

## WHAT WE CAN DO by Eric Thomson

Alert Aryans know that the Zionist Occupation Government is using the old trick supposedly used to kill the frog in the pot of water: by raising the temperature gradually, the frog does not defend himself by leaping out of the pot, and thus expires from the heat. One example of this deadly gradualism is the Income Tax Act, which was passed in 1913 along with the so-called Federal Reserve Act. As I recall, the Income Tax was originally fixed at 1% of one's income, and it was supposed to be a temporary measure for meeting emergency expenses. Now we groan under its burden. What an outcry there would have been, had the ZOG's minions of Congress in The District of Corruption proposed the present rate of income tax back in 1913! The Gentile frogs would have jumped right out of the kosher-cooker.

I don't need to tell you how bad things are for Our Race. Those Ostensible Whites who don't see how desperate things are may never see, regardless how we exert ourselves to warn them and to spur them to action. What is our first objective, as activists? Survival, plain and simple; the survival of ourselves and our loved ones. As I mentioned in "Here Comes the Revolution, Ready or Not!", events have a way of occurring sooner than we expect. .

Our first task is to make ourselves capable of survival. If we lack knowledge, skills and the will to survive, we can expect our loved ones and associates to be no better off. To survive, we must be able to raise or capture food and defend our means of living, as well as defend our own lives. Those Aryans who live in skyscraper condos are perhaps the most vulnerable to a social breakdown and consequent race war. Those Aryans who are now surrounded by liberals, Christians or race-mixing family members are no less vulnerable, for these are the foremost enemies of Our Race, and they will betray you with righteous fervor. It is absolutely urgent that we seek out like-minded members of Our Race, with whom we can collaborate. Ask yourself if you could trust your life with your present associates, be they 'friends', workmates or even family members? Long-time associates are not necessarily trustworthy, for there are few people whose loyalty has been tested through hardship or danger. Many are the lone, right-thinking Aryans I have known who are surrounded and neutralized by antagonistic family members. Many are the Aryan martyrs and victims of misplaced trust. Your first step on the road to survival is to analyze with cold objectivity your immediate personal relationships. We cannot afford the dubious luxury of associating with anti-White family members and fair weather 'friends'.

Perhaps you will find potential allies via correspondence, Internet communications or other means of long-distance contact. Once you have confirmed to your satisfaction that such people are reliable, you may co-ordinate activities with them. Long lines of communication are, of course, vulnerable to enemy interference. It is nice to have a comrade on the same continent, but it is much nicer to have him close enough to share sentry duties with you in defense of your position. Aryan activists are not only few, but they tend to be very very far between.

Aryans who want to be active on behalf of Our Race often shop around for existing groups who can supposedly provide them with a ready-made organization and support of a psychological and material nature. Most such 'organizations' are really publishing outfits, rather than political organizations. They can provide us with vital information, but in the end, it is we who must provide the organization and the action. There are also pseudo-activist groups who call themselves 'militias'. Unfortunately, many of these well-advertised groups conform to the 'phoney combat cells' which the CIA organized in Latin America and which I warned about in 1976. Many of the 'true-jew' militia members are, in fact, mestizos, who give White people a bad name. No organization is stronger than its weakest member, so we must be very careful in choosing our comrades in this life or death struggle. As Francis Parker Yockey observed, a political organization is not a social club; it is earnest and deadly to its enemies. Politics is not like a game of baseball which ends so the players can all go home. Politics is people-power. Once you engage in this pursuit, you must devote your entire life to it. That is the only way you can win. Some self-styled 'leaders' have tired of what they thought was a game. To their distress, they discover that the Zionist enemy will not forgive nor forget their behavior, regardless of the childish motives which prompted it.

Thus, it is best that you initiate and organize your own recruiting program and such activities as come within your purview and capabilities. Your credo must be: FORM FOLLOWS FUNCTION. Work on a 'need-to-know' basis. Don't waste your breath talking to the enemy. You will need every resource to reach out to potential Aryan comrades. To mobilize Our Race, we must first mobilize ourselves. OUR RACE IS OUR NATION! ORION!

