

27 AUG 05. Hail Chad! I just got your great letter of 21 AUG. I agree with your viewpoints, so I shall clarify some questions you have raised in regard to beliefs. I have long noted a major disconnection between what people often say they believe & what they do. Frequently, their deeds are quite contrary to their stated beliefs, which makes them liars &/or hypocrites. History shows us lots of wars, invasions & conquests, with lots & lots of race-mixing all around. This indicates that race has never been deemed very important to anybody. People fight over food, land, women, wealth & power. Religions have only served as excuses, so that one side could deem themselves 'better' than their opponents, even when all sides to the conflict were of the SAME religion! The priests of Christ-insanity, for example, bless the guns of those who employ them to do so, especially when one or more sides are "Christian"! Political creeds have served the same camouflage-purpose as religions, such as "Liberty, Equality, Fraternity" in Napoleon's France & "democracy" in Wilson's USA, & now Bushy's USA. Whites have only rarely united, but never as Whites! Our job is to create amongst our own Folk the idea that race does matter, & that Our Race is precious & worth saving, as well as improving, as Nature intended. We have entered the era of Biopolitics & we must think in terms of race: Is this good or bad for Whites? must be our eternal test. In White-ruled Rhodesia, Whites never asked this question, nor in White-ruled South Africa. Their question was only: "Is this good for ME?" In other words, all Whites were separate, as selfish, shortsighted individuals who were at most interested in immediate gratification: one more beer, one more steak, one more night under my own roof, &c. In Europe, Whites would ask (sometimes), "Is this good for my country?" but not ever for Our Race. That's why White Europeans fought so many wars against their fellow Whites, just as ancient Aryan Greeks killed themselves off in internecine wars & in Alexander's race-mixing conquests of non-White peoples. People tend to bicker when they have no intention of doing anything toward a common goal. Our job is to convince them that there is a common goal, but only if they are willing to be convinced.

The Moors' invasion of Spain revealed that (1) Resident jews would betray the Christian cities to the invaders, by opening their gates, when the cities slept & (2) There was no White Unity at all. If I recall correctly, the Moors conquered Spain in 7 years or so & it took the Christians, not all of whom were White, around 700 years to reconquer it, after a whole lot of race-mixing had occurred. That's why southern Spaniards look like Arabs, why there are so many Arabic words in Spanish & why Spanish music sounds like Arab music. The Whites & Christians of Spain were not united before the coming of the Moors & they would not unite to fight the non-White, non-Christian invaders until they reached the border of present-day France, where they were defeated by a Christian army under Charles Martel, if I recall my history correctly. Race played no important role in these battles. If Christians happened to be White or non-White, it didn't matter to the priests, & Christians remained under Moorish rule, so even their religious differences were secondary to the conquest of land & subjects, so there was nothing to do with race on the Moorish side, either. My essay on Demographic Dementia refers.

The Confederate States of America were not sufficiently united to put the common good ahead of their state capitals' good, so their battlefronts were starved of men, arms, rations, horses, harness, which were hoarded in state capitals which were not being invaded directly. The Union occupiers expressed great surprise at the abundance of men & materiel which could have won for the South, if only they'd been in the right places, instead of in the rear. The South was poorly-supplied with weapons, anyway, so hoarding of these made things much worse. As for 'racism' in the slave-owning South, that is a product largely of present-day jewsmedia propaganda. As we know, the first slaves in the USA were White, & the first Black troops to fight in the Civil War wore Confederate uniforms, as reported in the Yankee newspapers of the time. Yes, there were Black & Indian slave-owners along with White & jew slave-owners, all of whom supported the South, except for slave-owners in such states as Kentucky, who joined the North & kept their slaves until the end of the war. Lincoln's Emancipation Proclamation freed only slaves in the "rebel states". Lincoln had hoped the slaves in the South would revolt, but they did not. President Davis was about to draft Blacks into the Confederate Army, so slavery was NOT the important issue behind The Civil War, but States' Rights. Brazil abolished slavery in 1888, without any civil war. The fact that Kentucky kept their slaves during the war proves that slavery was NOT the issue which caused the war, but separation. unite &

I mention this only to illustrate the novelty of getting Whites to fight as Whites, for this is truly revolutionary, & pretty much unheard of. As I see it, no amount of words will convince anyone. As I read history, White Unity may occur when there is a crisis, which most Whites acknowledge as such, & when there is leadership which Whites also acknowledge as such.

