

23 DEC 05. Dear Michael: Many thanks for your letter updating the zoggies' new hobby of theft & specious grounds for censorship, in defiance of their own rules. We are lucky that we have no lack of time in which to deal with such childish behavior on their part. As you know, my reports on your zoggies' behavior are broadcast worldwide on the Internet, with additional copies to publications in North America, Australia, New Zealand, Singapore & Europe, as well as South Africa. In other words, your treatment in your ZOG-gulag does not reflect well upon your prison authorities. Let us say that Bush or Congo Rice lecture Chinese on THEIR prison policies; well, they might have a few rebuttals to offer, based on your experiences. That is not as far-fetched as your zoggies may think! My advice to them is to behave as decent Americans are supposed to behave in regard to our Bill of Rights.

Your inventory of my latest mailing to you is correct. I am glad you finally received the second mailing of the DTO4 & Memorandum, since your originals were stolen. I'll send you the items you requested, from now on, but I can't locate my master of "Brushfires". I think I mailed it out. Your zoggies do not understand the difference between a photo & a photocopy, so I shall put your name & DOC # thereon, as previously. Wayne should be very interested in providing his best material on Cosmotheism. I'll see what I have in stock for you, & I'll mention your interest to him. I have sometimes wondered how much jewish behavior was practiced by adherents of Israel Identity, Christian Identity, British Israel, &c. I object to such things as ritual murder, kosher slaughter (ritual murder of animals), circumcision, especially without anesthesia, usury, infiltration of a host people, as in Old Testament Egypt, & the Freemasonic/Mormon inclusion of wagon-burners as "Whites" or fellow "Israelites". I also reject the jewish aristocracy of England as being Aryans, since they are not, but some Christian Identity believers apparently do claim that the English aristocracy is "Israelite", instead of heavily jewish in admixture. A rational basis for religion should include an appeal to our feelings of awe in regard to the wonders of the universe, our sense of beauty & inspiration, rather than fear of the unknown &/or a vicious god who seeks to ensnare his own creatures with traps & temptations, as depicted in The Old Testament. In other words, Aryans need an Aryan god, rather than a Semitic demon; a teacher, rather than a sadistic trickster. I wrote many years ago that gods & their believers go together. Vindictive, cruel gods attract or are attracted to cruel & vindictive people, as like attracts like. Even if no such gods exist, mean people will want mean gods, whom they will create from their own imaginations.

I wouldn't worry too much about associating Cosmotheism with Pierce, for Wayne had compiled his own rational religion which he called Dynasophy long before he heard about Cosmotheism, so how much is Wayne & how much is Pierce, I am not sure. That's why I suggested Wayne call his version Dynatheism. I consider an idea on its own merits, rather than in association with a person. If a car belonged to Pierce, my decision to purchase it would rely on the condition of the car, rather than its previous owner. From the viewpoint of a White revolutionary, "The Turner Diaries" were wrong in terms of target-selection, not because Pierce wrote them, but Cosmotheism appears to be correct in terms of White Survival, from what I've read of it. When I worked just down the road from Pierce, after he moved to West Virginia, a young couple who purported to be N.A. members visited me. They could explain nothing whatsoever about Cosmotheism, & they led me to believe it was a tax-dodge posing as a religion. Pierce shunned all communication with Liberty Bell & White Power Report, when I was their editor in Reedy, WV. Maybe he thought we were upstarts & worse: competitors. I spoke to a voice on the phone who claimed to be Pierce, although I'm not certain that it was actually Pierce. The voice sounded scared & nervous, although it was merely a conversation about a book deal. Yes, we also sold books, as did the N.A. If it really was Pierce on the phone, he behaved as if I were selling explosives instead of books! This is why it's called the blightwing, a well-earned title.

As the German Frontschau films would conclude: "The Struggle Continues!" All the best.
DCWZ! & ORION!

Eric
