

6 JAN 06. Dear Chad: Happy New Year! I hope you also had a Good Yule. A gulag-zoggie in CA censored a photocopied picture of a re-enactment of the 1914 Christmas Truce on The Western Front, which showed actors dressed in World War I uniforms, with weapons, making "gang gestures". The picture from the movie poster showed French & German soldiers standing beside their officers, two of whom are shaking hands. This would be deemed as "Security Threat Group Propaganda" in your ZOG-gulag, if the zoggies wished. I agree that World War I was a very serious outbreak of gang violence! I also agree that the U.S. Armed Forces are a real Security Threat Group, under gang leadership. Former U.S. Marine Corps General Smedley Butler, who earned 2 U.S. Congressional Medals of Honor, also declared that "War is a Racket!" If President Bush were brought to justice, I guess he'd spend most of his time in the hole as a notorious STG leader! Your gulag's 'selectivity' in regard to labelling CERTAIN inmates as STG members sounds pretty arbitrary to me. Conversations between anyone may be deemed "conspiracy". Two people who plan a surprise birthday party for someone are indeed 'conspiring', but there is no evil purpose behind their secrecy. However, our ZOG may interpret any conversation as 'conspiracy with evil intent', for the ZOG claims it can read people's minds, as well as their mail. This is evident in the current case of U.S. Citizen Padilla, who has been accused of things, but so far not charged by ZOG. He was first punished by some 3 years of detention in military jurisdiction. As far as I know, he has done nothing overtly criminal, nor illegal. Military training is not illegal, to my knowledge, nor is discussing various weapons, such as dirty bombs. Writers do it all the time. I can discuss how one may catch a cold, but this does not mean that I am advocating colds, nor that I intend to catch one myself! But the ZOG may choose to accuse me of involvement in "germ warfare", so I could be abducted, confined & tortured by ZOG. Anyone who heard me describe catching a cold could be abducted, confined & tortured by ZOG as a "material witness"! It is R.I.P. Bill of Rights in this 'democracy' of ours, thanks be to ZOG! The U.S. sheeple seem totally unconscious of the fact that they may be abducted by U.S. authorities & vanish without a trace, with no prospect of any charge, trial or proof of guilt! ZOG's say-so is enough! This nullification of The U.S. Constitution is not new. It happened under Lincoln, under whom anyone accused of being a Confederate "sympathiser" could be thrown into concentration camp stockades without trial, & held indefinitely.

In regard to Frontline, since I do not know anyone connected with the group, I will not join. I may agree with their publications, but a good publication does not mean a good organization, as I have learned through hard experience. I will correspond with anyone, as long as they have something to tell me. If not, I don't.

"Mein Kampf" is certainly a worthwhile history book, for that is what it is, written by a real participant in the history he described. I am surprised that the ZOG would restrict it, any more than they would restrict Napoleon's autobiography, which I've also read. In it, Napoleon wrote of "gangs of heavily-armed jews on the roads to Paris". This was just before the outbreak of the so-called French Revolution. A correspondent of mine in France says he cannot find any statement in his copy which mentions the jews. I said I read & re-read that statement in the copy I read, so the passage must have been removed by a jew editor. This goes on all the time in our libraries & in our publications. George Orwell described the rewriting of history in his little book, "1984". See if you can find "Hitler's Secret Book", which was published after the war by the Allies! Although Hitler wrote it in 1928, he never published it, for it reveals his unwavering intention of attacking the USSR, instead of Britain, just as he did in 1941! When Hitler was elected Chancellor of Germany in 1933, he did not want the jew bolsheviks in Moscow to know what he had planned. Hitler knew that World War I was a trade war, for the British objected to German competition. My colleague, Benjamin Freedman, protege of Hans Morgenthau Sr., knew that Hitler was right & so did British General J.F.C. Fuller. Hitler wanted to avoid war with Britain by seizing farmland from the USSR. That's what Rudolf Hess' message was to Britain, but the Zionist stooge, Churchill, did not want anyone to know of Hitler's offer of peace, so Hess spent the rest of his life in Allied prisons, & his file is locked up in British archives, for another forty years! When it seemed that the USSR would release Hess from Spandau Prison, on their watch, the Brits sent in a hit-team & murdered Hess, so he wouldn't talk. According to the Brits, Hess beat himself up very badly, then strangled himself with an electric cord, which was outstanding for a man in his 80s who could barely raise his arms to chest height! Beware of kosher versions of "Mein Kampf" or anything else, in which the text has been changed for propaganda purposes. Hitler successfully sued the two forgers of a jew

2) version of "Mein Kampf" in California, Louis Nizer & Quentin Reynolds, as I recall, shortly before the U.S.A. & Germany went to war in 1941. The jews had to withdraw all the copies of the phony "Mein Kampf", which they'd published in Los Angeles! I was just a kid at the time, so I was too young to work for Dr. Goebbels, although local Yakimorons accuse me of lying about my age. I also knew FDR's son-in-law, Col. Curtis B. Dall, with whom I wrote a book: "Israel's \$5 Trillion Secret." I gave Dall all the credit, for I was too notorious. My name as co-author is a bit like having Heinrich Himmler's name on a book. Ha!

