

24 FEB 06. Dear Michael: Many thanks for your letter of 19 FEB 06 & enclosures! Your 'zoggies' scams remind me of the U.S. Army's penchant for 'losing' medical & service records, so theft of your gulag records would be par for the course. I recall one incident in North Carolina, where the fellow I knew was sentenced to a state work-camp for failure to pay "sufficient alimony" to his divorced wife. He was often laid off from his job as a truck-driver, so he experienced an equally frequent lack of money. For this 'fault' he was sent to the labor camp, where he worked in a logging operation. When he was cinching up a cargo with a logging chain, a link slipped, so his right hand was badly injured. He went to a hospital, & was left with major damage to his hand. This would have entitled him to disability payments under state law, but not for him! All the <sup>P</sup>aperwork had disappeared, so he could not even prove he'd been in state custody, let alone injured on state business! One day you may discover that you were never a guest of Washington State Prisons, but you had had a decades-long 'blackout'. As solipsists like to say: To be is to be perceived, but I say, if you don't perceive the oncoming 18-wheeler, you won't exist. More word games of the sort played by professors, politicians, preachers & other con-artists. Hitler & Orwell both tried to warn Goyim of these tricks, so the jews claim that Hitler "advocated" telling "Big Lies". They can also claim that Orwell "advocated" Newspeak or jewspeak, as P.C. jargon is currently known. By the same token, a jew could claim that a doctor who warns about catching the flu is "advocating" flu-infections.

If only the zoggies would practice what they preach! So it is claimed that racial separation is no way to bring peace. I guess this also applies to two men who are engaged in a fist-fight: just keep them close together so they can reach one another with their fists! Hey, zoggies, why not do this in Israel? every jew should live with Palestinians, & the closer, the better! If togetherness solves all problems, it's time for the advocates to start practicing it themselves, rather than practice it on others. Just recite in Hebrew: "Why can't we all get along?" Mazel tov!

I'll forward copies of your Mail Restriction Appeal to Commissar Schubach to Karl & John, as you advise. Your bureaucratic correspondence is informative & very entertaining. In this indirect manner, we are obtaining some good returns on our tax money, which would otherwise go into ZOG's maw, with nothing in return. You may be assured that we shall enjoy giving your zoggies maximum publicity, so many thanks to you & your cast of kosher characters! If "Seinfeld" resumes, I can recommend them as bumbling extras in at least one episode: a ZOG version of "Hogan's Heroes!" They should start practicing their first line: "I know nothink." You might even thank them for giving you interesting things to do.

Many thanks, also, for your information on prisoner pay & further reductions in quantities of goods you must purchase. Yes, inflation is theft. Deflation is sabotage & usury is slavery. Americans are experiencing certain economic policies, under ZOG, which are right out of The Protocols of Zion, which they will not read, because jews claim it is a "forgery." You are also wise to note the kosher connection in stirring racial strife on behalf of squeezing more prison funding from the fatheads of the land. Good point! I can imagine a kosher kennel owner who would try to do the same by forcing cats & dogs to live in close quarters with one another. Such a deal! Few problems cannot be solved by separation, & many problems are created by the lack thereof. If the ZOG were not hypocritical, it would demand that all prison inmates, i.e. victims of segregation, should be integrated with non-convicts a.s.a.p. How about this slogan: "A Sex Offender on every block!" This is the logical outcome of ZOG's program for us to "experience diversity" or else. Hey, why not use racial strife to hide embezzlement of tax-payers' money? I think that we may see a trend throughout this Zionist Empire, in which all the real criminals are stealing as much as they can, before the USS Titanic is sunk by the enormous burden of their collective criminality. I wonder where they plan to take their stolen zogbucks, before they become worthless, as they are already in fact. Money only has value because of trust, & that is eroding fast. I wonder what the current exchange rate is between Federal Reserve Notes & Confederate dollars &/or Continental Dollars. It's all funny-money, folks. Keep up your great work! The emperor wears no clothes & the ZOG breaks its own rules. That's important for us to know.

I located the 31 DEC 05 letter to D.R. you wanted, so I enclose the first two pages, as you requested. I did not locate the D.R. letter of 22 NOV 05, however. If I do, I shall send you a copy. I am trying to reduce my paper holdings, by mailing everything out, for it does no good to sit on one's message, which should be read by as many others as possible, & as soon as possible! I can speak from experience. Propaganda usually does not improve

2)with age, for time & ZOG wait for no man.

