

15 FEB 06. Hail Chad! Thanks for your latest of 12 FEB 06. I never met Pierce, although I was told by a hesitant voice on the phone that I was speaking to him. Who knows? The matter was about his acquisition of a novel I wrote. Our conversation occurred in 1976. I asked him what his doctorate degree was in. As I recall, he got his degree in physics or electronics. He asked me about my academic background & I told him that I had 2 BAs & 1 MA in International Relations, specializing in Latin America, & that my doctoral dissertation was confiscated at gunpoint by ZOG-thugs at L.A. International Airport in 1969, after which I was exiled from the USA. I said that I'd lived in places undergoing political, economic & demographic upheavals & that I'd been deported from 5 countries at last count, for my work as a political activist & journalist. The nervous, hesitant voice on the other end said, "Gotta hang up!" I sent Dr. Pierce one copy of my novel, which I shall not mention, but he apparently derived "The Turner Diaries" from it. What I noticed was his insistent reversal of target priorities from strategic to silly. A strategic target is what people need to live. People are not usually strategic targets, no matter how many one takes on. None of the targets chosen by The Order were strategic, for example. Pierce's racial policy depended on the amount of money you spent or donated, according to former Piercites: Anybody who wasn't obviously Black was deemed "White" for membership purposes, such as the bane of The Order, Sr. Martinez. If one paid enough, Pierce would make him a full-fledged "Aryan", as I've heard from former NA members. As I wrote in "What We Can Do," such groups are publishers, not political parties. I worked in West Virginia a short distance from the place Pierce had set up his H.Q. after he dumped his wife (if I recall correctly) & moved from Washington, D.C. (District of Corruption). He never contacted us in Reedy, WV. Perhaps he thought we were competitors in the publishing business, as so many blightwingers do when they publish items themselves. A couple purporting to be Piercites visited us one day, on their way back, they said, to DC. I asked about "Cosmotheism" & neither of the pair knew anything about it. The fellow said he thought it was designed to be a tax-dodge, but apparently failed, & so was kept pretty much in the closet. Well, Pierce did put out lots of good publications, but so did others, such as Wilmot Robertson & Instauration. We published lots of Dr. Oliver's great material. I am proud to say we were friends & colleagues. He phoned me as he was dying of lung cancer from a lifetime of smoking, to make sure I'd received an important book he'd mailed to me. I thanked him, but I had no idea that he was going to die so soon. As I understand, he left the hospital after being diagnosed with terminal lung cancer & shot himself, rather than risk prolonging his misery, just as I would have done. Cancer patients usually suffer so much pain that they must be heavily-sedated, knocked out. When they wake up, the pain resumes, so they must be knocked out again, & so on, indefinitely. Dr. Oliver was, apparently, on good terms with Pierce, but we were unable to collaborate with Pierce. I, too, am inspired by SOME things of Nietzsche, but his ideal of an individual elitist without racial roots or Folk is an unviable goal & undesirable. As Hitler said: "The state protects the Race & the Race protects the Individual." I've been & still am a foreigner amid an alien majority, as I am here in Brownest Yakima, similar to Beethoven confined in an African kraal. Like-minded Whites are distant. The closest comrades I have are yourselves in Walla Walla. Nietzsche further extinguished himself by backing the jew-critics against Wagner, shortly before he went totally nuts, some claim from syphilis or a brain tumor. This does not negate the value of the Superman concept. Eugenecists believe that a people can evolve toward this goal by improving the breed, by culling the scrubs & by encouraging reproduction of the best specimens, just as breeders do with other members of the animal kingdom, of which we are a part, jews to the contrary, for even jews are mammals. Savitri Devi wrote that jew religions always oppose Man to Nature, when the correct view is that Man is part of Nature. We cannot survive by overcrowding, depleting & polluting our planet. Christinsanity, Communism & Capitalism are all kosher in their origins & their manifestations. I recall hearing movie narrators bragging that "Man conquers Nature" in regard to some project or other. The price for "conquering Nature" can be calculated as extremely high. Consider the Chernobyl Disaster, which will be with us for centuries. One writer called such things, "Man versus The Planet Earth." This is like sailors chopping holes in the bottom of their ship! Semitic religions reply that "Yahweh, Allah, Jesus & Company will provide." I agree, but they will provide only death in abundance if we continue our folly. Nature is a real Nazi, & we have really pissed Her off.

