

7 OCT 05. Hail D.R.! It was great to receive yours of 2 OCT with Dr. Cantwell's report on The Virus Cancer Program, which comes right out of Protocol #10, which includes "the inoculation of diseases" as means of goading the Goyim to do the jews' will. Cantwell mentions an imported commie kike from Poland, a Dr. Szmunn (sp?), who was plugged into the U.S. medical establishment, where he was given the power & placement with which to inoculate certain populations with Fort Detrick-made viruses. These diseases included HIV & Kaposi's sarcoma which were purposely added to an experimental hepatitis vaccine administered to homosexual men in major U.S. cities, beginning in 1978. As I recall from reading Cantwell's book, the AIDS virus was inoculated via a WHO smallpox vaccination program for Black Africa, so AIDS did not come from Africa, it was brought into Africa from the USA. The connection of the AIDS plague with man-made viruses is supported by a book on Allied biowarfare research & development during World War II entitled "Deadly Allies", as well as "The Brucellosis Triangle" by Donald & William Scott. One jarring line got my attention in "Deadly Allies": It stated that the British & Americans were working on mutating deadly animal viruses so they could become deadly to humans. Anthrax was foremost in World War II, & the criminal Churchill wanted it spread throughout German occupied Europe. Fortunately, his madness was curtailed by officials who knew that anthrax was long-lived as well as infectious, & would continue to be, long after the war. Typhus was almost as bad, for that disease could infect dust & water, as well as being louse-borne. As we know, typhus had broken out in wartime Europe, where it was endemic in the east. It was usually carried by concentration camp inmates. Lack of sanitation due to war time conditions & crowding made lice a common problem, as they were in the trenches of World War I. Memories are made of this!

Protocol #10 also lists "want" as a club to bash the Goyim, by creating extremes of wealth & poverty, as we see ongoing in the USA. It's interesting that some of your liberal associates are beginning to sound like old Bolshies. Scratch a liberal & you find a commie, but are they politically-correct in this time of neo-conservatives, that is, Zionist racketeers? Would a commie jew now be deemed an "anti-Semite"? Maybe you could pick up some jewspeak on this topic, diplomatically, of course. Even the jew cartoonist, Al Capp, who drew the L'il Abner strip, referred to the two parties as "Demmicans" & "Replicrats", since there was so little difference between them. They play the role of "good cop"/"bad cop" on the voters, & they continue to get away with it. Third parties are usually used to draw votes away from a likely majority, whose candidate is not favored by our Zionist plutocracy. Hence the sheenies' financing of T.R.'s Bullmoose Party, which assured Wilson's presidential election. Wilson was the hebes' choice, since he was easily influenced by the Zionists' Samuel Untermyer, who could have ruined Wilson politically & financially, were he to step out of line. Once again, this tactic is mentioned in The Protocols. Wilson was the leader of the Goyim with "a Panama" of wrong-doing in his background. He gave the jews their Supreme Court Justice Brandeis, their Federal Reserve Racket & U.S. entry into World War I. Such a deal! His errors of omission & commission also fuelled the bloody Mexican Revolution, which began in 1910 & lasted until 1929, so Wilson was no diplomatic genius, either. His academic experience made him blind to Realpolitik, just like Francisco Madero, the Berkeley-indoctrinated president who succeeded Porfirio Diaz, & was soon assassinated, along with his vice president, much as depicted in the movie, "Viva Zapata!"

Two do-nothing parties will indeed contribute to the advent of Civil War Two, as they refuse to address major current issues to any effective extent. Diversity & corruption do not create consensus, so any attempt to address such issues brings potential winners & losers to the fore: immigration, welfare, deficit-spending, job-exports & alien imports, especially of alien workers, come to mind. Since we are not a nation, we cannot have national priorities, merely special interests, under ZOG. As Chittum wrote, any attempt to enforce existing immigration laws would require more military force than the USA now has. But even with such forces, our ZOG lacks the will to use them, so 'Aztlan' exists on former U.S. territory, on a de facto basis, just as special rights for 'hispanics' exist de jure.