Religious/Racial matters, under ZOG are definitely anti-White. I have long discussed with Wayne the ingredients for a successful religion, as Claude has done, quite well, I think. Religion needs fire. If it is cold or lukewarm, it has no attraction. If we compare National Socialism, which was not, supposedly, a religion to Unitarian Universalism, which purports to be a religion, we can immediately observe which belief system has the necessary moral fervor, & it sure ain't the U.U. bunch. In my opinion, it is this lack of zeal which hampers Cosmotheism. As Claude says, a religion must have a doctrine which inspires zeal in its followers &/or it must have leaders who can inspire that necessary zeal. I have heard various Amways tapes which approach soap-selling with a zeal which can only be described as religious: spirituality in service of materialism, similar to the Soko Gakai of Japan, whose members join in praying for financial success, as the characters in the movie, "Duck, you sucker!" prayed for a successful bank robbery. Some pray for mountains, others for molehills. The bottom line is that Whites deserve the same inclusive & exclusive rights as non-Whites. If Eurasians can exclude others on racial/tribal/national/cultural grounds, then Whites deserve the same rights of free association in their religious services. As Takaki pointed out: The USA is a multinational empire. As such, jews are members of one nation, amongst others, & this fact should be pointed out, also. Let's imagine the Yakama Nation being in charge of U.S. culture & institutions, with the same powers now accorded jews. The Yakamas could do no worse to the majority than the jews have done, & my guess would be that they would do far less damage to majority interests. Why not give the Yakamas a chance? It's time for "affirmative action!" Every<sup>gang</sup> deserves their turn at government, according to ZOG's rules, especially if they are minorities, like Whites!

Thanks for Brush Fires #4, Morrigan's Musings, the great LibRA flier, <sup>to</sup> which I shall give maximum distribution & The Watchman's Teaching Letter, which I shall pass onto Claude, & in exchange for which I send you some of my religious observations on Semitic cults, which you may also review as a W.N. matter of professional courtesy. I shall retain your originals of Brush Fires #4 & LibRA's Voice of the Political Prisoner, while sending you photocopies thereof, for your use. Many thanks! If it's going to be a game of photocopiers versus ZOG mail thieves, I place my bet on the photocopiers. Everytime you find something missing, I shall alert my Internet correspondents, as well as those publishers with whom I correspond. How long can our ZOG get favorable propaganda from finger-pointing at others, while guilty of the same things? After I saw the Guantanamo torture chamber on TV, I asked my hostess if we were now any different than the Gestapo, the KGB, the Mossad et al. She thought torture was kosher, & therefore permissible, if we were the ones who did it. I replied: "That's what the others say about their torture chambers."

As always, I shall enclose the standard items: The Leader's picture; "What's a Nazi?", & The Memorandum, including the DTO4 schedule of Inmates' Religious Preference, plus the officially date-stamped page from White Voice. Many thanks for your offer of postage! It will be much appreciated.

While we engage in these petty games devised by your petty zoglings, I have a strong feeling that great events are taking shape: That FEDZOGUSA's global meddling & murder will backfire here & abroad, with China being the likely winner. North America's majority are already Eurasian, so why not add more & more Asians until they look like real Chinese? Sun Tzu would describe our ZOG as behaving desperately, like "mad bandits!" in his words, who are consequently doomed to failure & extinction: their just deserts. But are their sheeple no less guilty in supporting ZOG's mad bandits as their accomplices? I believe that guilt is proportional, as present laws state, so whatever happens to the majority is also just. Civilians who send their fellow citizens off to war should not be exempt from war's consequences. Those who are bombed at home deserve no better than those who are bombed in the frontlines. Responsibility includes accountability, just as rights involve duties. There is no escape from this reality, nor should there be. Those who live like cattle, die like cattle, mindlessly & heedlessly, but the pain is the same for them, just as it is for those who live & die like men. The only difference is in quality, for those of us who have a choice in the matter. My question to Whites is therefore: Which will it be, folks? Fight on your feet or die on your knees? But if you fight, you may win. If you don't, you won't, & your racial future will die with you, to no purpose. If that is what you want, so be it. I do not love Whites for what they are, but for what they can become. That's why I declare DOWZ! & ORION!
