

30 AUG 05. Dear Tom: I just heard on jewsradio about the mess around New Orleans & the flooding of the city from Lake Ponchatrain. I hope your relatives survived this disaster, which apparently was much worse than people had thought during the actual storm. Wow!

That German who refused to celebrate your former wife's birthday sounds more like a Scot who used a political anniversary as an excuse to save money. It reminds me of the writer of a letter who concluded: "I was going to enclose \$10 for your birthday, but I'd already sealed the envelope." As you say, now both sides of the former border between DDR & BRD can be flooded by muds from the Turd World. So now Whites are supposed to adopt mud-brats & marry their mud brides who have been 'dishonored'. Since Europeans seem determined to commit genocide upon themselves, are cyanide pills freely sold in drugstores? As for hand-wringing over the poor mestizos who are flooding across the border into the USA, it's all show-biz, that is, b.s. for the dumb White folks. Why should we feel sorry for those who invade us & take our jobs & welfare? The Blacks are not so dumb. They can recognize competition when they see it. I asked a local ostensible White woman where the American population had gone, did all the White workers vanish, as well as their families? When their jobs go overseas & those that remain are taken by illegal aliens, where do the U.S. citizens go? There seems to be no protest against our own displacement. From what does this 'invisible' population live? Is everybody now on unemployment or welfare? But when that runs out, what are they thinking of doing? Will they all sign up for Iraq? Wouldn't our ZOG love that! As you so correctly observed, the jewsmedia know which buttons to push on White zombies or robots to squeeze more shekels out of them. The jew, "Stalin", did that with the Russian Goyim by appealing to Mother Russia, which the kosher commies had detested. Well, he wanted Goyim to fight, not jews, so he did not appeal to Yahweh or Moses. Bush does the same by appealing to patriotism as he destroys the country. It was long assumed that one naturally wanted to protect his life, his job, his family & his country, but that assumption has proved illusory. Has Nature been undone? It appears so. Of course, what do we now mean when we say, "This is my country, my job, my family, my life"? Is it, really? If we behave as if these things belonged to us, we would quickly find out from ZOG that we only have such things at ZOG's pleasure. We really don't own anything which we are not strong enough to defend. That is a fact of life and a law of Nature. As you say, I see most sheeple as ZOG-lovers, because they can obtain rewards from the ZOG. As long as that continues &/or sheeple imagine that it continues, ZOG need not worry too much.

So ZOG wants to bring in lots of Arab women in order to brainwash them in the relative safety of the Jew Ass Cy Veh, at tax-payers' expense, of course. There seems to be an assumption that this state of degeneracy in which we live has the power to seduce & to corrupt all who enter it. If the Moslem terrorists who were born in England can show us anything, it is proof to the contrary. In fact, there have been reports from other parts of Europe that Moslems living their entire lives in Europe have become militant Moslems, rather than tolerant, easy-going lotus-eaters. Similarly, the more Mexicans who come to the USA aren't 'assimilating', but invading & occupying territory 'stolen' by the Gringos; territory to be "reconquered" for Mexico.

It would appear that "terrorism" & U.S. involvement in The Middle East is a cover for the invasion of the USA by Mexico. According to one source, Bush, Fox & Martin are talking about the political & economic union of Canada, the USA & Mexico. What better way to distract the dumb sheeple to accept such a fait accompli by sending U.S. troops overseas, while leaving the borders open to alien invasion? The mestizo invaders are pouring into all states, rather than just the U.S. southwest, so if there is a referendum on unification, there will be lots of Mexican support in the USA. In Canada, the huge numbers of Chinese may also support such a unification, along with the judeo-capitalist interests. Capitalists don't like borders nor national governments, so these things are disappearing on behalf of the Jew World Ordure, while dumb sheeple focus on symbols of flags & constitutions which have no substance. I'm sure that the jew, Alexander Hamilton, would enjoy this spectacle of Banksters Über Alles.

We are certainly ruled by an empire with alien, that is, Zionist interests. Like all empires, I don't think this one will hold together, & not for very long. It appears that Tom Chittum's book, "Civil War Two" is coming true, on the double. The mess in New Orleans is a straw in the wind, which indicates our political, economic & demographic direction. The looters amid the disaster remind me of the scene in "Gone With the Wind", in which Atlanta stores are looted by mobs, following the retreat of the Confederate forces, before the arrival of the Union looters. Oh well, Bush is high & dry, but high on what? DOWZ! & ORION!
