7 FEB 06. Dear Günter! Many thanks for your letter of 30 JAN 06, the \$20, & the truly great enclosures! You & Claude are wonderful propagandists, who leave no base uncovered. I greatly appreciate your information & insights, which I do my best to broadcast by all media available to me. I shall contact those who can read German in regard to subscribing to Der Südafrika-Deutsche, but first, I want to enjoy reading it! I guess the Zionist thoughtcrime laws are less enforced in former SWA than in Europe. Isn't that a shame, that Europeans can no longer express themselves freely in Europe, but only in former colonies? As I say, I'll do my best. I see that my ribbon is fading, so I'll send you a much better photocopy, as usual. It used to be a joke to claim that "the copy is much better than the original." Now, thanks to White man's inventions, that statement is true! If we become extinct, even the jews will miss us, but the Chinese will preserve our inventions, unchanged for a few thousand years. As the world becomes more Asiatic, Blacks will become even less useful, & Asians have no crazy reason to preserve Blacks, who only take up living space for them. Before I left Africa, I predicted that Blacks would not inherit the African continent, since more capable, hungrier people wanted the resources which the Blacks could not use themselves. This was just an impression I had, for I didn't know that AIDS was fast approaching. The Chinese are already in the oilfields of The Sudan, which is a fact 99% unreported in the U.S. jewsmedia. I wonder if there could be Chinese backing for the Black bandits who are presently harassing Anglo-American oil installations in Nigeria. Many thanks, also for the articles on Venezuela & Bolivia. The USA always fears populist leaders, especially in oil-rich countries. That's why our ZOG toppled the popular, nationalist leader of Iran, Mossadegh (sp?) in the 1950s & installed the ersatz Shah with CIA backing. Speaking of Blacks, Prisoners in Los Angeles County jails (in Mexifornia) are being racially segregated because of ongoing gang violence, inside & outside the ZOG-gulags. Thomas Chittum correctly described the prelude to "Civil War Two", in regard to racial gangs. He has dropped out of reach, again, at least to me. I understand that he appears on & off the Internet. His last project was the acquisition of names of zoglings, for publication on the Internet. Maybe he's still working on it. The Internet gives access to many names which are otherwise impossible to find. What he is doing & has done is pretty dangerous, as I certainly know from my own experience. Whatever falsehoods he may believe about The Third Reich, I still wish him luck in his efforts to unmask the ZOG. I know that my modest efforts to spread the truth are also dangerous, because of the new situation under the so-called Patriot Act, & the U.N. resolution on thoughtcrime involving the Holo-hoax, which was supported by every country, including IRAN! Those wogs are sure crazy, for now Iran's president can be arrested for Holo-hoax denial as soon as he steps outside his country, as I can be. It is possible that I can be deported for the second time from the USA alias Usreal. I just mention this for the record, so you won't think I'm as ignorant of Zionist reality as was The Zud, for I know what I'm doing, & I do not wish away the dangerous realities as "negative thoughts." I grew up fast at age 30, when I was first deported in 1969. Unfortunately, the Zud did not. He is the only revisionist prisoner who I fear may betray his previous position on the Holo-hoax, as he did with his previous pro-White position. Only death can insure his loyalty to revisionism, I'm afraid. As Skorzeny said: "A man must eventually see that there are only two possible ways, either or, which will decide if he is brave or cowardly. Those who think there is a third way may think they are 'clever'." The Zud always claimed that a 'third way' existed, even to the extent of claiming to be jewish to a jew interviewer. The Brits describe a stupid person as "just too clever for words." That does seem to describe The Zud quite accurately. When a fellow U.S. Army Intelligence trainee asked me why I refused "the best job I'd ever get," I answered that "I'd rather not be the richest corpse on the beach." Maybe if The Zud were offered a large sum of zogbucks to jump off a cliff, he would be able to appreciate that money can have strings attached, which make it unwise to accept it. I passed my test, but The Zud failed his. He fled right into a trap, even though he repeatedly told me that the ZOG has a personality profile on those who offend it. My defense against being made a ZOG agent was my journalism during the phony Cold War. I was too notorious in the "intelligence community" to do anything secret for any branch of the ZOG. Besides, I do not receive my information from secret sources. What I have to say is not secret, either, for I want the whole world to know, ZOG included. The espionage business can make for very ignorant spies, as happened when U.S. traitors sought employment in the KGB, not knowing the USSR WOULD SOON GO OUT OF BUSINESS! Even I suspected that would happen, after the USSR agreed to recognize the Tsarist debts. All the best & ORION!