I certainly agree with your goals, which are indeed sound. Whites need something to live up to, so they can improve themselves, on behalf of their Race. This is why our education &

2) our equally-important imaginations must be nurtured & developed. Mark Twain urged us to "Dream better dreams!" And so we should. Had the ancient Aryan conquerors of India obeyed their religious instructions to avoid race-mixing\* (adultery in its true sense), Aryan culture would not have sunk back into the mud that we see today. In 1966 I travelled by ship to Bombay, as my forefathers had done, in search of fortune. India's squalor & overcrowding were most oppressive, & as I went further East, the anthill existence of Hong Kong & Japan were still oppressive, minus the filth, regardless of the fact that everything worked at a press of a button or the flick of a switch, even compared with the USA. I noticed that everything was minutely & competently maintained. Riding regular trains in Japan was like flying low, merely because the tracks received regular maintenance, unlike U.S. railroads. Japanese trains arrived & departed from stations WITHIN the same minute! This could not be done in Africa, Latin America, nor in the Judeo-American empire called the USA, because the people are too diverse, discordant & dysfunctional, as well as dysgenic. In India, there were sacred cattle to impede traffic. In North America, we have equally sacred 'minorities' & affirmative-action to impede our public transportation. The Japanese could duplicate, to some extent, our problems if they turned monkeys loose in their train stations, but why would they want to do that? But why do we put up with such malicious monkey-shines in our own living space? ZOG only knows! Socially, we are in a race to the bottom. The 'winner' is the country which can reach Turd World status soonest. This is why it is so difficult to live decently in today's America, for our wages go down; our good-paying jobs go out of the country & the aliens pour in to take what's left. This means we cannot make it as individual 'all-stars', but we need to form our own White communities of co-operation, even if ZOG does not allow us to live in our own areas, free from invasion from jews & other non-Whites. White Nationhood must begin in the mind before it gets on the map. A White community without a unifying creed will not be a White community for long, if ever. That's why we lack White communities today, because we let others put Our Race in the backseat or the trunk, usually by putting personal greed first. White Communities can be achieved by education & co-operation. You know this already, I'm happy to say, so stay on course. With our present lack of means, we must take advantage of any opportunities the current system offers us, which I have done to my own benefit, rather than attempting to live in the boonies as a hermit.

A correspondent sent me the bogus arrest story on Covington, who sends me all sorts of stuff, very little of which is important. I wrote to him asking why he'd not warned me about the kiddie-porn calumny (malicious lie). I have no way of knowing that it was false, for I don't know what he does, except to write books. I had to respond to the story in my own defence, by stating my views of any such perversions perpetrated by those who claim to support the White Cause. Covington added to my suspicions (1) By not mentioning this hoax & (2) By announcing that he was 'hiding out' to avoid legal consequences. I now doubt the integrity of the correspondent who sent me the download, one Phil Hruskocy. In my follow up letter I urged Covington to let me know the latest lies about him or me which are making the rounds of the Internet, since I never log on. There is just too much to read, & I don't have the time nor the interest to do it. That's why I rely upon my correspondents to pass on information they find of value, so I can add such pieces of the puzzle to The Big Picture of world events. Phil waited for my reaction to the phony arrest story, & only afterwards told me it was a hoax. Thanks a lot, Phil! Judging by the date of the "arrest" story, Phil probably knew it was a hoax before he sent it to me. No one else had sent it, nor even mentioned it to me. I wrote Phil that it was normal for jews to spread calumnies, but it was not something that any pro-White should do. I shall not repeat the ½ century of lies told about me in the blighting, but I find the latest one entertaining: I am now alleged to be "a former CIA supervisor of Mossad hit-teams." Before that, I was deemed "not a real person, but a committee of former Gestapo or KGB officers." That sort of dates me as a cold war fossil.

I can make you a photocopy of The Protocols in loose-leaf form. Please let me know if your zoggies will allow me to send it to you, with your full name & DOC # typed on each page. If that's all they require, I'll be happy to comply. Nice zoggies!

All the best & ORION!
