Dear Tom: Thanks for the outstanding newspaper articles which accompanied your equally informative letters of "Jewlie" 15<sup>th</sup>, 22 & 29<sup>th</sup>! As I type this, jewsradio prattles on about more dead Marines & a possible U.S. pullout from its deathtrap in Iraq. I very much suspect that Iraq was a well-prepared killing zone for the ZOG's slave-thugs, & the zoglings still haven't figured that out. I agree that this Zionist regime in The District of Corruption is relying on its rapidly-eroding brawn, rather than its brains. In addition, "when Goyim kill Goyim" our jewish rulers don't care. In World War II, Bomber Harris asked the French jew general, Koenig, if it would be all right to bomb all French railway stations between Normandy & Germany, so as to impede German reinforcements. The jew, Koenig, said, "If 4 Frenchmen must die for every German, that is acceptable." The railway stations were in the centers of the towns, so there was plenty of 'collateral damage' with lots of French civilians killed & wounded. German hospitals were full of French bombing victims. "Liberation", indeed! No wonder I had to speak German to get my train ticket in Paris when I was first there in 1964. Everyone in La Gare du Nord refused to speak English. I'd believed that the French were anti-German, from my diet of Hebrewood propaganda, but I spoke no French, & English did not serve, nor did Spanish, so German was my last hope for catching my train before it left for Copenhagen that evening. Thanks to German, I caught it. I later learned that the Germans fought 3 wars against France, but they killed far fewer French civilians than did the Allies in World War II. Bombing civilians was actually forbidden by The Hague Convention before WWII, but the Allies preferred to ignore that. Cities bombed by the Germans in wartime had been declared fortresses by the Germans' opponents. The Germans let civilians leave, if the Allied authorities permitted them to do so, as in Warsaw, Rotterdam et al. The aerial attacks on Britain were originally aimed at military production & storage facilities. German terror-bombings began AFTER Churchill ordered the bombing of German civilians, not before. After that, the Allies excelled in terror/genocidal bombings, in addition to the bombing of strategic targets such as transportation & war production plants. Allied prisoners of war told me of Allied strafing of their own P.O.W.s on German roads, even when they displayed huge Red Cross banners. Sabina Citron, a Holohoax 'survivor', testified that the closest she actually came to death in Nazi Germany was when Allied warplanes bombed & strafed the Red Cross train she was on as it approached Berlin. Apparently, Allied pilots thought that the Red Cross emblem was a 'bullseye' to be hit, rather than avoided. Two of the first casualties & P.O.W.s whom I interviewed in Toronto were the pilot & copilot of a German Red Cross air-sea rescue plane which R.A.F. pilots riddled with machinegun bullets, even when the plane was unarmed & painted white with the Red Cross showing. A slow-flying amphibious ambulance was, apparently, good target practice for the war criminals of the R.A.F. Yes, that's what they were. The Soviet Jewnion did not recognize the Red Cross, so all international treaties in regard to targets & prisoners were ignored, but the British observance of such treaties was hardly much better in regard to civilians & Red Cross personnel. We witness the same arrogant, criminal behavior on the part of Amerizog since World War II. An act of war without a declaration of war is deemed a war crime & a crime against humanity. So is "planning &/or waging aggressive war", that is, attacking first! We hanged Germans accused of these crimes at Nuremberg, & we wrote those laws! So how come our own commanders-in-chief have not been tried for similar war crimes? Well, as the jew, Teddy Roosevelt, proclaimed: "Might makes right!" What disgusts me about Judeo-American victors' justice is the foul hypocrisy, which we learned from the British, who are the world's most polished hypocrites. Perhaps the ZOG's Peking ducks are coming home to roost.

