

20 OCT 05. Hail D.R.! Thanks for yours of OCT 14th. I appreciate your help in regard to the identity of "Ragnar Redbeard". It seems that the New Zealand radical, Arthur Desmond, is indeed a likely candidate: possibly another advocate of social justice who figured that if he couldn't beat 'em, he'd join 'em, if only to express his grudging admiration for the unscrupulous mighty & the mighty unscrupulous. Thorstein Veblen's "The Theory of the Leisure Class" states a similar thesis, without praising those successful predators & parasites who live at the cost of their societies & at the expense of the most productive members thereof.

You raised the very question I did in my correspondence with Dr. Cantwell: Why would jews want to risk infection themselves, by inoculating queers, including jew-queers? He could not, or would not answer that question, at which point our correspondence ended. If I were in the jew-inoculators' shoes, I'd worry about a 'blowback' effect on my own tribe, especially in regard to its Black genetic admixture, as recorded in "The Genetics of the Jews". Since its publication in 1978, genetic knowledge has advanced in terms of light-years, so jews are likely to find indications of even more Black ancestry with more refined DNA tests. I read that the AIDS virus can be traced to the person who infected another person or persons, for it reveals the infector's DNA in some way. I suspect that the virus would be carried in DNA-bearing substance, but I really don't know, for I've found nothing beyond that brief item in the press. Blacks & queers are the most active carriers & spreaders of HIV/AIDS. On 6-6-2001, Black newspaper columnist Bob Herbert reported that 1 in every 50 Black U.S. males is HIV+, according to the U.S. Centers for Disease Control. There is no sign that the proportions haven't become worse since then. If there had been any alleged improvement, I'd think we would have been informed in the jews-media. Could I have missed such a report? Since I am not a blightwinger, I make no pretension of omniscience. Bob Herbert's column reflects the Blacks' primary disease: their cult of victimhood & its accompanying irresponsibility. It seems that bad old Whitey has made Blacks hate themselves, so much so, that Blacks use guns, drugs & sex to kill each other! In Africa, Whitey 'forced', that is, fed Blacks so they could procreate themselves into poverty. Yes, dat old White magic got us in a spell: when he leave, we gots ta go wheeah he be! Without Whitey, there'd be no one to blame, since Blacks rarely, if ever, blame themselves for the bad things they inflict upon themselves. In this trait, Blacks are very jewish, so there is a likely psychological connection, as well as genetic.

As you observe, the talmudic totality of the jewsmedia affects healthy Goyim with an immune reaction of growing revulsion. The more jews prate, the more we hate their ubiquity, if not their iniquity. We suffer incessant impositions of jews who seem compelled to get into our faces, via the media. That is largely why I have no TV, & my radio has a proper ON-OFF switch, as does my phone, which only exists for unwanted solicitations. The ON-OFF switch is as important as the inventions it serves!

Your analysis of the "neo-cons" is one more example of absurdity, as in oxymoron. I think it was the Red Queen who said she could ingest at least 2 absurdities every morning before breakfast. We may not consume quite as many as she did, but we sure hold onto them a long time. One example is the inclusion of Old & New Testaments in the Bible, leading to the critter called "Judeo-Christianity" (neither one nor the other!). Then there was the jew, "Lenin's", reversal of jewish Marxism, which he impudently dubbed "Marxism-Leninism": "Those who do not work shall not eat!" instead of "From each, according to his ability, to each, according to his need." So why shouldn't former commie-jews re-label themselves as "neo-conservatives" in their pursuit of Zionist world-domination? Same contents, different (phony) label, as you can see. I think it was Joseph Sobran who wrote that jews 'betrayed' liberalism, since the founding of Israel, which turned them into fascists. Sheeple cannot comprehend the fact that jews have no loyalty to labels, but always to perceived jewish interests. Let's hear another loud 'DUH!' from the Goyim. Perhaps "neo-conmen" would be most accurate.