As you say, the U.S. sheeple are too jew-dazed to form a pro-White, anti-jew movement. Since the jews have been the major promoters of our demographic dementia, there will be no remedy until the sheeple finally understand the jews' role in our misfortunes. A party for equal rights & self-determination for all peoples would be quickly denounced as "Nazi", for such a party would thwart Zionist interests, as did Hitler's nationalization of The Bank

2) of Germany. On the other hand, a party which would include jews would just be one more kosher front group, on behalf of Zionist interests. Jews are keenly aware of & watchful of their interests, so there is no sneaky way of getting around them. A jew must be present at any Goy meeting, or else! Any 'backdoor' purges of sheenie infiltrators & dominators would have to be swift & unsuspected, which is beyond Gentile capabilities. First, we must prepare ourselves as individuals before we attempt to organize in groups. Each one of us must become a political soldier, before we join together as an army of any size. Thanks for spreading my message around!

It is obvious that the Congressional gridlock permits it to do nothing much, except for bickering over relatively petty matters, such as Supreme Court appointments. It's a sideshow intended to hide the major events now taking place: rearranging the deck chairs on The Titanic.

Re your letter of SEP 30th: I'm glad the Japanese author has pointed out the jews' role in finances & culture, versus Japan, which lies in the growing Chinese sphere of influence. In Germany, Morgenthau's Genocide Plan morphed into anti-German propaganda, which the Germans appear to have swallowed. As I told one young German: The Germans are indoctrinated to love anyone but themselves, while the world is taught to hate Germans. Conscientious Germans who believe these jew lies will dutifully become extinct. Judeo-capitalism has also assisted in the genocide by first bringing in "guest-workers", who never left; while judeo-christinsanity now lets them in, so they can live off the German tax-payers. Zionist banksters have learned just how they can profit by having Germans wipe themselves out, without the need for firing a single shot. Such a deal! The Big Jew Screw is their guilt-trip racket, which they learn by their own religion. Then they impose guilt upon others by their propaganda, as with the anti-White propaganda from Hebrewood. As Black Panther Eldridge Cleaver said, in a campus speech which I heard, "Black rage & White guilt make great sex!" Thanks to you, Mr. jew. This is the jew-daze, the evil spell which we must snap out of, or die. The ZOG has forbidden Germans from learning history, knowing that truth would blast away the jew lies promoted by their Zionist Occupation Government, but European 'victors' of World War II are no less occupied & indoctrinated with jew guilt propaganda. French thought-crime laws are almost as stringent as those of Zionist-occupied Germany, Britzog & Canzog. Zionist tyranny has been imposed on World War Two's 'victors' as well as on the vanquished. If David Irving had been a better historian, he'd have known who won the war, & he would not have tried to sue a jewess in jewdicial proceedings connected with the Holo-hoax. His loss was predictable, for ZOG courts are virtually synagogues, lacking only prayer shawls. The Torah is already there, in the King James Bible upon which sheeple swear. The Zud Trial is said to occur this November, & German courts have been known to forbid evidence which would contradict the Official Holo-hoax Lie of the German ZOG. Judges have even plugged their ears, so as to avoid hearing such verboten evidence during proceedings. If truth is no defence, The Zud may have to plead 'insanity', which is also dangerous, for he may then be transferred from prison to an asylum for 'the criminally-insane', where drugs could be used to make him crazy, as in the former USSR.

"The worse the better" is one approach, as recommended by the writer who urges us to vote for the darkest political candidates available, so as to speed up the process of decay. I mailed out fliers in the USA which explained why we should vote for Jesse Jackson for president, when he showed the courage to denounce Jew York as "Hymietown". I even listed the positive results an anti-Zionist Black president would have for all us Goyim: #1: Tax-payers' money would go to Blacks, rather than Israel. #2: We could finally see who really was in charge of this country, rather than Blacks with White skins (reverse Creos). The argument that rapid decay could stimulate a timely response on the part of the victims has some merit, as history reveals in the case of post-World War I Germany, provided we can find anybody who has the character of those postwar Germans. That is the question. Moslem resistance to the Jew World Ordure could spark similar resistance in non-Moslem countries, which is why I have long advocated an informational network called The Anti-Zionist Alliance. As always, the blightwing shuns my ideas, until they forget who thought of it. I know my blighters!

