

8 NOV 05. Mail D.R.! Thanks for your insightful letter of 2 NOV. In regard to their angst, jews are joining allegedly pro-White groups, & are passing themselves off, as usual, as "Whites", but they are not, according to their own sources, as reported in the accompanying RAND DAILY MAIL item of 15 May 1972. Soon, the jews in Rhodesia were referring to us, sneeringly, as "you White people." We must exclude the jew or we're through. The closest a jew can come to White Nationalists is via AZA, the Anti-Zionist Alliance, such as the apparently righteous jew, Makow. Being right does not make one White, & allies are not kin-folk, as we should know! The current jew inclusionists are Jared Taylor, American Renaissance, Occidental Quarterly & Paul Fromm. Doing it for the jews' money does not justify treason!

France is a microcosm of things to come, wherever the Zionists & their stooges pander to 'multi-culturalism', that is, alien invasion & colonization of formerly White countries. So far, the French ZOG's response to the wave of Afro-Moslem attacks has been one of judeo-liberal contortions which are pretty grotesque: "No, no, don't attack the fire. Put out the flames!" The liberal fantasy is that the wave of riots is due, solely, to a 'minority' of Afro-Moslem criminals & drug-dealers, including boys of elementary school age! There is also a nice bridge for sale in Brooklyn, real cheap! Mao Tse Tung accurately described the guerrilla, insurgent, "terrorist", &c. as "fish in the sea" (the people). If the sea turns hostile, the "fish" die. If Afro-Moslems would turn informers, no riots would occur thereafter, just as the IRA would have perished. But when there is mass-support &/or apathy, the insurgents can win, despite their small numbers. Consider a conventional military force: In World War II, as I was informed by my officer-instructors, every G.I. at the front needed at least 20 others, including civilians, to support & supply him. In the so-called American Revolution, the ratio was 10 or 15 in the rear to supply the soldier at the front. One French politician said it best: "France: love it or leave it." That was just a hint as to the solution which probably will not be chosen for lack of will on the part of the French. After being invaded & occupied by these hostile aliens, we shall see if the French are to be conquered & rendered extinct. Stay tuned! Mitler described France not so much as Europe in Africa, but as "Africa in Europe." As usual, he was right. The US Empire was based on the same sort of Freemasonic b.s. as the so-called French Republic, which also officially ignored the importance of biopolitics. The fall of the USSR empire heralded the eventual fall of the USA empire, for the same multi-cultural reasons.

It is hard to say what sort of agent Bush is: Chinese or Mexican, in addition to Zionist. Now the ZOG of the USA is sucking up to India, in regard to nuclear proliferation, as a military-industrial counter to China. A recent article in The Wall St. Journal announces ZOG schemes to rely on India for steel, thus 'phasing out' the U.S. steel industry, what remains of it. As with oil, there has been glut & scarcity within short periods of time, & now, there is an alleged glut of steel on the world market, but don't look for prices to go down, as occurs in the petroleum racket. Any excuse will serve to keep prices up, so long as the dumb Goyim believe it. They even believe Greenspan when he says "There's no inflation (except in the 'volatile' food & fuel sectors!)." Hey, Mr. Jew, how about the housing prices, too?

Other observers have seen what is also plain to us: that our political, economic & social decay have basic, organic, inherent causes, which no one wants to deal with. As you say, no propaganda cover up will work, nor will clever words explain away the problem. The Blacks, who seem much more alert than the White zombies of ZOG, are too late, in regard to the hispano-mestizo invasion & the Asian influence & numbers silently flowing into North America. Blacks had better make their move, very soon, or they can say "Adios" to their future on this continent. The Whites seem downright oblivious to the biopolitical storm about to engulf them, as long as it occurs gradually, in their nearsighted terms. Sure, Bush & his Republicans are expendable, but the Democrats have no solution to the problems of the ZOG's own creation. Would the jew, "Kerry" dump Israel? Why bother to ask? The USS Titanic remains on course to disaster, whoever occupies the bridge. As you say, it could be a gruesome twosome of Millary & Obama.

Right now, it looks like disintegration, rather than adaptation ahead.

"The Battle of Algiers" has come home to roost in France, so stay tuned!

All the best. DOWZ! & ORION!
