

10 DEC 05. Dear Günter! Many thanks for your letter of DEC 5th, the outstanding enclosures, the \$20 & the stamp. I found a few which you can use in your collection, ZOG willing, as we say in the Jew Ass Oy Veh. One correspondent asked me how we could teach the truth to our fellow Whites. Well, how many Whites knew the truth about the jews & their rackets in the USA before World War II? There were many more than there are today, but they ignored the truth, just like the swine who are not interested in pearls. Knowing the truth is not sufficient. To be free of jew domination, we must believe the truth & behave accordingly. Those who know the truth & do nothing are no better than those who know nothing. This explains U.S. behavior after the supposed lessons of World War I, for Americans are suckers who just lap up lies, & have no room for the truth. As Dr. Oliver remarked: "Most people think with their glands, not with their brains." A nation is said to think with its blood, for it knows its interests without the need for words. The USA & Canada have never been a nation, so one must use the same sort of thinking as one would in a Persian bazaar, in which a buyer must beware. Americans are criticised as always wanting to know "What's in it for me?" Yet, when selfishness is most required, they behave like lemmings who rush off a cliff, at the Pavlovian stimulus of the jewsmedia. There is "enlightened self-interest", & there is also selfish stupidity. Maybe that's why there are so few thoughtful lemmings.

Claude's output is truly outstanding. The Moslems say that their god is great, but we revisionists can loudly proclaim "Claude is great!" In Arabic that might be "Claudo akbar!" I copy his letters with his excellent observations & send them to my network of correspondents, as you know.

My views on the Irish are only superficial, but it is said that "first impressions" are often accurate. The Irish are accomplished as fighters, poets, singers & drinkers. I sometimes suspect that they enjoy fighting for its own sake. If they can't fight overseas, then they'll fight at home. If they can't fight the British, they are happy to fight among themselves. Since I'm of Scottish-Norwegian ancestry on both sides of my family, I can appreciate the joyful nature of the Irish, with their highs & lows. Scots seem fond of being 'dour', even when drunk, although I've heard rumors that some have been known to laugh after sufficient whisky, but I do not know that from firsthand experience. I understand that race-mixing & non-White imperialism are just as frequent in Scotland as in Ireland, where "Scottish Nationalists" are just as prone to include Blacks, as the IRA¹⁵ for Ireland. I don't know how much whisky it takes for a "nationalist" to believe that the inclusion of Blacks & Yellows strikes a blow for Scotland or Ireland, for if they were to sober up, they'd discover that non-White invaders constitute a blow AGAINST their respective nations. But drunk or sober, I see fatal flaws in their "nationalism", if alien invasions & race-mixing can be included in one's definition of "nationalism". By putting religion first, nationalists have betrayed their cause, because religions such as Christianity believe in 'converts' of other races & cultures. Christian victories which consist in numbers & converts are not nationalist victories, which consist of exclusion & self-determination within their living space. Christianity is international, multi-racial & imperialistic, that is, expansionistic over all peoples, whereas nationalism is not. Christianity is economically communistic in pure Marxist terms, in which the 'haves' are supposed to give to the 'have-nots', ad infinitum, based on need alone. Such a creed destroys any nation which adopts it, for Christianity is the enemy of all nations, as are the jews. That's why "Judeo-Christianity" is accurate to describe what afflicts The White World Remnant.

As you noted, Eric Margolis has become erratic & spotty, as befits his Babel-background. One column praises Sharon, while another condemns Bush as being "wrapped around Sharon's finger." I know he expresses others' viewpoints, as well as his own, but I wonder if Margolis has a consistent viewpoint of his own. If not, he may discover that he is 'misquoting' himself, somewhere out in journalistic La La Land. I hope not! His column of 13 NOV 05 re "Bush Faces Crisis" reveals a potential split in the U.S. ZOG, just as Toronto schools reflect a split between Blacks & Feminists, which CANZOG strives to straddle, without pleasing either group. Do Blacks have the right to inflict their attentions on White females? Meanwhile, Blacks behave in Canada just as they do in their land of slavery, the USA, where Black misbehavior is blamed on "slavery". But Canadian Blacks were never slaves in Canada, so why do they behave like U.S. Blacks? Maybe because they're Black? ZOG forbid! If the victim is White & the criminals are Black, it is deemed "racism", & if the victims are also Black, they blame "systemic racism", because Blacks are "always innocent victims of racism", whatever they do! Only a racist would believe the jewsmedia on that issue, a jew or Black racist, that is. All the best to you & Claude & ORION!

Eric
