

15 FEB 06. Dear Michael: Many thanks for your letter of 11 FEB 06! Harold is pretty careless, for he sends me all sorts of trivia, but not the important stuff, such as the latest blighting calumnies going the rounds. I received the download about the kiddie-porn arrest from Phil Hruskocy, a long-time correspondent, who only told me it was a hoax AFTER I'd reacted in my own self-defence by stating my views on perverts who claim to be pro-White, IF Covington were such, which he proved not to be. If Phil knew it was a hoax before he sent the story to me, he has done a lot of intentional (?) mischief. Covington asked me if I'd believe such a story about him, & I replied that I didn't know what he does, aside from writing books. I have no time for the Internet, so I rely on, hopefully, trustworthy correspondents to surf the web & provide me with items they deem worthy of my attention, as a piece of the puzzle to be added to The Big Picture of World Events, as I have been doing for decades. So rest easy, the story is a hoax, I am happy to say. Thanks a lot, Phil! If the scheme was to split me from correspondence with Harold, it boomeranged on the liars, not Covington. 'Nuff said.

Sorry, but your switcheroo idea for exchanging Usreal for Mexico is not on. The Raza Cucaracha will continue to fill up Mexico with brown bodies, no matter how many cross the zogline into former Gringo Land. No, it looks like "Civil War Two" by Thomas Chittum is coming to pass. Spic-nig rioting is increasing in Southern CA ZOG-gulags, as is occurring out on the streets, according to NPR jewsradio.

In that "well-known forgery," The Protocols of Zion, there is emphasis on curtailling the economic independence of Goy landowners, as occurred in Stalin's Soviet Jewnion when the kulaks were starved to death.

As you have prescribed, I shall continue to send you the standard items. I requested that Gerhardt send me a copy of Brush Fires #2, but he may be in a snit because of my refusal to send him cash in lieu of information. He cannot understand certain arrangements I have which preclude such practices, & I shall say no more on this matter. His sulking only deprives you of the item stolen from your mail by the zoggies. Hey, if they want me to make copies for them, which they can keep, just let me know! I shall send you one set of the standard items this time, but let me know if you want the other 2 sets mailed together, & I'll be happy to do that. Otherwise, I can send each set separately. Speaking of items to be returned to you, I shall retain the influenza item in its original & send you a photocopy. If that disappears, let me know, & I can keep sending them, along with my grievance letters to Messrs. Moore, Cedeño, Gonzales et al., with copies to you of our correspondence. It appears that your ZOG-gulag is in store for a blizzard--of paper! The zoggies should also know that this information will be available to worldwide dissemination on the Internet & international publications. Before we finish, your residence will be better known than Devil's Island, thanks be to ZOG. I shall update this postal theft matter with my post master.

I'm glad you got the eye-information you required. I wonder why your gulagniks are willing to provide you with workboots if they are not willing to provide you with decent eyesight. Again, "cruel & unusual punishment" come to mind, as it would be if your zoggies made you work barefoot! Naw, we'll give him boots & have him work blind, instead. Re mandatory shots, I have no refusal form for them. Sorry!

As a former bureaucrat, I can warn your klepto-zoggies that ignorance of rules is no excuse. That in itself is a breach of duty on their parts. Such pretensions of ignorance just add weight to their offence of stealing your mail.

I can easily understand that intelligent humans are more sensitive to stimuli than are subhumans, whom ZOG apparently favors. Mestizos & Blacks seem to require constant noise. If there is none, then they must make it. I recall an otherwise idle mestizo sitting on a sidewalk in Cali, Colombia. He NEEDED to bang a piece of rebar on the pavement, to make some noise, at least. "I make noise, therefore I am," seems to be their idea.

Yes, the legendary neutron bomb is a mystery, for it seems the ideal solution to 'liberating' land from a population. As I understand, it requires a 'low-yield' nuclear explosion to set it off. Maybe it was tested & the radiation level was not low enough. I've heard of HAARP, but it didn't seem very practical, as I vaguely recall.

