

3 NOV 05. Dear Michael: I just sent you a large envelope in time to receive your large envelope & the small one with the RNPA fliers. This leads me to believe that RNPA fliers are prohibited by your zoggies. Well, they were nice to return them, at your expense! Thanks for your letter of OCT 27th, including the letter from American Renaissance, the article on weather modification & the publication entitled "Psychology, Public Policy, & Law." Is this the publication you want me to send to G. ? In your previous letter, you mentioned that I should send him "New Century". I can send him whatever you wish. Just let me know. Thanks for sending me the copy of Brushfires. Had I received a copy earlier, I'd be able to mail them out to my correspondents. Apparently, G. thought that I was a publisher or some kind of fatcat, for he wanted me to donate zogbucks to a member of The Order, instead of mailing items to him. Since I have no cash to spare, & he did not want mailings from me, that pretty much ended our correspondence. That does not mean that I would not want to receive his mailings, however, or that I will not support the cause in the way that I can, but it does mean that I have no spare cash to donate, for that would sabotage my own correspondence. As you can guess, my finances are such that I even have to re-ink my typewriter ribbons. I can therefore appreciate your own financial shortages. At least this 50 year old typewriter still types. I recently gave it a much-needed cleaning & a lube job of lamp oil.

Thanks for the shortwave info! I am particularly intrigued by the hand-cranked model. There is a similar flashlight which uses no batteries. All you need to do is give it a few shakes, & it stays lit for hours! As my Black colleagues in Africa used to exclaim: "What will these White people think of next?" That was my reaction when I returned to the USA in 1992 & I saw my first weed-eater! In all the places I've lived, there were only machetes for that job! The same goes for leaf-blowers!

Weather manipulation sounds awfully tricky to me. The planet's weather system is so inter-related & interdependent that people, the Chinese for instance, might not like their weather modified. I can imagine the eco-freaks howling about that, also! When I advised cloud seeding over my forest district so we could obtain rain, in addition to lightning, the District Ranger said "that was not allowed!" So, we got the fires instead. That was the worst fire season on The Stanislaus, near Lake Tahoe, in California, as I understand: we lost 5 helicopters & 6 men in crashes on the district. I was a Helitack Foreman, so I could easily have been one such statistic, myself, & my crew members, for that matter. Fortunately, that fire season only lasted 3 months, for there were "lightning busts" all over the forest. Another tragic story occurred that season: A young couple worked for The U.S. Forest Service on that district. The male was a firefighter & the female was a fire lookout. He was cutting down a burning snag, which had been struck by lightning, within sight of her fire lookout tower. As you probably know, snags are treacherous, for they can fall in any direction. The girl was watching as the snag killed her boyfriend! Very sad. It was the summer of 1961, my last season in The Forest Service. My firefighting experience went back to 1955, but it was the only way I could afford to visit the woods! Too bad they were often in flames, but beggars can't be choosers.

It's always good to ask, "Cui bono?" when anything major happens, but ZOG prefers that no one asks that question. This is called "mens rea", "the guilty mind", on ZOG's part. Former Mossadnik, Victor Ostrovsky, wrote "By Way of Deception" & "The Other Side of Deception." In the first book, he described his induction & training in the Mossad. He reveals Israel's "hitlist" in The Middle East: IRAQ, SYRIA & IRAN, with IRAQ being foremost. Was it not nice of the USA to hit Iraq for sweet little Israel? Now, we are expending our last energy & resources to whack Syria, & quite possibly Iran. Ostrovsky wrote that the Mossad recruits lots of unwitting Arabs for its 'projects' (such as 9-11?). Ostrovsky got set up by the Mossad to protect the reputation of a higher-up, he alleges. This also happened to a former Soviet GRU officer (military intelligence) who writes under the pen name of Suvorov. I read his best book, "The Icebreaker", which reveals Stalin's plan to invade all of Europe, as soon as Hitler would invade Britain, but Hitler had no such intention, & hit Red Russia instead, just as he had written in his "Secret Book" in 1928. Hitler's sequel to "Mein Kampf" was not published, for it set out Hitler's intentions of invading the USSR. It was published by the All-Lies after the war, to 'prove' that Hitler "intended to conquer the world." It reveals no such thing. In fact, the USA is the only country which declared its intention of conquering the world in 1776, on its "Great Seal" on the back of the \$1 bill: "NOVUS ORDO SECLORUM" (New World Order). Maybe Stalin or Genghis Khan declared that, but not Hitler!

