

18 NOV 05. Dear Anthony: It was great to receive your letter of NOV 9th up here in Brownst Yakima. Yes, there is so much to learn & so little time in which to do it. A professor told us on our first day in college that there was no 'magic' in so-called higher education. He said that a university was like a supermarket with all sorts of ideas & information stacked on the shelves. The professor or teacher could only show the student around, in order to suggest what items might prove most interesting & useful to him. BUT, no teacher & no College could do the learning for us. Only we could do that, so we are really all self-educated! I remember that first college lecture, & the prof. was certainly right! That's why people who've never set foot in a high school or college need^{not} be ashamed or feel inferior to those who could afford to obtain diplomas. In "The Wizard of Oz", the scarecrow wants a brain, but the Wizard gives him a diploma instead. He told the scarecrow that most people will THINK you have a brain if you show them a diploma, which is what brainless people do all the time. In our science courses, we often heard that "Bullshit Baffles Brains". That's what jewspeak is all about. Jewspeak means words which are "politically-correct", that is, "kosher". Our foremost duty to ourselves & others is to teach ourselves, so we know what's going on in the world, & we can do something about it. Truth makes no one free, unless he acts on it. Otherwise, we can believe lies or truth, with the same results when we do nothing. The poor Gentiles who have been shipped to Iraq were told lies to get them to go there. It is also said that a people are destroyed for lack of knowledge. It is generally recognized that World War I, Vietnam & now Iraq were "mistakes". Actually, they were crimes against the American people, perpetrated by our criminals in office. This gets us back to the individual: if you know that you have a government of crooks & anti-American aliens, would you obey their orders to go kill strangers in Iraq? Would you 'defend' the USA by leaving the borders open to alien invasion, while you go overseas to make more aliens mad at us? Is that patriotism? Not in my book. Men are told by jews that they are "not responsible" as men or as citizens, because of their childhood experiences & their environment. I agree with the founders of this country, that men are responsible for the decisions they make, just as we decided for the German "war criminals" after World War II. How can they be "responsible" for obeying orders if we are not? The decision to kill another person is one of personal responsibility at all times; likewise with the decision to kill thousands & millions. Responsibility means that one must accept the consequences of his decisions, good, bad or indifferent. The men in Iraq must finally decide if they will be men & not tools of Zionist imperialism. Soldiers, citizens & patriots are 3 different things. If our soldiers in Iraq were all 3 things, they would not be there in the first place. Many of our soldiers are not even U.S. citizens. We are fast becoming a modern version of The Roman Empire, which wound up being neither a republic, nor Roman. If we seek to rule foreigners & we allow them to live in our country, we will end up with no country of our own. That is the lesson of empires throughout history. The USA was never a nation, but always an empire, run for jewish & plutocratic (rich crooks) interests. Thus, our chickens are coming home to roost, & they will bury us in their crap, unless people & sheeple recognize our Zionist Occupation Government (ZOG) for what it is, & then resist it. Meanwhile, our jobs go out & the aliens come in to take the jobs remaining. I should not be unemployed, but I am White, over 60 & male, so I'm low man on the ZOG's "affirmative action" totem pole. I really should be making decisions in government, but I'm not a crook, so that leaves me out. My last job left for India, but I was old enough to collect Social Security, as long as that lasts. In any case, I'd be a fool to work hard to earn money that loses its value & ups my income taxes, so I enjoy my unplanned retirement, for now. Your real job, meaning hard work, will come if & when you leave the ZOG-gulag, so learn any skills you can, while you can.

Don't worry about spelling. English has that problem. That's why I keep two English dictionaries handy. Why two? Because one doesn't have some of the words I need to look up! Computer spell-checking programs don't do the job of a good proofreader, because they only check the spelling, not the meanings of words. Since I left university, back in 1969, they have become anti-White indoctrination centers, as well as arsenals of knowledge for use by non-Whites, in all formerly White countries. We must start our own learning centers to eliminate all the kosher crap students now must consume, just to get their diplomas which indicate how much they have been exposed to jewish brainwashing treatments. I went to a Red university, so I learned a lot about Reds & jews. That's why I continue to study International Relations. It's useful here in the Zionist (jew supremacist) empire of the USA!

All the best & ORION!
