

14 SEP 05. Hail Jason! Many thanks for your letter of SEP 8th. I didn't read David Duke's "My Awakening", but I did read his book, "Jewish Supremacism" (Zionism). That sounds much better. I wrote a favorable review of "Jewish Supremacism" for my correspondents. Thanks for letting me know your zoggies' policy on hardcover books: They just rip the covers off. Thanks for informing me about the Y2K craze in your place. Boy, sheeple were really exercising their imaginations. A jew reporter for our local "Yakima Harlot-Repulsive" interviewed me prior to Y2K. I told him that it seemed to me that computers would have to be programmed to shut down on Y2K. I said that our computers did not shut down when the clock was on midnight, that is 00 00 00, because no one told them to shut down. I also said that our essential infrastructure worked before computers, so we can operate it if computers were to conk out, so don't sweat it! As luck would have it, my 1954 electric alarm clock conked out for good, just before Y2K, so it must have been zapped by space aliens. Anyway, on the night of Y2K, I was working in my office with its banks of computer screens. The radio was on as midnight struck in the far east, Vladivostock, Moscow, Paris, London, New York City, Omaha, et al. with no indication of any computer shutdowns. Then, it was midnight in Yakima! My computers purred on into the next day, when my shift ended, but I did hear the New Year's celebrations as the 'dreaded' hour struck. I noticed a strange thing in the aftermath of the Y2K panic: all the Armageddonist 2nd Coming bible-bangers had vanished! "Maybe that part is true," I thought, but gradually, they reappeared. The main Y2K-yelper had changed his tune from "the world will end on 2000", to "the world will never come to an end." I told him, I told you so, months ago, because Christians almost always lie. They lied about the end of the world before 1000, & I told you that they were lying about the same things in 2000. As you have learned, I was right. Then the bible-banger told me of the new boogeyman: the Mark of the Beast" in the form of an injectable microchip with all one's personal data recorded thereon. I told him that a microchip was a thing, not a mark, & that the Mark of the Beast was the Star of David alias The Death Star, which has 6 points, 6 triangles & 6 internal angles. That is the only mark which corresponds to the Beast's number, 666, but if you can think of another representation of that number, I'd like to see it. I then asked him if he would carry all his cash, property, I.D. & personal records on his person at all times. He said that would be stupid. I agreed with him, & I asked him how that would be different from carrying around all such data on a microchip which could be erased by magnetic &/or static electricity &/or stolen by means of electronic scanners which can record microchip information through one's clothing within a distance of 5 feet. Then, such a chip could be duplicated for someone else to use, just as such information can be scanned & copied from your 'smart' credit card, as thieves have done when electronic cards are processed normally. I asked him if it would be possible for everyone in the world to have such microchips injected. The Chinese, for example, are so numerous & multiply so rapidly that the job would never be completed. He frowned. I then said that we are born with our I.D.: our retinas & our fingerprints, which are already being scanned for security clearances, & will be for commercial transactions, because such natural I.D. cannot be stolen. Then your personal records could be stored in a safe place, where they could be accessed only with your I.D. The bible-banging jew supremacist objected that "it was in the bible." I said, only according to your interpretation, for it mentions that "only those with the Mark of the Beast shall be allowed to buy or sell." I said that those who wear the Death Star of 6 points now monopolize certain businesses like tobacco, furs, jewelry movie-making, meat-packing, &c. & they are the only ones allowed to impose an illegal kosher tax on goods in interstate commerce, so the Star of David is indeed The Mark of the Beast. Trust me, I said. Now the fellow stays away from me, just as I like, & he is spreading rumors that I am really much older than I pretend to be. He also says to others that I am a Nazi ghost sent to spy on him. I think he confuses me with the Swedish actor who played the Devil in "The Little Shop of Needful Things" in the Stephen King movie, based on his novel of that name. He has denounced me to local zoglins with such kooky claims, so some of them address me as "Adolf". What a compliment!

I include other letters which should address the points you have raised about New Orleans & Iraq, ZOG willing. Yes, I did hear about the alleged recruiters for Moslem terrorists in U.S. gulags. It made the news, big time. Yes, it's funny that meat & milk must be kept separate to be 'kosher', but they are made together in the same cows! Oy vey!