2) The jew, "Lenin", analyzed the reasons for the failure of the first jew revolution in 1905 Russia. He was not correct, but he did have an interesting concept entitled "objective conditions" for revolution. As I gather, these conditions occur when sufficient people are affected by sufficiently important events at the same time, such as war, disease, famine & political unrest. Apparently, his "objective conditions" occurred in 1917, so "Lenin" returned to Russia, whose Tsar had already been overthrown by the jew, "Kerensky" & his Menshevik Provisional Government. I use quotes because all these jews used phony Russian names to conceal their real nationality: Ashkenazim or Khazar. "Kerensky" lectured a college class I was in at Occidental College in 1956, for he had, like Gorbachev, retired in California, after leaving Russia. Such a deal!

As Janis Joplin sang, "Freedom's just another word for 'nothing left to lose'." In my experience, such freedom does not lead to action, because those who have, don't do & those who would do, have nothing to do it with. I approached a Rhodesian publisher with a request that he support our little Rhodesian White People's Party. He told me that he was not an "adventurer" like me, for he had things to lose, like his business, his family & his property. I replied that I only had my life to lose, but that was pretty important to me. As it turned out, Wilfred Brooks lost his son in the sold-out civil war; his business was shut down by our Prime Minister, the traitor Ian Smith, & his property was stolen by the Black Marxist regime which followed the sellout. Poor Wilfred! I wonder what became of him & his wife, who fled their former country to South Africa, before its sellout in a rigged election which also put Black Marxists in power. Each Black commie had his jew handler: Leo Baron in Zambia; Syd Levy in Rhodesia & Joe Slovo in South Africa, & those were just the ones I knew of. White Unity? What is that, & where is it? We must help create it, as we are doing, with what little we've got, so far. The Whites of Africa were like Whites in North America: they did not want to pay fellow Whites a living wage, for they thought non-White labor was "cheaper", the stupid, greedy, foolish, pale-skinned bastards! They were also lazy, I should add. These are the Whites who collaborate in the exportation of our jobs & the importation of alien workers & welfare parasites, here in the USA. These are the Whites who flee from The Mud Flood, only to hire non-Whites in their newly-settled White Flight areas. That's what's going on in this part of the country. When I worked for Rhodesia Railways, my Freemasonic bosses wanted me to help train my own replacements. I refused because I had nothing to lose by doing so, just my job. U.S. citizens are training aliens to replace them overseas & here in the USA, "for a few dollars more," for even if the U.S. citizen is non-White, he is deemed "too expensive" to keep on the job. While this destruction is going on, Whites seem unwilling to change their ideas & their self-destructive ways, but this inertia may not last, & as you say, it must not last! As you say, we must also have men & women of good quality, both as leaders & as activists, as well as supporters.

The Third Reich knew the importance of quality & good character, in addition to physical & mental qualifications. Leadership training in the NAPOLAs (National Political Academies) & officer training schools emphasized character as well as strength & skills. Bodies & minds could be exercised & educated, but character was already in being in each individual. This included one's creativity, honesty & courage, as well as loyalty. You know all this, but I mention it because it was done in the past along the lines you suggest. Women were also admitted to the NAPOLAs, for The Third Reich had many female leaders, unlike the supposedly 'equalitarian' Soviet Jewnion. I've met a few of them.

What you experience in your confined environment is similar to behavior I see on the outside: Predators, parasites & victims; exploiters & exploited, but most of it is legal. That does not make it right, however, but as poor Burdi wrote: "Might is Right", & the ZOG showed him, all right. Too bad he could not live up to his words. I am not Superman, & I don't claim to be. Obviously, Whites need to be family-oriented, but once again, AS WHITES! Family members who betray Our Race should be excluded, disowned, disinherited, for they do not belong to us. The same goes for fags who are often Nazi regalia freaks & even jews. Family is future, the future of Our Race, so we must choose our mates wisely.

Thanks for the poem. As a White Nationalist, I sign off with ORION! for I have only one loyalty.

P.S.: If you want to see the ongoing non-White & Moslem invasion of Spain & all of Western Europe, check current news. The invasion & conquest of Europe is much greater now, but it is not resisted. It is encouraged by Christians, Capitalists & Jew World Order liberals. Whites only begin to resist AFTER their lands are invaded & occupied these days. Is it really better late than never? We shall see. Stay tuned!
