

11-11-05. Dear Paul: Many thanks for the great downloads! In regard to the deaths of the two JDL terrorists, I cannot help but recall FDR's statement that "in politics things don't just happen the way they do, they are MADE to happen the way they do!" Meir Kahane's removal from the kosher terrorist scene was strange, indeed, for I do not recall if anyone was convicted of his assassination. As I understand from the Jew York Times, an Egyptian was attending the JDL meeting at which Kahane was speaker, right in Jew York City. A shot was fired & Kahane appeared to be hit. A jew quack rushed to his aid, whereupon a big Khazar Butcher type appeared from an ambulance & gave Kahane such a violent wrench on his neck, by twisting Kahane's head, that the jew-doc remarked such treatment alone could have killed Kahane, whose body was swiftly loaded into the ambulance. The gyppo figured the meeting was over, so he went outside & was promptly shot by an armed jew postal inspector! The Egyptian was later charged with Kahane's murder, but, as I understand, he was not convicted. This same Gyppo was recycled as a defendent in the first Trade Tower bombing, which Victor Marchietti, formerly of the CIA, who published The Middle East Observer, wrote was a Mossad action, for the Mossad had total access to the Trade Towers via a front called Atlas Security. This is all from memory, so there may be discrepancies in my account. I turned Victor's newsletter over to the local FBI in regard to any ongoing investigation of the first Trade Tower bombing, but I've heard nothing more about it. I'm not surprised. I told them at the time that if they are told to drop the matter, they'd better do so, for the sake of their pay & pensions. The two or three zoggies in the FBI office gaped & one asked me who I was. I replied that I was a U.S. citizen who believed that he should pass any relevant information on to the authorities who might be interested. I also winked & said I was a "former Cold War asset." The one who'd spoken asked if I'd done any "wet work" & I assured him that I had not, for that was not in my purview. I walked out, leaving the zoggies agape & speechless. I didn't tell them that the last FBI agents I saw previously had escorted me to the Mexican border in 1969, after handing me my U.S. passport.

When I was in Toronto, a police colleague in a major U.S. city was intent upon advancing his career. In my correspondence I received a request from a fellow in California who wanted me to locate a German chemistry book on refining cocaine. In his letter, he wrote that he had a Nicaraguan wife. This was my first inkling of the pending Iran-Contra scandal, but I also suspected a ZOG trap, for ZOG likes to get dissenters involved in illegal activities. I therefore photocopied the letter & sent the original to my U.S. cop colleague. In my accompanying letter, I advised him to drop the matter if his superiors suggested it, for the CIA was the major U.S. drug-player. Apparently, he contacted the DEA & I received a phone-call from them, wanting to enlist me in a possible sting operation. I told the zoggie to arrest the head of the CIA, who may have been George Bush I at that time, since the operation had CIA written all over it. As I anticipated, I received no further word from the DEA, nor from my cop colleague.

Well, this wanders off the two-jew terrorist track, but when we know the real rules of the game, it is not so hard to imagine that the head hebes figured it was time to terminate two useful idiots who'd become liabilities. Jews must not be seen as players in the terror business, for that is now, propagandistically, the monopoly of Arabs &/or Moslems, even if they are unwitting agents of the Mossad. FEDZOGUSA may have intended pumping the two JDL thugs for further information, specifically in regard to the unsolved Odeh investigation, so in this case, the dead do not talk. I'm sure the CIA knows who did the hit on Odeh, & maybe which Mossadnik ordered it, but that will remain privy to the intelligence community for the time being. It takes real idiots to persist in activities after the hebes bump off your leader! How do you say, "Duh!" in Hebrew?

The local JDL leader in Toronto, Marvin Weinstein alias Meir Halevy, should mind his proverbial matzos & bagels, by cooling his penchant for 'merry pranks'. Whatever can happen to his namesake, Meir Kahane, can happen to him, at the hands of his fellow jews. I wonder why this officially listed terrorist group does not seem to communicate with their Mossad handlers to find out of some action is kosher with them. If I did not know that the JDL were a pack of kikes, I'd think they were a bunch of bumbling Goy blightwingers. Oy veh!

I would not be surprised if the USA goes the way of the USSR, since both have been under the same management. I wonder which will hit the bottom first, France or the USA. French Interior Minister Sarkozy is a jew, so I wonder what he'll do about the Afro-Moslem mess. Stay tuned! Again, many thanks for the great info. All the best & ORION!