Speaking of the "Back to Africa" movement, NPR jewsradio devoted lots of air-time to the 'Ghanorrhean' Government offers to grant any Afro-American Ghana citizenship on request, similar to Israel's "Law of Return". The program conveniently made no mention that the Black slaves were supplied to foreign slave-traders by the Ghanorrhean slavers. As I understand,

in Africa,  
Black slaves who worked for White masters survived & multiplied, but/Black slaves who worked for Black masters soon wore out & died, probably because Black masters were closer to the source; thus Black slaves were much cheaper to acquire & could be disposed of & easily replaced. Of course, there were Black slave masters in the USA. The first Blacks to fight in the U.S. Civil War wore Confederate uniforms & fired on Yankee troops, according to Yankee newspaper reports. Some of my Scottish ancestors were brought to America as slaves before the Blacks were, according to a download I received. Most of the White slaves were captured in one of the wars for Scottish independence from England. Most of them died on board the ships which were to take them to North America. Shipping was not healthy for Black nor White slaves. My ancestors were not indentured servants, since they owed no boat fare & were supposed to work as slaves until they dropped dead. Such a deal!

I hope you can resume your Scrabble games!

I am surprised that you finally received the German, handwritten text of Milch's sworn statement. Such nice zoggies! I just wanted correspondents to see what I translated, even if they don't read German. Those who can read German can check my translation for accuracy. I'm glad your colleagues are getting some entertainment from my letters, which is as it should be. Thanks for informing me! Thanks, also, for letting me know about J.B. I look forward to meeting him. I never heard of Ballard, nor have I ever been there. Thanks for that info! I can't find it on my roadmap of WA, so I wonder where it is in relation to Yakima.

I have seen the official Allied notice, in German, which was circulated in Austria in regard to the non-death camps listed in the Barnes Review footnote. This list corresponds with the official Allied policy belatedly adopted in 1960 which declared the "death camps" to be the six in Poland, nowhere else. That left the fake gas chamber of Dachau, which was built by jew film-director George S. Stevens for making the previously official Allied atrocity propaganda film, which I've seen several times. Suddenly, what was deemed 'fact' in 1947 became fiction in 1960. That's why "Allies" should be spelt "All-Lies". You may recall that the jew, Stevens, directed "Shane." All I have available are copies of the Degrelle page with the footnote, at present. I am shunned by Holohoax revisionists because I'm pro-White, & they are not. Even so, four of them presently reside in German, Austrian & Swiss ZOG-gulags, regardless of their 'political correctness' on racial matters. In my experience, the greater the concentration of Whites, the more apathy & anti-White sentiments there are. I'd love to find an exception to that rule, as Earnest Sevier Cox reported in "White America," written over a century ago. How time flies, but flies don't change their behavior, not that I'd want you to believe any 'fly-conspiracies'!

Both "Spring Island" & "The Awakening" are Odinist shortstories. I haven't seen either published by Fidelitas as yet.

With all due respect, I cannot abide whiggers nor "Israelites", regardless of their possible White DNA. If they were my only possible White associates, I would move as far away from them as I could. Even Mexicans are not so annoying as Whites who are alienated from their blood & culture as those groups. I work with you, just as I work with non-Whites of AZA, who are also anti-ZOG. I do not receive knowledge of my God from books, for my God communicates with me directly. I did not wish to insult you by sending you the Mathey item, but I wished only that you knew there were other, sincere bible-bangers who interpreted the words differently, maybe from a different translation or version. You say he is wrong, just as he would say you are wrong. You can both say I am wrong, but I am not on the same page nor in the same book as either of you are. This is why our religious differences should be put in the closet, as are our racial differences in AZA. Christianity came to my people via slaughter, lies & treachery intended to centralize the power of greedy kings who brought the jews with them. Charlemagne was also Karl the Saxon-Slayer who broke his sacred truce to demand that his victims choose baptism or death. It's too bad the noble Saxons did not feign acceptance of the middle eastern cult & then grab their swords to give death to Karl, the betrayer of his sacred oath of hospitality. When one has proved himself unworthy, why should we honor him with our honesty? The jews need a Kol Nidre for that, but I don't. We have a common enemy, but very little else, save our anti-ZOG alliance. To that end, you may be assured of my loyalty, unlike the so very Christian Charlemagne. Ha!

All the best to you, as always. DOWZ! & ORION!