Thanks for expressing my initial thoughts about Teddy Roosevelt, which make more sense when linked to his jewish background. As you say, outdoorsmen impress me with their lack of idle chit-chat, their economy of words, as well as their efficient economy of action. Such people impress one with their practical self-reliance & harmony with themselves, as with Nature. I would not care to trade such nobility of character for urban facades, prattle & noise. I know hunters who rarely talk about doing what they like to do. For them, the thing is to do it, not talk about it. They do exchange tips for improving their success, as I gather from their conversations.

2) Like you, other outdoorsmen have the ability to spot fakes. In the army, I would assess a man's character by imagining him out of uniform, with no symbols of rank. Most of those I encountered would likely vanish, without their uniforms, which are no substitutes for character, as real people know. We've seen similar lack of character in the world of suits & stuffed shirts. Does a lawyer (pronounced liar) make a good soldier? Stay tuned! As you say, the outdoorsman shuns noise, for that scares the game. He also wants to blend with his surroundings, rather than stand out garishly & ostentatiously.

Thanks for the good news about VNN's resurrection! The Lindstedt letter was informative, & it needs to be publicized. Thanks for your good efforts!

Ah, the old crystal ball behaves more like a kaleidoscope, with many fragments coming together in changing patterns. Chittum provides a good model or structure for assessing the degree & directions of our social decay & decline, for more facts can be hung on it, than on other models, ideas & theories, I think. Chittum seems to have an accurate idea of the cast of characters, their motives & likely maneuvers toward realizing their perceived interests, as well as the interests of the mobs. Because of our diversity, we cannot speak of "the mob" per se, since there is no popular will nor cultural consensus in this Land of ZOG, exactly as ZOG wants. This is another point of agreement with Chittum. One of my professors opined that "politics is defensive". That is why the rich go into politics, to look after their property & interests. He also supported the thesis that "revolutions are conservative", for poor people only politicize, historically, when they have LESS. They do not usually fight for MORE of what they never had. Hence, the "American", "French" & "Russian" Revolutions. It appears to me that things will become worse soon enough, with no exertion required to speed things up. As you say, we should watch corporate behavior for signs of their nefarious plans for the sheeple of North America. As I see it, China is the heir of North American industry, & may be chosen as the heir of North American territory. When the USSR was preparing to invade Europe, the Soviet railway system was made to behave like a gigantic conveyor belt which removed crops, livestock, useful-eaters such as skilled workers, machines, factories, &c., replacing them with war materiel & troops, according to my German friend who was a high-altitude aerial reconnaissance observer in 1941. His statements were confirmed by former Soviet intelligence officer "Suvorov" in his book, "The Ice-Breaker". We see ZOG's obvious plan to depopulate Africa, based on African proclivities of lust, laziness & larceny. So why not prepare North America as a slate to be wiped clean, first by de-industrialization, as recommended against postwar Germany in The Morgenthau Genocide Plan? Populations are two-edged swords: large numbers can fight, but they must also be fed. By increasing the North American population & lowering its quality, the proportion of useless-eaters adds to the burden on our decreasing production & distribution facilities. I have noted for years that farms, dairies, meat-packing facilities, &c. have code numbers, not locations, so multitudes may not know where their present food comes from, if they wanted to go to the source. This would be similar to the use of code numbers for towns & cities, instead of names! ZOG knows why it wants to conceal our food supply, just as it uses code numbers instead of names on cargoes carried by trucks & trains. That sounds like a catchy song for ZOG-awareness. Can't someone write clever, cogent lyrics out there in AZA Land? AZA = Anti-Zionist Alliance. The jew is largely a middleman, not a producer, so he lusts for creating distance between producers & consumers. The jews' nightmare is self-sufficiency, for he can no longer take his cut from conveying goods from one to the other, as a carrier, wholesaler & retailer, while lending money to both! Such a deal! In an ideal jew world, no place on earth would be able to make what it consumes. But would such a world work for jews if Chinese controlled Asian manufacturing, American agriculture, & African resources? Watch out, Mr. Jew, China may have a replacement for you, too! How do you say, "Cy veh!" in Mandarin?