Chinese declarations to the contrary, as you say, they could wage a conventional war, including the use of nukes, against the Jew Ass Oy Veh, but their invasion & occupation of The Western Hemisphere is taking place without opposition, thanks be to ZOG, so I think they will succeed with finesse, rather than overt force. Force should be credible to sway our ZOG's criminal regime, so a bluff could work, especially if the Chinese allow free passage of our own ruling racketeers. As you say, with a major Chinese presence in this hemisphere, I would not sell Blacks or Whites any life insurance. Let us suppose that the ZOG could bribe India to wage a nuclear war with China & Pakistan, & that all the nukes were to explode in Asia: The Western Hemisphere would get lots of radioactive fallout, at the very least, so a nuclear

war would not only be dumb, but generally disastrous. As my jovial landmine & boobytrap instructor said: "Explosives don't miss. Everyone gets a share, but, they are non-habit-forming! So there is good news & bad news about explosives." The Chinese have read their Sun Tzu, but compared to our Judeo-American regime, the Chinese are more honest than they are devious. As I recall from the (undeclared) Korean War, the Red Chinese warned the U.S.A. alias the "U.N. forces" not to threaten the Yalu River dams; otherwise China would intervene in the Korean War. The U.S. threatened the dams & China intervened, much to our regret! Oh mirror on the wall, who is the most shifty-eyed of them all? US: the U.S.A.! Not only is our ZOG engaged in international criminal enterprises (rackets), but I think the ZOG lacks a common identity, & hence, has no common purpose beyond its perceived momentary advantages. To describe a gang of criminal opportunists as 'devious' may be giving them credit for more intelligence than they have. Sun Tzu would describe our behavior as that of "mad bandits" who will soon reap their comeuppance. It is for historians to decide whether U.S. policy represents a crime or a blunder on the part of incompetent criminals. I also wonder if ZOG-pigs are nearsighted critters, who follow corruption, regardless of where it leads them.

Britzog seems to be gearing up for a real-life version of "1984", including total surveillance & thought-crime laws to combat "terrorism". As you observe, all FEDZOGUSA needs is another act of "domestic terrorism" to wrap up the last of our freedoms, while it robs us of what remains of our prosperity. Los Angeles would seem to be a likely target for a ZOG terror op, possibly with the goal of mobilizing hispano-mestizos in ZOG's 'holy war' against Moslems. Stay tuned! Another potential target would be Nigger City, that is, The District of Corruption with its predominantly Black population. An attack which could be blamed on Moslem terrorists might tend to blunt the force of Black Muslims. Its credibility would be enhanced if some of the political prostitutes of our corrupt congress were also sacrificed in the holocaust, which is defined as "a burnt offering", as well as a conflagration. 9-11 was such a ZOG-serving 'holocaust', with Osama Bin Laden as ZOG's chosen 'high-priest' & versatile villain.

Yes, all the narco-terrorism going on in Mexico is not high-lighted in 'our' jewsmedia, but Thomas Chittum predicted it in his book, "Civil War Two", which he published in 1996! If you can obtain a copy, it is well worth reading.

I appreciate your thoughts on unsupervised, undirected youth. I have known many survivors of childhood in Canada & the U.S.A. who related their drug experiences & crimes which stemmed from their perceived lack of constructive things to do, as well as their lack of guidance. I learned that "summer vacation" from school was originally planned to free children to work on their family farms. This vacation period could be used for further learning & skill acquisition, plus physical exercise in the form of productive labor. Games such as football, baseball, basketball, &c. could be replaced by urban & rural beautification & conservation activities, in which the best teams would be rewarded with suitable prizes, in addition to fair wages. Thus would this system provide our youth with direction, protection & productive social activities, aimed at self-sufficiency of our White nationstate. I have never liked the idea of wasting the laborers at football, when they could be using their energy & strength to improve our environment, instead of paying aliens to do it for us. White Americans would be encouraged to become productive participants in our society, rather than mere consumers & spectators. I think you have hit on a very good idea for the reclamation of our land & our youth. Our citizens should be well-rounded in their physical & mental achievements, for their good as well as the good of society. Today, our youth & our adults tend toward all-brain, no brawn & all-brawn with no brain. Such a contrast in conditions is unhealthy, in all respects, as I have experienced in my own youth & adulthood as a student & a laborer. Physical labor enlists the brain, as well as the body, & it builds self-respect as well as one's knowledge of one's physical limitations. It also builds respect for hard work, as when one builds a stone wall or digs a ditch with handtools & barehands. Those who built our cities would not be so swift to give them away to alien invaders, but those who never laid a brick would give away whatever comes easily to them. Productive labor should be seen as socially-useful, rather than socially-de-meaning. If this sounds "Nazi", it certainly is! Here's wishing you Strength through Joy. DOWZ! & ORION!