20 FEB 06. Hail Jason! Many thanks for your letters of FEB 10<sup>th</sup> & 16<sup>th</sup>! Also, thanks for the historical record of jew expulsions from the host peoples they jewed. Give my best regards to Rick Cooper, as always, for keeping up the good work. When convenient, please send me the valid address for The Hammerskins. I was sorry to learn from Rick how they got hammered by the silliness of one or two members, in California! That's the danger of a formal organization with official membership lists, but now the ZOG uses any connection as an excuse for persecuting others who are not involved in any crime. After the Metzger case, a piece of writing from anyone found by zoggies on the premises of a suspect can be used to persecute the writer. If they found a telephone directory, they could also go after the telephone company, for the suspect may have used the phone to carry out his crime, which would make the telephone company a criminal accomplice, if ZOG says so. Then ZOG could seize the phone company's assets & arrest its employees! What ZOG has already done comes pretty close to that. I don't receive W.A.R. on a regular basis, so I don't know how it is doing. As I gathered from Ron McVan, Katja Lane tricked him & stole his books. I'll send him your address so he can tell you directly.

As you & many others say, the USA is picking fights with too many people in too many places, so Iran may be our ZOG's "Waterloo", just as that battle finished Napoleon. I heard on NPR jewsradio a former Pentagon-zoggie's interview about an article he wrote in "Foreign Affairs," the publication of The Council on Foreign Relations, which is run by our Rockefeller-Rothschild bankster-gangster rulers (all kosher!). The zoggie seems to have been reading my stuff, for his assessment seems to be that we lost our fight with Iraq as soon as we toppled our puppet, Saddam. (Just as Israel wanted, but he did not say that!) The Jew Ass Oy Veh has behaved like a bull in an ammo dump, for our invasion of Iraq has made things much worse for the USA, as well as our invasion of Afghanistan, in his estimate. What did we get out of our invasion of Iraq? (1) Little or no oil. (2) Increasing U.S. casualties, as I predicted before we went in. (3) The overthrow of Sunni rule & civil war. (4) The increase of Iran's power in Iraq, since the Shi-ite majority are Iranians, not Iraqis. (5) The destruction of the U.S. economy, with China holding our jew I.O.U.s. When I tried to find a copy of "Foreign Affairs," the voice of the ZOG, I discovered that our public library does not receive it! Maybe the local college library carries it, so I shall enquire. That publication is important. The last time I read a copy, I was deported from the USA! I wrote an article for "The Journal of Contemporary Revolutions" in which I criticised a "Foreign Affairs" article, which resulted in my being banned from visiting all Soviet bloc countries, including present day Cuba. Apparently, neither the USSR nor the CFR were pleased by my article, as of 1968. As they say, it's a small world. As I understand from the Internet, the jew who ordered me kicked out of East Germany, Markus Wolf, now works with the jew, Chertoff, in "Homeland Security." If Mischa reads this letter, I say, "Hi, Mischa! I'm the guy you thought had a camera, which you couldn't find, because I didn't have one!" Chertoff looks like Osama bin Laden with a shave & a haircut, so he could be hiding in plain sight. Pencil in a beard & turban on Chertoff & see what I mean.

Drinking is not good on the job, such as political activism. It is not good for activists, either, for alcohol is a sedative, like a sleeping pill. When a person is dozey, he can't think fast, nor behave right. I have drunk beer, which is strong enough for me, but I prefer to be 100% awake when I get out of bed, & 100% asleep when I'm in bed. Whybe 1/2 & 1/2? I have seen no good results from drinking in our racial cause, but lots of unnecessary trouble, as you experienced. As you know, alcohol is very easy to abuse, so my best advice is to leave it alone. You'll certainly have more time & money for Our Cause, I can guarantee you! People who go for drugs & alcohol usually have nothing much to live for, as I've noticed. One fellow told me that he was a druggie & alcoholic before he became a Communist. That was in Sweden. The same goes for everyone I've met, everywhere: When one has no cause to reach for, he tends to reach down instead of up, to a bottle or a needle. If one is devoted to his cause, why would he wish to impair his work by drugs & alcohol? The Struggle protects those who are 100% in its service, as I have learned. If we destroy ourselves, there is nothing for ZOG to do, since we will be doing the ZOG's job by ourselves. Why make things easy for the ZOG?

West of the Cascade Mountains, like Seattle, it rains & rains, but here in the east, it tends to be dry & freezing, as it is right now.

Sorry, the John Birch Society began as a kosher front organization, financed by top kick kikes. I've joined & supported 4 groups as an activist, all of which fell by the wayside, usually by traitors or fools. As I wrote in "What We Can Do," it's best to start out on your own & recruit your fellow activists from scratch. Don't trust anybody you don't know well. All the best & ORION!