I do not take false comfort from theories of "historical inevitability" by assuming that a certain set of circumstances will result in certain behavior by those most affected by those conditions. We are living in revolutionary times, as we have been for decades, so where is the revolution? We seem too well off, for now, to entertain any such ideas, so apathy & escapist fantasies block out our perceptions of reality. The old concept that we will wake up before it is too late is just one more comfortable illusion. The awakening is likely to take the form of a sleeper who wakes up with a hot foot: He runs in circles, screams & shouts, with no effect. I tend to agree that White resistance to ZOG's progs or programs will take the form of retreat, more flight & no fight, even when there is nowhere left to go. Stay alert & active! DOWZ! & ORION! E.T.

Comrade Du Pree:

Thank you for your letter of 12-26-03-114. Everything is fine here, except for the -50 degree windchills!!

The quotes in the article "Christianity and National Socialism" are genuine, but unless they are studied in context with other things he said, it could lead to a false conclusion.

I had printed up two versions of the above article; the first was a two-page version (flyer, front and back). But then I realized the possibility of misperception reading just the one article, so I made a second, one page version which included on the back the article "The Aryan Origin of Jesus Christ."

I do not know which version you read, but I am sending a copy of the latter.

From reading BOTH these articles, it becomes apparent, that although Hitler turned strongly anti-Christian during the war years, he NEVER turned against Christ! He viewed Christ's mission as one to lead a war against the Jews. Christ was NOT a Jew; His gospels in large part are directed AGAINST the Jews and their Satanic priesthood. As The Führer very correctly points out, the teachings of Christ were perverted by the Jew slimeball Paul/Saul, who claimed to be an "apostle" although he had never met Christ. It is this man who largely created the monstrosity that is today called "Christianity."

Christ preached WAR against the Satanic Jew scum, but Paul turned his doctrine into a pacifistic communism, so as to make the followers of Christ, in effect, a "Jewish auxilliary," which is just what "Christianity" still is today.

Christ did not "die for our sins" -- This is the Jewish doctrine of RITUAL MURDER transferred into "Christianity." Why should an innocent, whether dumb animal or SON of GOD, be "sacrificed" to save the guilty from the consequences of their sins?? This Jewish doctrine of the "scapegoat" is SATANISM pure and simple, yet it is the CENTRAL DOCTRINE of today's so-called "Christianity"!!

I believe that the book "Hitler's Table Talk" is a fairly accurate transcription of Hitler's words. However, the editor or translator of the book certainly perverts the titles of some of Hitler's talks for anti-NS purposes. For instance, Hitler is supposed to have given one talk which the editor entitled "encouraging prostitution." But, if you read the article, you see that Hitler was only saying that young women workers should be given a living wage, so that they would not have to resort to prostitution to survive! This is the OPPOSITE of what the title implies!!

Yes, I have read the book, "Positive Christianity". It was a very good book for its time. But I think today people need to go further, and analyze and expose the Jewish origins and purposes of much of today's so-called "Christianity."

Believe me, if Jesus Christ were on Earth today, the first thing he would say is: "I am NOT a "Christian." I am sure He Himself would heartily agree with Hitler's points about the Jewish perversion of everything that He taught.

Have a Joyous and Prosperous New Year!

Michael L. Hansen

P.S.: Wherever I have lived, Jews are outspoken in their advocacy of "majority rule", unless that majority is White or Arab. Then they demand "minority rights." Their only consistency is that they are anti-White and anti-Arab.

IF THE SHOE FITS: Suppose we lived in Nazi Germany. Let's imagine that we had no love for Hitler, nor the war, BUT we still supported our troops who were carrying out Hitler's policies. Would this split-thinking on our parts exempt us from being treated as 'enemies' by our Allied opponents? Obviously not! THINKING is what Americans hate most of all.

