

9-9-05. Dear Phil: Thanks for your letter of 3 SEP & the outstanding enclosures. I don't know what to make of the alleged jamming of radio transmissions in the New Orleans area. Naturally, the jewsmedia say nothing about it. Another thing they do not mention is what happened to all the emergency funding which the ZOG makes available to all cities & counties in the USA, according to a former county commissioner. Did New Orleans' nigger mayor have his hands in the till? Could be... New Orleans is not only flooded, but sinking lower. Every time I buy groceries I notice the rapid increase of food prices, & I am definitely paying more for less & less. One fellow said he'd heard about the WA state legislators who recommend a temporary suspension of the state gas tax, but he'd prefer to pay the tax & have the oil price-gougers part with some of their criminal profits. You may have noticed that the oil-crooks use any excuse to justify their price rises. Sell less for more is their motto. That item from USA TODAY was very revealing. It shows that Civil War Two is definitely brewing. Jewsradio reported today that Mexican soldiers & sailors are helping our 'refugees', instead of combatting their growing drug violence. Indeed it is most suspicious that a DOJ zogling would declare that "there is no drug war on the U.S. side of the border." It sounds as if he is whistling past the cemetery. Since we have spic druglords on both sides of the border, it is likely that they will have their own turf wars here. As I understand, their street gangs such as the Crips, Bloods, Nortenos, Sureños, et al. are involved in the drug trade, so if they are armed, there will be more than firecrackers going off at our fiestas. In this time of crisis, as you have stated, all manner of civil rights abuses may occur, using 'emergency' as the excuse, in addition to real emergencies, which are bad enough.

Yes, all arrows point to a war against Iran, whenever Israel wants it.

This hurricane damage could easily bankrupt insurance companies & over-lending by banks to our highly-indebted population is asking for bankruptcies in the banking sector, as well. I marvel every day that this phoney economy has not yet self-destructed. I have never heard of such fiscal folly in an entire society, not even during the speculative fever of the 1920s. I guess the 1930s Depression was just a warm-up for The Real Thing. One thing I've noted is that ZOG reduces funds for the growing number of poor, while reducing taxes on the rich. This policy seems like a recipe for social upheaval, for the poor are unlikely to crawl into a corner & die quietly, especially not the spics or niggers! Public health in this land of ZOG is really a profit-making racket. It is correctly a 'public sickness' program. It has long been said that the U.S. system has socialism for the rich & capitalism for the poor: those that have get, & those who have not get squat. I hope you have a nice vacation. DOWZ! & CRION!