17 FEB 06. Hail Shappa! Many thanks for your letter of 14 FEB 06 & the enclosed grievance forms. Let me know if you want them back. If you don't, then I'll keep them on file for you. If you do, I'll make photocopies for my file & send you the originals, although there is no guarantee that your mailroom zoggies won't steal them. Sending stuff back & forth is not a good idea. I'd advise that you just summarize what your grievance is. I trust you, but I don't trust the ZOG. Another grounds for appeal is this "Native American" b.s. If you were born in the U.S.A., as I was, then the dictionary defines us as "natives". Since we were born in The United States of America, we are also "native Americans." I believe our ZOG deems these Eurasians to be "White" or "Caucasian", just as Mexicans who are also Eurasians. On their federal wanted posters they are called "White Hispanics." According to the letter of the ZOG's laws, you should have grounds for declaring your right to attend Native American religious meetings. If your zoggies balk at that, on racial grounds, then Whites deserve the same racial-religious rights as the redskins, just as you have stated. I think you have grounds for appeal of your ZOG-gulag's discriminatory practices against Whites. Keep up the good work! Whites deserve the same rights accorded to non-Whites: the freedom of association with their own kind.

Yes, Harold is a good fiction-writer, but his realism leaves somethings to be desired. For example, I don't recall encountering any mention of the "Indians" in his Great White Hopeland. Did they miraculously vanish? On the contrary, in reality they are multiplying in numbers & political clout. Harold also seems to think, in his fiction, that the zogline between Canada alias China-duh, & the Jew Ass Cy Veh is real. It is not, in terms of illegal immigration. Any attempt to remove Chinese from their Washington colony would be resisted from their colony in "Hongcouver." Of course, True-Jews, Freemasons, Mormons, &c. deem Eurasians as "White". I believe some claim that Eurasians, that is, non-Whites, are a "lost tribe of Israel." Another problem in squaring fiction with reality is that of timing. It is wisely said that timing is everything in politics & comedy. In White-ruled Rhodesia, Whites believed that Ian Smith would never sell them out to Black Marxist Misrule. Smith always said: "No majority rule in my lifetime," but he is still alive, to my knowledge, & there is Black majority rule in former Rhodesia, now Zimbabwe. South Africa was subsequently sold out in an admittedly rigged election, according to the traitor de Klerk. What did Whites do? First, they did not stop the sellouts. Secondly, they conned themselves into believing that things would be all right under Black rule. It was not, of course. That's why it's dangerous to believe in fiction, even if it is not in the form of a novel.

What I learned in Africa is that White thinking is not realistic, in the majority, & Whites' reaction time is lethally-slow, & then their belated response to new conditions is ineffective. I see no difference with Whites in North America. There were also "British Israelites" in Rhodesia, as in Canada. They were absolutely useless, for they confined their activities to bible-banging. This may be a good pastime, like playing chess, but it did not address real emergencies. It was in 1976 that Henry Kissinger told Ian Smith it was time to handover to the Marxist ruler of the banksters' choice: first to an interim Black bishop, Abel Muzarewa, thence to Robert Mugabe in a dubious election. Smith had illegally handed his job to the Blacks, since he was never voted out of office! 1976 was the year I was deported. RLI Corporal Covington said he could not be deported since he was in the army. He was wrong, as always. His deportation was 3 days after mine, since he had to turn in his gear. His track record has never changed, from what I know. That's why I advised him to stick with fiction, as I do now. Another miracle required for Harold's fictional territorial solution for Whites is that Whites now coming into the NW states are no better than Whites who remain in other places. They have no pro-White ideology. Until they have a change of mind, it will do them no good to move to a new place. Who, after all, are hiring the illegal alien invaders? White Christian Capitalists here. That's who. Only change of mind can save Our Kind. As I see developments, events are occurring way too fast for Whites to comprehend, if they are aware of them in the first place. Most Whites are like dimwits on The Titanic. They wait until water rushes around their ankles. Then they open the cabin door, which fills entirely with water, since the ship is already on the bottom! In Army bayonet practice, we recruits were told that there were only two types who used the bayonet: the quick & the dead. Whitey ain't very quick, as history proves. That's why so many of us wind up dead, thanks be to ZOG. We won't be saved until we change our ways, so we can save ourselves. White Nationalism must begin in the mind before it can be put on the map, Harold to the contrary.

