

31 JAN 06. Dear Michael: It was great to receive your letter of 25 JAN 06 with the enclosed copy of your missing mail appeal in Spanish & English. So the tax-payers are funding bilingual state forms. I received a copy of my federal tax form instructions entirely in Spanish. It therefore appears that U.S. citizens & legal U.S. residents are not required to speak English. Mexicans declare that Spanish is "the national language," so they expect & require everyone to speak & read Spanish. Just imagine a Gringo entering Mexico illegally, with his pregnant Gringess. After hatching out as many as her womb will bear, they then apply for welfare based on the number of brats, while availing themselves of medical care & other tax supported services, while they work off the books. Having lived in Mexico, myself, I would say their feet wouldn't touch ground before they received a very warm welcome from Mexican authorities & were lucky to make it back across the border into former Gringo Land. I am not distressed by the increasingly obvious signs that the USA was never a nation, but a multinational empire ruled, as always, by Zionist plutocrats. We have behaved like Goyim or dogs who think that their kennels 'belong' to them. So far, that illusion has served our fatcat felon masters quite well, but what happens when it becomes obvious that we are, in fact, well-fed slaves, rather than allegedly sovereign citizens. Sovereignty only comes from economic independence, as the ancient Spartans knew, & as we do not. Why state the obvious? Because the sheeple do not see it. That's why the majority of Americans are Notsees! When our ZOG no longer needs us as consumers, we shall be 'phased out', maybe sooner than later. We are obviously surplus to our rulers' requirements, but that remains up to us to decide if we are going to behave as wornout machines bound for the scrapheap, or if we are men. We don't have much time to decide that old question: "To be or not to be." But Notsees are unaware that no decision is also a decision, one which they will regret, if they have even that degree of intelligence & perception, which I doubt. They are likely to behave as a herd of cattle being stung by swarms of killer (nigger) bees which a pro-race-mixing Jesuit brought into Brazil. Jesuits & Freemasons are great promoters of adultery. They think they can create 'new races', like Thomas Jefferson. In other words, the Goyim (cattle) will just react to the immediate pains of their folly, with no idea that they brought it on themselves. Most of us live a desperate hand-to-mouth existence, so it is understandable that we are too busy striving to survive from one meal to the next to be concerned with the causes of our dire situation, but those of us who do not live on such a basis, as I have, owe it to themselves to wake up, look around & start dealing with reality. I ask young bank clerks to give me the one word which means "One ring to rule them all, & in the darkness bind them." After they strain their brains a bit, they ask me for the word. I say, "Credit!" They've all seen the movie "The Lord of the Ring", but that one word makes it click into reality. The tactic is called "hide in plain sight," as in the case of Poe's Purloined Letter. This is cabalistic black magic, as in NOVUS ORDO SECLORUM.

This refers to your zoggies' apparent Voodoo/Santeria taboo concerning that OCO date stamp acknowledging receipt of the now notorious page 6 of your documents. Mine has the stamp on both sides of the page, including the White Voice reprint of Black Nationalist activities in Buffalo, NY. This page I enclose herewith in copy form only, for I have the original which you sent me. Let's see what the zoggies do with it this time! No, I would not have sent you a copy without the datestamp, since my copies were made from the original. The photocopier does not white out date stamps! I shall retain your copy of the Level II Grievance form, until you advise differently. This sending back & forth is 'double-jeopardy' with the zoggies, & it should be avoided. I am happy to send back photocopies, but not originals, which may disappear permanently. "Brushfires 2" did so. I wrote to J.W.G. for a replacement copy, but I have not received it yet.

I shall speak with my postmaster, whom I know personally, for this constitutes tampering with the U.S. Mails by zoggies unknown, but their names are known to the Dept. Of Corrections. I'll let you know what he says. Any documentation he needs I shall provide. I shall write the gentlemen you named regarding your grievance, now that I have their names & postal address. Many thanks! I shall also make copies of the relevant documents you mentioned, & I hope they receive them without the difficulties which you have undergone.

This jew world ordure seems to be messing up the telephone directories. I have the phone book for this year for the Tri-Cities & Yakima, but your cataract outfit does not appear. But it exists! Here's how I found it: I retained a brochure from the Pacific Cataract & Laser Institute which had an 800 number for Kennewick: 800-888-9904. I was told by the nice woman who answered all we needed to know. She said the name & address of the people you went

2) to: RETINA LASER EYE CENTER
317 North Delaware, Suite 1
Kennewick, WA 99336

Their telephone number is 509-736-5550

She couldn't locate you by name, without a middle name & date of birth, but I mentioned you were a prisoner, who needed corrective

procedures urgently, & that your ZOG-gulag's denial of service by delay constitutes cruel & unusual punishment, as would befit a gulag of the Soviet Jewnion. Inflicting blindness is certainly deemed cruel & unusual punishment. Will the zoggies start chopping off hands next? Stay tuned! I find it strange that a telephone directory would omit listing such major eye clinics, but as I understand, one must pay to have their name listed in a business directory. I have no personal directory for Kennewick, so they may be in that directory, but not in the Yellow Pages or the present equivalent thereof. If I hadn't retained the brochure, we'd have a lot of enquiring to do! She knew Dr. Sung right off when I mentioned his name or hers, as the case may be.

