

16 AUG 05. Dear Tom: Another month is whizzing by, amidst looming crises: demographic, economic & political. Thanks for your letter of AUG 11<sup>th</sup> & the amazing enclosure about the likely jew who tried to take a bomb aboard a plane leaving Oklahoma City for Philadelphia. Like you, I wonder if there will be any follow-up, instead of a cover-up, like that of the dancing jews at the collapsing Trade Towers, which they viewed from a safe distance, of course! As you say, the name, "Dreyling", would mean "triplet" in German, just as the name "Dreyfuss" meant "3-foot", as the jew officer accused of espionage was called. When the French annexed Alsace-Lorraine, they got lots of jews with German names & dubious loyalty to France. Such a deal!

Today, I just received a solicitation scam from Indians, judging by their curried English. They said that I had won over \$500 in discount coupons for Walmart, & all I had to do to collect them was to pay \$4. I said, "So why can't you just subtract \$4 from the \$500 & send the coupons to me?" There was lots of mumbling in reply, so I said, "No thanks, I'm not interested at all!" Most of my phonecalls are such rubbish as this. It's good to know what congames are current.

In regard to Putin, who may be a jew, himself, I appreciated his kind advice to our Bush-whacker, that we establish "a viable puppet state in Iraq" before we leave. Well, that's just what we had under Saddam, & even if we begged Saddam to come back, it's too late, because the Kurdish & Shi-ite genies are out of the bottle, because of the USA. It's also too late for the USA, even if we start a nuclear war in The Middle East. Certainly, China would not approve of that, since China's thirst for oil now rivals that of the USA, thanks to US greed to industrialize China, as we did with Japan. Funny it is to recall that Japan's thirst for oil led it to attack Pearl Harbor, so as to seize the oil-rich Dutch East Indies. That's exactly why FDR embargoed U.S. oil shipments to Japan! That left the Japs barely 2 weeks in which to make up their minds, since their fleet was about to run out of oil. World War I was largely due to Britzog's desire to take oil-rich Mosul & Kirkuk from the Turks, & deny it to the Germans, who'd already built a railway through the region! If there were no oil, I wonder what we & the banksters would find to fight about. ZOG only knows!

In regard to another 9-11 style terror event, perhaps in L.A., I wonder why a Mexican would want to leave his new 'promised land' to risk injuries & death in Iraq. According to a jewsradio report, the ZOG's recruits who foolishly volunteer to go to Iraq are mainly White. Blacks & other non-Whites are too intelligent to engage in such folly. To be 'patriotic' is just a death-wish on the part of Whites, in one more manifestation. In effect, it means abandoning one's country, in the service of a Zionist lie. I hear crooks & liars-for-hire claim that to pull out of Iraq, now, would make the injuries & deaths we have so far sustained both futile & an insult to those who've died. That's like a compulsive gambler who believes that he must continue to lose his money; otherwise, his previous losses would be 'futile' & also 'wasted'. Well, throwing more troops into Iraq will not bring our losses back, any more than losing more money will recoup that already lost in a game. There is the old adage about throwing good money after bad, which sadder, but wiser gamblers have noted. Gamblers know that winning is defined as gaining a sum of money, but how do we define 'winning' in Iraq? The best we can do is to cut our losses by declaring 'victory' & bugging out, as we did in Vietnam. As Superman would say: "Up, up & awaaaay!" One media jew asked why Bush did not have his daughters volunteer for service in Iraq, since they are apparently out of school & unemployed. Good point or at least food for thought.

Meanwhile, our jewsmedia feed us with lots of phoney ZOG stats, just like Big Brother's Ministry of Truth in "1984": "Double-double good!" So, dream on, dumb Goyim, & hope that you never wake up. I saw the same folly in White-ruled Rhodesia before Smith's sellout to Black Marxist Misrule in 1980. Whites appeared to be under a deadly, evil spell, from which they could not or would not snap out. I see the same zombie-like behavior here & so far, all I can do is watch the show, all over again. All the best. DCWZ! & ORION!