2) I never met Pastor Miles, but some colleagues of mine subscribed to his newsletter, "From the Mountain," if I recall its name correctly. I spoke to him on the phone when I was working in Toronto. For a time, he adopted my slogan, "Our Race Is Our Nation!" This is the only correct slogan for White Nationalists, for no other slogan advances White Nationalism. That's why I coined it in 1976. 14 Words can only be realized in a White Nation. Adolf Hitler said that "the State (government) protects the Race & the Race protects the Individual." A state or government can exist without a designated territory. The jews & Gypsies prove that, along with the Mafia, another jew outfit. First comes the state, then the territory. The state must first rule its people in order for them to obtain the territory. To start with a territory rather than a state is ass-backwards, Harold. Some English people say fiercely: "There'll always be an England!" I reply, "But will there be any English living in it?" The jew, Boas, to the contrary: a nation is a people, not a place. FEDZOGUSA officially recognizes jews as "a nationality", regardless of their birthplace. ZOG doesn't even pretend to believe its own lies about race, nation & birthplace.

I suggest you contact the addresses listed on the flier for Fidelitas, which advertised my two Odinist shortstories, "The Awakening" & "Return to Spring Island." I haven't seen them in print, as yet, for the people who do everything at Fidelitas are few & their jobs are many. I think Fidelitas would be your best bet for contacting pro- White females. For a political radical of over half a century, I had real good luck with the women in my life. This was pretty easy, as with my few friends: I choose my females for their politics. I do not choose my politics because of my friends. Nor do I subordinate my politics for a bedmate, for one winds up sleeping with the enemy, like Harold. I still have several great female friends who are also colleagues. Unfortunately two are married & one is stuck where I dare not go, since I'd be arrested for thought-crime. I have corresponded with all of them for decades, for we shared in the struggle. One does not forget such comrades. One notorious ZOG-snitch, John Beatty of Toronto, asked me why I wasn't married. I said you should really ask me why I'm not rich, which is the proper prerequisite for being married. In my experience, even a very good woman is not an antidote for a lousy career, so my career came first. I learned that this judeo-American society had nothing <sup>but</sup> grief & debts to offer me, so I began my travels by working overseas, first in Colombia. My relations with certain White foreign women <sup>were</sup> very pleasant, to say the least, but we were all birds of passage, so marriage was not a real option, & my earnings were insufficient to start a family, unless I wished to live in Colombia. Two years were enough! It is well said that the rolling stone gathers no moss, & a soldier of fortune on the move gathers no family. Marriage is good for raising children, but a good career is essential for a successful marriage. My opportunity for a decently paying career was in the academic world, where I worked toward a doctorate in International Relations. I recently heard an interview with a zogling who evaluated current events in The Middle East. It sounded as if he had been reading my stuff! I heard that his article appears in "Foreign Affairs", the CFR journal published by our Zionist bankster masters, which I always enjoy reading. Well, as I may have mentioned, my notes & draft of my intended doctoral dissertation on the USA-USSR Role in Latin America were confiscated from me at gunpoint, by ZOG-thugs in L.A. International Airport, in 1969, the same year I was deported from the USA. Imagine if I'd been married, with children: what would I tell my wife? "We'll meet again, don't know where, don't know when..." So it has been from 1969 to the present. I have learned that The Struggle is the Victory, & that the struggle provides, even female comrades, as long as one puts the Struggle first. Harold never considered that, either, poor fellow. To total up: I've been around the world, almost twice, mainly by sea, been deported from 5 countries, worked in countries illegally, survived on odd jobs at minimum-wage & now live in an unheated apartment, in which I type this letter in my streetclothes, living as I did in Japan, where one just heats oneself to survive the cold winter temperatures: warm bed, hot shower & warm street clothes. It works all winter! My father was a closet Viking, for he told me how he succeeded with women: "Tell her what she likes to hear, & get what you want." I disagreed with Dad when I was young, but as I grew older, the wiser his advice became! The jew quack, Sigmund Freud, always asked, "What does a woman want?" My wise father would have told him, "Why do you even bother to ask such a question? Don't you know what YOU want?"

I'm not an attorney, but I'd be happy to study your appeal project, with the hope that I can offer useful advice. Re ZOG's orders to exterminate P.O.W.s: I have never seen it in writing, but it sounds like a zogly thing to do. In a real crisis, I'd assume that some prisoners will be "more equal" than others. Since you are under their total control, it would be very easy. ZOG knows! All the best & ORION!