Wow! Congratulations on your new residence. I don't have 10' ceilings, nor is my place heated, but I have a stove, fridge, toilet & shower. I can also look out & appreciate all the taco wagons which roll by with their boomboxes emitting the equivalent of elephant farts, which make the windows rattle, as a form of sonic warfare. I understand that a "noise bomb" has been invented & tested back in the 1950s. It is a low-frequency whistle powered by compressed air, which emits a sound below the human threshold of hearing, which may have a timing device to produce arrhythmic bursts of high-decibel, low-frequency sound. According to the research paper I read, humans are affected by this noise similar to the effects of nerve gas: the organism vibrates out of synch with its life-sustaining rhythms, such as heartbeat. The first symptoms are disorientation, breathing difficulty & shortly, death. Rock concerts also produce mild symptoms with high-decibel base beats synchronized with high-intensity strobe lights: disorientation & irregular heartbeats. I also wonder what became of that other 1950s invention, the neutron bomb, which would seemingly be ideal to use over an enemy population. Imagine how the ZOG would drool over a depopulated Iran, with all its facilities intact, especially its oil! Stay tuned. Israel apparently plans to attack Iran in late March, but, as you say, have they cleared it with China? FEDZOGUSA seems willing to do whatever Israel wants, but World War III may be too steep a price for members of the U.S. government, who may be planning a coup. The "shadow government" has been announced by ZOG, so who might they be? We sure live in exciting times.

I experienced 'directed-democracy' when "student government" was introduced in the L.A. public schools in elementary school. I objected to it, for it had no sovereignty: students could not vote on their issues, but only in conformity with the agenda set forth by the school authorities. In those days the jewsmedia made fun of Stalin's elections in which one had the right to vote yes or no for Stalin! Well, what's the difference in our right to vote for a change of politician, but not a change of policy? Bush blabbers about wanting democracy in The Middle East, but others have noted that he will not like it if he ever gets it. The Hamas victory is just one example, for democracy really means majority rule, not minority-directed rule, as we have. One jew pundit complained that Weimar Germany had "too much democracy", so Hitler got elected. Oy veh! Once again, we see that the jews are running a gulag for Palestinians, so they'd better vote the way the jews want, or else! Such democracy!

Yes, AZA lives! The required reading of Takaki shows that it has agents at the highest levels, for Takaki's justifications for non-White Nationalism in the USA justify White Nationalism, also. He should be cited in support of our own position. What's good for non-White Nationalists should be good for White Nationalists, too. When others accuse me of racism, I tell them that I want nothing more than the status & respect for Whites as is accorded The Yakama Nation et al. in the USA. Is that asking too much? Are we not "all equal?" This is reverse jew-jitsu. The jewsmedia were shouting "Holocaust", & we were adding: "Is a Hoax!" We could never have succeeded in getting the attention of the Goyim, so we used the hebes' propaganda as our platform. The ZOG took the matter seriously, for it has locked up at least 5 historians who have investigated the Holohoax & arrived at unkosher conclusions: Verbeke, Rudolf, Berclaz, Zündel & Irving, who are in solitary confinement, "pending" trial for thought-crime. Those of us who are still outside the ZOG-gulags face capture & imprisonment if we dare to travel outside our respective ZOG-lands, where we may be tried for thought-crime in any case, after the universal endorsement of Israel's thoughtcrime resolution by the UN, including Iran's approval! This means that Iran's president is subject to arrest if he travels outside Iran. What a goofball! It took the wogs 35 years to begin to realize how im-

portant the Holohoax has been to justify Israel's abuses of Arabs & Moslems in The Middle East, in the eyes of the West. By ignoring the Holohoax as being a matter reserved for Whites, only, the wogs did themselves a major disservice. Aside from mental confusion due to mongrelization, I also attribute their inanity to their religion, which requires believers to bump their heads on the ground 5 times daily. Mild concussions apparently damage the brain, if we judge from their behavior. So that may be their excuse, but what is ours?