2) Suvorov had to flee when he got into trouble for obeying orders! In the spook racket, as well as in the military, we are all expendable. That is also true in business, but one usually survives being fired, but rarely does one survive being shot. My ambition was to inform myself about world affairs, so I could best invest my time & labor. My second ambition was to inform others. I have realized both ambitions to some extent & best of all, I've lived to write about it, so far! The blightwing &/or the ZOG have given me quite a 'resume' over the decades just for doing what I was taught in my Judeo-American public schools: "A U.S. citizen has the right & the duty of informing himself & then informing others, on behalf of an enlightened electorate!" I learned my propaganda well, too well for the ZOG, which probably thought no one would ever take their hypocrisy seriously. I was too dumb at the time to realize it was hypocrisy. Under ZOG, one should believe its propaganda, but not too much! Maybe G. thinks I work or worked for the CIA. If I had, I could certainly afford lots of brand-new typewriter ribbons, & maybe even a secretary! I wrote that The Order was very likely a set up: a phoney combat cell, of the sort used to rope in activists in Latin America, so as to isolate them & then terminate them. I learned that as a journalist for OIGA Magazine in Lima, Peru. The characteristic of the phoney combat cell was its non-strategic target-selection, which was designed to benefit the incumbent regime, & not the opposition. Strategic targets are not usually people, but things people need. Strategic targets are also revolutionary targets, so the recent hurricanes are much more revolutionary than Che Guevara in Bolivia or The Order in the USA, where one angry man, called The Jayhawker, nearly blacked out NW USA & SW Canada. He was caught just because he insisted blabbing on CB radio. "The Turner Diaries" author inverted the targets from strategic to non-strategic, that is, ZOG-serving targets, like the Murrah Building, which was needed to gain sympathy for the ZOG after the Waco Massacre. Cui bono? But the blightwing wants its 'heroes', even if they are dupes & victims of the ZOG. I just feel sorry for them. I did try to warn them in 1976, but I guess they never read my essay on "Your Rights in a Police State, with the preface on Target-Selection as a clue to phoney combat cells. This is an ancient game which finds new suckers all the time, as Sun Tzu, the ancient Chinese military strategist described. Truth remains true, whether we like it or not, even if the blightwing is displeased, poor babies! I enclose single-sided copies of Brushfires, as you requested. I receive most of my info from correspondents who select items from the jewsmedia & the Internet. Their latest info on biowarfare is a good up-date. I have corresponded with Dr. Cantwell, who claims that AIDS is man-made. I do suspect that our ZOG is preparing a plague for us under the guise of an "avian flu pandemic", so stay tuned! Speaking of health, I hope your vision is finally corrected. I had no such problems as you have been having. Good luck! I'll send Chad a copy of Brushfires, also.

Life under most circumstances is a quid pro quo proposition, as you seem to be discovering. As the American revolutionaries taught the Brits: "Don't Tread on Me!" Hamilton betrayed that 'revolution' twice, in short order. I sum it up thusly: we freed ourselves from King George III, but not from The Bank of England, which rules the kings ever since Cromwell. We fought for our freedom with many sacrifices, only to be under "King George (Bush) II". Such a deal!

3 current news items: Race riots in Paris & 'hispanic' protests over Bush #2's selection of an Italian candidate for Supreme Court justice. After boiling off the P.C. crap, it seems that the Paris riots are prompted (1) By the failure of the French to become Moslems or (2) By the Moslems' failure to become French! This signals the end of diversity & multi-culturalism, so we shall see what the French ZOG does next: bribe the Moslems at the expense of the French tax-payers? Stay tuned! Today's news also carried the report that our ZOG now wants to reduce 'entitlements' for the U.S. poor, after creating the welfare class. Maybe Bush, who said he wanted to be dictator, will do what Lenin & his fellow jews did in post-Tsarist Russia: first promise milk & honey for the masses in Marxist terms, & then deliver the lash & the Red Terror instead. Lenin (Vladimir Illych Ulyanov) soon announced that "Those who do not work shall not eat," & called his doctrine Marxism-Leninism, just as Bakunin predicted his tribe would do. Whites behave like ZOG-zombies, but the Blacks are aware of their interests--& a large proportion of them are Moslems, thanks be to ZOG, so will the ZOG now play the Blacks off against the hispano-mestizos, who are also welfare recipients? It does look like Civil War Two, as Chittum described it, right here in the Jewnited States of Hysteria.

All the best & ORION!
