4 AUG 05. Dear Brian:

I hope you like my Chinese stationery. This comes from a correspondent in "China-duh" alias Canada. According to their latest census, the latest second language (after English) is Mandarin. Many thanks for your outstanding enclosures, including the great DVDs!

In regard to the "racial" question, I enclose an article on DNA analysis to throw a bit of scientific light on the subject, in contrast to the black cloud of emotion thereon. What impresses me most is how "Whites" prefer to squabble over who is "White", rather than work to rid their living space of OBVIOUSLY non-White invaders. As the author of the DNA article suggests, once White rule is established, a eugenics program could set about 'racial cleansing' as well as racial improvement, so arguing about the "Whiteness" of a geo-cultural group, such as Portuguese, English, Finns, Swedes, Spaniards et al. is like arguing about who is properly attired for dinner on The Titanic. Now the hebes must laugh at our ridiculous internecine babble! In order of priorities I see that we must first overthrow the Jew World Ordure, by working with anti-Zionist (Zionist = jew supremacist) non-Whites. Secondly, we must clear our living space of CBVIOUS non-Whites. Thirdly, we must establish a pro-White government. These priorities may be reversed &/or combined, but they must be accomplished if Whites or those who purport to be White are to survive. Is this basic idea so hard to understand? I hope not! I use words to outline deeds or at least my intentions. I do not use words in lieu of deeds, especially when deeds are possible. Politics (people-power) is the art of the possible, as thinkers have noted. Is it not possible for "Whites" to organize as pro-Whites? So far, I see no progress in North America where ostensible Whites & those who think they are want to be jews (Idiot Identity); want to be jew-slaves (Freemasons, Christian Zionists, &c.), or want to be niggers! Here, the racial situation appears hopeless, but not serious. In Europe, I hope that the racial situation is serious, but not hopeless. I heard that a British member of parliament recently bleated that "if the Moslems will not assimilate, then multi-culturalism will not work." In other words, if the Moslems do not weaken their religion & culture so that it can fit into the Freemasonic/Zionist yoke, then, just maybe, they should leave. That statement would constitute a very muffled trumpet blast, heard 'round the world, nevertheless: Woe be unto multi-cultural societies! A zogling has spoken, & the sheeple fear to state the obvious. "Moslem terrorism", & I use the term advisedly, for there is likely a Zionist connection therewith, could be the opportunity Europeans need to free themselves from the non-European occupation & invasion. We shall see, but real leaders should make use of this opportunity & not dither. Such an opportunity may not arise again!

I agree that Ben Klassen's concept of 'religion' lacked spiritual & rational appeal. I did not know if he was setting up a tax-dodge or a church per se, & I wondered at his use of the "Pontifex Maximus" title. Was it tongue-in-cheek or ridiculously pompous? See if you can check out Dynasophy &/or Cosmotheism on the Internet. They propose a rational racial religion.

Mussolini was largely responsible for his own undoing, for he never achieved the authority in Italy that Hitler achieved in Germany. Il Duce took power too quickly & too easily. Fascism was an authoritarian consensus, whereas National Socialism was a totalitarian populism. Badoglio had his supporters, & he must have played on Mussolini's vanity & his jealousy against Hitler, which Hugh Thomas cites during The Spanish Civil War. Obviously, Mussolini's campaign in the Balkans did much to defeat Hitler's offensive against the USSR, as well as his incompetence in North Africa, which further drained German forces. If we examine Italy's role in World War II, its alliance with Germany was more favorable for the Allies than it was for the Axis. The Germans wryly & wisely observed: "If the Italians are neutral, it takes 3 divisions to watch them. If the Italians are your allies, it takes 7 divisions to support them, & if they are your enemies, it takes one division to defeat them." Terrible, but true! Hitler said that Mussolini was "the last Roman." Too bad for Italy!

You may know how The Zud went 'thud', along with his promoters: They are purportedly revisionists who deny The Holohoax, but then they started praising Putin who quickly proclaimed his belief in The Holohoax. In English, this puts them astride two horses, & in German, it puts them "between two stools". Apparently, Zündel's likely jewish wife began promoting Putin on her own. What an embarrassing debacle! The fact that The Zud went along with the insanity does not make him any less a fool. All the best & ORION!