So why am I now receiving offers for me to attend a revisionist conference in Iran, with all expenses paid? Another correspondent has suddenly offered to take me out to sea in his yacht. I no longer receive bullets in the mail, so this may be a new trend. Well, it beats getting bombs delivered to my door in Cali, Colombia, & Toronto, Canada. Same old, same old, as they say. So far, it's all quiet on The Western Front, here in Brownest Yakima, relatively speaking.

Your in-cell scrabble sessions remind me of that photo of Fieldmarshal Milch playing cards with his colleagues in detention at Nuremberg. As I say, it was a strange coincidence that I recently received Milch's handwritten sworn statement (photocopy thereof) which I quickly translated into English. Your zoggies apparently banned the German original. Had it been in Tagalog or Swahili or certainly in Spanish, I guess they'd admit it for your perusal. In Zogland, some languages are also "more equal" than others. We live in a hypocrisy, not a democracy, under the best regime money can buy, in this best of all possible worlds. Ha! If we lack a sense of humor, we are truly impoverished.

All the best, as always. DOWZ! & ORION!

You may have heard of so-called Revisionists who "deny the Holocaust." *Did Six Million Really Die?* is a revisionist bestseller, a revealing and authoritative account of the facts behind the fiction. It details the pre-war claims of the extermination of German Jewry; the Nazi plan for a Jewish homeland in Madagascar (blocked by the British); the Jewish declaration of war against Germany; the Wannsee Conference; the Einsatzgruppen; the Warsaw Ghetto; the chaotic state of the Concentration Camp system at the end of the war; fake photographs; the Nuremberg Trials; and the "Final Solution." This hard to find, extensively referenced publication is an essential addition to the library of anyone with an interest in WWII history and its implications today. Magazine format, 28 pages, illustrated with photographs. Fourth edition, 2004, published in Britain by the Historical Review Press (ISBN 0-906879-95-0).

IMAGINE

Imagine if White people said and did similar things as outlined in the article below?

Imagine if Whites began to organize along racial lines in the business world, in the media, in the police ranks, and in society in general?

Imagine if Whites talked about a 'cohesive White community'?

Imagine if Whites held an 'Aryan Consciousness Workshop'?

Imagine the outrage and brouhaha by the anti-white, Jew controlled 'liberal' media and by the very same proponents of 'Black consciousness'?

Imagine a 'cohesive White community', that fights for the interests and welfare of our race?

Light shed on need for cohesive black community

By JANICE L. HABUDA

News Staff Reporter

African-Americans representing fields such as politics, religion, business and education spoke out Monday night about organizing into a cohesive black community in Buffalo.

African Consciousness Workshop organized the panel discussion, which attracted a large crowd to the auditorium of North Jefferson Library.

"We have a conditional commitment to the empowerment of black people and the black community," said Brother Sam, who moderated the discussion.

Utilizing the principles and strategies of "PowerNomics," by Claud Anderson, panelists responded to a series of questions about the black community within their fields of expertise.

They were asked, for example,

whether structural racism is a serious impediment to organizing and whether it is an issue in their work environment. There also were the questions of how to deal with the issues most effectively and how to organize despite the problems.

Minister Halim Muhammad of the Nation of Islam said that as far as religion is concerned, "I think if there's any group that is the freest, it's the black clergy."

Yet within that group there are differences between Muslims and Christians, he added.

"As a people, we have fought very hard to get other people to love us," Muhammad said. Use that same energy with each other, he suggested.

In the media field, "our biggest problem is white supremacy," said Patrick Freeman, host of "The Message" on WUFO radio. "That is the biggest thing confronting African people all over the

world."

Independence must be maintained or the consequence will be to become part of the state-run media, Freeman said.

Panelists also were asked whether there is an identifiable black group — one they can refer to as "we" — that holds power and influence in their occupations. Further, they were asked about the existence about a black community within their occupations, with a repository of history, culture, wealth and contributions.

"There is a 'we' in the Buffalo black business community," businesswoman Jennifer Parker of Black Capital Network said, adding that the community needs to support it.

The "black" in Black Chamber of Commerce speaks for itself, said President Lumon Ross.

"We are who we are, and we are black," Ross said. "We are black busi-

nesspeople, interested in black business interests."

Finally, is there a need for a black community — an "Afrika Town" — similar to other ethnic communities like Chinatown and Little Italy, where culture is maintained, and social and economic power is organized?

"I feel we surely must support the concept of Afrika Town and all of its implications," said Charley H. Fisher III, an at-large member of the Common Council. "It must be a place in which we celebrate the culture, the festivals."

Ross said that it already exists, in the triangle-shaped area bordered by Main Street, Bailey Avenue and South Park Avenue. What is needed are specific, clear business models inside those borders, he said.