"The worse the better" applied in my case, as you observed, for my situation in the USA was too bad for me to stay. There wasn't enough alcohol or dope to make me put up with it. When I was in Rhodesia, I read an autobiography entitled "Jock of the Bushveldt." Jock is the writer's dog, who shared his adventures in the wild, as a prospector & wagon-

3) master. The author, whose name escapes me, had the visceral revulsion to life as a clerk, as I felt as a clerk 100 years later. He viewed such a life as slavery, exactly as I did. We were never alone. As ZOG says, "Freedom is not free." But the price I paid was minimal, so I got the best of the bargain! One fellow thought that I had a hard life. I said it was not hard, it was fun, & it still is. Since when are adventures guaranteed to be safe? In his humorous book, "Brazilian Adventure", Peter Fleming admits that the macho life of an adventurer is what man is best suited for, whereas the life of an office-worker is really dangerous to his health, because it is unnatural. Our primitive stress mechanisms which dictate fight or flight are inappropriate in the office, but not in the jungle. Thoreau noted that most persons appear to work themselves sick in order to save up for a stay in the hospital. Such a deal! In regard to those who thrive on unnatural environments, the old adage applies: "You don't have to be crazy to work here, but it sure helps if you are." My clerical skills, such as they are, are at the service of The Cause, not the boss, so I am not stressed nor oppressed, but privileged. As I say, I've never had it so good, thanks be to ZOG! If this be the good life, I intend to make the most of it, like a hedonist version of Patrick Henry.

Your description of "go-getters" reminds me of the Amways people, whose tapes I've listened to, for as long as I could stand them. What disgusted me was their evangelicall quest for money, their Holy Grail. They were similar to the Sokogakai bunch who believed in positive prayer for profit & material success. I view money-making as a means to live, not the meaning of life. Earning money usually interferes with living, so I prefer to keep that interference to a minimum. I enjoy the opportunities to savor the good things in life: pleasant weather, beautiful scenery, freedom to do as one pleases, leisure time, long walks, interesting conversations & correspondence without annoying interruptions, as in "Cops, I've gotta run!" One's body finds its own natural rhythm, rather than the unnatural dictates of a work schedule. Like Edison, I can sleep when I'm tired, so I can work around the clock if I want to. I eat less now, because I just eat when I'm hungry, not when my schedule says so. I enjoy more freedom now, than I ever did. Colds & flus don't last as long, nor do they bother me as much, for I can sleep as long as I need to, thus allowing my immune system to cure them. Such ailments lasted much longer when I had to get up for work every day.

I was invited to join a company 401-K plan which turned out to be a scam, since the company went out of business, & our jobs went with it. It is becoming very risky to put your trust & your money in others' hands. The predicted inflation is likely to rob everybody's savings, if they have any, which most sheeple don't. As you say, the judeo-American failures are as hard to distinguish as are the judeo-American 'successes'. Neither seem to achieve much out of life, for they have been living other people's lives, rather than their own. Why must I keep up with those damned Joneses, whom I've never met, & don't want to know, in any case? That was my mother's albatross, her bourgeois burden, which I rejected as soon as I saw it. Nuts to that! My unplanned retirement allows me to savor the good things in life, as well as it allows me time in which to examine my own life, as Thoreau advised, thanks to the participation of my correspondents, such as yourself. It is good to compare notes. My advantage in regard to the military was that I had graduated from college & was maturing, so I could spot military b.s. & treat it accordingly. One fellow in my company said that I seem^{ed} to annoy the officers, because I was not afraid of them. I said, "Does that really show?" The Army was sure glad to see the last of me, & the feeling was mutual. I suspect that the 3 FBI agents who escorted me to the Mexican border in 1969 may have been as glad to see me go. If there were a TV series entitled "America's Least Wanted", I might be featured thereon. But now, I'm baaack! That means that I can resume my ZOG-studies & reports on my favorite subject.

I avoid anger by avoiding obnoxious people, & when that is impossible, I merely strive to remove myself a.s.a.p. It is well said that there is more than one way to skin a cat. I do not let assholes spoil my day, for I consider them worthless & of no account even to justify my anger. Anger is precious, so we should not waste it on unsuitable targets. Ha! Your Marine Corps experience resembles the sadism accorded Foreign Legion recruits by the officers & NCOs. You mean that 'Americans' are capable of such abuse as you described? I'm not nearly shocked as I would be in the distant past... Our youth are much more victimized by ZOG-prop than even we were, & I understand that many kids are drugged by their schools, to make them compliant, at least until they go crazy. I think your description of "Shamerica" is very appropriate! The dark denizens of the cities should not evacuate.DOWZ! & ORION!

E.T.