I'm glad you were able to read Chittum's "Civil War Two", which is indeed scary, mainly because I can't find anything in it with which I disagree. I cannot say, "Naw, that could not happen!" Everything is happening, just the way he describes what is likely to happen. The new card out of the pack, in my opinion, is China, & I'd like Chittum's comments on its growing power & influence in the Western Hemisphere & in the U.S.A. in particular. According to Canada's last census, Mandarin Chinese is now their second most spoken language! It is no longer French. That's why Canucks now call their country "China-duh". We sure live in "interesting times", as the old Chinese curse goes: "May you live in interesting times!"

It sure is good to read that you can now obtain books which you want to read. Your library service is better than many public libraries, where such titles are censored. See if you can access The Protocols of the Learned Elders of Zion, which the jews claim to be a "forgery". Who "forged" it, & what is it a forgery of? The jews' blather is not an argument. If no author's name appears on a book, is the book a "forgery"? I use two books which have no author listed: the telephone directory & the dictionary. A "forgery" would supposedly be untrue, but if I look up someone's number, he or she usually answers the phone. If I read a passage in The Protocols, I find that it applies to events of today, just as it applied to events in Russia, just before the jew-bolshevik revolution of 1917. The references to germ warfare & financial sabotage are relevant to the America of today, along with the jews' weapons of mass-distraction derived from their control of our money & our media of information, education & entertainment. Henry Ford paid plenty to investigate the truth behind The Protocols of Zion, which resulted in his publication of "The International Jew". A reporter asked Ford if the Protocols were true, & Ford replied: "They fit!" I introduced study groups when I was in Canada, & our group would study Henry Ford's set of books which illustrated how The Protocols were being practiced in the USA of the 1920s & 1930s. Education allows each individual to become a political soldier who can act with wisdom on his own, if need be. Without education, "leaderless resistance" is nonsense. I am reminded of a driver who took his car to a garage, because it just didn't run right. The mechanic had him start the engine, which sputtered & back-fired, as it had been doing. "O.K., shut it off!" said the mechanic. He took a hammer & tapped under the hood. "Now try it!" he said. The driver started it up & the engine ran like a top. The mechanic said, "That'll be \$50." The driver protested: "But all you did was a couple of taps with your hammer!" The mechanic said, "I don't charge for the labor, but for knowing WHERE to tap!" Several correspondents have been indoctrinated to believe that some actions were great deeds for "our cause", & their doers were "Aryan heroes". I ask whom their actions served, the old question, "cui bono?" If we ask who benefitted from the deed in question, the Whites or the ZOG? we can understand the important distinction between "good intentions" & bad results. If ZOG wins, whose side were the heroes on? the side they may have THOUGHT they were on, or the side of the ZOG? See if you can borrow both of Victor Ostrovsky's books on the Mossad or Israeli secret service: "By Way of Deception" & "The Other Side of Deception". One important item he mentions is the Mossad's recruitment of Arab agents, that is, patsies, who don't know who they are really working for. This is an old spook or spy tactic. One example I recall is the recruitment of a West German government official who LOVED anything "British". As 'luck' would have it, he met a very visible "Brit" in a bar which he frequented, perhaps because it resembled a British pub. The "Brit" looked like a "Pukkah Sahib" (as we used to say in the British colonial service), complete with handlebar moustache & tweed jacket with leather elbow patches. The German was flattered that the "Brit" took interest in him & in his work. One evening The "Brit" hinted that he really worked for British Intelligence, & the German admitted that he, also, worked in government, but not in so exalted a position. The "Brit" suggested that anything he deemed important could be passed from the German to him, since it would "wind up in the same file" eventually, so why not speed up the information-sharing process? The gullible German thought he was in heaven, & he passed on anything of importance to the "Brit", until he was arrested by the Bundeskriminalamt, the West German BKA, equivalent to their FBI. The German had been passing secrets to the East German Stasi, under my old buddy, Markus Wolf, & not to Britain