8 APR 06. Dear Wayne: Many thanks for your latest effort & the great enclosure from Australia! Things here are bumbling along, with the incessant blighting backstabbing, including an epidemic of clever slanders purporting to be 'news reports' from mainstream media on the Internet. Back in P.C. days (Pre-Computer) pranksters would have phony front pages printed for otherwise genuine newspapers, with outrageous headlines & items about a friend or acquaintance, albeit with no malicious intentions, to my knowledge. Real smears were published by those who owned the newspapers. As one Jew said: "Ya want freedom of da press? Den go out & buy one!" I shall peruse your latest Logos in due course.

The Protocols of Zion state that our societies will become utterly materialistic. It is typical for the words of that alleged "forgery" to state the truth, which we can see all around us, but selfishness & materialism have existed since the first alleged humans were around. The Jews did not invent these attributes, but they recognized them & they know how to make use of them for their purposes. Goyim like to pretend that these motives do not exist &/or that people may be taught to abjure selfishness & materialism, as has Christianity for over 2000 years, without success. Clever Goyim, like Hitler, knew that these motives were part of human nature, so, rather than deny them & expect men to become angels, he mobilized them. What I like about National Socialism is its appeal to Enlightened Self-Interest: If we all benefit, then you, the individual, also benefit, so the general good must come before the individual good. The state protects the race & the race protects its individual members. That is how communities & societies must function, if they are to exist as communities & as societies. No wonder many dubbed NS "Natural Socialism!"

As you observe, the degree & depth of degeneracy continue to accelerate, which should inspire prospective proponents of their opposites to seek out alternative concepts of religion, philosophy & politics (people-power). Under natural, rather than magical, conditions, survival of a race would require more than one proponent of a race-saving doctrine. It would take a minimum of **two**, a male & a female. Ideally, the task would recruit more, such as a male & numerous women & vice versa. The survival of any group requires a system of reproduction, for the survival of the system & the group. But to recruit even one worthy follower requires the founding philosopher to reach a wide audience, from which to sift the few who are worthy. If you want gold, you must sift a whole lot of sand, but if you do not sift the sand, by appealing to the masses, you will be unlikely to obtain any gold at all.

I note your introduction of "scientific racism" which you oppose in some way to "ideological racism," but I don't think your ZOG will be deterred by that purported distinction. It reminds me of the bloody 30 Years' War over "transubstantiation" versus "consubstantiation." Those issues were part of opposing interests & doctrines which served to inflame Christians to slaughter one another, but they would not impress an enemy of Christinsanity per se, such as a Moslem or a Jew. Nor is it likely that your ploy will do much other than confuse the Goyim. I take "scientific racism" to mean DNA testing. I agree that all ostensible Whites who intend having children should have their DNA tested, as we used to have tests for syphilis, in order to obtain a marriage licence, which may no longer be the case. All scientists appear to recognize biological distinctions which involve "race," or whatever "politically-correct" term they wish to call it, but how will their scientific knowledge transmit into human behavior? So far, I see no signs that sheeple have changed their breeding habits beyond their immediately perceived needs of "find a hole & fill it, or find a pole & stuff it." This appears to be mass-behavior, as depicted in a bell-curve, with the perverts & eugenicists at the extreme opposite ends.

Once again, I say that your job is not to convince the majority, but to appeal to the majority, so you can reach the minority you require. Unless you can exercise telepathy, I see no alternative, & your best means is the Internet, for its users are young & proficient, at least in the use of modern communications technology. Speaking of technology, I understand that cellphones can link up with the Internet. Say that an interested person logs onto your website & is favorably impressed. He or she can contact you with their name, address (E-mail or otherwise) & send you a current picture of themselves. I advise that you consider this means of 'face-to-face' contact. Without DNA test results, you would not know if you were in contact with a White, anyway.

I know that your ZOG is applying more & more pressure on freedom of expression in regard to race, so my best advice is not to let the ZOG distort your message. You may be required by your religion to relocate physically. If you stay in Soviet Canuckistan alias China-duh, your remaining alternative is to cease & desist, as I would do when freedom of expression becomes illegal in "Usreal." All the best & ORION!
