

1 DEC 05. Dear Phil: Many thanks for your letter of NOV 29th & the outstanding enclosures! Re pirates: Yes, they are back in the Indian Ocean, the Malacca Straits, & the Caribbean, where yachting is definitely dangerous. Pirates, like bandits, have been romanticized, but they are not nice. A current pirate game is to board a yacht, rape & murder the crew & passengers, dump them for shark food & use the yacht to smuggle cocaine in sealed containers. The yacht is then sunk in coastal waters off the USA, where scuba divers can recover the cargo for inland delivery. A friend of mine had his small freighter stolen, yes! in the Caribbean. You'd think it would be easy to trace a stolen freighter, but it took him over a year to locate it, & I'm not sure if the owner was able to recover it.

I figure the snow would provide you with some kind of employment. Just don't get frost-bite! Yakima looks like a scene out of Dr. Zhivago, with frozen pavements & wind-driven sleet. Time to break out my Russian winter clothing, which actually comes from Soviet Cuckistan alias Canada alias China-duh.

I receive nothing from Hoffman, so thanks for the info offer.

The Detroit News carries good articles, unlike so many other newspapers. I appreciate receiving them. Some of my 'survivalist' friends apparently have not inspected their intended Shangri Las in "the hills" or wherever. Apparently, the hills are filled with the sound of poachers & squatters, as well as Injuns, so they'll be joining quite a crowd, & may not find hungry White men too popular. I'll pass on that information, with thanks!

The Whites, who are now "ethno-masochists", as one correspondent noted, fawn all over their Black 'heroes' & legends, but the mestizos don't seem to be impressed. I understand that Martin Luther King's birthday is not celebrated in L.A., outside of White & nigger areas. The majority mestizos celebrate Cesar Chavez's birthday or some such anniversary including his name. There aren't enough Whites to go around in California (Mexifornia) so the forced busing program ended decades ago, unceremoniously.

The Catholic Church is certainly in the hot seat these days, with pederast priests, homo clergy & a pro-Nazi Pope Pius XII. Maybe the hebes intend to blackmail the Church, as they succeeded in doing to the Swiss bankers. Stay tuned!

Thanks for the article about U.S. military/mercenary activities in Colombia. Other news sources say that FEDZOGUSA is setting up a huge base in Paraguay, much to the dismay of Brazil, Venezuela & Argentina. The French refer to the USA as "firemen who start fires." See if you can find a great book entitled "G.I. Guinea Pigs" by Messrs. Uhl & Ensign. I'm just starting it. It covers the period of atomic radiation & Agent Orange. "The Brucellosis Triangle" covers recent biowarfare contamination during the first Gulf War in Iraq.

Nolan Finley's column on the 'oops' babies is very good, as you wrote. In the socialist Scandinavian countries of the 1930s, people who could not earn their livings were prevented from reproducing, while being fed, clothed & housed at public expense. Whatever is sane is the opposite of what we do, so we are paying the worst members of society to multiply at public expense. Before we go broke, I guess prison construction will be our big growth industry. It was said of the USSR that one half were paid to guard the other half. That may create jobs, but who will pay for it? That's one reason the USSR went broke, as stingy as the jews were with their gulag inmates. Many thanks for that great article!

Isn't it funny that the Chinese immigrant invasion gets so little publicity? Their numbers are currently smaller than the multitudes of mestizos, but they are no less dangerous. China is a great power, unlike poverty-ridden Mexico, so small numbers of Chinese can be as effective as small numbers of highly-trained commandos. When Chinese do crime, they seem to do it big-time, judging from reports in the jewsmedia. I was never able to confirm the Internet source for the alleged Chinese war plan against the Jewnighted States. It consisted of (1) Get U.S. military forces over-extended, here, there & everywhere. (2) Get them to deploy at the extreme ends of their logistic capabilities. (3) Subject them to exhaustion & attrition. (4) When convenient, make the USA "an offer it can't refuse." Taiwan would be a test of U.S. resolve & capabilities, but various U.S. states would do fine! Bush behaves like a Chinese agent, if this scenario is true. If the report is a "forgery", like The Protocols of Zion, then it is a very accurate "forgery", for all of it is coming true! Israel is quite cozy with China, so we may have been set up for a big fall by our jewish 'friends'. DOWZ! & ORION!

Edie