3) at all! The jew head of Stasi, who kicked me out of East Berlin back in 1969, now works for his fellow tribesman, Chertoff, along with the jew who headed the KGB, Primakov, in U.S. "Homeland Security", as I understand from the Internet, so it's one cozy kosher gang of commissars. Talk about a Security Threat Group! Oy veh! Conclusion: in the spook business, one never knows whom one works for, so do it for the money, not for the love! The Arab frontmen of 9-11 were typical Mossad recruits, & they were closely supervised, as I gathered, by Mossadniks, until they boarded their aircraft. Israel has wanted the USA to attack Moslems in general & Arabs in particular, since Zionist Occupied Palestine was established in 1948. In the 1950s, the hebes tried to bomb U.S. Information Agency libraries in The Middle East, but some of the Mossadniks got caught attempting to do so in Egypt. Had the jews' plan succeeded, the USA could have been drawn into a Middle East War back then, but when we discovered the kikes were the terrorists, it became a 'non-happening'. The only result was the resignation of the Israeli Defence Minister, Lavon, whose name was attached to the jews' bomb-plot, now known as "The Lavon Affair." In their 1967 war against Arab countries in their area, the Israelis planned to sink the USS Liberty & blame it on Egypt. Using U.S.^{made} ships, planes, rockets & ammo, the jews bombarded the Liberty in their ferocious attempt to kill the U.S. sailors & sink their ship, but they failed. As usual, FEDZOGUSA did their anti-American coverup of the Liberty Affair, & swore the surviving U.S. Navy personnel to secrecy! The jews did not succeed in getting the USA to attack Moslems & Arabs until 9-11! Again, we must ask "cui bono?" Certainly, it was neither Moslems nor Arabs who benefitted from 9-11, but Benjamin Netanyahu blurted that 9-11 was "very good for Israel!" Need I say more? Netanyahu may become Ariel Sharon's replacement as Israel's commander in chief. Stay tuned!

Historian David Irving, with whom I have collaborated in Toronto, China-duh, provided a revealing statement from Chancellor Bruning, Hitler's predecessor, in which Bruning says that the same jew-banksters who financed him also financed Churchill, Roosevelt & Stalin, & now they finance Hitler! One of these jew banksters was Hans Morgenthau Sr., father of FDR's genocidal jew buddy, Hans Morgenthau Jr. who thought up the Morgenthau Plan to exterminate the defeated Germans after World War II. Three genocidal jews wrote books on this topic: "Germany Must Perish!" by Theodore Kaufmann, "What to do with Germany?" by Louis Nizer, & "Germany is our Problem!" by Hans Morgenthau Jr. Each book advocated the genocide, that is, extermination, of the entire German population. This plan was begun until the Cold War, which was an Orwellian hoax. In The Cold War, the Soviet regime made war on its people & the USA made war on its people. Such a deal! Why did the jews finance Hitler? A former Soviet GRU officer (military intelligence) who writes under the pen name, Suvorov, wrote "The Icebreaker", which revealed jew-bankster plans for Stalin alias Josip Jugashvili to accomplish what the jew, Trotsky alias Bronstein, had failed to do in the 1920s: invade & conquer all of Europe! As people of the time had observed: World War II was planned at the Versailles Conference which followed World War I. One diplomat said that "powder kegs were being set up all over Europe" at The Versailles Conference, in preparation for another war, another bankster war. Hitler was included in the jew-bankster-bolsheviks' plans, & Hitler knew it! Hitler was SUPPOSED to conquer Western Europe, including Poland & France. I have read British Foreign Office documents which show that Britain was prepared to let the USSR invade & keep Poland, during & after the war, which is exactly what happened in 1945. But Hitler broke the banksters' rules: instead of proceeding to attack Britain by invasion, Hitler attacked the USSR barely 2 weeks before the Soviets' planned invasion of Europe. That's why Hitler is so demonized by all the jew-bankster propaganda of the present, because he saved western Europe from Stalin. The lesson for us is that Hitler is not around to save Europe from herself! Savitri Devi wrote in her great book, "The Lightning & the Sun," that Hitler was the savior whom the world rejected & this was no exaggeration. In his Secret Book, Hitler warned Whites that they should never export their technology to China, for the Chinese' cheap labor would put Aryans out of business. This is exactly what we do now, thanks be to ZOG! Hitler was right, & now we must bear the consequences of doing always the opposite of that which he advised. Hitler even condemned tobacco-smoking as a health-hazard, & Nazi researchers linked smoking to lung cancer! Post-Hitler Germans are proud that they smoke like chimneys, to show how "anti-Nazi" they are! As you can see, there's lots to learn.

All the best & ORION!

Eric