The Atlanta Olympic bombing does make one wonder who benefitted from doing it. The ZOG pounced on the White security guard who tried to warn people about it, & who was eventually

2) declared innocent, just as the ZOG pounced on Dr. Hatfill, whom they blamed for the anthrax attack on the U.S. mails. Hatfill worked at Fort Detrick, MD, our germ-warfare production lab, where anthrax was stored, but Hatfill did not have access to the anthrax as did a jew named Sack, if I recall the name correctly. Sack quickly fled to Israel, so he cannot be extradited for investigation by U.S. authorities. Such a deal!

No, I was never in Maine.

I'm glad to read that your zoggies do try to keep TB under control, for that is easily spread by coughing, spitting & sneezing. TB is often a symptom of AIDS, for when one's immune system conks out, one's TB gets out, if one has it in a dormant state. TB usually kills before AIDS, so zoggies can avoid saying that a death was caused by AIDS. As for hepatitis C, it is best to avoid unsterile needles. ZOG loves tattoos, for they advertise one's beliefs & background. One might as well go around with a red bull's eye on his back. I have a Swastika arm-band, but I don't think it wise to walk around jew-dazed mudville wearing it. In my experience, many of those who wear their loyalties externally, have no loyalty internally, where it counts. Loyalty is shown by behavior, not by tattoos, clothing or haircuts. As far as jews & other muds are concerned, your skin is your uniform, & they are promoting the idea that it is a crime to be White. That's something you will see on the outside, if not inside the ZOG-gulags. When muds see a White, they try to impose a guilt-trip on him or her. As the Black Panther, Eldridge Cleaver declared: "White guilt & Black rage make great sex!" (for him). So those who promote White guilt should be 'criticised' & prosecuted for genocide, as stated in The Genocide Convention in the USA.

Saddam of Iraq was a U.S. stooge, just like Noriega of Panama, who is in the ZOG-gulag to keep him hushed up about his drug-dealing with the CIA, when Bush #1 was CIA chief. This is why he may not live to be tried, for if he is allowed to tell the truth, he will reveal that the USA is the guilty party who put him up to it, & who rewarded him for his crimes. Saddam is the Abraham Lincoln of Iraq, because he killed his own people to keep Iraq together, just as Lincoln did to the American people. Without Lincoln, there would have been no bloody Civil War, although the ZOG might have chosen another stooge to do Lincoln's job.

I'm pretty sure that Osama still works for the CIA, as does "Al Qaida", for only the ZOG appears to benefit from the "terrorism" attributed to Osama & Company.

I don't watch televised sports. I did see a rugby match, once in Canada & once in Rhodesia. Rugby players do all the things football players do, without bodyarmor! Rugby players must be very tough &/or crazy. Cricket is an interesting game, because there are many fine points to consider & to watch for. Sometimes it can be as fast as baseball, but for young people, soccer is healthier & better exercise, with lots of action to hold the players' & spectators' attention. I have never seen so much televised nose-scratching, gum-chewing, spitting &c. in a soccer game as I have seen in baseball, because nothing else is going on.

I've heard of Erich Gliebe & Resistance, but that's all I know. I did not know that Resistance was a magazine. I thought it was a record company.

The new pope is carrying on the program of his buddy, the previous pope from Poland, whose mother was Wanda Katz, a jewess. That makes the previous pope a jew, according to jewish law. Jews can believe or pretend to believe any religion, but they remain jews, because that is their nationality. A Yakama Indian can have any religious belief, but he remains a member of The Yakama Nation. Nation = Race, not place. It is biological not geographical.

I knew Wolfgang Droege for many years, but I don't know what he was doing since I left Toronto in 1992. I have received no word from my Canadian correspondents about his murder case, although I think the murder suspect is in custody. Wolfgang loved America, Canada included. He wanted to be a cowboy, but the closest he got to the Wild West was his criminal associates who flattered him into participating in their schemes & scams, all of which cost him years in the ZOG-gulag. Crime & White Nationalism don't mix, for it gives the ZOG two handles on a person. White Nationalism puts you in the spotlight of ZOG surveillance & crime gives them a good excuse to prosecute/persecute you, as I've seen in such cases. Criminals must avoid the spotlight. When Bugsy Siegel was warned by Mafia boss, Meyer Lansky, that he was "getting too much publicity", Bugsy told Meyer to take a hike. Bugsy got a fatal visit from a hitman shortly thereafter, so his last publicity was his obituary. Frank Sinatra came close to the flame when he bragged about his mob connections. Peare's Encyclopedia defined mafia as "an Italian-jewish criminal organization." Yes, Italy & Sicily have lots of jews! In fact, "mafioso" is pretty much synonymous with "jew", in my experience. All the best & ORION!
