letter of June 16th & the great photo of you & yours! I'll circulate the latest addresses of the people you listed on your Appeal to White Separatists. I am, of course, NOT a "White Supremacist", nor am I a "White Separatist". I am a White Nationalist. This is because I do not wish to continue living under ZOG. To change that dire situation, I propose that we establish a White Nationstate. This is why I say one thing only: ORION! (Our Race is Our Nation!). That must be our focus: the establishment of our state within the ZOG empire, & then our independence from ZOG-misrule. Nothing else will do. Some ostensible Whites put all sorts of ideas ahead of our biopolitical necessity: our own nation. As Hitler said, "The state protects the race & the race protects the individual." Nations are peoples, not places, contrary to ZOG lies. Peoples must have their own living-space, a country of their own, of any size they are fit to capture & rule. To achieve these worthy goals, a people must also have its own government, so even when we lack our own country & state (government), we must learn the meanings & methods required for self-government.

As you say, there will be much to do when you depart the ZOG-gulag for the Land of ZOG. I am glad you are making the most of your time in the gulag, despite restraints. That proves you have a worthy & excellent character. Fewer than one out of 20 people have such gifts, as you have observed from your stay in the gulag. The same applies to those on the outside.

As a rule, comrades with whom I've corresponded in the ZOG-gulags do not continue their correspondence after they get out. I quite understand, since people & sheeple living in non-institutional situations are hard-pressed in every waking moment of their lives, & they are lucky when they can ever catch up on sleep. I've been a part-time, minimum-wage coolie ever since I returned to the Jew Ass Oy Veh in 1992, & I know how hard it is for those who must also support a car & children, many of them as single parents. Time for correspondence & for political activism must be given up for the demands of bare, minimum survival, &, as you know, jobs are scarce for U.S. citizens, especially Whites. Jobs which do not leave for India, China et al. are more & more frequently taken by illegal aliens, chiefly hispano-mestizos. Don't let that discourage you, however, for life has always been struggle. When one has the will, he'll surely find his way to achieve his goals in life. The irony is that we must be rugged individuals, who are family & community-oriented, especially in terms of racial community.

It is better to have uncertified skills & knowledge than it is to have certificates without the substance to back them up. The more knowledge & skills you acquire, the better! Under ZOG, the underground economy is thriving. Aliens & citizens are selling their skills & labor 'under the table' whenever possible in this country & elsewhere. Employers pay for results, & they prefer to avoid ZOG-bites (taxes) whenever possible. ZOG knows, so it is creating inflation, along with increased sales taxes. With price inflation, low wages or no wages, survival is the big job for most people, & savings is a dream. To make matters much worse, most people are in debt to banksters & credit card loan sharks, so they must struggle even harder to live & to retain such possessions as they have borrowed zogbucks to purchase. As it says in The Protocols of Zion: a loan of 5% on anything, over 20 years, DOUBLES the price of what is purchased. Such a deal! Most sheeple would think they were in heaven at 5%. Under ZOG, public & private debts are enslaving present & future generations, just as jew-banksters planned all along. That's why the most revolutionary act under ZOG is to stay debt-free & shun TV while we work for White Community. Yes, you will have lots of interesting things to do when you depart the small gulag for the Big One on the "outside". Life is sure exciting!

Debt is talmudic. Jews are not supposed to lend money at interest to other jews, just as they are not supposed to eat pork or cheeseburgers (milk & meat). Interest charges conform to the number-magic of the cabala, in which evil spells are cast & victims destroyed &/or enslaved. "One ring to rule them all, & in the darkness bind them," as Tolkien would say. We learn that things which are not hidden, but out in plain sight, are not obvious to sheeple. Interest compounds the kosher tax on our daily lives, just as the U & K tax ^{on} our foods & food-related items. How can people claim that "there is no ZOG"?

I enjoy public-speaking & live audiences because our communication is immediate. Audience reactions tell me if I have spoken effectively, whether or not they approve of my ideas, which I array for their consumption & consideration. I speak, not for myself, but for them. When I shared a stage with Paul Fromm in Toronto, he lost his teaching job for speaking at a "racist gathering, next to Eric Thomson, a 'Nazi theoretician'." Poor Paul! As you know, Canada or "China-duh", has its ZOG which imposes thought-crime laws, so all residents of Soviet Canuckistan must conform or else. It is forbidden to use the term, ZOG (Zionist Occupation Government), for it offends jew-supremacists (Zionists). Orwell's "1984" is alive & well in Canada, & its subjects are accountable for what they say outside the country. All the best & ORION!
