

4 DEC 05. Dear Wayne: Many thanks for your letter of NOV 30<sup>th</sup> & the great enclosures! I just received further confirmation that Jared Taylor, who may be mestizo, is married to a jewess, so he is one who includes jews as "Whites", just as Paul Fromm now does, according to his "Free Speech Monitor" of September 2005. This is a life or death matter, for I have seen how jews claim to be "White", when it suits them, & then 'change their skins', at firsthand when I was in Africa. The enclosed reference to jew genetics is from jew sources. Taylor seems to be well-supplied with sheenie shekels, perhaps due to his "jews are White" profanity, & Paul may think he is being 'clever' with this ploy, but 'cleverness' is little obstacle when the ZOG can put one out of business any time it wishes. Anyway, that pretty/knocks out Mock as a serious ~~pro~~-White resource. Too bad! well

Jew-infiltration becomes jew-domination, as your experience with the post-Paul Hellyer "Canadian Action Party" jewess proves. For a one-issue party to avoid its issue is absurd.

I know not one single Ostensible White here to whom I could hand a Cosmotheist item with any confidence that he or she would even read it, but I'll be prepared for such a wondrous event, by keeping a copy handy. Many thanks! The Internet is obviously the way to sort the wheat from the chaff. That's why the zoggies like to sabotage it.

Arch Edwards is terminally insane, so one need not take him seriously. Soon, he may announce that he is the "Messiah" of all gods & goddesses one can list, & he will likely tailor his concocted cult according to the taste of the biggest sucker, er, donor to "His Celestial Majesty." Religion on demand might become a new consumer-craze, especially if it pays. You may recall the Renaissance patrons who had themselves & their family members depicted as members of "the holy family" in paintings. Now, Edwards could make you the god of your choice. Nietzsche was wise when he remarked that "Man has <sup>his</sup> stomach to remind him that he is not a god."

As I wrote years ago in "What We Can Do", most so-called "parties" of the blightwing are really publishers, to one degree or another. They do not run candidates, but seek subscribers. That is why I tried to promote The White Power Movement in the 1970s, for a 'movement' consists of more than one member, I'd hope, & it can do many other things, in addition to fielding political candidates, if it can ever afford to do so. Isolation was our chief obstacle in the pre-computer age, but, as you say, there is real need for face-to-face contact: spread our net widely, but sort the catch carefully. The WPM was definitely in the wrong place for meeting real people & gaining new supporters, for Reedy, WEST VIRGINIA, was intended by Dietz to be a post-apocalyptic hideout, rather than a center for propaganda, recruitment & activism. As one critic said, "We were running some kind of 'remote-control operation' by mail." Another said "That the WPM was spread mighty thin on the ground." That was actually a compliment, in view of our total of 3 activists, myself included! One thing we did reap was a harvest of defamation from our 'competitors' in the blightwing. Who were we to come up with new ideas? Our very existence was highly-offensive to the blighters, some of whom accused us of being "filthy foreigners" & others who accused us of being "too American", in America, of all places!

As things are turning out under our present regime of King ZOG & Queen Apathy, The White Remnant may be wise in <sup>letting</sup> events take their disastrous course, for it was said in more intelligent times that "the prospect of hanging concentrates a man's mind wondrously," but nowadays, the sheeple are too scatterbrained to realize that there is a noose around their collective neck, & the trap is about to spring open beneath their foolish feet. In smarter times, words of warning were often heeded. Now, drivers don't even heed the stop signs. When our rulers think that words of warning may be heeded, such words are banned. Freedom of speech is inversely proportional to its perceived importance in the minds of the receivers. That's why we have enjoyed so much freedom of speech in the USA, because it has so little importance in the public's so-called minds. The Orwellian-named "Patriot Act" shows signs of deeming freedom of expression "dangerous", so wordsmiths are gaining recognition, at long last, which may send them to the ZOG-gulag. Now, isn't that contrary? Objective conditions for revolution are said (by "Lenin") to exist when great events affect great numbers greatly, at the same time. As things now appear, the sheeple of today would likely remain on the Titanic until they were floated away by the cold water! Verbal warnings go unheeded, especially if they are correct! Don't let the bastards grind you down. Keep up the good work. DOWZ! & ORION!

P.S.: I'll circulate your great letter on Cosmotheism amongst my correspondents. It's a good effort!
