

11-11-05. Hail Ron! Many thanks for your letter of NOV 8th & "The Lowdown"! I know you must be busy, but I hope your coefficient of hecticity is low. In my experience, only jews can claim to be in two places at once & not get out of breath, but for us Goyim, it's not so easy! Of course, entire armies of Germans were said to be (1) On the Eastern Front, according to their written orders & (2) Joyfully rounding up jews behind the lines. But when jews & Nazis are concerned, "It's Magic". 250 jews can be put in boxcars designed for 40 soldiers & Nazis can burn millions of jews under water, apparently by commanding the waters to part, as in the Old Testament. In the U.S. Army, we were told that John Wayne could do all sorts of things which we ordinary recruits could not do, such as charge uphill with a 30 caliber, watercooled machinegun, firing from the hip, or pulling grenade pins with our teeth. That reminds me of a shortlived comic strip entitled "Ordinary Man". As soon as he sees a crime in progress, he darts into a phonebooth & uses his ordinary powers to dial the police...

Thanks for the NJ address! I'll send them an introductory mailing, & I shall also advise them, as I do everyone, that all my shortstories, except the one entitled "Night Express" are on www.FAEM.com, for downloading & publishing. No need to ask permission. What ever you see on that site may be copied, published, given away or sold. My work is my modest contribution to our cause. My two Odinist shortstories are "The Awakening" & "Return to Spring Island". The first one I wrote in 1976, fresh out of Africa, in icy Toronto. The second I wrote in wooded Louisville, KY, in 1992, after escaping The Zud's censorship or "Schriftverbot" imposed by his jewish mistress & dominatrix. Hoot mon!

I read a newspaper clipping from USA TODAY of OCT 17th 05 in regard to the "NSM" demo in Toledo, OH, which sparked a nigger riot against the police. I never heard of "George Minner", so I don't miss him, nor have I heard of "Finn MacCool". Obviously, I am unaware of such groups, as well as their writings & activities. There are no secrets like blighting secrets, for the blighting is more compartmentalized than The Manhattan Project & the secrecy is tighter. "No one must ever know about my rivals & competitors!" is the motto of the blighters. Does James Mason still have contact with the MSN? Aside from being crazy, he was a good writer. Maybe he & Covington could collaborate...

My last contact with J.B. Campbell was years ago, in regard to his book, "New American Man", re militias. He wrote that "race was not deemed important" in the militia movement. Correct: the first alleged militia members I encountered in Brownest Yakima were dark, sulen mestizos who were fond of saying, "Lock & load!" on any pretext. The lighter-skinned members were ATF agents who liked to hang out with these dusky wannabe warriors at a bar on 40th Avenue, which I never chose to visit, for obvious reasons. They took a dislike to me, because I was a racist & believed in eugenics, which they knew ruled them out. Local zoglings began calling me "Adolf", when I worked in the parkinglot next to their building. It's perfectly normal in the so-called intelligence community that counterparts become acquainted. Being a 'covert propagandist' is also an oxymoron, so I am not surprised that I would bump into local ZOG-finks who were blackmailed by ZOG's other local ZOG-finks to become ZOG-finks, as in The Randy Weaver Case. The former KGB used to do that all the time, & the FBI would likewise plant pot on someone they wished to recruit for their fink-work. "If you work for us, we won't mention this stuff." The fellow who finked on me was not only an ostensible White militia member, but also a bible-banger who thinks that jews are the chosen. At first, he hated the ZOG, but now that ZOG is pro-Israel, he loves the ZOG, as Winston Smith came to love Big Brother. My major advantage is that I have nothing to hide, so I have yet to be torpedoed. "Sail on, O ship of state," comes to mind.

As J.B. discovered, the militia movement is prone to the twin ZOG tactics of counterdissonance & phony combat cells, which I tried to warn against in 1976. As is well said: "In politics as in comedy, timing is everything." J.B. showed good judgement in regard to Katja, it seems. Obviously, he has had a rigorous schooling, to his credit &, I hope, to his profit. If you contact him, please convey my best regards.

All the best, as always & CRION!
